PART B – SUMMARY OF RISK FACTORS

The purchase of the Notes issued under the Programme is associated with the principal risks summarised below. Investors should take into account their current financial situation and their investment objectives before deciding whether to invest in the Notes. In this context, investors should take into consideration the risks of an investment in the Notes as well as the other information contained in this Prospectus, any supplements and in the applicable Final Terms. Additional specific risks relating to an Underlying of a particular Tranche of Notes issued from time to time under the Programme may be set out in the respective Final Terms, provided that these risks are specific to this Underlying and can only be determined at the time of the individual issue. These risks must therefore always be included in the assessment of risks. Most of the following risks are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

However, if one or more of the risks described below occur, this may result in material and sustained decreases in the price of the Notes or, in the worst case, in a total loss of the capital invested by the Investor.

The order in which the following risks factors are presented is not an indication of the likelihood of their occurrence.

1. Risk Factors relating to the Issuer, the Guarantor and the Trust Structure

- There is a risk that the Issuer may not or only partially be able to fulfil its obligations arising from the Notes.
 - By acquiring Notes from the Issuer, investors are exposed to a considerably higher credit risk compared to an issuer with much greater capital resources.
 - The Issuer is not a member of a deposit guarantee fund or similar assurance system.
 - Investors are also exposed to the insolvency risk of the parties with whom the Issuer concludes derivative transactions to hedge its obligations from the issue of Notes. The Issuer is subject to a cluster risk, i.e. the credit risk ensuing from the limited range of potential contracting parties with whom various hedging transactions can be conducted.
- The main risk factors that may affect Group's ability to fulfil its obligations under the Notes to investors are the following:
 - credit risk: risk of losses arising from the inability of the Group's customers, issuers or other counterparties to meet their financial commitments. Credit risk includes the counterparty risk linked to market transactions, as well as securitisation activities.
 - market risk: risk of loss resulting from changes in the price of market products, volatility and correlations across risks.
 - operational risk: risk of losses or sanctions due to inadequacies or failures in internal procedures or systems, human error or external events.
 - investment portfolio risk: risk of unfavourable changes in the value of the Group's investment portfolio
 - non-compliance risk: risk of legal, administrative or disciplinary sanction, material financial losses or reputational damage arising from failure to comply with the provisions governing the Group's activities;
 - structural interest and exchange rate risk: risk of loss or of write-downs in the Group's assets arising from variations in interest or exchange rates.

- liquidity risk: risk of not being able to meet the Group's requirements for cash or collateral as they arise.
 - strategic risk: risks tied to the choice of a given business strategy or resulting from the Group's inability to execute its strategy.
 - business risk: risk of losses if costs exceed revenues.
 - risks linked to the insurance business: these include premium prices risk, mortality risk and structural risk of life and non-life insurance activities, including pandemics, accidents and catastrophic events (such as earthquakes, windstorms, industrial disasters, or acts of terrorism or war).
 - residual value risk: the net resale value of an asset at the end of the leasing contract being less than estimated.
- Due to the fact that the Issuer issues the Notes on a fiduciary basis on the account of the Guarantor, the holders of the Notes (each a **Noteholder**) directly depend on the credit risk of the Guarantor rather than that of the issuer. Any payment obligations of the Issuer under the Notes are therefore limited to the funds received from the Guarantor under the Trust Agreement.
 - The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Notes are also dependent on the creditworthiness of the Guarantor.
 - As Société Générale as Guarantor is also the provider of hedging instruments to the Issuer, investors will be exposed to operational risks arising from the lack of independence of the Guarantor.
 - The Issuer and the Guarantor and any of their subsidiaries and affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Noteholders.
 - The Issuer and the Guarantor and any of their subsidiaries and affiliates may act in other capacities with regard to the Notes, such as market maker, calculation agent, selling agent, agent and/or index sponsor. Therefore, a potential conflict of interests may arise.
 - In connection with the offering of the Notes, the Issuer, the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to the Reference Asset or related derivatives, which may affect the market price, liquidity or value of the Notes.
 - If investors purchase the Notes, they are relying upon the creditworthiness of the Guarantor and no other person and where the Notes relate to securities, they have no rights against the company that has issued such securities, and where the Notes relate to an index, they have no rights against the sponsor of such index and where the Notes relate to a fund, they have no rights against the manager of such fund. One or more independent credit rating agency(ies) may from time to time have assigned credit ratings to the Guarantor. These ratings may be subject to changes over time and they may not reflect all the factors which are relevant to determine the creditworthiness of the Guarantor. The change for the worse of the credit rating of the Guarantor has a negative effect on the value of the Notes.

2. General, Market and Other Risks

Risk related to Notes generally

- The Notes are neither secured by the Deposit Protection Fund of the Association of German Banks nor by the German Deposit Guarantee and Investor Compensation Act. Furthermore, the Notes are also not covered by the Guarantee of the Federal Government.
- The Notes may not be a suitable investment for all investors. Each prospective Noteholder must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, if its acquisition of the Notes is fully consistent with its financial needs, objectives and conditions, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for him.
- The Terms and Conditions contain provisions in accordance with and subject to the German Bond Act for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. Such resolution might have negative impact on the financial situation of a single Noteholder.
- The Terms and Conditions provide provisions which allow the Issuer to declare a rescission (*Anfechtung*) in the case of obvious, evident or manifest errors included in the Terms and Conditions.
- Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:
 - have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
 - have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
 - have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currency(ies), or where the currency for principal or interest payments is different from the potential investor's currency;
 - understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
 - be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear applicable risks.

Some Notes which are complex financial instruments may be redeemable at an amount below par in which case investors may lose the value of part or their entire investment.

- Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions.

- Neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of withholding tax imposed by the implementation of EU Savings Directive.
- No assurance can be given as to the impact of any possible judicial decision or change to the relevant laws or the official application or interpretation of such laws, or administrative practices after the date of this Base Prospectus..
- Each prospective investor should consult its own advisers as to legal, tax and related aspects about the risks entailed by an investment in the Notes. A Noteholder's effective yield on the Notes may be diminished by the tax on that Noteholder of its investment in the Notes and the actual yield on the Notes may be reduced from the stated yield by transaction costs.
- Attention should be paid to the fact that the performance of the Notes during the lifetime may not represent exactly the performance of the Underlying(s) and may therefore deviate materially from the redemption scenario at maturity.
- Where an issue of Notes references a formula in the applicable Final Terms as the basis upon which the interest payable and/or the amount payable and/or assets deliverable on redemption is calculated potential investors should ensure that they understand the relevant formula and if necessary seek advice from their own financial adviser.
- As a consequence of transaction and other costs, the possible return on the Notes (if any) may be lower than expected. The ancillary costs incurred upon the purchase or sale of the Notes may significantly reduce or even exclude the profit potential of the Notes.
- Inducements may be granted in connection with the placement of the Notes. Therefore, a conflict of interests may arise as the granted inducements may have an impact on the placement activity of the entities that place the Notes.
- The regulations of trading centres may provide so called mistrade rules according to which trading participants may make a mistrade application in order to unwind transactions in traded Notes. This may have adverse economic consequences on the affected investor.
- In special market situations, where the Issuer and/or its affiliates are completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices which may be quoted by the Issuer and/or its affiliates may be temporarily expanded, in order to limit the economic risks to the Issuer.
- The Issuer may rely on information concerning the underlying(s) which are compiled by third parties and the accuracy of which is, in the case of doubt, not subject to the Calculation Agent's verifiability and it cannot be excluded that incorrect or incomplete information from these third parties will be perpetuated in these calculations and determinations of the Calculation Agent.

Risks related to the market generally

- Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.
- Noteholders should be aware of the prevailing and widely reported global credit market conditions (which continue at the date of this Base Prospectus), whereby there is a general lack of liquidity in the secondary market for instruments similar to certain of the Notes which may be issued hereunder and such lack may result in investors suffering losses on the Notes in secondary resales even if there is no decline in the performance of the Notes, any underlying or reference, or the assets of the Issuer and/or the Guarantor. The Issuer cannot predict whether

these circumstances will change and whether, if and when they do change, there will be a more liquid market for the Notes and instruments similar to the Notes at that time.

- Although applications may be made for the Notes issued under the Programme to be listed and admitted to trading on any relevant stock exchange, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop.
- The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit other than the Specified Currency, in particular if exchange rates change significantly.
- Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate.
- Credit ratings of the Notes may not reflect the potential impact of all risks related to structure, market, additional factors, and other factors that may affect the value of the Notes.
- The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities.
- The credit rating of the Guarantor is an assessment of its ability to pay its obligations, including those in connection with the Notes. Consequently, actual or anticipated declines in the credit ratings of the Guarantor may affect the market value of the relevant Notes.
- The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France and elsewhere, and the price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.
- The development of market prices of the Notes depends on various factors, such as creditworthiness of the Issuer respectively the Guarantor, changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates, deflation rates or the lack of or excess demand for the relevant type of the Note.
- Prospective investors in the Notes should be aware that the purchase price of a Note does not necessarily reflect its fair (mathematical) value.
- The prices provided by a market maker may deviate materially from the fair (mathematical) value respectively from the expected economic value of the Notes based on the above mentioned factors at the relevant time.
- Financial markets crises (e.g. US-subprime crises), in particular such which have negative effects beyond their origin and globally affect various market participants and sub market segments in different ways may have a significant influence on the Issuer's and/or Guarantor's and/or the Group's business activities and their assets and liabilities, financial position and profits and losses. The same applies with regard to the amounts to be paid under and the market value of the Notes.

3. Risks related to the structure of a particular issue of Notes

- In the case of Open End Notes, the duration of the Notes is dependent on an optional redemption, if any, elected by the Issuer. If there is no secondary market, there might be no possibility for the investors to sell the Notes.

- The possibility of an optional redemption by the Issuer is likely to limit the market value of the Notes. Furthermore regarding the possibility of an optional redemption by the Issuer potential investors should consider reinvestment risk in light of other investments available at that time.
- The Notes may provide for an automatic early redemption linked to a specific event. Therefore, the Noteholder will not participate in any future performance of the underlying.
- Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on Structured Notes are calculated by reference to certain underlyings, the return of the Notes is based on changes in the value of the underlying, which may fluctuate. Potential investors should be aware that these Notes may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal. A holder of Dual Currency Notes is exposed to the risk of changes in currency exchange rates which, if such changes result in losses, may affect the yield of the Notes.
- Failure to pay any subsequent part payments in respect of partly-paid Notes could result in an investor losing some or all of his investment.
- Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.
- Notes with variable interest rates can be volatile investments. This volatility may be further enhanced if they are structured to include multipliers or other leverage factors.
- Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.
- Structured Notes where the performance of an underlying is multiplied by a certain factor to determine the amounts payable by the Issuer are subject to increased volatility and risks including a total loss of the invested capital.
- Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par.
- Capital protected notes do not necessarily lead to a protection of the invested capital at any given time during the life of the Notes and an inability of the Issuer and/or the Guarantor to meet their obligations may cause a total loss of the capital invested by the investor.
- The interest rate or redemption amount of certain Notes may be linked to the occurrence or non-occurrence of certain events which are not connected with the Issuer or the Guarantor, such as credit, price levels, weather or sports events, the occurrence of which is beyond the control of the Issuer and the Guarantor and Noteholders are exposed to the risk of such event occurring or not, as the case may be.
- In the event of the Notes providing for a delivery of any underlying asset upon redemption investors shall be required to make certain notifications and take other actions (e. g. to opt for physical delivery and giving an irrevocable notice). The delivery of such underlying asset will be subject to all applicable laws, regulations and practices and the Issuer shall not incur any liability whatsoever if it is unable to deliver or procure the delivery of such underlying to the relevant holder of the Notes because of any such laws, regulations or practices. Each holder of a Note should be aware that if the Notes may be redeemed by physical delivery of the underlying, it shall be deemed to acknowledge its understanding and acceptance of this matter and to have made its own examination and assessment of its capacity and power to receive such underlying and not to have relied on any representation of the Issuer, the Paying Agents, Société Générale as Guarantor or as Calculation Agent under the Notes, or Société Générale's affiliates regarding this matter.

- The redemption of a Note, interest payments or the physical delivery under a Note may be subject to the occurrence of a Knock-In Event or a Knock-Out Event.
- The Terms and Conditions may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Notes may be incurred or certain modifications be made to their terms. Furthermore, an early termination of the Notes by the Issuer may occur upon the occurrence of certain events.
- The Issuer and/or any of its affiliates may carry out activities that for risk reduction and/or hedging purposes or otherwise which might be deemed adverse to the interests of the Noteholders.

Risk factors relating to Fund Linked Notes

- The offering of the Notes does not constitute a recommendation by the Issuer or Société Générale and/or any of its affiliates with respect to an investment linked to such underlying funds.
- Funds` performances (especially hedge funds) may be highly volatile. The performance of the fund units over a given period will not necessarily be indicative of future performances.
- Market volatility may produce significant losses on the fund units.
- The use of leverage may increase the risk of loss in the value of the fund units.
- In addition to fixed management fees, performance fees are common to hedge funds and such fees may create an incentive to make investments that are riskier or more speculative than would be the case in the absence of such fees.
- Fund managers do not have any obligations vis-a-vis the Noteholders and do not consider their interests.
- The underlying funds may invest in assets that involve further risks and such risks may not be fully disclosed at the time of investment by the Issuer.
- Fees and other expenses that apply regardless of the performance of the funds will reduce the value of the fund units and accordingly the final redemption amount payable to the Noteholders.
- The illiquidity of the underlying fund's investments may cause the payment of the Final or Early Redemption Amount and/or any Intermediary Amount to be reduced or delayed.
- If the underlying funds invest(s) through a master-feeder structure, the latter may have an adverse effect on the underlying funds and, therefore, the Notes. Master-feeder structure means a mutual fund or other fund that invests exclusively in another fund ; shares of the feeder fund represent shares in the second fund (called a master fund), which, in turn, represent shares in the underlying securities.
- The Issuer, in order to hedge its obligations under the Notes, may enter into a hedging transaction and as a result of hedging decisions by the hedging counterparty, transfers into or out of the fund by the hedging counterparty may affect the value of the fund units and, in turn, the payments under the Notes.
- Legal, tax and regulatory changes could occur during the term of the Notes that may adversely affect the underlying fund(s). The regulatory environment for hedge funds is evolving, and changes in the regulation of hedge funds may adversely affect the value of investments held by the underlying fund(s).

Risk factors relating to Structured Notes

- Where payments on Structured Notes are calculated by reference to an index, or a basket of indices or a share or a basket of shares, the creditworthiness of any reference entity or reference obligation or a basket of reference entities or reference obligations, a commodity or a basket of commodities (or futures contracts on the same), the return of the Notes is based on changes in the value of the Reference Asset, which fluctuates and cannot be predicted. The historical performance of the Reference Asset should not be taken as an indication of future performance.
- The effective yield to maturity of the Notes may be less than that which would be payable on a conventional fixed rate or floating rate debt security.
- The Calculation Agent may, in certain circumstances, proceed to adjustments or substitutions, or even decide the early redemption of the Notes, in particular upon the occurrence of events affecting the underlying instrument(s). In the absence of manifest or proven error, these adjustments, substitutions or early redemption decisions will be binding upon the Issuer, the Guarantor, the Agent and the Noteholders. The Issuer may also have a discretionary right to redeem the Notes early. In all such cases, the early redemption of the Notes may result in the total or partial loss of the amount invested.

Risk factors relating to Structured Notes based on indices

- The payment of income (such as dividends for an index that has stocks as underlyings) may not be reflected as the index may be calculated by reference to the prices of underlyings comprising the index without taking into consideration the value of any income paid on those underlying assets.
- The policies applied by the sponsor of an index concerning the composition and calculation of the index assets may affect the value of the index. In addition, indices may be subject to fees as well as charges which can reduce the Final Redemption Amount payable to the Noteholders.
- The composition of, and the methodologies used in connection with, certain indices to which Notes are linked may be determined and selected by Société Générale or one of its affiliates. In selecting such methodologies, Société Générale or the relevant affiliate of Société Générale, can be expected to have regard to its own objectives and interests and/or those of the Group and there is no guarantee that the methodologies selected will not be less favourable to the interests of investors than methodologies used by other index sponsors in comparable circumstances.
- If the hedging activities of Société Générale or one of its affiliates in connection with a particular index are disrupted, Société Générale or the relevant affiliate may decide to terminate calculations in relation to such index sooner than another index sponsor would do so in comparable circumstances. Such a termination may trigger the early redemption of the Notes.

Risk factors relating to Structured Notes based on baskets

- In the case of a Note which refers to many underlyings (e.g. Notes based on a basket of a selection of shares) the risk may be exponentiated or accumulated in comparison to a single underlying as every component of these underlyings might be decisive for the performance of the Note.

Risk factors relating to Structured Notes based on life insurance contracts

- The performance of life insurance contracts is subject to a multitude of factors on which the Issuer has no influence. The value of the insurance contract is subject to information given by the insured parties and the actions taken by the relevant insurance company.

Risk factors relating to Structured Notes based on dividends

- The Final Redemption Amount of such Notes may not reflect the payment of the dividends on a one to one basis and therefore may not reflect the return of a direct investment in the relevant shares or other securities.

Risk factors relating to Structured Notes based on unit linked features (accounting unit)

- The performance of unit linked features is subject to a multitude of factors on which the Issuer has no influence and it should be noted that the past returns of unit linked feature(s) are not necessarily indicative of their future performance.

Risk factors relating to Equity Linked Notes based on shares

- A Noteholder will not be a beneficial owner of the underlying shares and therefore will not be entitled like such beneficial owner and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying shares.
- The Calculation Agent may make adjustments to elements of the Notes. The Calculation Agent is not required to make an adjustment for every corporate event that may affect the underlying shares.
- The issuers of underlying shares have no obligation to consider the interests of any Noteholder and may take actions that will adversely affect the value of the Notes.

Risk factors relating to Commodity Linked Notes

- Commodity Linked Notes may be redeemed by the Issuer at their par value and/or by payment of an amount determined by reference to the value of the underlying asset(s). Accordingly, an investment in Commodity Linked Notes may bear similar market risks to a direct investment in the relevant commodities and investors should take advice accordingly.
- Due to the term structure of future prices of commodities, also included in a Commodity Future Index, the price of the Notes might be influenced in a positive or negative way for the Noteholders, depending on any difference between the price of the Future on Commodities to be substituted and the price of Future on Commodities following such substitution.

Risk factors relating to Credit Linked Notes

- In the event of the occurrence of certain circumstances in relation to a Reference Entity the obligation of the Issuer to pay principal at maturity may be replaced by (i) an obligation to pay other amounts which are equal to either certain fixed amount(s) or amounts calculated by reference to the value of the underlying asset(s) (which may, in each case, be less than the par value of the Notes at the relevant time) and/or (ii) an obligation to deliver the underlying asset(s). In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances. Accordingly, Noteholders may be exposed to fluctuations in the creditworthiness of the Reference Entities to the full extent of their investment in the Credit Linked Notes.
- Under the terms of the Notes, where Société Générale acts as Calculation Agent, it may, for the purposes of determining the Cash Settlement Amount or the Physical Delivery Amount following one or more Credit Event(s), select obligations with the lowest price of any obligations which meet the relevant criteria.
- If Transaction Auction Settlement Terms are not published within a certain period and if it is not possible to obtain quotations from Quotation Dealers for the Selected Obligations within a further period, the Final Value of the Selected Obligations will be deemed to be zero and

therefore the Cash Settlement Amount will be equal to zero. This would lead to a total loss for the investor.

Risk factors relating to Currency Linked Notes

- The performance of currencies is subject to a multitude of factors such as economic factors, speculations and potential interventions by central banks and government agencies (including exchange controls and restrictions).

Risk factors relating to Bond Linked Notes

- The market value of bonds is influenced in addition to other factors by the creditworthiness of the issuer of the relevant bond, by the general interest level, the remaining term until maturity as well as by the liquidity of the market. These factors may have a negative impact on the value of the Bond Linked Notes.

Risks factors specific to Italian Listed Certificates

- Certificates may embed an option and, therefore, have some features common to options. Transactions involving options imply high risks and it is advisable that investors who intend to trade in options have a certain degree of experience and knowledge of the functioning of options.
- The investment in options is characterised by a high degree of volatility and it is possible that the investor will lose the amount invested to purchase the option.
- Since the value of the options is intertwined with the underlying asset its performance depends on the value of the latter.

PART C – SUMMARY OF THE OFFERING OF THE NOTES

The maximum aggregate principal amount of the Notes outstanding under the Programme is limited up to € 30,000,000,000. has power to tax. If such withholding or deduction is required by law, the Issuer or the Guarantor (as the case may be) will – subject to the exemptions set out in the Terms and Conditions – pay such additional amounts as a Noteholder would have received if no such withholding or deduction had been required.

The Issuer does not assume liability for the deduction of these taxes at the source.

Negative Pledge

The terms of the Notes will contain a negative pledge provision which, so long as any such Notes or any receipts or coupons relating thereto, remain outstanding, prohibit the Guarantor from, among other things, creating or maintaining any security interest or other encumbrance on its assets or debt securities, unless such Notes and any relevant receipts or coupons are secured equally and rateably therewith.

Status of the Notes

The Notes constitute direct, unconditional and unsecured and unsubordinated limited recourse obligations of the Issuer and will rank *pari passu* without any preference among themselves and (save for certain obligations required to be preferred by law) *pari passu* with all other direct, unconditional, unsecured and unsubordinated limited recourse obligations of the Issuer.

The Issuer, the Guarantor and the relevant Dealer will agree on the terms and conditions applicable to each particular Tranche of Notes and/or Italian Certificates. The terms and conditions of the Notes and/or Italian Certificates will be constituted by the "Terms and Conditions" which comprise the "Basic Terms" and the "Technical Annex", as completed by the provisions of the applicable Final Terms. If the relevant applicable Final Terms specify that consolidated Terms and Conditions shall apply to the Notes, such consolidated Terms and Conditions will be attached to the relevant applicable Final Terms.

Governing Law

PART B – ZUSAMMENFASSUNG DER RISIKOFAKTOREN

Der Erwerb von Schuldverschreibungen, die im Rahmen dieses Programms begeben werden, ist mit den nachfolgend dargestellten wesentlichen Risiken verbunden. Anleger sollten ihre gegenwärtige finanzielle Situation und ihr Anlageziel überprüfen, bevor sie sich für eine Anlage in die Schuldverschreibungen entscheiden. In diesem Zusammenhang sollten Anleger die Risiken sowie die sonstigen im Prospekt, in möglichen Nachträgen und in den maßgeblichen Endgültigen Bedingungen enthaltenen Informationen berücksichtigen. Zusätzliche besondere Risiken in Bezug auf einen Basiswert einer bestimmten Tranche von Schuldverschreibungen, die von Zeit zu Zeit unter diesem Programm begeben werden, können in den jeweiligen Endgültigen Bedingungen enthalten sein, vorausgesetzt dass diese Risiken für diesen Basiswert spezifisch sind und erst zum Zeitpunkt der jeweiligen Emission bestimmt werden können. Diese Risiken müssen bei der Risikoabwägung stets mit einbezogen werden. Viele der nachfolgend dargestellten Risiken stellen lediglich Eventualitäten dar, die eintreten können, aber auch nicht eintreten können. Weder die Emittentin noch die Garantin sind in der Lage, die Wahrscheinlichkeit eines Eintritts vorauszusagen.

Das Eintreten eines oder mehrerer der unten beschriebenen Risiken kann zu einem erheblichen und nachhaltigen Verlust des Wertes der Schuldverschreibungen führen - bis hin zu einem Totalverlust des angelegten Kapitals.

Die Reihenfolge, in der die folgenden Risiken dargestellt werden, ist kein Indikator ihrer Eintrittswahrscheinlichkeit.

1. Mit der Emittentin, der Garantin und der Treuhandkonstruktion verbundene Risiken

- Es besteht das Risiko, dass die Emittentin ihre Verpflichtungen aus den Schuldverschreibungen nicht oder nur teilweise erfüllen kann.
 - Durch den Kauf von Schuldverschreibungen von der Emittentin sind die Anleger im Vergleich zu einem Emittenten mit bedeutend mehr Eigenkapital einem deutlich höheren Kreditrisiko ausgesetzt.
 - Die Emittentin ist nicht Mitglied eines Einlagensicherungsfonds oder eines ähnlichen Sicherungssystems.
 - Anleger sind auch dem Risiko der Insolvenz der Parteien ausgesetzt, mit denen die Emittentin derivative Transaktionen abschließt, um ihre Verpflichtungen unter den Schuldverschreibungen abzusichern. Die Emittentin unterliegt einem Klumpenrisiko, d.h. dem Kreditrisiko basierend auf der begrenzten Anzahl von potentiellen Vertragsparteien, mit denen die unterschiedlichen Absicherungsgeschäfte durchgeführt werden können.
- Die wesentlichen Risikofaktoren, welche die Fähigkeit des Konzerns beeinträchtigen können, seinen Verpflichtungen aus den Schuldverschreibungen gegenüber den Anlegern nachzukommen sind die Folgenden:
 - Kreditrisiko: Verlustrisiko, das sich aus dem Unvermögen der Kunden der Gruppe, Emittenten oder anderer Vertragspartner, ihren finanziellen Verbindlichkeiten nachzukommen, ergibt. Kreditrisiko beinhaltet das Adressenausfallrisiko im Zusammenhang mit Börsengeschäften sowie aus Verbriefungsgeschäften.
 - Marktrisiko: Verlustrisiko resultierend aus Preisänderungen der Marktprodukte, der Volatilität und risikoübergreifender Wechselwirkungen.
 - Operationelle Risiken: Verlustrisiko oder Risiko von Sanktionen verursacht durch ungeeignete oder fehlerhafte interne Verfahrensweisen oder Systeme, menschliches Versagen oder externe Ereignisse.
 - Investment Portfolio Risiko: Risiko nachteiliger Veränderungen in dem Wert des Investmentportfolios der Gruppe.
 - Risiko infolge mangelnder Compliance: Risiko von rechtlichen, administrativen oder disziplinarischen Sanktionen, wesentlicher finanzieller Verluste oder Rufschädigungen, die aufgrund des Nichteinhaltens der Bestimmungen, welche die Aktivitäten der Gruppe regulieren, entstehen.
 - Strukturelles Zins- und Währungsrisiko: Verlust- oder Abschreibungsrisiko in den Aktivposten der Gruppe, welche von Schwankungen der Zins- oder Wechselkurse stammen.
 - Liquiditätsrisiko: Risiko, dass die Anforderungen der Gruppe für Bargeld oder Sicherheiten nicht eingehalten werden können, wenn diese auftreten.
 - Strategisches Risiko: Risiken, welche gebunden an die Wahl einer Business Strategie oder aus dem Unvermögen der Gruppe ihre Strategie umzusetzen, resultieren.
 - Geschäftsrisiko: Verlustrisiko, wenn die Kosten die Einnahmen überschreiten.
 - Risiken in Verbindung mit dem Versicherungsgeschäft: diese beinhalten ein Preisprämienrisiko, ein Mortalitätsrisiko und ein strukturelles Risiko der Lebens- und Nicht-Lebensversicherungsgeschäfte, inklusive Pandemien, Unfälle und Katastrophen-

ereignisse (wie z.B. Erdbeben, Windstürme, industrielle Unglücksfälle sowie Terrorakte oder Kriegsakte).

- Veräußerungswertisiko: der Nettowiederverkaufswert eines Vermögensgegenstands am Ende des Leasingvertrags ist geringer als erwartet.
- Da die Emittentin die Schuldverschreibungen treuhänderisch auf Rechnung der Garantin begibt, sind die Inhaber der Schuldverschreibungen (jeder ein „**Schuldverschreibungsinhaber**“) unmittelbar abhängig vom Kreditrisiko der Garantin, und nicht vom Kreditrisiko der Emittentin. Jede Zahlungsverpflichtung der Emittentin unter diesen Schuldverschreibungen ist begrenzt auf die finanziellen Mittel, die von der Garantin aufgrund des Treuhandvertrags gewährt werden.
- Die Garantie begründet eine generelle ungesicherte vertragliche Verpflichtung der Garantin und keiner anderen Person; Zahlungen auf die Schuldverschreibungen sind von der Bonität der Garantin abhängig.
- Da die Société Générale neben ihrer Funktion als Garantin der Emittentin gleichzeitig auch Hedging Instrumente zur Verfügung stellt, sind die Anleger dem operativen Risiko ausgesetzt, das sich aus der fehlenden Unabhängigkeit der Garantin ergibt.
- Die Emittentin und die Garantin und jede ihrer Tochtergesellschaften und verbundenen Unternehmen können im Zusammenhang mit anderen Geschäftsaktivitäten über wesentliche Informationen über einen Basiswert verfügen oder diese erhalten. Derartige Geschäftsaktivitäten und Informationen können nachteilige Konsequenzen für den Schuldverschreibungsinhaber zur Folge haben.
- Die Emittentin und die Garantin und jede ihrer Tochtergesellschaften und verbundenen Unternehmen können bezüglich der Schuldverschreibungen andere Funktionen wahrnehmen, z.B. als Market Maker, Berechnungsstelle, Verkaufsstelle, Agent und/oder Indexsponsor. Hierdurch kann ein potentieller Interessenkonflikt entstehen.
- Im Zusammenhang mit dem Angebot der Schuldverschreibungen können die Emittentin, die Garantin und ihre verbundenen Unternehmen Hedging-Transaktionen in Bezug auf einen Basiswert oder zugehörige Derivate eingehen, welche den Marktpreis, die Liquidität oder den Wert der Schuldverschreibungen beeinträchtigen können.
- Wenn Anleger Schuldverschreibungen erwerben, vertrauen sie ausschließlich auf die Kreditwürdigkeit der Garantin und nicht auf die Kreditwürdigkeit einer anderen Person, und in den Fällen, in denen sich die Schuldverschreibungen auf Wertpapiere beziehen, stehen den Anlegern gegenüber dem Unternehmen, das die Wertpapiere begeben hat, keine Rechte zu und in Fällen, in denen sich die Schuldverschreibungen auf einen Index beziehen, haben sie keine Rechte gegenüber dem Sponsor dieses Index und in den Fällen, in denen sich die Schuldverschreibungen auf einen Fond beziehen, stehen ihnen keine Rechte gegenüber dem Manager dieses Fonds zu. Eine oder mehrere unabhängige Ratingagentur(en) für die Bewertung der Bonität können von Zeit zu Zeit der Garantin Bönitätseinstufungen zugewiesen haben. Diese Einstufungen können im Laufe der Zeit Änderungen unterworfen sein und diese müssen nicht alle Faktoren widerspiegeln, die erforderlich sind, um die Kreditwürdigkeit der Garantin zu bestimmen. Eine Verschlechterung der Bonitätseinstufung der Garantin hat eine negative Wirkung auf den Wert der Schuldverschreibungen.

2. Allgemeine, Marktbezogene und andere Risiken

Allgemeine, mit den Schuldverschreibungen verbundene Risiken

- Die Schuldverschreibungen sind weder gesichert durch den Einlagensicherungsfonds des Bundesverbandes Deutscher Banken, noch vom Einlagensicherungs- und Anlegerentschädigungsgesetz. Außerdem sind sie nicht von der Garantieerklärung der Bundesregierung erfasst.

- Die Schuldverschreibungen mögen nicht für alle Anleger geeignet sein. Jeder zukünftige Schuldverschreibungsinhaber muss auf der Grundlage seiner eigenen unabhängigen Beurteilungen und, soweit er es unter Berücksichtigung der Sachlage für erforderlich hält, unter Hinzuziehung professioneller Beratung, darüber entscheiden, ob der Kauf der Schuldverschreibungen in voller Übereinstimmung mit seinen finanziellen Bedürfnissen, Zielen und Bedingungen und mit allen anwendbaren Anlagegrundsätzen, Richtlinien und Beschränkungen steht und für ihn eine geeignete, sachgerechte und angemessene Anlage darstellt.
- Die Schuldverschreibungsbedingungen enthalten Regelungen in Übereinstimmung mit und bezugnehmend auf das Schuldverschreibungsgesetz zur Einberufung von Gläubigerversammlungen, um Angelegenheiten zu regeln, die ihre Interessen grundsätzlich berühren. Diese Regelungen erlauben es einer definierten Mehrheit, alle Schuldverschreibungsinhaber zu binden, einschließlich der Schuldverschreibungsinhaber, die an der Versammlung nicht teilnehmen und abstimmen und der Schuldverschreibungsinhaber, die entgegengesetzt stimmen. Ein entsprechender Beschluss kann einen negativen Einfluss auf die finanzielle Situation eines einzelnen Schuldverschreibungsinhabers haben.
- Die Bedingungen der Schuldverschreibungen beinhalten Regelungen, welche der Emittentin im Falle von offensichtlichen, evidenten oder augenscheinlichen Fehlern in den Bedingungen der Schuldverschreibungen die Erklärung einer Anfechtung erlauben.
- Jeder potenzielle Anleger in Schuldverschreibungen muss anhand seiner eigenen Umstände die Eignung des Investments beurteilen. Im Besonderen sollte jeder Anleger:
 - ausreichende Kenntnis und Erfahrung haben, um eine aussagekräftige Beurteilung der Schuldverschreibungen, der Leistungen und Risiken bei der Investition in die Schuldverschreibungen und der Informationen, die in diesem Basisprospekt oder jeglichen anwendbaren Nachtrags enthalten oder per Verweis einbezogenen sind, vorzunehmen,
 - Zugang zu und Kenntnisse über die angemessenen analytischen Hilfsmittel haben, um im Zusammenhang mit seiner jeweiligen finanziellen Situation, eine Investition in die Schuldverschreibungen beurteilen zu können und zu beurteilen, welche Auswirkung die Schuldverschreibungen auf sein gesamtes Investmentportfolio hat,
 - über ausreichende finanzielle Mittel und Liquidität verfügen, um alle Risiken einer Investition in die Schuldverschreibungen zu tragen, inklusive der Schuldverschreibungen mit Kapitalbetrag oder Zinsen auszahlbar in einer oder mehrerer Währung(en) oder bei denen die Währung des Kapitalbetrags oder der Zinszahlungen von der Währung des potenziellen Investors abweicht,
 - die Bedingungen der Schuldverschreibungen vollständig verstehen und mit der Entwicklung jeder maßgeblichen Indizes und der Finanzmärkte vertraut sein und
 - im Stande sein (entweder allein oder mit der Hilfe eines Finanzberaters) die möglichen Szenarien für die wirtschaftlichen Faktoren, die Zinssätze und anderen Faktoren, welche seine Investition beeinflussen können sowie seine Fähigkeit die maßgeblichen Risiken zu tragen, beurteilen zu können.
- Einige Schuldverschreibungen, bei denen es sich um komplexe Finanzinstrumente handelt, können zudem zu einem Betrag unter Par getilgt werden, wobei der Anleger einen Teil oder sein gesamtes Investment verlieren kann.
- Potenziellen Käufern und Verkäufern der Schuldverschreibungen sollte bewusst sein, dass sie verpflichtet sein können, Steuern, andere Dokumentgebühren oder Abgaben in Übereinstimmung mit den Gesetzen und Verfahren des Staates, wohin die Schuldverschreibungen übertragen werden, oder anderen Rechtskreisen zu zahlen.

- Weder die Emittentin noch die Zahlstelle noch eine andere Person ist verpflichtet, als Ergebnis der Erhebung von Quellensteuer, die durch die Umsetzung der EU Zinsbesteuerungsrichtlinie eingeführt wurde, zusätzliche Beträge hinsichtlich einer Schuldverschreibung zu zahlen.
- Es kann keine Zusicherung hinsichtlich der Auswirkungen einer möglichen gerichtlichen Entscheidung oder einer Änderung der maßgeblichen Gesetze, der offiziellen Anwendung oder Auslegung dieser Gesetze oder der Verwaltungspraktiken gegeben werden, die nach dem Datum dieses Basisprospekts Anwendung finden.
- Jeder potenzielle Anleger sollte bezogen auf gesetzliche, steuerliche und verwandte Aspekte bezüglich der Risiken, die sich aus einer Investition in die Schuldverschreibungen ergeben seinen eigenen Berater konsultieren. Die effektive Rendite des Anlegers kann aufgrund des Steuersatzes, der auf den Anleger Anwendung findet, abnehmen und die tatsächliche Rendite der Schuldverschreibungen kann sich durch Transaktionskosten gegenüber der angegebenen Rendite reduzieren.
- Es ist grundsätzlich zu beachten, dass die Wertentwicklung der Schuldverschreibungen während der Laufzeit nicht exakt die Wertentwicklung des Basiswerts (der Basiswerte) abbildet und von daher erheblich vom Auszahlungsprofil bei Fälligkeit abweichen kann.
- Wo eine Emission von Schuldverschreibungen Bezug nimmt auf eine Formel in den anwendbaren Endgültigen Angebotsbedingungen auf Basis welcher die zahlbaren Zinsen und/oder der zahlbare Betrag und/oder die lieferbaren Vermögenswerte bei Rückzahlung berechnet werden, sollten potentielle Anleger sichergehen, dass sie die relevante Formel verstehen und, falls notwendig, von ihrem eigenem Finanzberater Rat einholen.
- Aufgrund von Transaktions- und anderen Kosten, kann ein möglicher Gewinn aus den Schuldverschreibungen geringer ausfallen als erwartet. Zusätzliche Kosten beim Kauf- und Verkauf der Schuldverschreibungen können das Gewinnpotential wesentlich verringern oder sogar ausschließen.
- Im Zusammenhang mit der Platzierung der Schuldverschreibungen können Zuwendungen gewährt werden. Hierdurch kann es zu einem Interessenkonflikt kommen, da die gewährten Zuwendungen einen Einfluss auf das Platzierungsgeschäft der Einheiten, die die Schuldverschreibungen platzieren, haben können.
- Die Regelwerke von Handelsplätzen sehen unter Umständen so genannte Mistrade-Regeln vor, nach denen ein Handelsteilnehmer einen Mistrade-Antrag stellen kann, um Geschäfte in einer gehandelten Schuldverschreibung aufzuheben. Dies kann unter Umständen nachteilige wirtschaftliche Folgen für den betroffenen Anleger haben.
- In speziellen Marktsituationen, bei denen die Emittentin und/oder mit ihr verbundene Unternehmen komplett nicht in der Lage sind, Hedgingtransaktionen abzuschließen, oder falls solche Transaktionen sehr schwierig abzuschließen sind, kann die Kursspanne zwischen Geld- und Briefkurs, der von der Emittentin oder einem mit ihr verbundenen Unternehmen gestellt werden kann, zeitweise ausgeweitet werden, um die wirtschaftlichen Risiken der Emittentin zu begrenzen.
- Die Emittentin kann sich unter Umständen auf Informationen betreffend den Basiswert bzw. die Basiswerte verlassen, welche von dritten Personen erstellt werden und deren Richtigkeit im Zweifel einer Nachprüfbarkeit durch die Berechnungsstelle entzogen ist und es kann nicht ausgeschlossen werden, dass sich fehlerhafte und unvollständige Angaben dieser dritten Personen in den Berechnungen und Festlegungen der Berechnungsstelle fortsetzen.

Allgemeine Marktrisiken

- Für die Schuldverschreibungen besteht möglicherweise im Zeitpunkt ihrer Ausgabe kein Markt, und ein solcher Markt oder Handel entwickelt sich möglicherweise niemals. Wenn sich ein

solcher Markt entwickelt, ist er möglicherweise nicht sehr liquide. Daher sind Anleger möglicherweise nicht in der Lage, ihre Schuldverschreibungen ohne weiteres zu verkaufen oder zu Preisen zu verkaufen, durch die sie eine Rendite erzielen, die mit Wertpapieren vergleichbar ist, für die ein entwickelter Sekundärmarkt besteht.

- Anleger sollten Kenntnis über die vorherrschenden und verbreitet berichteten globalen Kreditmarktbedingungen (welche zum Zeitpunkt des Basisprospekts fortbestehen) haben, wobei ein allgemeiner Mangel an Liquidität im Sekundärmarkt für Instrumente, ähnlich zu einigen Schuldverschreibungen, die hierunter emittiert werden dürfen, besteht und dieser Mangel kann bei einem Anleger beim Weiterverkauf im Sekundärmarkt zu Verlusten führen, selbst wenn die Performance der Schuldverschreibung, des Basiswerts oder Referenz bzw. der Aktiva der Emittentin oder der Garantin nicht sinken. Die Emittentin kann nicht vorhersehen, wie sich die Umstände verändern werden und falls sie sich ändern, ob es dann für die Schuldverschreibungen bzw. diesen ähnelnden Instrumenten einen liquideren Markt geben wird.
- Obwohl für die unter diesem Programm begebenen Schuldverschreibungen Anträge zum Listing und zur Zulassung zum Handel an einer maßgeblichen Börse vorgenommen werden können, besteht keine Zusicherung, dass dieser Antrag anerkannt, eine bestimmte Tranche der Schuldverschreibungen zugelassen oder sich ein aktiver Handelsmarkt entwickeln wird.
- Die Emittentin wird das Kapital und Zinsen auf die Schuldverschreibungen in der jeweils festgelegten Währung zahlen. Hieraus ergeben sich Risiken im Hinblick auf die Währungsumrechnung, wenn die finanziellen Aktivitäten eines Anlegers im Wesentlichen auf eine Währung oder Währungseinheit gerichtet sind, die nicht die jeweils festgelegte Währung der Schuldverschreibungen ist. Dies gilt insbesondere im Falle einer erheblichen Veränderung der Wechselkurse.
- Regierungen und Währungsbehörden können (wie es einige in der Vergangenheit gemacht haben) Währungskontrollen auferlegen, die einen anwendbaren Währungskurs negativ beeinflussen können.
- Credit Ratings der Schuldverschreibungen geben unter Umständen nicht die potentielle Auswirkung aller Risiken hinsichtlich Struktur, Markt, oben angegebener zusätzlicher Faktoren und anderen Faktoren, die den Wert der Schuldverschreibungen beeinflussen können, wieder.
- Die Anlageaktivitäten bestimmter Investoren unterliegen gesetzlichen Anlagebestimmungen und Verordnungen oder der Prüfung oder Aufsicht bestimmter Behörden.
- Die Bonitätseinstufung (Credit Rating) der Garantin ist eine Einschätzung dahingehend, ob sie in der Lage ist bzw. sein wird, ihre finanziellen Verpflichtungen zu erfüllen, einschließlich derjenigen in Verbindung mit den Schuldverschreibungen. Dementsprechend beeinflusst die tatsächliche oder zu erwartende Herabstufung des Credit Ratings der Garantin möglicherweise den Kurs der jeweiligen Schuldverschreibungen.
- Der Wert der Schuldverschreibungen ist von einer Anzahl zusammenhängender Faktoren abhängig, inklusive der ökonomischen, finanziellen und politischen Ereignisse in Frankreich und anderswo, sowie vom Preis, zu welchem der Anleger die Schuldverschreibungen vor Fälligkeit mit einem Abschlag verkaufen kann. Der Abschlag kann erheblich sein im Vergleich zum Ausgabepreis oder zum Ankaufpreis, der von diesem Anleger bezahlt worden ist.
- Die Entwicklung der Marktpreise der Schuldverschreibungen hängt von einer Vielzahl von Faktoren ab, wie z.B. die Kreditwürdigkeit der Emittentin bzw. der Garantin, die Veränderung des Marktniveaus von Zinssätzen, der Politik der Zentralbanken, allgemeinen wirtschaftlichen Entwicklungen, Inflationsraten, Deflationsraten, dem Mangel oder Überangebot an Nachfrage für die maßgebliche Art der Schuldverschreibung.

- Angehende Investoren dieser Schuldverschreibungen sollten wissen, dass der Anschaffungspreis einer Schuldverschreibung nicht zwangsläufig ihren fairen (mathematischen) Wert reflektiert.
- Die Preise, angeboten von einem Market Maker, können materiell von dem fairen (mathematischen) Marktwert bzw. von dem erwarteten wirtschaftlichen Wert der Schuldverschreibungen abweichen, basierend auf den oben genannten Faktoren zu der maßgeblichen Zeit.
- Finanzmarktkrisen (z.B. US-Subprime Krise), insbesondere solche, die über ihren „Ursprung“ hinaus negative Wirkungen entfalten und verschiedene Marktteilnehmer und Teilmärkte global in unterschiedlicher Weise beeinflussen, könnten einen wesentlichen Einfluss auf die Geschäftstätigkeit sowie die Vermögens-, Finanz- und Ertragslage der Emittentin und/oder der Garantin und/oder des Konzerns haben. Das gleiche gilt für die auf die Schuldverschreibungen zu zahlenden Beträge und den Marktwert der Instrumente.

3. Risiken hinsichtlich der Struktur einer einzelnen Emission von Schuldverschreibungen

- Bei Schuldverschreibungen ohne feste Laufzeit ist die Laufzeit der Schuldverschreibungen von der durch die Emittentin gewählten optionalen Einlösung (sofern eine solche überhaupt erfolgt) abhängig. Falls es keinen Sekundärmarkt gibt, kann die Möglichkeit bestehen, dass der Anleger seine Schuldverschreibungen nicht wieder veräußern kann.
- Die Möglichkeit zur Rückzahlung nach Wahl der Emittentin schränkt wahrscheinlich den Marktwert solcher Schuldverschreibungen ein. Potentielle Anleger sollten zudem das Risiko der Möglichkeit einer Wiederanlage in andere zum Zeitpunkt einer vorzeitigen Kündigung zur Verfügung stehende Anlagemöglichkeiten berücksichtigen.
- Die Schuldverschreibungen können eine automatische vorzeitige Rückzahlung gekoppelt an ein spezielles Ereignis vorsehen. In diesem Fall partizipiert der Schuldverschreibungsinhaber nicht an einer zukünftigen Wertentwicklung des Basiswerts.
- Zahlungen (sei es im Hinblick auf den Nennbetrag oder Zinsen, entweder bei Fälligkeit oder zu einem anderen Zeitpunkt) auf strukturierte Schuldverschreibungen (wie unten definiert) errechnen sich nach bestimmten Basiswerten. Der Ertrag dieser Schuldverschreibungen basiert auf der Veränderung des Basiswertes, welcher steigen und fallen kann. Mögliche Anleger sollten beachten, dass der Marktpreis solcher Schuldverschreibungen volatil sein kann, sie möglicherweise keine Zinsen erhalten und sie möglicherweise den gesamten Kapitalbetrag oder einen wesentlichen Teil des Kapitalbetrages verlieren können. Schuldverschreibungsinhaber von Doppelwährungs-Schuldverschreibungen sind dem Risiko von Schwankungen der Umtauschkurse ausgesetzt, welche den Ertrag der Schuldverschreibungen beeinflussen können, wenn Währungsverluste eintreten.
- Das Versäumnis einer Zahlung von mehreren Teilzahlungen kann bei Teileingezahlten Schuldverschreibungen dazu führen, dass der Anleger einen Teil seiner oder seine gesamte Anlage verliert.
- Die Anlage in festverzinslichen Schuldverschreibungen beinhaltet das Risiko, dass nachfolgende Änderungen der Marktzinssätze den Wert der festverzinslichen Schuldverschreibungen nachteilig beeinflussen können.
- Schuldverschreibungen mit variabler Verzinsung können volatile Anlagen sein. Die Volatilität kann noch erhöht sein, sofern die Schuldverschreibungen so strukturiert sind, dass sie Multiplikatoren oder andere Hebel-Faktoren enthalten.
- Invers-variabel verzinsliche Schuldverschreibungen sind besonders volatil, da eine Erhöhung des Referenzsatzes nicht nur den Zinssatz der Schuldverschreibungen verringert, sondern

auch eine Erhöhung der aktuellen Marktzinssätze widerspiegeln kann, was darüber hinaus den Marktwert dieser Schuldverschreibungen nachteilig beeinflussen kann.

- Strukturierte Schuldverschreibungen bei denen der Basiswert mit einem bestimmten Faktor multipliziert wird, um den zu zahlenden Betrag zu bestimmen, unterliegen einer erhöhten Volatilität und erhöhten Risiken, einschließlich des Totalverlustes des eingesetzten Kapitals.
- Änderungen des Marktzinssatzes haben einen wesentlich stärkeren Einfluss auf den Preis der Null-Kupon Schuldverschreibungen als auf den Preis von einfachen Schuldverschreibungen, weil deren diskontierter Ausgabepreis wesentlich unter Par liegt.
- Schuldverschreibungen mit Kapitalschutz führen nicht notwendigerweise jederzeit während der Laufzeit der Schuldverschreibungen zu einem Schutz des angelegten Kapitals und ein Unvermögen der Emittentin und/oder der Garantin, ihren Verpflichtungen nachzukommen, kann zu einem Totalverlust des durch den Anleger angelegten Kapitals führen.
- Der Zinssatz bzw. der Rückzahlungsbetrag von bestimmten Schuldverschreibungen kann auf den Eintritt oder nicht Eintritt bestimmter Ereignisse bezogen sein, die unabhängig von der Emittentin bzw. der Garantin sind, wie z. B. Kreditereignisse, Kurslevel, Wetter- oder Sportereignisse, deren Eintritt außerhalb der Kontrolle der Emittentin und der Garantin liegt, und die Schuldverschreibungsinhaber sind in diesem Fall dem Risiko ausgesetzt, dass das Ereignis eintritt oder nicht.
- Für den Fall, dass die Schuldverschreibungen eine Lieferung eines Basiswerts bei Rückzahlung vorsehen, müssen die Anleger bestimmte Benachrichtigungen vornehmen und bestimmte andere Maßnahmen ergreifen (beispielsweise für physische Lieferung zu optieren und eine unwiderrufliche Mitteilung abzugeben). Die Lieferung eines solchen Basiswerts unterliegt allen anwendbaren Gesetzen, Regularien und Methoden und die Emittentin übernimmt keine Verpflichtung falls sie aufgrund dieser Gesetze, Regularien oder Methoden außerstande ist den Basiswert zu liefern oder die Lieferung eines solchen Basiswerts an den Anleger der Schuldverschreibungen herbeizuführen. Jedem Anleger einer Schuldverschreibung sollte bewusst sein, dass wenn die Schuldverschreibungen durch physische Lieferung des Basiswerts zurückgezahlt werden, soll dies als Bestätigung seines Verständnisses und seiner Anerkennung bezüglich dieser Sache angesehen werden, dass er seine eigene Überprüfung und Bewertung seiner Fähigkeit und Berechtigung diese Basiswerte zu erhalten gemacht und er diesbezüglich nicht auf die Darstellung der Emittentin, der Zahlstelle, der Société Générale als Garantin oder Berechnungsstelle der Schuldverschreibungen oder den Tochterunternehmen der Société Générale vertraut hat.
- Die Einlösung einer Schuldverschreibung, Zinszahlungen oder die physische Lieferung unter einer Schuldverschreibung können von dem Eintritt eines Knock-In-Ereignisses oder eines Knock-Out-Ereignisses abhängig sein.
- Die Bedingungen können Regelungen enthalten, nach denen bei bestimmten Marktunterbrechungen Verzögerungen in der Abwicklung der Schuldverschreibungen hinzunehmen sind oder bestimmte Änderungen der Bedingungen der Schuldverschreibungen vorgenommen werden können. Darüber hinaus könnte eine vorzeitige Kündigung der Schuldverschreibungen durch den Emittenten erfolgen.
- Die Emittentin und/oder mit ihr verbundene Unternehmen können Geschäfte zu Risikominimierungs- und/oder Hedge- oder anderen Zwecken vornehmen, die als den Interessen der Schuldverschreibungsinhaber entgegengesetzt betrachtet werden können.

Risikofaktoren im Hinblick auf Fondsbezogene Schuldverschreibungen

- Das Angebot der Schuldverschreibungen stellt keine Anlageempfehlung der Emittentin oder der Société Générale oder ihrer verbundenen Unternehmen für eine Anlage in einen der zugrunde liegenden Fonds dar.

- Die Performance von Fonds, insbesondere Hedge Fonds, kann sehr volatil sein. Die Performance der Fondanteile über einen bestimmten Zeitraum ist nicht notwendiger Weise ein Indikator für die zukünftige Performance.
- Die Volatilität des Marktes kann zu erheblichen Verlusten in den Fondsanteilen führen.
- Die Verwendung eines Hebels kann das Risiko eines Verlustes des Wertes der Fondsanteile erhöhen.
- Zusätzlich zu festen Managementgebühren sind Performance-Gebühren bei Hedge Fonds üblich, die einen Anreiz schaffen können, in Anlagen zu investieren, die riskanter und spekulativer sind als solche, in die möglicherweise ohne die Existenz derartiger Gebühren angelegt werden würde.
- Die Fondsmanager unterliegen keinerlei Verpflichtungen gegenüber den Schuldverschreibungsinhabern und berücksichtigen nicht deren Interessen.
- Die zugrunde liegenden Fonds können in Anlagegegenstände investieren, die weitere Risiken beinhalten und diese Risiken können von der Emittentin zum Anlagezeitpunkt nicht vollständig offengelegt werden.
- Gebühren und andere Kosten, die ungeachtet der Performance des Fonds anfallen, verringern den Wert der Fondsanteile und dementsprechend auch den Rückzahlungsbetrag, der an die Schuldverschreibungsinhaber zu zahlen ist.
- Die Illiquidität der zugrundeliegenden Fondsinvestments kann die Zahlung des Rückzahlungsbetrages oder vorzeitigen Rückzahlungsbetrags und/oder eines Zwischenbetrags reduzieren oder verzögern.
- Falls der zugrundeliegende Fonds durch eine Master Feeder Struktur investiert, kann letztere einen nachteiligen Einfluss auf den zugrundeliegenden Fonds haben und folglich auf die Schuldverschreibungen. (Master Feeder Struktur: Ein Investmentfonds oder anderer Fonds, der ausschließlich in einen anderen Fonds investiert. Anteile des Feeder Fonds repräsentieren Anteile in dem zweiten Fonds (der sog. Master Fonds), welcher im Gegenzug, Anteile in den zugrundeliegenden Wertpapieren repräsentiert.)
- Um ihre Verpflichtungen aus den Schuldverschreibungen abzusichern, kann die Emittentin Absicherungsgeschäfte abschließen und die Absicherungsentscheidungen des sich absichernden Kontrahenten können dazu führen, dass Übertragungen, die von dem sich absichernden Kontrahenten in den Fonds hinein oder aus dem Fonds heraus erfolgen, den Wert der Fondsanteile und wiederum die Zahlungen unter den Schuldverschreibungen beeinflussen können.
- Rechtliche, steuerliche und regulatorische Änderungen, die den Wert des zugrunde liegenden Fonds nachteilig beeinflussen, können während der Laufzeit der Schuldverschreibungen eintreten. Das regulatorische Umfeld für Hedge Fonds entwickelt sich und Veränderungen in der Regulierung der Hedge Fonds können den Wert der Investitionen, die von dem zugrunde liegenden Fonds gehalten werden, nachteilig beeinflussen.

Risikofaktoren im Hinblick auf Strukturierte Schuldverschreibungen

- Wenn Zahlungen unter den Strukturierten Schuldverschreibungen durch Bezugnahme auf einen Index oder einen Korb von Indizes oder eine Aktie oder einen Korb von Aktien, die Kreditwürdigkeit einer Referenzeinheit oder einer Referenzverpflichtung oder einen Korb aus Referenzeinheiten oder Referenzverpflichtungen, einen Rohstoff oder einen Korb von Rohstoffen (oder auf diese bezogene Terminkontrakte) berechnet werden, basiert die Rendite der Schuldverschreibungen auf Änderungen des Wertes des Referenzvermögenswertes, der Schwankungen unterliegt und nicht vorhergesagt werden kann. Die historische

Wertentwicklung des Referenzvermögenswertes sollte nicht als Indikator für die zukünftige Wertentwicklung verwendet werden.

- Die effektive Einlösungsrendite der Schuldverschreibungen kann geringer ausfallen als die, die bei einem konventionellen Schuldtitel mit festem oder variablem Zins zu zahlen wäre.
- Die Berechnungsstelle kann, unter bestimmten Umständen, Anpassungen oder Ersetzungen durchführen oder kann sich sogar zu einer vorzeitigen Rückzahlung entscheiden, insbesondere aufgrund des Eintritts von Ereignissen, die die zugrunde liegenden Basiswerte beeinflussen. Beim Fehlen eines offensichtlichen oder nachgewiesenen Fehlers sind diese Entscheidungen bezogen auf Anpassungen, Ersetzungen oder die vorzeitige Rückzahlung für die Emittentin, die Garantin, den Agent und die Anleger bindend. Der Emittentin kann auch ein Recht zustehen, die Schuldverschreibungen nach eigenem Ermessen vorzeitig einzulösen. In allen diesen Fällen kann die vorzeitige Rückzahlung der Schuldverschreibungen in einem Totalverlust oder in einem partiellen Verlust des investierten Kapitals resultieren.

Risikofaktoren im Hinblick auf Index-gebundene Strukturierte Schuldverschreibungen

- Zahlungen von Einkünften (wie beispielsweise Dividenden bei einem Index, in dem Aktien als Basiswerte enthalten sind) werden möglicherweise nicht widergespiegelt, da der Index gegebenenfalls durch Bezugnahme auf die Kurse der in dem Index enthaltenen Basiswerte berechnet wird, während der Wert irgendwelcher auf die Basiswerte gezahlter Erträge keine Berücksichtigung findet.
- Die von einem Sponsor eines Index angewendeten Regeln betreffend die Zusammensetzung und die Berechnung der Indexvermögenswerte können den Wert des Index beeinflussen. Zusätzlich können Indizes Gebühren sowie Kosten unterliegen, die den an die Schuldverschreibungsinhaber zu zahlenden endgültigen Rückzahlungsbetrag reduzieren können.
- Die Zusammensetzung und die Methodologien, die im Zusammenhang mit bestimmten Indizes benutzt werden, auf die sich die Schuldverschreibungen beziehen, können von der Société Générale oder einer ihrer Tochtergesellschaften bestimmt und ausgewählt werden. Bei der Auswahl solcher Methodologien durch die Société Générale oder durch die maßgebliche Tochtergesellschaft der Société Générale kann davon ausgegangen werden, dass diese die eigenen Ziele und Interessen und/oder diejenigen der Gruppe berücksichtigt hat und dass es keine Garantie dafür gibt, dass die ausgewählten Methodologien nicht weniger vorteilhaft bezüglich der Interessen der Anleger sein werden, als Methodologien, die von anderen Indexsponsoren in vergleichbaren Umständen genutzt werden.
- Wenn die Hedging-Aktivitäten der Société Générale oder ihrer verbundenen Unternehmen in Verbindung mit einem einzelnen Index unterbrochen sind, kann die Société Générale oder das einschlägig verbundene Unternehmen entscheiden die Berechnung in Bezug auf diesen Index früher zu beenden als ein anderer Indexsponsor unter vergleichbaren Umständen. Solch eine Beendigung kann die vorzeitige Rückzahlung der Schuldverschreibung auslösen.

Spezifische Risiken bei Schuldverschreibungen, die auf Körbe bezogen sind

- Im Fall einer Schuldverschreibung, die sich auf eine Vielzahl von Basiswerten bezieht (beispielsweise Schuldverschreibungen bezogen auf einen Korb mit einer Auswahl von Aktien) kann das Risiko potenziert oder akkumuliert im Vergleich zu einem einzelnen Basiswert sein, da jede Komponente dieser Vielzahl an Basiswerten entscheidend für die Performance der Schuldverschreibung sein kann.

Spezifische Risiken bei auf Lebensversicherungsverträge bezogenen Strukturierten Schuldverschreibungen

- Die Wertentwicklung von Lebensversicherungsverträgen ist von einer Vielzahl von Faktoren abhängig, auf die die Emittentin keinen Einfluss hat. Der Wert eines Lebensversicherungs-

vertrages ist abhängig von Informationen des Versicherten und den Handlungen des jeweiligen Versicherungsunternehmens.

Spezifische Risiken bei auf Dividenden bezogenen Strukturierten Schuldverschreibungen

- Der endgültige Auszahlungsbetrag von auf Dividenden bezogenen Schuldverschreibungen gibt möglicherweise nicht die tatsächlichen Auszahlungen an Dividenden auf einer eins-zu-eins Basis wieder und entspricht möglicherweise nicht dem Wert eines unmittelbaren Investments in die jeweiligen Aktien oder sonstigen Wertpapiere.

Spezifische Risiken bei auf Rechnungseinheiten bezogenen Strukturierten Schuldverschreibungen

- Die Wertentwicklung einer Rechnungseinheit ist von einer Vielzahl von Faktoren abhängig, auf die die Emittentin keinen Einfluss hat und es sollte berücksichtigt werden, dass vergangene Erträge der Rechnungseinheit nicht notwendigerweise indikativ für die zukünftige Wertentwicklung sind.

Spezifische Risiken bei auf Aktien bezogenen Strukturierten Schuldverschreibungen

- Ein Schuldverschreibungsinhaber wird kein wirtschaftlicher Eigentümer der zu Grunde liegenden Aktien und dementsprechend ist er nicht wie ein solcher wirtschaftlicher Eigentümer berechtigt und entsprechend steht ihm kein Anspruch auf etwaige Dividenden oder vergleichbare, auf die zu Grunde liegenden Aktien gezahlten Beträge zu.
- Die Berechnungsstelle kann bestimmte Elemente der Schuldverschreibungen anpassen. Die Berechnungsstelle ist jedoch nicht verpflichtet, bei jedem gesellschaftsrechtlichen Ereignis, welches die zugrunde liegenden Aktien beeinflussen könnte, eine solche Anpassung vorzunehmen.
- Die Emittenten der zugrunde liegenden Aktien haben keine Verpflichtung, die Interessen der Schuldverschreibungsinhaber zu berücksichtigen und können Maßnahmen ergreifen, die den Wert der Schuldverschreibungen nachteilig beeinflussen.

Spezifische Risiken bei auf Rohstoffen bezogenen Strukturierten Schuldverschreibungen (Commodity Linked Notes)

- Auf Rohstoffe bezogene Strukturierte Schuldverschreibungen können vom Emittenten zum Nominalwert und/oder durch Lieferung der zugrunde liegenden Vermögensgegenstände(n) und/oder durch Zahlung eines Betrages, der unter Bezugnahme auf den Wert der zugrunde liegenden Vermögensgegenständen bestimmt wird, zurückgezahlt werden. Dementsprechend kann die Anlage in Strukturierten Schuldverschreibungen, die auf Rohstoffe bezogen sind, mit ähnlichen Risiken behaftet sein, wie ein Direktinvestment in die jeweiligen Rohstoffe, so dass sich Anleger dahingehend beraten lassen sollten.
- Aufgrund der Laufzeitstruktur von zukünftigen Preisen auf Rohstoffe, die auch in einem Rohstoff Future Index enthalten sind, kann der Kurs der Schuldverschreibungen für den Schuldverschreibungsinhaber in einer positiven oder negativen Art und Weise beeinflusst werden, abhängig von dem jeweiligen Unterschied zwischen dem zu ersetzenden Kurs des Futures bezogen auf Rohstoffe und dem Kurs des Futures bezogen auf Rohstoffe nach einer solchen Ersetzung.

Spezifische Risiken bei Schuldverschreibungen, die auf Kreditrisiken bezogen sind (Credit Linked Notes)

- Im Falle des Auftretens von bestimmten Umständen in Bezug auf die Referenzeinheit kann die Verpflichtung des Emittenten zur Rückzahlung des Nominalbetrags bei Fälligkeit durch (i) die Verpflichtung andere Beträge, die entweder bestimmten festen Werten entsprechen oder die unter Bezugnahme auf den Wert der bzw. des Basiswerte(s) ermittelt werden (welcher in jedem Fall geringer sein kann als der Nominalwert der Schuldverschreibung zu diesem Zeitpunkt)

und/oder (ii) durch eine Verpflichtung den Basiswert zu liefern, ersetzt werden. Zudem können verzinst auf Kreditrisiken bezogene Schuldverschreibungen vor oder an dem Tag, an dem solche Umstände eintreten, nicht mehr verzinst werden. Demgemäß können Schuldverschreibungsinhaber Schwankungen der Kreditwürdigkeit der Referenzeinheit bis zur Höhe ihres Gesamtinvestments in der Schuldverschreibung ausgesetzt sein.

- Entsprechend den Bestimmungen der Schuldverschreibungen bei denen die Société Générale als Berechnungsstelle auftritt, kann sie, zum Zwecke der Bestimmung des Barauszahlungsbetrags oder des Betrags für die physische Lieferung in Folge eines oder mehrerer Kreditereignisse(s), die Verpflichtungen mit dem geringsten Preis aller Verpflichtungen auswählen, die die einschlägigen Voraussetzungen erfüllt.
- Wenn die Transaktion Auktion Abrechnungsbedingungen nicht innerhalb eines bestimmten Zeitabschnitts veröffentlicht werden und falls es nicht möglich ist Quotierungen von der Quotierungsanbieterin für die ausgewählte Verpflichtung innerhalb eines weiteren Zeitabschnitts zu erhalten, wird der Schlusswert der ausgewählten Verpflichtung für Null erachtet und deshalb wird der Barabrechnungswert gleich Null sein. Das führt für den Inhaber zu einem Totalverlust.

Spezifische Risiken bei Schuldverschreibungen, die auf Währungen bezogen sind

- Die Wertentwicklung von Währungen ist von einer Vielzahl von Faktoren abhängig, wie z.B. volkswirtschaftlichen Faktoren, Spekulationen und möglichen Eingriffen durch Zentralbanken und staatliche Stellen (einschließlich von Devisenkontrollen und Devisenbeschränkungen).

Spezifische Risiken bei Schuldverschreibungen, die auf Anleihen bezogen sind

- Der Marktwert von Anleihen wird neben anderen Faktoren von der Kreditwürdigkeit der Emittentin der jeweiligen Anleihe, vom allgemeinen Zinsniveau, von der verbleibenden Laufzeit bis zur Fälligkeit sowie von der Liquidität des jeweiligen Markts beeinflusst. Diese Faktoren können einen negativen Einfluss auf die Schuldverschreibung haben, die auf Anleihen bezogen sind.

Spezifische Risiken bei Italienischen Zertifikaten

- Zertifikate können eine Option enthalten und deswegen einige Merkmale haben, die für Optionen üblich sind. Geschäfte mit Optionen beinhalten hohe Risiken und es ist ratsam, dass Anleger, die beabsichtigen mit Optionen zu handeln einen bestimmten Grad an Erfahrung mitbringen und Wissen über die Funktionsweise von Optionen haben.
- Die Anlage in Optionen ist durch einen hohen Grad an Volatilität gekennzeichnet und es ist möglich, dass Anleger den Betrag verlieren werden, der für den Kauf der Option aufgewendet wurde.
- Da der Wert einer Option mit dem zugrunde liegenden Vermögenswert verflochten ist, hängt ihre Entwicklung von dem Wert des Letzteren ab.

Die Emittentin kann auch Schuldverschreibungen mit unbegrenzter Laufzeit begeben (Open End Schuldverschreibungen). Für Italienische Zertifikate sollen alle Bezugnahmen auf "Fälligkeit" statt dessen als Bezugnahmen auf "Endgültige Ausübung" gelten.
Ausgabepreis	Schuldverschreibungen werden entweder als voll oder teileingezahlte Schuldverschreibungen zu einem Ausgabepreis ausgegeben (ausgedrückt entweder (i) als Prozentsatz des gesamten Nominalbetrags oder (ii) als Betrag je Schuldverschreibung bezogen auf den Nennbetrag) welcher dem Nennbetrag entspricht oder einen Abschlag oder Zuschlag gegenüber dem Nennbetrag aufweist (wie in den maßgeblichen Endgültigen Bedingungen festgelegt).
Form der Schuldverschreibungen	Die Schuldverschreibungen einer bestimmten Tranche oder Serie, auf welche U.S. Treasury Regulation §1.163-5(c)(2)(i)(D) (die " TEFRA D Regeln ") Anwendung findet, wie in den Endgültigen Bedingungen spezifiziert, werden zunächst durch eine vorläufige Globalurkunde (jeweils eine " Vorläufige Globalurkunde ") und

anschließend, nach Ablauf von 40 Tagen nach dem relevanten Emissionstag und nach Bescheinung über das Nichtvorliegen von wirtschaftlichem U.S.-Eigentum, durch eine Dauerglobalurkunde (jeweils eine "**Dauerglobalurkunde**") repräsentiert. Die Schuldverschreibungen einer bestimmten Tranche oder Serie, auf welche U.S. Treasury Regulation §1.163-5(c)(2)(i)(C) (die "**TEFRA C Regeln**") Anwendung findet, wie jeweils in den Endgültigen Bedingungen spezifiziert, werden durch eine Dauerglobalurkunde repräsentiert.

Schuldverschreibungen einer bestimmten Tranche oder Serie auf die weder die TEFRA C Regeln noch die TEFRA D Regeln anwendbar sind, wie jeweils in anwendbaren Endgültigen Bedingungen definiert, werden durch eine Dauerglobalurkunde repräsentiert.

Einzelurkunden werden nicht begeben.

Im Fall von Italienischen Zertifikaten bei denen Monte Titoli die maßgebliche Clearing-Stelle ist, erfolgt ihr Umlauf gemäß italienischem Legislativerlass und einschließlich aller danach ergangenen Umsetzungsregelungen.

Schuldverschreibungen mit festem Zinssatz

Feste Zinsen werden an dem Termin bzw. den Terminen, die zwischen der Emittentin und dem maßgeblichen Dealer vereinbart werden (wie in den maßgeblichen Endgültigen Bedingungen festgelegt), sowie bei Rückzahlung fällig und werden auf Grundlage des zwischen der Emittentin und dem maßgeblichen Dealer in den maßgeblichen Endgültigen Bedingungen vereinbarten Zinstagequotienten berechnet.

Im Fall von Italienischen Zertifikaten:

Ein Fixbetrag ist zahlbar an einem solchen Tag oder Tagen wie zwischen der Emittentin, der Garantin und dem relevanten Dealer wie in den anwendbaren endgültigen Bedingungen festgelegt.

Schuldverschreibungen mit variablem Zinssatz

Schuldverschreibungen mit variabler Verzinsung werden mit einem Zinssatz verzinst, der entweder (i) auf Basis eines Referenzzinssatzes, der auf einer festgelegten Bildschirmseite eines kommerziellen Kursdienstes angezeigt wird, oder (ii) auf derselben Grundlage wie der variable Zinssatz einer angenommenen Zinssatzwaptransaktion in der entsprechenden Währung nach Maßgabe einer durch Abschlussbestätigung belegten Vereinbarung, die die "2006 ISDA-Definitionen" (wie von der International Swaps and Derivatives Association, Inc. veröffentlicht und in der geänderten und aktualisierten Fassung des Ausgabetales der ersten Tranche von Schuldverschreibungen der jeweiligen Serie) einbezieht, oder (iii) auf einer anderen zwischen der Emittentin und dem maßgeblichen Dealer vereinbarten Grundlage festgelegt wird (wie in den maßgeblichen Endgültigen Bedingungen angegeben).

Eine etwaige Marge im Hinblick auf den variablen Zinssatz wird ggf. für jede Emission von Schuldverschreibungen mit variablem Zinssatz zwischen der Emittentin, der Garantin und dem maßgeblichen Dealer gesondert vereinbart und in den maßgeblichen Endgültigen Bedingungen festgelegt.

Teileingezahlte Schuldverschreibungen

Die Emittentin kann Schuldverschreibungen begeben, die zum Zeitpunkt ihrer Begebung nicht voll eingezahlt sind und deren Bedingungen vorsehen, dass der verbleibende einzuzahlende

Nennbetrag in einer oder mehreren Teilzahlungen, an einem oder mehreren vorher festgelegten Teilzahlungstermin(en) eingezahlt wird. Wenn ein Schuldverschreibungsinhaber eine Teilzahlung nicht innerhalb der angegebenen Zeit zahlt, die für eine Teileingezahlte Schuldverschreibung fällig ist, hat die Emittentin das Recht diese Schuldverschreibung einzulösen, falls so angegeben, und wie in den Bedingungen der maßgeblichen Endgültigen Bedingungen angegeben.

**Strukturierte
Schuldverschreibungen**

Zahlungen (sei es im Hinblick auf die Rückzahlung des Nennbetrages als auch im Hinblick auf Zinszahlungen, bei Fälligkeit oder zu einem anderen Zeitpunkt) auf Strukturierte Schuldverschreibungen berechnen sich auf der Grundlage eines Index und/oder einer Formel, die auf der Veränderungen des Preises eines bestimmten Basiswertes beruht. Basiswerte umfassen Aktien, sonstigen Dividenden- oder Nicht-Dividendenpapiere, Indizes, Währungen oder Wechselkurse, Zinssätze, Dividenden, Kreditrisiken, Fondsanteile, Anteile an Investmentgesellschaften, Geldanlagen, Lebensversicherungsverträge, Darlehen, Anleihen, fondsgebundene Features (Abrechnungseinheiten), Rohstoffe oder darauf bezogene Future Kontrakte oder sonstige Instrumente oder Vermögensgegenstände oder der Eintritt oder Nichteintritt von Ereignissen, die nicht auf die Emittentin oder die Garantin oder auf einen Korb oder auf eine Kombination aus dem Vorgenannten bezogen sind, oder andere Faktoren, die ggf. zwischen der Emittentin, der Garantin und dem maßgeblichen Dealer vereinbart und in den maßgeblichen Endgültigen Bedingungen festgelegt werden.

Im Fall von Italienischen Zertifikaten:

Der Zwischenbetrag („*Interim Amount*“) wird bezogen auf den Index und/oder der Formel bzw. aufgrund von Änderungen des Kurses bestimmter Basiswerte berechnet. Solche Basiswerte beinhalten Aktien, sonstigen Dividenden- oder Nicht-Dividendenpapiere, Indizes, Währungen oder Wechselkurse, Zinssätze, Dividenden, Kreditrisiken, Fondsanteile, Anteile an Investmentgesellschaften, Geldanlagen, Lebensversicherungsverträge, Darlehen, Anleihen, fondsgebundene Features (Abrechnungseinheiten), Rohstoffe oder darauf bezogene Future Kontrakte oder sonstige Instrumente oder Vermögensgegenstände oder der Eintritt oder Nichteintritt von Ereignissen, die nicht auf die Emittentin oder die Garantin oder auf einen Korb oder auf eine Kombination aus dem Vorgenannten bezogen sind, oder andere Faktoren, die ggf. zwischen der Emittentin, der Garantin und dem maßgeblichen Dealer vereinbart und in den maßgeblichen Endgültigen Bedingungen festgelegt werden.

Unter gewissen Umständen kann das Ausmaß, inwieweit eine Schwankung des Basiswertes die Strukturierter Schuldverschreibungen betrifft, begrenzt sein. Besteuerung

Alle Zahlungen von Nominalbetrag, Zinsen und, im Fall von Italienischen Zertifikaten, Endgültigen Ausübungsbeträgen und andere Beträge in Bezug auf die Schuldverschreibungen werden in vollem Umfang geleistet ohne Einbehalt oder Abzug irgendwelcher Steuern, Abgaben, Umlagen oder sonstiger staatlicher Abgaben, die durch die Bundesrepublik Deutschland oder bzw. die Republik Frankreich oder eine sonstige Körperschaft oder Behörde der Bundesrepublik Deutschland bzw. der Republik Frankreich, die das Recht hat, Steuern zu erheben, erhoben, veranlagt oder einbehalten werden. Sofern das Gesetz einen solchen Einbehalt oder Abzug vorschreibt, wird die Emittentin bzw. die Garantin, vorbehaltlich der in den Bedingungen der Schuldverschreibungen vorgesehenen Ausnahmen, derartige zusätzliche Beträge zahlen, damit die Schuldverschreibungsinhaber so gestellt werden, als ob kein Einbehalt oder Abzug stattgefunden hätte.

Die Emittentin übernimmt keine Verantwortung für die Einbehaltung von Steuern an der Quelle.

Negativerklärung

Die Bedingungen der Schuldverschreibungen enthalten eine Negativerklärung, welche, solange Schuldverschreibungen oder darauf bezogene Erträge oder Kupons noch ausstehend sind, es der Garantin unter anderem verbietet, Sicherungsrechte oder andere Belastungen auf ihre Aktiva oder Schuldtitel zu erzeugen oder zu unterhalten. Dies gilt nicht, wenn diese Schuldverschreibungen und relevanten Erträge und Kupons in gleicher Weise und damit anteilsmäßig gesichert sind.

Status der Schuldverschreibungen

Die Schuldverschreibungen begründen direkte, unbedingte und nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin mit begrenztem Rückgriffsanspruch, die untereinander und mit allen anderen direkten, unbedingten, nicht besicherten und nicht nachrangigen begrenzten Rückgriffsverbindlichkeiten der Emittentin zumindest gleichrangig sind, sofern zwingende gesetzliche Bestimmungen nichts anderes vorschreiben.

Garantie

Die fällige und pünktliche Zahlung jedweder fälliger und zahlbarer Beträge bzw. die fällige und pünktliche physische Lieferung von Wertpapieren, die gemäß der Bedingungen der Schuldverschreibungen lieferbar sind, wird bedingungslos und unwiderruflich von der Garantin garantiert.

RISK FACTORS

Prospective purchasers of Notes should carefully consider the following information in conjunction with the other information contained in this Base Prospectus, both 2011 Registration Document of the Issuer and the Guarantor and any Final terms before purchasing Notes.

The Issuer and the Guarantor believe that the following factors may affect its ability to fulfil its obligation under Notes issued under the Programme or under the Guarantee in relation to such Notes (respectively). Most of these factors are contingencies which may or may not occur and neither the Issuer nor the Guarantor is in a position to express a view on the likelihood of any such contingency occurring.

If one or more of the risks described below occur, this may result in material and sustained decreases in the price of the Notes or, in the worst case, in a total loss of the capital invested by the Investor.

The Issuer and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme. However, additional specific risks relating to a particular Tranche of Notes issued from time to time under the Programme may be set out in the respective Final Terms, provided that these risks are specific to this Tranche of Notes and can only be determined at the time of the individual issue. These risks must therefore always be included in the assessment of risks. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus, any supplements and in the applicable Final Terms and reach their own views prior to making any investment decision. No investment should be made in the Notes of any series prior careful consideration of all those factors that are relevant in relation to the Notes of such series. Prospective investors should reach an investment decision with respect to the suitability of the Notes of such series only after careful consideration and consultation with their financial and legal advisers.

The order in which the following risks factors are presented is not an indication of the likelihood of their occurrence.

I. RISK FACTORS RELATING TO THE ISSUER, THE GROUP, THE GUARANTOR AND THE TRUST STRUCTURE

Risks Involving the Legal Form and Organisation of the Issuer

There is a risk that the Issuer may not or only partially be able to fulfil its obligations arising from the Notes. Investors should therefore consider the credit quality of the Issuer when making investment decisions.

The credit quality of the Issuer may change before the Notes mature due to developments in the overall economy or company-specific circumstances. Principal causes could be economic changes that have a lasting adverse impact on the earnings situation and solvency of the Issuer. Other causes include changes in individual companies, industries, or countries, e.g. economic crises, as well as political developments with significant economic repercussions.

In accordance with its articles of association, the Issuer of the Notes, Société Générale Effekten GmbH, Frankfurt am Main, was formed solely for the purpose of issuing fungible securities and does not engage in any other independent operating activities. By acquiring Notes from the Issuer, investors are exposed to a considerably higher credit risk compared to an issuer with much greater capital resources.

The Issuer is not a member of a deposit guarantee fund or similar assurance system that would fully or partially cover the claims of security holders in the event the Issuer is not able to meet its obligations.

Investors are also exposed to the insolvency risk of the parties with whom the Issuer concludes derivative transactions to hedge its obligations from the issue of Notes. As opposed to an issuer with a more diversified range of potential contracting parties, the Issuer is subject to a cluster risk as it only concludes hedging transactions with affiliated companies. In this context, cluster risk is the credit risk ensuing from the limited range of potential contracting parties with whom various hedging transactions can be conducted. There is a risk that the insolvency of companies affiliated to the Issuer could directly trigger the Issuer's ability to meet its obligations.

Risks relating to the economic activities of the Issuer

The Issuer is primarily engaged in issuing and selling securities. The Issuer's activities and annual issue volume may be influenced by negative trends on the markets in which it operates. Difficult market conditions, however, may lead to a lower issue volume and adversely impact the Issuer's results of operations.

The general market trend for securities is primarily linked to capital market trends, themselves shaped by the global economy as well as economic and political factors at national level (market risk).

Risk factors relating to the Group and the Guarantor

The Group is exposed to the risks inherent in its core businesses.

Its results of operations in the past have been, and in the future may continue to be, materially affected by many factors, some of which are discussed in greater detail below, including: political, economic and market conditions; the availability and cost of capital; the liquidity of global markets; the level and volatility of equity prices, commodity prices, interest rates, currency values, other markets and indices; technological changes and developments; the availability and cost of credit; inflation; the stability and solvency of financial institutions and other companies; and investor sentiment and confidence in the financial markets. Given the diversity and changes in the Group's activities, its risk management focuses on the following main categories of risks, any of which could adversely affect the Group's performance:

- **Credit risk** (including country risk): risk of losses arising from the inability of the Group's customers, issuers or other counterparties to meet their financial commitments. Credit risk includes the counterparty risk linked to market transactions, as well as securitisation activities. In addition, credit risk may be further amplified by concentration risk, which arises from a large exposure to a given risk, to one or a few counterparties, or to one or more homogeneous groups of counterparties;
- **Market risk**: risk of loss resulting from changes in the price of market products, volatility and correlations across risks. These changes include, but are not limited to, changes in foreign exchange rates, bond prices and interest rates, securities and commodities prices, derivatives prices and prices of all other assets such as real estate;
- **Operational risks** (including accounting and environmental risks): risk of losses or sanctions due to inadequacies or failures in internal procedures or systems, human error or external events;
- **Investment portfolio risk**: risk of unfavourable changes in the value of the Group's investment portfolio;
- **Non-compliance risk** (including legal, tax and reputational risks): risk of legal, administrative or disciplinary sanction, material financial losses or reputational damage arising from failure to comply with the provisions governing the Group's activities;

- **Structural interest and exchange rate risk:** risk of loss or of write-downs in the Group's assets arising from variations in interest or exchange rates. Structural interest and exchange rate risk arises from commercial activities and transactions entered into by the Group's corporate centre (operations involving equity capital, investments and bond issues);
- **Liquidity risk:** risk of not being able to meet the Group's requirements for cash or collateral as they arise;
- **Strategic risk:** risks tied to the choice of a given business strategy or resulting from the Group's inability to execute its strategy; and
- **Business risk:** risk of losses if costs exceed revenues.

Through the Group's insurance subsidiaries, it is also exposed to a variety of risks linked to the insurance business. These include premium prices risk, mortality risk and structural risk of life and non-life insurance activities, including pandemics, accidents and catastrophic events (such as earthquakes, windstorms, industrial disasters, or acts of terrorism or war).

Through the Group's Specialised Financial Services division, mainly in its operational vehicle leasing subsidiaries, it is exposed to residual value risk (the net resale value of an asset at the end of the leasing contract being less than estimated). Any of these risks could materially adversely affect the Group's business, results of operations and financial condition.

The global financial markets and economy continue to display high levels of uncertainty, which may continue to materially and adversely affect the Group's business, financial condition and results of operations.

Following the initial signs of disruption of the financial markets in 2007, the global economy and financial system have experienced significant turmoil and uncertainty in the last three years which led, among other things, to the failure of several leading international financial institutions. The outlook for the global economy over the near to medium term remains challenging. The state of the global financial system will continue to be affected by structural and other economic factors such as the availability of productive investments and unemployment rates. In the current environment, economic growth development models based principally on levels of household debt may prove inadequate. Other factors contributing uncertainty to the global financial markets and economy include central bank interventions, the risk of inflation and the adoption by governments of more restrictive budgetary policies to contain public debt.

In particular, the Group is exposed to the risk of substantial losses if financial institutions or other credit counterparties become insolvent or are no longer able to fulfil their obligations to the Group. The Group's inability to recover the value of its assets in accordance with the estimated percentages of recoverability based on past historical trends (which could prove inaccurate in the current market environment) could further adversely affect its performance.

Recent negative developments affecting several European economies and the downgrading of the sovereign debt of some European countries have triggered further financial and economic uncertainty. A deepening of the European crisis may trigger a significant decline in the Group's asset quality and an increase in its loan losses in the affected countries. It may also become necessary for the Group to invest resources to support the recapitalisation of its businesses and/or subsidiaries in such countries. The Group's local activities could become subject to emergency legal initiatives or restrictions imposed by local authorities.

A number of the exceptional measures taken by governments, central banks and regulators have recently been or will soon be completed or terminated.

In response to the financial crisis, governments, central banks and regulators implemented measures intended to support financial institutions and thereby stabilise financial markets. Central banks took measures to facilitate financial institutions' access to credit and liquidity, in particular by lowering interest rates to historic lows for a prolonged period. Various central banks decided to increase substantially the amount and duration of liquidity provided to banks and, in some cases, implemented "non-conventional" measures to inject substantial liquidity into the financial system, including direct market purchases of treasury bonds, corporate commercial paper and mortgage-backed securities. These central banks may decide, acting alone or in coordination, to modify their monetary policies (and, in particular, raise interest rates) and tighten their policies regarding access to liquidity, which could substantially and abruptly decrease the flow of liquidity in the financial system.

Given that the recovery remains fragile, such changes could have an adverse effect on operating conditions for financial institutions and, hence, on the Group's business, financial condition and results of operations.

The Group's results may be affected by regional market exposures.

The Group's performance is significantly affected by economic, financial and political conditions in the principal markets in which it operates such as France and other European Union countries. In the Group's principal market, France, declines in economic or financial activity, reduced levels of consumer spending and an unfavourable evolution of the real estate market have had and could continue to have a material adverse impact on its business through decreased demand for loans, higher rates of non-performing loans, decreased asset values, or for other reasons. With respect to the other European Union countries, economic stagnation or a deteriorating economic environment could result in increased loan losses or higher levels of provisioning.

The Group is involved in commercial banking and investment banking operations in emerging markets, in particular in Russia and other Central and Eastern European countries as well as in Northern Africa. Capital markets and securities trading activities in emerging markets may be more volatile than those in developed markets and more vulnerable to certain risks, such as political uncertainty and currency volatility. It is likely that these markets will continue to be characterised by higher levels of uncertainty and therefore risk. Unfavourable political or economic conditions or other negative developments may negatively affect the Group's business, results of operations or financial condition.

The Group operates in a highly competitive environment and reputational damage could harm its competitive position.

The financial services industry is highly competitive. The Group's reputation for financial strength and integrity is critical to its ability to attract and retain customers. Its reputation could be harmed by events attributable to it and the decisions of its management, as well as by events and actions of others outside its control. Independent of the merit of information being disseminated, unfavourable descriptions of the Group could have adverse effects on its business and its competitive position.

The Group's reputation could be adversely affected by a failure of conflict controls and other procedures, particularly as it grows in size. Another threat to its reputation could arise as a result of employee misconduct, misconduct by other market participants, a decline in, a restatement of, or corrections to its financial results, as well as any adverse legal or regulatory action, especially to the extent the latter becomes the focus of extensive media reporting. Reputational damage could translate into a loss of business that could have a material adverse effect on its results of operations and financial position.

The Group operates in highly competitive industries, including in its home market.

The Group is subject to intense competition in the global and local markets in which it operates. On a global level, it competes with its peers principally in its core businesses (French Networks, International Retail Banking, Specialised Financial Services and Insurance, Corporate and Investment Banking and Private Banking, Global Investment Management and Services). In the local markets, including its principal market, France, it faces substantial competition from locally established banks, financial institutions, businesses providing financial and other services and, in some instances, governmental agencies. This competition exists in all of its lines of business.

In France, the presence of large domestic competitors in the banking and financial services sector, as well as emerging competitors such as on-line retail banking and financial services providers, has resulted in intense competition for virtually all of the Group's products and services. The French market is a mature market and one in which the Group already holds significant market share in most of its lines of business. Its business and results of operations may be adversely affected if it is unable to maintain or increase its market share in key lines of business. The Group also faces competition from local participants in the other geographic markets in which it has a significant presence. The level of competition on a global level, as well as a local level in France and its other significant markets, could have a material adverse effect on its business, results of operations and financial condition.

Protracted market declines can reduce liquidity in the markets, making it harder to sell assets, possibly leading to material losses.

In a number of the Group's businesses, protracted market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity. These developments can lead to material losses if the Group is not able to close out deteriorating positions in a timely way. This is especially the case for assets the Group holds for which the markets are relatively illiquid by nature. Assets that are not traded on stock exchanges or other public trading markets, such as derivatives contracts between banks, are valued based on the Group's internal models rather than publicly-quoted prices. Monitoring the deterioration of prices of assets like these is difficult and could lead to losses that the Group did not anticipate.

The Group's portfolio of real estate-related structured finance assets, lost value and/or became less liquid or illiquid during and in the wake of the financial crisis. The portfolio includes CDOs¹ of RMBS², RMBS, CMBS³ and other ABS⁴, CLOs⁵, assets partly hedged by monoline insurers, exotic credit derivatives, etc., the underlying of which are largely in the U.S., Europe and Australia.

Although the Group continues to take steps to manage and control its legacy asset portfolio, there can be no assurance that losses on this portfolio will not be substantial in the future. Such losses could have a material adverse effect on its results of operations and financial condition.

¹ CDO: Collateralised Debt Obligations

² RMBS: Residential Mortgage Backed Securities

³ CMBS: Commercial Mortgage Backed Securities

⁴ ABS: Asset Backed Securities

⁵ CLO: Collateralised Loan Obligations

The volatility of the financial markets may cause the Group to suffer significant losses on its trading and investment activities.

Since mid-2007, the international financial markets have displayed extreme levels of volatility which resulted in significant losses for many banks, including Societe Generale. The ongoing market instability could adversely affect the Group's trading and investment positions in the debt, currency, commodity and equity markets, and in private equity, property and other assets. Furthermore, severe market disruptions and extreme market volatility may occur again in the future and may result in significant losses for its capital markets activities. Such losses may extend to a broad range of trading and hedging products, including swaps, forward and future contracts, options and structured products.

Market volatility makes it more difficult to predict trends and implement effective trading strategies and increases risk of losses from net long positions when prices decline and, conversely, from net short positions when prices rise. At times, the Group may implement a trading strategy of holding a long position in one asset and a short position in another, with the expectation of benefiting from changes in the relative value of the two assets. If the values of these assets change in a manner that differs from the Group's expectations, or against which it is not hedged, it might realise a loss on those paired positions. Such losses, if significant, could adversely affect its results of operations and financial condition.

Changes in interest rates may adversely affect the Group's banking and asset management businesses.

The Group's performance is influenced by the evolution and fluctuation of interest rates in Europe and in the other markets in which it operates. The amount of net interest earned during any given period significantly may affect the Group's overall revenues and profitability. The Group's management of interest rate sensitivity may affect its results of operations. Interest rate sensitivity refers to the relationship between changes in market interest rates and changes in net interest income. Any mismatch between interest owed by the Group and interest due to it (in the absence of suitable protection against such mismatch) could have adverse material effects on its business, financial condition and results of operations.

Fluctuations in exchange rates could adversely affect the Group's results of operations.

The Group publishes its financial statements in euros, which is the currency of most of its liabilities. A significant portion of its business is carried out in currencies other than the euro, such as, in particular, the U.S. dollar, the British pound sterling, the Czech crown and the Japanese yen. Fluctuations in the rate of exchange of these currencies into euros may have a negative impact on its reported consolidated results of operations, financial position and cash flows from year to year, despite any hedges that may be implemented by the Group to limit its foreign exchange exposure. Exchange rate fluctuations may also affect the value (denominated in euros) of its investments in its subsidiaries outside the euro zone.

The Group is subject to extensive supervisory and regulatory regimes in the countries in which it operates. It is not possible to predict to what extent laws or regulations will change in the future or the impact of such changes on its business.

The Group is subject to extensive regulation and supervision in all jurisdictions in which it operates. The rules applicable to banks seek to preserve their stability and solidity, limit their risk exposure and protect depositors, creditors and investors. It is subject to the rules applicable to financial service providers that govern, among other things, the sale, placement and marketing of financial instruments. The banking companies of the Group must also comply with the capital adequacy requirements of the countries in which they operate. Compliance with these rules and regulations requires significant

resources. Non-compliance with the applicable laws and regulations could lead to fines, damages to its reputation, enforced suspension of operations or withdrawal of operating licenses.

Following the onset of the recent financial crisis, a variety of measures have been proposed, discussed and in some cases adopted by numerous national and international legislative and regulatory bodies, as well as other entities. How the various measures will work together if they are implemented remains unclear, as these reforms are often inspired by differing priorities. The novelty and complexity of the regulatory initiatives are likely to increase compliance risks, at least in the short term.

The G20 summit in Pittsburgh in September 2009 established the foundations for the strengthening of prudential rules, which are expected to result in increased capital and liquidity requirements for financial institutions. Supervision of systemic risk and concern regarding the overall size of banks continue to generate considerable attention with, in particular, the launch of a Financial Stability Board working group to consider these themes. In addition, it is possible that more restrictive measures in addition to the rules of Basel 3 could be imposed in light of the recent crisis of the financial markets, including more demanding rules regarding capital adequacy, which could reduce the capacity of banks to lend or increase their need for capital. The application of these or other requirements may have material adverse effects on the Group's assets, financial condition, cash flow and results of operations. The preceding sentence is a forward-looking statement and actual results may differ materially based on the form and timing of the final CRD⁶ IV rules and other factors.

It is not possible to predict the nature and extent of future changes to the regulatory framework applicable to the Group. Any new regulatory requirements, including the new Basel 3 rules, or any changes in existing rules or in supervision or enforcement practices could impose burdensome new requirements on the Group or cause it to experience difficulties adjusting to and complying with such regulatory framework, which could have a material adverse effect on its business, financial condition and results of operations.

The Group is exposed to the potential instability of its counterparties.

The Group is exposed to credit risk with respect to numerous counterparties in the ordinary course of its business as a result of trading, lending, deposit-taking, clearance and settlement and other activities. These counterparties include institutional clients, brokers and dealers, commercial and investment banks and sovereign states. The Group may realise losses if a counterparty defaults on its obligations and the collateral that it holds does not represent a value equal to, or is liquidated at prices not sufficient to recover, the full amount of the loan or derivative exposure it is intended to cover. Many of the hedging and other risk management strategies utilised by the Group also involve transactions with financial services counterparties. The weakness or insolvency of these counterparties may impair the effectiveness of the Group's hedging and other risk management strategies, which could in turn materially adversely affect its business, results of operations and financial condition.

The Group's hedging strategies may not prevent losses.

If any of the variety of instruments and strategies that the Group uses to hedge its exposure to various types of risk in its businesses is not effective, it may incur significant losses. Many of its strategies are based on historical trading patterns and correlations. For example, if the Group holds a long position in an asset, it may hedge that position by taking a short position in another asset whose value has historically moved in an offsetting direction. However, the hedge may only cover a part of its exposure to the long position, and the strategies used may not protect against all future risks or may not be fully effective in mitigating its risk exposure in all market environments or against all types of risk in the future. Unexpected market developments may also reduce the effectiveness of its hedging strategies.

⁶ *European Directive on the capital adequacy of credit institutions (Capital Requirement Directive, CRD)*

In addition, the manner in which gains and losses resulting from certain ineffective hedges are recorded may result in additional volatility in its results of operations.

The Group's results of operations and financial condition could be adversely affected by a significant increase in new provisions or by inadequate provisioning.

The Group regularly sets aside provisions for loan losses in connection with its lending activities. Its overall level of loan loss provisions, recorded as "cost of risk" in its income statement, is based on its assessment of the recoverability of the relevant loans. This assessment relies on an analysis of prior loss experience, the volume and type of lending being conducted, industry standards, past due loans, certain economic conditions and other factors. Notwithstanding the care with which the Group carries out such assessments, it may have to increase substantially its provisions for loan losses in the future following increases in non-performing assets or for other reasons, as was the case in the second half of 2008, throughout 2009 and 2010. Significant increases in loan loss provisions, a substantial change in its estimate of its risk of loss with respect to non-impaired loans, or the occurrence of loan losses in excess of its provisions, could have a material adverse effect on its results of operations and financial condition.

The Group is exposed to legal risks that could negatively affect its financial condition or results of operations.

The Group and certain of its former and current representatives may be involved in various types of litigation including civil, administrative and criminal proceedings. The very large majority of such proceedings can be considered part of its ordinary course of business. In the current conditions of economic and market uncertainty, following the market disruptions experienced in recent years, there has been an increase in investor litigation and regulatory actions against intermediaries such as banks and investment advisors. This has increased the risk, for the Group as well as for other financial institutions, of losses or reputational harm deriving from litigation and other proceedings.

It is inherently difficult to predict the outcome of the litigation, regulatory proceedings and other adversarial proceedings involving the Group's businesses, particularly those cases in which the matters are brought on behalf of various classes of claimants, seek damages of unspecified or indeterminate amounts or involve novel legal claims. In preparing its financial statements, management makes estimates regarding the outcome of legal, regulatory and arbitration matters and records a provision when losses with respect to such matters are probable and can be reasonably estimated. Should such estimates prove inaccurate or the provisions set aside by the Group to cover such risks inadequate, its financial condition or results of operations could be materially and adversely affected.

In implementing the Group's external growth strategy, it may prove unable to manage the integration process in a cost-effective manner or achieve the benefits expected from these acquisitions.

The Group's growth strategy includes acquisitions of other businesses which carry a variety of challenges, including the verification of the quality of the acquired asset, the integration of the newly-acquired businesses, and the creation of synergies.

The selection of an acquisition target is carried out by the Group following a careful analysis of the business to be acquired. However, such analyses often cannot be complete or exhaustive due to a variety of factors. As a result, certain acquired businesses may be burdened by unanticipated troubled assets or may expose the Group to an increase in various risks, particularly in cases in which the Group was unable to conduct a full and comprehensive due diligence prior to the acquisition.

The successful integration of a new business typically requires the effective coordination of business development and marketing efforts, retention of key managers, recruitment and training, and integration of information technology systems. These tasks may prove more difficult than anticipated, require more management time and resources than expected, and the Group may experience higher integration costs and lower savings or earn lower revenues than expected.

The degree to which synergies will be realised is also uncertain, as is the timing of the realisation of these synergies.

The Group's risk management system may not be effective and may expose the Group to unidentified or unanticipated risks, which could lead to significant losses.

The Group has devoted significant resources to develop its risk management policies, procedures and assessment methods and intends to continue to do so in the future. Nonetheless, its risk management techniques and strategies may not be fully effective in mitigating its risk exposure in all economic market environments or against all types of risk, including risks that it fails to identify or anticipate. Some of its qualitative tools and metrics for managing risk are based upon observed historical market behaviour. The Group applies statistical and other tools to these observations to assess its risk exposures. These tools and metrics may fail to predict future risk exposures that arise from factors the Group did not anticipate or correctly evaluate in its statistical models. A failure to anticipate or manage risks could significantly affect its business, financial condition and results of operations.

A failure or breach of the Group's information technology systems could result in losses.

The Group relies heavily on communications and information systems to conduct its business. Any failure, interruption or breach in security of these systems, even if only brief and temporary, could result in failures or interruptions to its business leading to potential costs related to information retrieval and verification and a potential loss of business. A failure, interruption or security breach of its information systems could have a material adverse effect on its business, results of operations and financial condition.

Factors that may affect the Issuer's and the Guarantor's ability to fulfil their respective obligations under the Notes and under the Guarantee and the Trust Agreement.

Issue of the Notes by the Issuer on the account of the Guarantor and Limited Recourse

The obligations under the Notes constitute direct, unconditional, unsubordinated and, subject to the Guarantee unsecured limited recourse obligations of the Issuer and shall at all times rank *pari passu* and without preference among themselves. The Issuer and the Guarantor have entered into a trust agreement (the **Trust Agreement**) pursuant to which the Issuer shall, *inter alia*, (i) issue and redeem the Notes on a fiduciary basis (*treuhänderisch*) in its own name but for the account of the Guarantor; (ii) collect any proceeds resulting from the issuance of the Notes and forward them to the Guarantor; and (iii) use only the funds made available to it by the Guarantor under the Trust Agreement (which funds shall equal the amount of any payments owed by the Issuer under the Notes as and when such payment obligations fall due and in a manner that allows the Issuer to fulfil its payment obligations in a timely manner) for payments owed under the Notes as and when they fall due and to make such payments on a fiduciary basis in its own name but for the account of the Guarantor. The Issuer's ability to satisfy its payment obligations under the Notes in full is therefore dependent upon it receiving in full the amounts payable to it by the Guarantor under the Trust Agreement.

Due to this trust structure, the Noteholders directly depend on the credit risk of the Guarantor (see "*Creditworthiness of the Guarantor*" below) rather than that of the Issuer. Any payment obligations of the Issuer under the Notes are limited to the funds received from the Guarantor under the Trust Agreement. To the extent the funds to be received from the Guarantor under the Trust Agreement

prove ultimately insufficient to satisfy the claims of all Noteholders in full, then any shortfall arising therefrom will be extinguished and no Noteholder has any further claims against the Issuer (subject, however, to the right to exercise any termination or early redemption rights). This applies irrespective of whether the Issuer would be able to make such payments out of other funds available to it.

Creditworthiness of the Guarantor

Pursuant to the Trust Agreement, the Guarantor is obliged to make available to the Issuer funds that equal the amount of any payments owed by the Issuer under the Notes as and when such payment obligations fall due and in a manner that allows the Issuer to fulfil its payment obligations in a timely manner. Due to this fiduciary issue structure the Noteholders depend solely and directly on the payments under the Trust Agreement and thus on the credit risk of the Guarantor (see "Issue of the Notes by Issuer on the account of the Guarantor and Limited Recourse" above).

Furthermore, the Guarantor has unconditionally and irrevocably guaranteed the due and punctual payment of any amounts due and payable and/or the due and punctual physical delivery of securities deliverable under or in respect of the Notes. The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and of no other person, which will rank equally with all other unsecured contractual obligations of the Guarantor and behind preferred liabilities, including those mandatorily preferred by law.

The Guarantor issues and guarantees a large number of financial instruments, including the Notes, on a global basis and, at any given time, the financial instruments outstanding may be substantial. If investors purchase the Notes, they are relying upon the creditworthiness of the Guarantor and no other person and where the Notes relate to securities, they have no rights against the company that has issued such securities, and where the Notes relate to an index, they have no rights against the sponsor of such index and where the Notes relate to a fund, they have no rights against the manager of such fund. Further, an investment in the Notes is not an investment in the underlying assets and investors will have no rights in relation to voting rights or other entitlements (including any dividend or other distributions).

One or more independent credit rating agency(ies) may from time to time have assigned credit ratings to the Guarantor. These ratings may be subject to changes over time and they may not reflect all the factors which are relevant to determine the creditworthiness of the Guarantor. A credit rating is not a recommendation to buy, sell or hold any securities and may be revised or withdrawn by the relevant rating agency at any time. The change for the worse of the credit rating of the Guarantor has a negative effect on the value of the Notes.

Risks associated with the lack of independence of the Issuer and the Guarantor

Société Générale will act as the Guarantor of the Notes issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor in assuming its duties and obligations as the Guarantor and provider of the hedging instruments. Therefore, the possibility of conflicts of interest arising cannot be wholly eliminated.

Conflicts of interest

The Issuer and the Guarantor provide a full array of capital market products and advisory services worldwide including the issuance of Structured Notes where interest and/or principal is/are linked to the performance of underlying assets. The Issuer and the Guarantor and any of their subsidiaries and affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to the Noteholders. Such actions and conflicts may include, without limitation, the exercise of voting power, the purchase and sale of securities, financial advisory relationships and exercise of creditor rights. The Issuer, the Guarantor and any of their subsidiaries and affiliates have no obligation to disclose such

information about the underlying assets or the companies to which they relate. The Issuer, the Guarantor and any of their subsidiaries and affiliates and their officers and directors may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on any Note.

With regard to the Notes and/or Certificates and Italian Certificates, as the case may be, the Issuer and the Guarantor and any of their subsidiaries and affiliates may act in other capacities, such as market maker, calculation agent, selling agent, agent and/or index sponsor. Such functions can allow the Issuer and the Guarantor and any of their subsidiaries and affiliates to determine the composition of the Underlying or to calculate its value, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or the Guarantor or any of their subsidiaries and affiliates can be chosen to be part of the Underlying, or where the Issuer and the Guarantor and any of their subsidiaries and affiliates maintain a business relationship with the issuer of such securities or assets.

Hedging and trading activity by the Issuer or the Guarantor or their affiliates could potentially affect the value of the Notes

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Issuer, the Guarantor and/or any of their affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in a certain asset (including an index or a basket of indices or a share or a basket of shares or a commodity or a basket of commodities or a fund unit or a basket of fund units or futures contracts on the same) (each a **Reference Asset**) by reference to which Structured Notes are calculated or related derivatives. In addition, in connection with the offering of the Notes, the Issuer, the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to the Reference Asset(s) or related derivatives. In connection with such hedging or any market-making activities or with respect to proprietary or other trading activities by the Issuer, the Guarantor and/or the Group, the Issuer, the Guarantor and/or their affiliates may enter into transactions in the Reference Asset(s) or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the relevant Noteholders. The above situations may result in consequences which may adversely affect the value of the Notes.

Furthermore, the Issuer may issue additional Tranches of Notes (**Further Notes**) that are fungible with the Notes, or other bonds, notes or instruments that, while not fungible with the Notes, may be linked to a Reference Asset (**New Investment Products** and, together with the Further Notes, **Other Structured Notes**). If Other Structured Notes are issued, Société Générale is likely to make additional investments in the Reference Assets to hedge exposure incurred in connection with such transactions related to Other Structured Notes. Any such investment in Reference Assets of Other Structured Notes could adversely affect the performance of the Reference Asset, which, in turn, could adversely affect the trading value of the Notes and the Final Redemption Amount.

II. GENERAL, MARKET AND OTHER RISKS

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally.

The Notes are not covered by protection institutes

The Notes are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbands deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Furthermore, the Notes are also not covered by the Guarantee of the Federal Government given on 5 October 2008. In the case of the inability of the Issuer or the Guarantor to meet their obligations the investors could not rely on the above mentioned protection institutes.

Independent Review and Advice

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuer or the Dealer or any additional dealer or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Modification of the Terms and Conditions by resolutions of Noteholders

The Terms and Conditions of the Notes contain provisions in accordance with and subject to the German Bond Act for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. Such resolution might have negative impact on the financial situation of a single Noteholder.

Joint Representative

A Joint Representative might execute its rights contrary to the interests of a single Noteholder. The authorisation of the Joint Representative to exercise certain rights excludes the Noteholders of the entitlement to exercise such rights themselves.

Rescission (Anfechtung)

The Terms and Conditions provide provisions which allow the Issuer to declare a rescission (*Anfechtung*) in the case of obvious, evident or manifest errors included in the Terms and Conditions. Furthermore, the Issuer can combine the rescission with an offer to continue the Notes on the basis of amended Terms and Conditions. A prospective Noteholder should be aware that the yield out of the rescission might be below the expected yield of the Notes at maturity.

Assessment of Investment Suitability

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currency(ies), or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and

- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. Some Notes which are complex financial instruments may be redeemable at an amount below par in which case investors may lose the value of part or their entire investment.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available in relation to the tax treatment for financial instruments such as the Notes. Potential investors are advised not to rely upon the tax summary contained in this Base Prospectus and/or in the Final Terms but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only such adviser is in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Base Prospectus and the additional tax sections, if any, contained in the relevant Final Terms.

EU Savings Directive

Under EC Directive 2003/48/EC on the taxation of savings income (the **Savings Directive**), Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within their jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland). The current rate of the levy applicable to such payments is 35 per cent. An investor should note that as the result of this deduction the redemption amount paid might be less than expected.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Savings Directive.

Change of law

The conditions of the Notes (including any non-contractual obligations arising therefrom or connected therewith) are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws or the official application or interpretation of such laws, or administrative practices after the date of this Base Prospectus.

Legality of purchase

Neither the Issuer, the Dealer or any additional dealer nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it. This section does in no way limit the included responsibility statement.

No legal tax and advice

Each prospective investor should consult its own advisers as to legal, tax and related aspects about the risks entailed by an investment in the Notes. A Noteholder's effective yield on the Notes may be diminished by the tax on that Noteholder of its investment in the Notes.

A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs.

Performance of the Notes during the lifetime of the Notes

Attention should be paid to the fact that the performance of the Notes during their lifetime may not represent exactly the performance of the Underlying(s) and may therefore deviate materially from the redemption scenario at maturity. This may mainly affect Notes which are represented by financial instruments for the purpose of hedging by the Issuer or an affiliated company of the Issuer. In addition to the performance of the Underlying(s) the volatility, dividends, interest or other parameters might have a material effect on the performance of the Notes during their lifetime. Only at maturity the investor can claim the redemption amount which is provided by the Terms and Conditions of the Notes in respect to the value of the Underlying(s).

Notes whose interest and/or redemption amount is calculated by reference to a formula

Where an issue of Notes references a formula in the applicable Final Terms as the basis upon which the interest payable and/or the amount payable and/or assets deliverable on redemption is calculated potential investors should ensure that they understand the relevant formula and if necessary seek advice from their own financial adviser. In addition the effects of the formula may be complex with respect to expected amounts of interest and/or amounts payable and/or assets deliverable on redemption and in certain circumstances may result in increases or decreases in these amounts.

Transaction and other costs

As a consequence of transaction and other costs, the possible return on the Notes (if any) may be lower than expected. The ancillary costs incurred upon the purchase or sale of the Notes may significantly reduce or even exclude the profit potential of the Notes. Among others, they include distribution fees and provisions with which banks normally charge their customers (e.g. as fixed minimum commissions or as commissions which are dependent on the order value). To the extent that additional (domestic or foreign) parties are involved in the execution order, such as domestic dealers or brokers in foreign markets, the investors must take into account that they may also be charged with such parties brokerage fees, commissions and other fees and expenses (third party costs). In addition to these costs which are directly related to the purchase of the Notes, the investors must also take into account any follow-up costs of the purchase (such as custody fees). Before investing in the Notes, investors should therefore inform themselves about any costs incurred in connection with the purchase, custody or sale of the Notes.

Reinvestment Risk

Noteholders may be exposed to risks connected to the reinvestment of cash resources freed from any Note. The return the Noteholder will receive from a Note depends not only on the price and the nominal interest rate of the Note but also on whether or not the interest received during the term of the Note can be reinvested at the same or a higher interest rate than the rate provided for in the Note. The

risk that the general market interest rate falls below the interest rate of the Note during its term is generally called reinvestment risk. The extent of the reinvestment risk depends on the individual features of the relevant Note. This risk might be especially relevant in the case of Early Redemption of the Notes.

Inducements

The issue price of the Notes may be based on internal pricing models of the Issuer or the relevant Dealer and may be above their market value. The purchase price of the Notes may include issue premiums, the amount and range of which will be specified in the Final Terms. In addition, certain inducements may be granted by the Issuer/the Guarantor to investment services companies (or internally) in connection with the placement and the offer of the Notes as well as their listing. This includes, *inter alia*, placement commissions, volume dependent trailer commissions and discounts on the issue price (if applicable).

Mistrades

The regulations of trading centres may provide so called mistrade rules according to which trading participants may make a mistrade application in order to unwind transactions in traded Notes which are, according to the relevant applicant's opinion, not in line with the market or have arisen from technical malfunction. This may have adverse economic consequences on the affected investor.

Influence of Hedging Transactions of the Issuer

The Issuer and/or its affiliates may in the course of their business activity engage in trading in the relevant underlying(s) of Notes with underlying related interest and/or redemption. In addition, the Issuer and its affiliates may enter into transactions in order to partially or completely hedge the risks associated with the issuance of the Notes. These activities may have an influence on the value of the underlying(s) and therefore also on the market value of the Notes.

In special market situations, where the Issuer and/or its affiliates are completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices which may be quoted by the Issuer and/or its affiliates may be temporarily expanded, in order to limit the economic risks to the Issuer. Thus, Noteholders selling their Notes on an exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Notes at the time of sale.

Dependence on Third-Party Information

In the case of Notes with underlying related interest and/or redemption, the calculations made for the determination of the payments or deliveries to be made by the Issuer usually rely on information concerning the underlying(s) which are compiled by third parties. In the case of doubt, the accuracy of such information is not subject to the Calculation Agent's verifiability and it cannot be excluded that incorrect or incomplete information from these third parties will be perpetuated in these calculations and determinations of the Calculation Agent. Neither the Issuer nor the Calculation Agent assumes any liability for any such calculation error, save for own wilful default or gross negligence.

Underlying Counterparty Risks

The underlying of a Note may be subject to the risk of manager, broker, other key persons, exchange, depository, clearinghouse and counterparty insolvency as well as the risk of fraud and other criminal acts carried out by such entities or persons. The underlying could be lost or impounded during lengthy bankruptcy or other legal proceedings. Were a substantial portion of the underlying's capital tied up in a bankruptcy, trading may be suspended or limited, perhaps causing the underlying to miss significant profit opportunities. These risks may adversely affect the value of the underlying and correspondingly the value of and the payments under the Notes or even cause the value of the underlying (and

correspondingly the value of and the payments under the Notes) to be zero and result in a total loss of the capital invested.

Minimum Trading Amount

Investors should note that the Notes may have a minimum trading amount. In such cases, if following the transfer of any Notes, a holder holds fewer Notes than the specified minimum trading amount, such holder will not be permitted to transfer their remaining Notes prior to expiration or redemption, as applicable, without first purchasing enough additional Notes in order to hold the minimum trading amount.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

The number of issued Notes does not allow any conclusions on the liquidity of the Notes in the secondary market.

In the case of Italian Listed Certificates, the Issuer (or a third party appointed for this purpose) shall undertake to act as a market maker in relation to the Certificates and, therefore, to display continuous bid and offer prices that do not differ by more than the maximum spread indicated by Borsa Italiana S.p.A. (spread obligations) in its instructions to the listing rules of the markets managed and organised by Borsa Italiana S.p.A. (respectively, the **Instructions** and the **Listing Rules**), and/or in the instructions of the other regulated or unregulated markets with similar listing requirements, with the timing and for the quantity set out by the above mentioned Instructions.

In addition, Noteholders should be aware of the prevailing and widely reported global credit market conditions (which continue at the date of this Base Prospectus), whereby there is a general lack of liquidity in the secondary market for instruments similar to certain of the Notes which may be issued hereunder. Such lack of liquidity may result in investors suffering losses on the Notes in secondary resales even if there is no decline in the performance of the Notes, any underlying or reference, or the assets of the Issuer and/or the Guarantor. The Issuer cannot predict whether these circumstances will change and whether, if and when they do change, there will be a more liquid market for the Notes and instruments similar to the Notes at that time.

Although applications may be made for the Notes issued under the Programme to be listed and admitted to trading on any relevant stock exchange, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include

the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

As regards Floating Rate Notes, a key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them and therefore their investment return cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the notes provide for frequent interest payment dates, investors are exposed to reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to also issue Fixed Rate Notes may affect the market value and the secondary market (if any) of the Floating Rate Notes (and vice versa).

Credit ratings may not reflect all risks

One or more independent credit rating agency(ies) may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold Notes and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended by Regulation (EU) No. 513/2011, the "**CRA Regulation**") from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Market value of the Notes

The credit ratings of the Guarantor are an assessment of its ability to pay its obligations, including those on the offered Notes. Consequently, actual or anticipated declines in the credit ratings of the Guarantor may affect the market value of the relevant Notes.

In addition, the market value of the Notes will be affected by the creditworthiness of the Issuer and/or that of the Group and a number of additional factors, including the market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France and elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.

Investment Company Act

The Issuer has not registered with the United States Securities and Exchange Commission (the **SEC**) as an investment company pursuant to the Investment Company Act. Investors in the Notes will not have the protections of the Investment Company Act.

If the SEC or a court of competent jurisdiction were to find that the Issuer is required, but in violation of the Investment Company Act, has failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer could sue the Issuer and recover any damages caused by the violation; and (iii) any contract to which the Issuer is party that is made in, or whose performance involves, a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court was to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the Issuer be subjected to any or all of the foregoing, such Issuer would be materially and adversely affected.

Market Price Risk

The development of market prices of the Notes depends on various factors, such as creditworthiness of the Issuer respectively the Guarantor, changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates, deflation rates or the lack of or excess demand for the relevant type of Notes. The holder of Notes is therefore exposed to the risk of an unfavourable development of market prices of its Notes which materialises if the holder sells the Notes prior to the final maturity or, in the case of open end notes, before redemption of such Notes. The above described factors and accordingly the risks may be increased by the measures taken by governments in the context of the financial markets crisis.

A Note's purchase price may not reflect its fair (mathematical) value

The purchase price of a Note does not necessarily reflect its fair value. Any difference between a Note's purchase price and its fair value may be due to a number of different factors including, without limitation, prevailing market conditions and fees, discounts or commissions paid or accorded to the various parties involved in structuring and/or distributing the Note. For further information prospective investors should refer to the party from whom they are purchasing the Notes. Prospective investors may also wish to seek an independent valuation of Notes prior to their purchase.

Prices provided by the market maker

The prices provided by a market maker may deviate materially from the fair (mathematical) value respectively from the expected economic value of the Notes based on the above mentioned factors at

the relevant time. Additionally, the market maker may amend the methodology of fixing the provided prices at any time, e.g. by minimizing or extending the spread.

Risks relating to Revenues and Profitability due to Financial Markets Crises

The global capital markets are still exposed to particular instability influenced by factors such as the deterioration in the sub-prime mortgage market in the United States. The financial crisis that has followed the breakdown of the U.S. sub-prime mortgage market since summer 2007 has led to a worldwide economic downturn and has had considerable effects on the real economy around the globe. Economic forecasts signal a continued impact of the Financial Market Crisis also in 2011, the risk of a further increase in unemployment and inflation, leading to a general trend towards monetary tightening.

Additionally, prospective Noteholders should be aware of the financial risks based on material national debts caused by extraordinary public spending for bail-outs and economic stimulus packages in the Financial Market Crisis.

Financial markets crises may be caused – even unexpected – by various factors, in the most diverse fields of business, branches, (sub-)markets, countries and, among others, by individual companies or groups of companies. The globalisation of markets and the complexity of singular businesses, which interlink different fields of business or financial market segments one way or the other, have the consequence that crises – such as the one beginning in 2007 emanating from the sub prime segment of the US-mortgage markets – have effects beyond their origin and globally affect various market participants and sub market segments in different ways directly or indirectly, immediately or with temporarily delay – to some extent even for the longer term.

General loss of confidence in the markets, which usually has an across-the-board effect and neglects the consideration of individual companies, up to panic reactions by market participants – including “domino effects” for technical reasons – may be or have unfavourable consequences. As an example, the crisis beginning in 2007 particularly led to restrictions with regard to the supply of liquidity (*inter alia* through the increase of credit spreads in the market) and resulted in corrections of the valuation of assets and in supports of directly affected credit institutions and credit institutions which faced financial difficulties.

It cannot be excluded that this crisis will have a long term and lasting effect on the financial markets, the business cycle and the economic growth on which also the economic development of the Issuer and/or the Guarantor and/or any of their affiliates is dependent. Furthermore, it cannot be excluded that other crises will occur on the financial markets, which may have a significant direct negative effect on the business areas of the Issuer and/or the Guarantor and/or the Group and/or any of their affiliates and thereby on their assets and liabilities, financial position and profits and losses. The same applies with regard to the amounts to be paid under and the market value of the Notes.

III. RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common features, which may increase the risk of investing in such Notes:

Open End Notes

Potential investors who take into account to purchase Open End Notes should consider that this type of Notes does not have a determined maturity. Therefore, the duration of the Notes is dependent on an optional redemption, if any, elected by the Issuer (see also "*Notes subject to optional redemption by the Issuer*" below). If there is no secondary market, there might be no possibility for the investors to sell the Notes.

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notes subject to an automatic early redemption

The Notes may provide for an automatic early redemption linked to a specific event. In such a case the lifetime of the Notes expires automatically without a separate termination requirement of the Issuer. In such a case the investor will not participate in future performances of the Underlying(s).

Structured Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index and/or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a **Relevant Factor**). In addition, the Issuer may issue Notes with principal or interest payable in one or more currency(ies) which may be different from the currency in which the Notes are denominated.

Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) they may lose all or a substantial portion of their principal;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of an index should not be viewed as an indication of the future performance of such index during the term of any Structured Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an Investment in any Structured Notes or Dual Currency Notes and the suitability of such Notes in light of its particular circumstances.

Partly-Paid Notes

The Issuer may issue Notes where the issue price is payable in more than one part payment. Failure to pay any subsequent part payment could result in an investor losing some or all of his investment.

Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as EURIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Gearred Structured Notes

Structured Notes where the performance of an underlying is multiplied by a certain factor to determine the amounts payable by the Issuer are subject to increased volatility and risks. Changes in the value of the underlying have an intensified effect on the value of the Notes and lead to a higher risk of a total loss of the invested capital.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Zero Coupon Notes

Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and a comparable credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk.

Capital Protected Notes

If and to the extent that a certain amount has been declared protected in the relevant Final Terms, such protection does not necessarily lead to a protection of the invested capital at any given time during the life of the Notes and such protection may only apply on certain dates and subject to certain conditions. Even if a protection applies, the protected amount may be less than the invested capital. The payment of any protected amounts may be affected by the condition (financial or otherwise) of the Issuer and the Guarantor and an inability of the Issuer and/or the Guarantor to meet their obligations may cause a total loss of the capital invested by the investor.

Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount to or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Notes linked to certain events

The interest rate or redemption amount of certain Notes may be linked to the occurrence or non occurrence of certain events which are not connected with the Issuer or the Guarantor, such as credit, price levels, weather or sports events. The occurrence of such events is beyond the control of the Issuer and the Guarantor and Noteholders are exposed to the risk of such event occurring or not, as the case may be.

Notes redeemed by Physical Delivery

In the event of the Notes providing for a delivery of any underlying asset upon redemption (as specified in the applicable Final Terms), investors shall be required to make certain notifications and take other actions (e. g. to opt for physical delivery and giving an irrevocable notice) as set out in the Terms and Conditions. The delivery of such underlying asset will be subject to all applicable laws (including but not limited to tax laws which may lead to higher taxation and to a reduced return under the Notes or to no return at all), regulations and practices and the Issuer shall not incur any liability whatsoever if it is unable to deliver or procure the delivery of such underlying to the relevant holder of the Notes because of any such laws, regulations or practices. Each holder of a Note should be aware that if the Notes may be redeemed by physical delivery of the underlying (as specified in the relevant Final Terms), it shall be deemed to acknowledge its understanding and acceptance of this matter and to have made its own examination and assessment of its capacity and power to receive such underlying and not to have relied on any representation of the Issuer, the Paying Agents, Société Générale as Guarantor or as Calculation Agent under the Notes, or Société Générale's affiliates regarding this matter. In particular, the Issuer, the Paying Agents, Société Générale as Guarantor or as Calculation Agent under the Notes, or Société Générale's affiliates shall not be in any way responsible for checking the capacity and power of any holder of the Notes to have its Notes redeemed by delivery of the underlying (even if it has notice of any other facts and circumstances), and the relevant holder of any Note shall bear full responsibility for any consequences that may arise from the delivery to it of any underlying or, as the case may be, non-delivery as a consequence of such holder not having the required capacity and power to receive delivery of such underlying.

Knock-In/-Out Event(s)

Any redemption amount, interest payment or physical delivery amount in respect of a Note may be subject to the occurrence of a Knock-In Event or a Knock-Out Event. Such occurrence may affect adversely any such amount(s) to be received by a Noteholder which, in a worse case scenario, may be equal to zero.

Market disruptions and adjustments

The Terms and Conditions may include provisions under which upon the occurrence of certain market disruptions (as described therein) delays in the settlement of the Notes may be incurred or certain modifications be made to their terms. Furthermore, the Terms and Conditions may include provisions under which, upon the occurrence of certain events with regard to the Relevant Factor, modifications may be made with regard to such Relevant Factor and/or the Terms and Conditions and/or a substitution of the relevant Relevant Factor by another Relevant Factor and/or an early termination of the Notes by the Issuer may occur.

Limited/Capped Yield

The yield of the Notes might be capped at a certain level. Therefore, the investors might not participate in the performance of the Underlying above this limited yield.

Leverage

If the yield of the Notes is determined by reference to a factor greater than one or by reference to some other leverage factor, the effect of changes in the price or level of the Reference Asset will be magnified.

Notes with a leverage effect are very speculative and risky instruments, because a loss in the value of the Underlying comprises the risk of a material loss up to a total loss of the investment plus additional transaction costs.

Actions to be taken by the Issuer

The Issuer and/or any of its affiliates may carry out activities that minimise its and/or their risks related to the Notes, including effecting transactions for their own account or for the account of their customers and hold long or short positions in the underlying of a Structured Note whether for risk reduction purposes or otherwise. In addition, in connection with the offering of any Notes, the Issuer and/or any of its affiliates may enter into one or more hedging transaction(s) with respect to the underlying of a Structured Note. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any of its affiliates, the Issuer and/or any of its affiliates may enter into transactions in the underlying of a Structured Note which may affect the market price, liquidity or value of such underlying and/or the Notes and which could be deemed to be adverse to the interests of the Noteholders. Further, it is possible that the advisory services which the Issuer and/or its affiliates provide in the ordinary course of its/their business could lead to an adverse impact on the value of the underlying of a Structured Note.

Risk factors relating to Fund Linked Notes⁷

The fund units may be issued hedge funds or mutual funds (hereafter the underlying funds).

Investors should investigate the underlying fund(s) as if investing directly

To the extent the underlying(s) of a series of Notes include(s) a fund or portfolio of funds, investors should conduct their own diligence of the underlying fund(s) as they would if they were directly investing in the underlying fund(s). The offering of the Notes does not constitute a recommendation by Société Générale or any of its affiliates with respect to an investment linked to an underlying fund (including in respect of funds that are managed by managers affiliated with Société Générale). Investors should not conclude that the sale by the Issuer of the Notes is any form of investment recommendation by the Issuer or any of its affiliates to invest in the underlying fund(s).

Risks relating to underlying funds that are hedge funds

Fund units, and investments in hedge funds generally, are speculative and involve a high degree of risk. Neither the Issuer nor the Guarantor gives any assurance as to the performance of fund units.

To the extent the underlying(s) of a series of Notes include(s) a hedge fund or portfolio of hedge funds for a series of Notes, the Notes of such series will be subject to some of the risks of an investment in a hedge fund or portfolio of hedge funds. The lack of oversight and regulation associated with funds that are hedge funds may increase the likelihood of fraud and negligence by the fund's managers and/or the investment advisors, their brokerage firms or banks.

⁷ Statements in this section concerning funds and fund managers also apply to any portfolio of funds or basket of funds and any portfolio manager

Hedge funds may involve complex tax structures and delays in distributing important tax information and may have high fees and expenses that may offset the hedge fund's trading profits.

Substantial redemptions on a hedge fund on a particular day could require such funds to liquidate positions more rapidly than would be otherwise desirable.

Hedge funds, including the funds on which Structured Notes may be indexed, generally do not make information about their operations and holdings public. Even if the Issuer, the Guarantor or any affiliate of Société Générale may have arrangements with a fund's managers to obtain information required to calculate the value of the fund, it may not have access to the activities of the fund on a continuous basis or at all. There are currently no regulatory requirements compelling funds to release information of the kind that would allow the Issuer, the Guarantor or any affiliate of Société Générale to value a fund or to accurately determine the value of the fund units and, consequently, the Final or Early Redemption Amount of the relevant Notes.

Société Générale and certain of its affiliates from time to time obtain information regarding specific hedge funds that may not be available to the general public. Any such information is obtained by Société Générale and certain of its affiliates in the ordinary course of their businesses, and not in connection with the offering of the Notes (including in respect of funds that are managed by managers affiliated with Société Générale). In connection with the ordinary course of their businesses, Société Générale and certain of its affiliates may recommend, or determine not to recommend, specific hedge funds to their clients. Hedge funds as to which Société Générale and certain of its affiliates have formed investment recommendations may now or may in the future be among the underlying funds used in the redemption formula of Notes. Any views that may be held by Société Générale and certain of its affiliates with respect to the expected future performance of one or more of the funds (including in respect of funds that are managed by managers affiliated with Société Générale) would not be an indication of the future expected performance of the fund, and neither Société Générale nor any of its affiliates has formed a view with respect to the expected future performance of a fund.

Volatility of the markets may adversely affect the value of the fund units

Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility of the underlying fund(s) increases or decreases, the market value of the Notes may be affected.

Funds' performances (especially hedge funds) may be highly volatile. Movements in the net asset value of the fund tracked by the fund units may vary from month to month. Trades made by fund managers may be based upon their expectation of price movements as the relevant investments approach and reach maturity several months following initiation of the trades. In the meantime, the market value of positions may not increase, and may in fact decrease, and this will be reflected in the net asset value per share.

Investments made by the underlying funds can involve substantial risks. The nature of these investments means that the value of the fund units may fluctuate significantly during a day or over longer periods. Consequently, the performance of the fund units over a given period will not necessarily be indicative of future performance.

Market volatility may produce significant losses on the fund units.

The use of leverage may increase the risk of loss in the value of the fund units

The underlying funds may have recourse to leverage i.e. borrow amounts that represent more than 100 per cent. of the value of their assets to invest further in assets that involve additional risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss for the fund.

Funds managers may be eligible to earn incentive compensation

The potential for a fund manager to earn performance-based compensation (including a manager that is affiliated with Société Générale) may encourage such fund manager to trade in a more speculative manner than it otherwise would. Therefore, because the incentive compensation of the fund's managers and/or investment advisors to hedge funds is often directly influenced by the performance of such funds, each fund manager may consequently have an incentive to take greater risks when making investments that may result in greater profits. By taking greater risks when making investments consequently there is greater scope for significant losses. In addition, the fund's managers and/or the investment advisors may receive management, advisory or performance fees even though the fund has not realised any gains.

Funds managers' investments are not verified

Neither the Issuer, nor Société Générale as Guarantor or as Calculation Agent under the Notes, nor Société Générale's affiliates is or will be responsible for verifying or ensuring that the fund's managers comply with its stated trading strategy (including a manager that is affiliated with Société Générale).

The fund's managers (including a manager that is affiliated with Société Générale) do not have any obligations to the Noteholders, or other role in connection with the Notes, including any obligation to take the needs of the Noteholders into consideration for any reason. The fund's managers (including a manager that is affiliated with Société Générale) are not responsible for, and have not endorsed or participated in, the offering, placement, sale, purchase or transfer of the Notes. The fund's managers (including a manager that is affiliated with Société Générale) are not responsible for, and will not participate in, the determination or calculation of the amounts receivable by Noteholders.

Underlying funds that are hedge funds, are not subject to the same regulatory regime, or regulated to the same extent as, mutual funds or registered securities or securities offerings. Changes to the current regulatory environment could affect the investment, operations and structure of the underlying funds and could adversely affect the performance of the underlying funds.

The underlying funds may invest in assets that involve further risks and such risks may not be fully disclosed at the time of investment by the Issuer. The fund's managers and/or the investment advisors to hedge funds may invest in and trade in a variety of financial instruments using sophisticated investment techniques for hedging and non-hedging purposes. Such financial instruments and investment techniques include but are not limited to the use of leverage (i.e., borrowing money for investment purposes), short sales of securities, transactions that use derivatives such as swaps, stock options, index options, futures contracts and options on futures, transactions that involve the lending of securities to certain financial institutions, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. Furthermore, hedge funds may borrow an amount of more than 100 per cent. of its assets on a consistent basis to increase its leverage. While these investment strategies and financial instruments allow the fund's managers and/or the investment advisors the flexibility to implement a range of strategies in an attempt to generate positive returns for the fund, they also create the risk of significant losses that may adversely affect the fund.

Hedge funds may invest in securities listed or traded on foreign exchanges. The execution of transactions on foreign exchanges might involve particular risks including but not limited to: higher volatility, government intervention, lack of transparency, lack of regulation, currency risk, political risk and economic social instability.

Reliance on fund's managers and/or investment advisors of the underlying fund(s)

Investment in the Notes is speculative and entails substantial risks. The Final or Early Redemption Amount is based on changes in the value of the underlying fund(s), which fluctuates and cannot be predicted. Moreover, any persons relying on the performance of the underlying fund(s) should note that

such performance will depend to a considerable extent on the performance of the fund's managers and/or investment advisors of the fund(s). Neither the Issuer, nor Société Générale as Guarantor or as Calculation Agent under the Notes, nor Société Générale's affiliates are in a position to protect the Noteholders against fraud and misrepresentation by unaffiliated fund managers or the investment advisors. Investors should understand that they could be materially adversely affected by any such acts. Noteholders do not have and are not entitled to any beneficial interests in the underlying fund(s) and as such, have no recourse against the underlying fund(s), any investment advisor or manager either contractually or statutorily. Furthermore, as a practical matter, it may be difficult to bring an action, or to seek to enforce a judgment obtained in an action, against any of the aforementioned entities. In addition, the fund's managers and/or the investment advisors may be removed or replaced, the allocation of assets may vary from time to time and the various positions of the investments of the underlying fund(s) may be economically offsetting, all of which may affect the performance of the underlying fund(s).

The fund's managers and/or the investment advisors may manage or advise other funds and/or accounts and may have financial and other incentives to favour such other funds and/or accounts over the underlying fund(s). Also, the fund's managers and/or the investment advisors may manage or advise for their own accounts and the accounts of their clients and may make recommendations or take positions similar or dissimilar to those of the underlying fund(s) or which may compete with the underlying fund(s).

Fees, deductions and charges will reduce the Final or Early Redemption Amount

Fund fees will be deducted from the net asset value of the fund, reducing the value of the fund units. Accordingly, to the extent that the Final or Early Redemption Amount is linked to the net asset value of a fund, the Final or Early Redemption Amount payable to Noteholders will be less than it would have been absent these fees, deductions and charges, but Société Générale or one of its affiliates may be the beneficiary of such fees or obtain rebate on such fees from third parties.

Net Asset Value

The Issuer believes that the market value of the Notes will likely depend substantially on the then-current net asset value of the underlying fund(s). If an investor chooses to sell its Notes, such investor may receive substantially less than the amount that would be payable at any relevant payment date based on that net asset value because of, for example, possible market expectations that the net asset value of the underlying fund(s) will continue to fluctuate between such time and the time when the final net asset value of the underlying fund(s) is determined. Political, economic and other developments that affect the investments underlying the underlying fund(s) may also affect the net asset value of the underlying fund(s) and, thus the value of the Notes.

The illiquidity of the underlying fund's investments may cause the payment of the Final or Early Redemption Amount and/or any Intermediary Amount to be reduced or delayed

The intermediary amounts or final redemption amounts due to investors in Notes having funds as underlyings may be based on the redemption proceeds that would be paid in cash by the underlying fund to a hypothetical investor as a result of a valid and timely notice for redemption given by such hypothetical investor with effect as of the relevant valuation date. To meet a redemption request, the underlying fund would likely sell its own assets but such investments may not be readily saleable on or shortly after the valuation date for various reasons, including, but not limited to:

- infrequent redemption opportunities allowed by such underlying fund (for example, many hedge funds only allow monthly or quarterly liquidity);

- "gating"⁸, "lock-ups"⁹, side pockets¹⁰ or discretionary redemption delays or suspensions imposed by such underlying fund (for example, many hedge funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit);
- such underlying funds' own investments may be illiquid;

In these situations, (i) the payment of an intermediate amounts may be postponed by the Calculation Agent too soon after the date on which the underlying fund pays all the redemption proceeds in respect of a. valid and timely redemption order given after the occurrence of an event as described above or to the maturity date of the Notes and/or (ii) the payment of the final redemption amount will occur on the basis of the redemption proceeds paid by the underlying fund in respect of a valid and timely redemption order given after the occurrence an event described above. If the redemption proceeds have not been paid by the underlying fund on the maturity date of the Notes, the payment of the intermediate amounts or final redemption amounts, may be postponed after the maturity date up to a maximum period of two years. If at the expiry of this two-year period, the underlying fund has not paid in full the redemption proceeds, the intermediate and final redemption amounts shall be determined by the Calculation Agent on the basis of what has actually been paid by the underlying fund. The amount received by the investors in the Notes may be as low as zero.

In the case of the occurrence of certain extraordinary events affecting an underlying fund, such as but without limitation the insolvency, nationalisation or merger of the underlying fund, a resignation or termination or replacement of the administrator, custodian, investment adviser or manager of the fund, or a breach by the underlying fund of its investment strategy, the Calculation Agent may decide to terminate soon after the occurrence of such extraordinary event, the exposure of the Notes to the underlying fund and the intermediate amounts and/or the final redemption amounts and (i) pay any intermediate amount due to the investor in the Notes either immediately or at the maturity date on the basis of the redemption proceeds paid by the underlying fund in the liquidation of the exposure to such underlying fund and/or (ii) pay the final redemption amount at the maturity date on the basis of the redemption proceeds paid by the underlying fund in the liquidation of the exposure to such underlying fund. If the underlying fund is also subject to liquidity problems as described above, the postponement of the payment of the intermediate amounts and/or final redemption amount up to a maximum period of two years may also apply.

Given recent experience in the hedge fund industry, it is likely that such delay would have an adverse impact on the amount payable to you under the Notes.

If the underlying fund(s) invest(s) through a master-feeder structure, the latter may have an adverse effect on the underlying fund(s) and, therefore, the Notes

The underlying fund(s) may invest through a "master-feeder" structure. As such, the underlying fund(s) will contribute substantially part or all of its assets to the master fund and may do so alongside other investors, including other feeder funds. The relevant master fund may also establish or allow investment by additional investors or feeder funds in the future.

The master-feeder fund structure, in particular the existence of multiple investment vehicles investing in the same portfolio, presents certain unique risks to investors. The underlying fund(s) may be materially affected by the actions of other investors, investment vehicles and feeder funds investing in the master fund, particularly if such investors have large investments in the master fund. For example, if a larger investment vehicle or entity with a large investment in the master fund redeems from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to

⁸ Gating allows redemption requests to be reduced to a certain percentage of the fund's total assets during any redemption period

liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the master fund. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments; leaving remaining investors (including the underlying fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the underlying fund(s) and the Notes.

Certain business activities may create conflicts of interest with Noteholders

The Issuer and the Guarantor, or one or more of their affiliates, may engage in trading and other business activities relating to the underlying fund(s) or their underlying assets that are not for the Noteholders' accounts or on behalf of the Noteholders. These activities may present a conflict between a Noteholder's interest in the Notes and the interests the Issuer and the Guarantor, or one or more of their affiliates, may have in their proprietary account. Such activities may include, among other things, the exercise of voting power, financial advisory relationships, financing transactions, derivative transactions and the exercise of creditor rights, each of which may be contrary to the interests of the Noteholders. Any of these trading and/or business activities may affect the value of a underlying fund(s) and thus could be adverse to a Noteholder's return on the Notes. The Issuer, the Guarantor and their affiliates may engage in any such activities without regard to the Notes or the effect that such activities may directly or indirectly have on Notes of any series.

In addition, in connection with these activities, the Issuer, the Guarantor and/or their affiliates may receive information about the underlying fund(s) or their underlying assets that will not be disclosed to the Noteholders. The Issuer, the Guarantor and their affiliates have no obligation to disclose such information about the underlying fund(s) or the companies to which they relate.

Additional investments in, or withdrawals of amounts previously invested in, the fund may adversely affect the value of the fund units

In the ordinary course of their business, whether or not they will engage in any secondary market making activities, the Issuer, the Guarantor or one or more of their affiliates may effect transactions for their own account or for the account of their customers and hold long or short positions in the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives. In addition, in connection with the offering of any series of Notes and during the term of such series of Notes, each of the Issuer, the Guarantor or one or more of their affiliates in order to hedge its obligations under the Notes, may enter into one or more hedging transaction(s) with respect to the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives.

In connection with any of such hedging or any market making activities or with respect to proprietary or other such trading activities, the Issuer, the Guarantor and/or their affiliates may enter into transactions in the underlying fund(s), underlying assets of the underlying fund(s) and/or related derivatives which may affect the market price, liquidity or value of the underlying fund(s) or their underlying assets, and therefore the Notes. The Issuer, the Guarantor and/or any of their affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the performance of the underlying fund(s) or their underlying assets. Any of the above situations may result in consequences which may be adverse to a Noteholder's investment. The Issuer and the Guarantor assume no responsibility whatsoever for such consequences and their impact on a Noteholder's investment.

Investors should be aware that, as a result of hedging decisions by the hedging counterparty, transfers into or out of the fund by the hedging counterparty may affect the value of the fund units and, in turn, the Final or Early Redemption Amount of the Notes.

Furthermore, the Issuer may issue additional Tranches of Notes that are fungible with the Notes, or other bonds, notes or instruments that, while not fungible with the Notes, may be linked to an index with a component which has the underlying funds as the reference asset. If such Notes are issued, Société Générale is likely to make additional investments in the underlying funds to hedge exposure incurred in connection with such transactions related to such Notes. Any such investment in the underlying funds could adversely affect the performance of the fund units, which could adversely affect the trading value of the Notes and the Final or Early Redemption Amount.

Legal, tax and regulatory changes

Legal, tax and regulatory changes could occur during the term of the Notes that may adversely affect the underlying fund(s). The regulatory environment for hedge funds is evolving, and changes in the regulation of hedge funds may adversely affect the value of investments held by the underlying fund(s). In addition, the securities and futures markets are subject to comprehensive statutes, regulations and margin requirements. Regulators and self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The regulation of derivatives transactions and funds that engage in such transactions is an evolving area of law and is subject to modification by government and judicial action. The effect of any future regulatory change on the underlying fund(s) could be substantial and adverse and consequently adversely affect the value of the Notes.

No ownership rights in any underlying fund(s)

An investment in the Notes does not entitle Noteholders to any ownership interest or rights in any underlying fund(s), such as voting rights or rights to any payments made to owners of the underlying fund(s). Instead, a Note represents a notional investment in the underlying fund(s). The term "notional" is used because although the value of the underlying fund(s) will be used to calculate your payment under the Notes, your investment in the Notes will not be used to purchase interests in the underlying fund(s) on your behalf.

The Issuer, or an affiliate, may purchase interests in the underlying fund(s) in order to hedge its obligations under the Notes but it is under no obligation to do so. Such interests, if any, are the separate property of the Issuer or such affiliate and do not secure or otherwise underlie the Notes. Therefore, in the event of a failure to pay the Final or Early Redemption Amount by the Issuer under the Notes, you will have no beneficial interest in or claim to any such interests in the underlying fund(s). Accordingly, any claims by you pursuant to the terms and conditions of such Notes will be *pari passu* with all other unsecured, unsubordinated, unconditional creditors of the Issuer.

Risk factors relating to Structured Notes

Where payments (whether in respect of principal and/or interest and whether at maturity or otherwise) on Structured Notes are calculated by reference to an index, or a basket of indices or a share or a basket of shares, the creditworthiness of any reference entity or reference obligation or a basket of reference entities or reference obligations, a commodity or a basket of commodities (or futures contracts on the same) (each a **Reference Asset**), the return of the Notes is based on changes in the value of the Reference Asset, which fluctuates. Changes in the value of the Reference Asset cannot be predicted. Although historical data with respect to the Reference Asset is available, the historical performance of the Reference Asset should not be taken as an indication of future performance.

Investors' yield may be lower than the yield on a standard debt security of comparable maturity

Unlike conventional fixed rate or floating rate debt securities, Structured Notes whose payments (whether in respect of principal and/or interest and whether at maturity or otherwise) are calculated by reference to an index, may not provide investors with periodic payments of interest.

Further, with respect to the Final or Early Redemption Amount, the effective yield to maturity of the Notes may be less than that which would be payable on a conventional fixed rate or floating rate debt security. The return of only the Final or Early Redemption Amount of each Note at maturity may not compensate the holder for any opportunity cost implied by inflation and other factors relating to the value of money over time.

Adjustment or substitution – Early redemption of the Notes

The Calculation Agent may, in certain circumstances, proceed to adjustments or substitutions, or even decide the early redemption of the Notes, in particular upon the occurrence of events affecting the underlying instrument(s). In the absence of manifest or proven error, these adjustments, substitutions or early redemption decisions will be binding upon the Issuer, the Guarantor, the Agent and the Noteholders. The Issuer may also have a discretionary right to redeem the Notes early. In all such cases, the early redemption of the Notes may result in the total or partial loss of the amount invested.

Risk factors relating to Structured Notes based on indices

Return does not reflect dividends

Depending upon the calculation methodology of an index, where the performance of an index is taken into account in order to calculate payments due under the Structured Notes the payment of income (such as dividends for an index that has stocks as underlyings) may not be reflected as the index may be calculated by reference to the prices of the underlyings comprising the index without taking into consideration the value of any income paid on those underlying assets. Therefore, the yield to maturity of Structured Notes referring to an index may not be the same as the yield that would be produced if such underlying assets were purchased and held for a similar period.

Risks relating to an index

Structured Notes based on an index are subject to risks broadly similar to those attending any investment in a broadly-based portfolio of assets including, without limitation, the risk that the general level of prices for such assets may decline. The following is a list of some of the significant risks associated with an index:

- historical performance of the index does not indicate the future performance of the index. It is impossible to predict whether the value of the index will fall or rise during the term of the Notes; and
- if the index comprises underlying stocks, the trading prices of the stocks underlying the index will be influenced by political, economic, financial, market and other factors. It is impossible to predict what effect these factors will have on the value of any asset related to the index and, in turn, the return on the Notes.

The policies applied by an index sponsor (including a sponsor that is affiliated with Société Générale) concerning additions, deletions and substitutions of the assets underlying the index and the manner in which the index sponsor takes account of certain changes affecting such underlying assets may affect the value of the index. The policies of an index sponsor with respect to the calculation of an index could also affect the value of the index. An index sponsor may discontinue or suspend calculation or dissemination of information relating to its index. Any such actions could affect the value of the Notes.

In addition, indices may be subject to management and other fees as well as charges that are payable to the index sponsor(s) and which can reduce the Final Redemption Amount payable to the Noteholders. Such fees may be paid to index sponsors that are affiliates of Société Générale.

Conflicts of interest in connection with indices

The composition of, and the methodologies used in connection with, certain indices to which Notes are linked may be determined and selected by Société Générale or one of its affiliates. In selecting such methodologies, Société Générale or the relevant affiliate of Société Générale, can be expected to have regard to its own objectives and interests and/or those of the Group and there is no guarantee that the methodologies selected will not be less favourable to the interests of investors than methodologies used by other index sponsors in comparable circumstances.

If the hedging activities of Société Générale or one of its affiliates in connection with a particular index are disrupted, Société Générale or the relevant affiliate may decide to terminate calculations in relation to such index sooner than another index sponsor would do so in comparable circumstances. Such a termination may trigger the early redemption of the Notes.

Risk factors relating to Structured Notes based on baskets

For Structured Notes based on baskets the redemption amount may be dependent on a specific condition which has to be fulfilled by every basket component. In the case that this condition is not fulfilled by one of the basket components this might lead to a partial or total loss of the investment.

The basket components may be weighted equal or have different weighting factors. Every prospective Noteholder should be aware that the smaller the weighting factor of the basket component, the smaller the influence of this component on the basket value. Subject to the weighting factor even one basket component with a negative performance may be material for the yield of the Note. Even if the performance of one or several basket components is positive the performance of the whole basket may be negative.

The Issuer may be entitled to change the composition of the basket during the lifetime of the Notes subject to certain circumstances.

In the case of a Note which refers to many underlyings (e.g Notes based on a basket of a selection of shares) the risk may be exponentiated or accumulated in comparison to a single underlying as every component of these underlyings might be decisive for the performance of the Note.

Conflicts of interest

If the Notes are based on a basket which is composed or calculated by Société Générale and/or its affiliates a potential conflict of interest exists between the role of Société Générale as basket calculation agent and its obligation as Guarantor and Agent of these Notes.

Risk factors relating to Structured Notes based on life insurance contracts

The performance of life insurance contracts is subject to a multitude of factors on which the Issuer has no influence. Among others, they include various political, economic and tax related conditions, which might influence the value of the relevant insurance contract(s). Due to incorrect information or manipulations by the insured persons the maturity of the insurance contract(s) and thereby of the value of the insurance contract(s) might be expressed wrongly. The insurance company of which the insurance contract(s) is/are the underlying of the Notes may become insolvent or go bankrupt. The insurance company of which the insurance contract(s) is/are the underlying of the Notes may take actions that may adversely affect the value of the Notes.

Risk factors relating to Structured Notes based on dividends

A holder of the Notes will not be a beneficial owner of the relevant shares or other securities and therefore will not be entitled to receive any of the underlying dividends paid on the relevant shares or other securities, nor will a Noteholder be entitled to purchase the underlying shares or other securities by virtue of their ownership of the Notes. Moreover, holders of the Notes will not be entitled to any

voting rights or other control rights that holders of the relevant shares or other securities may have with respect to the issuer of such shares or other securities. The Final Redemption Amount might not reflect the payment of the dividends on a one to one basis. Accordingly, the return on the Notes might not reflect the return an investor would realise if he actually owned the relevant shares or other securities and actually received dividends, if any, paid on those securities. Furthermore, the amount and payment of dividends is subject to a multitude of factors on which the Issuer has no influence and falls in the absolute discretion of the issuer of the relevant shares or other securities and therefore dividends might not be paid at all. The issuer of the shares or other securities may take actions, which will adversely affect the value of the Notes.

Risk factors relating to Structured Notes based on unit linked features (accounting unit)

The performance of unit linked features (accounting unit) is subject to a multitude of factors on which the Issuer has no influence. Among others, they include various economic factors and speculations and such other factors which are inherent to the rights and assets which are comprised in or expressed by the relevant unit linked feature (accounting unit). It should also be noted that the past returns of unit linked feature(s) (accounting unit(s)) are not necessarily indicative of their future performance.

Risk factors relating to Equity Linked Notes based on shares

No beneficial interest in the underlying shares

A holder of the Notes will not be a beneficial owner of the underlying shares and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying shares, nor will a Noteholder be entitled to purchase the underlying shares by virtue of its ownership of the Notes. Moreover, holders of the Notes will not be entitled to any voting rights or other control rights that holders of the underlying shares may have with respect to the issuer of such underlying shares. The Final or Early Redemption Amount will not reflect the payment of any dividends on the underlying shares. Accordingly, the return on the Notes will not reflect the return you would realise if you actually owned the underlying shares and received dividends, if any, paid on those securities. Therefore, the yield to maturity based on the methodology for calculating the Final or Early Redemption Amount will not be the same yield as would be produced if the underlying shares were purchased directly and held for a similar period.

Limited antidilution protection

The Calculation Agent may make adjustments to elements of the Notes. The Calculation Agent is not required to make an adjustment for every corporate event that may affect the underlying shares. Those events or other actions by the issuer of underlying shares or a third party may nevertheless adversely affect the market price of the underlying shares and, therefore, adversely affect the value of the Notes. The issuer of underlying shares or a third party could make an offering or exchange offer or the issuer of underlying shares could take another action that adversely affects the value of the underlying shares and the Notes but does not result in an adjustment.

Risks arising from conduct of issuers of shares

The issuers of underlying shares are not involved in the offer of the Notes in any way and have no obligation to consider your interest as a holder of the Notes in taking any corporate actions that might affect the value of the Notes. The issuers of underlying shares may take actions that will adversely affect the value of the Notes.

Risk factors relating to Commodity Linked Notes

Commodity Linked Notes may be redeemed by the Issuer at their par value and/or by payment of an amount determined by reference to the value of the underlying asset(s). Accordingly, an investment in Commodity Linked Notes may bear similar market risks to a direct investment in the relevant commodities and investors should take advice accordingly. Interest payable on Commodity Linked

Notes may be calculated by reference to the value of one or more underlying asset(s). The value of the underlying asset(s) may vary over time and may increase or decrease by reference to a variety of factors which may include global supply and demand of commodities to which the underlying asset(s) refer, production and selling activities of the respective commodities by producers, central banks and international organisations, demand for end-products based on the respective commodity, net investment demand and industrial demand.

Risk factors specific to Notes linked to Futures on Commodities or to Commodity Future Index

Due to the term structure of future prices of commodities, also included in a Commodity Future Index, the price of the Notes might be influenced in a negative way for the Noteholders, depending on any difference between the price of the Future on Commodities to be substituted and the price of Future on Commodities following such substitution. In particular, as the future contracts (also component of a Commodity Future Index) come to expiration, they are replaced by contracts that have a later expiration. Thus, for example, a contract purchased and held in May may specify a July expiration. As time passes, the contract expiring in July is replaced by a contract with a later expiry, for example, August. This is accomplished by selling the July contract and purchasing the August contract. This process is referred to as “rolling”. If the market for these contracts is (putting aside other considerations) in “backwardation”, where the prices are lower in the distant expiry months than in the nearer expiry months, the sale of the July contract would take place at a price that is higher than the price of the August contract, thereby creating a “roll yield”. If, on the contrary, the market for future contracts is in “contango” the prices of contracts are higher in the distant expiry months than in the nearer expiry months. The absence of backwardation in the market for a commodities futures contract could result in negative “roll yields,” which could adversely affect the value of an index or index tied to that contract.

Risk factors relating to Credit Linked Notes

In the event of the occurrence of certain circumstances (which may include, amongst other things, Bankruptcy, Failure to Pay, Obligation Acceleration, Obligation Default, Repudiation/Moratorium or Restructuring) in relation to a Reference Entity, with respect to Basket Notes and Tranche Notes, Reference Entities, in each case as specified in the applicable Final Terms, the obligation of the Issuer to pay principal at maturity may be replaced by (i) an obligation to pay other amounts which are equal to either certain fixed amount(s) as specified in the applicable Final Terms or amounts calculated by reference to the value of the underlying asset(s) (which may, in each case, be less than the par value of the Notes at the relevant time) and/or (ii) an obligation to deliver the underlying asset(s). In addition, interest-bearing Credit Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstances. Noteholders may even suffer a total loss of their investments, including the transaction costs.

Accordingly, Noteholders may be exposed to fluctuations in the creditworthiness of the Reference Entities to the full extent of their investment in the Credit Linked Notes.

Under the terms of the Notes, where Société Générale acts as Calculation Agent, it may, for the purposes of determining the Cash Settlement Amount or the Physical Delivery Amount following one or more Credit Event(s), select obligations with the lowest price of any obligations which meet the relevant criteria. In making such selection, the Calculation Agent will not be liable to account to the Noteholders or any other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from such selection.

The Cash Settlement Amount may be equal to zero if it is not possible to obtain quotations from Quotation Dealers for the selected obligations.

Settlement

If Transaction Auction Settlement Terms are not published within a certain period and if it is not possible to obtain quotations from Quotation Dealers for the Selected Obligations within a further

period, the Final Value of the Selected Obligations will be deemed to be zero and therefore the Cash Settlement Amount will be equal to zero. This would lead to a total loss for the investor. In addition, the above-mentioned periods between Credit Event and valuation may amount to as many as 180 Business Days following the date on which the existence of a Credit Event is established, therefore, settlement, or as the case may be, notice that no amount is due under the Credit Linked Notes, may occur several months after the relevant Credit Event on a date which may be much later than the Scheduled Maturity Date of the Notes.

Risk factors relating to Currency Linked Notes

The performance of currencies is subject to a multitude of factors on which the Issuer has no influence. Among others, they include various economic factors, speculations and potential interventions by central banks and government agencies (including exchange controls and restrictions).

Risk factors relating to Bond Linked Notes

The market value of bonds is influenced by the creditworthiness of the issuer of the relevant bond, by the general interest level, the remaining term until maturity as well as by the liquidity of the market. The performance of the bonds further depends on other factors including economic, financial and political events which affect the capital markets in general and, in the case of listed bonds, the exchanges (if applicable) on which the bonds are traded. These factors may have a negative impact on the value of the Bond Linked Notes. Past performances of a bond are not an indicator for future performances.

Risks factors specific to Italian Listed Certificates

Certificates may embed an option and, therefore, have some features common to options. Transactions involving options imply high risks and it is advisable that investors who intend to trade in options have a certain degree of experience and knowledge of the functioning of options.

The investment in options is characterised by a high degree of volatility and it is possible that the value of the option at its exercise date becomes zero. In such case, the investor will lose the amount invested to purchase the option.

On the one hand, an investor which intends to buy a call option on an underlying asset whose market price is much lower than the price that would make the exercise of the option profitable (i.e. the option is deep out of the money) shall take into account that the possibility to gain a profit is unlikely. On the other hand, an investor wishing to buy a put option on an underlying asset whose market price is much higher than the price at which the exercise of the option is lucrative, shall consider that the exercise of the option is unlikely to be profitable.

Since the value of the options is intertwined with the underlying asset its performance depends on the value of the latter. Hence, any investment in certificates implies risks related to the value of the underlying asset. In this respect, please see above "*Risk Factors relating to Structured Notes the redemption amount of which is linked to the performance of one or more fund unit(s)*", "*Common risk factors relating to Structured Notes based on shares or indices or commodities (or futures contracts on the same)*", "*Risks factor relating to Structured Notes based on indices*" and "*Risks factor relating to Structured Notes based on shares*".

IMPORTANT NOTICES

This Base Prospectus comprises a separate base prospectus in respect of Société Générale Effekten GmbH for the purposes of Article 5.4 of Directive 2003/71/EC (as amended by Directive 2010/73/EU (the 2010 PD Amending Directive)) (the Prospectus Directive).

This Base Prospectus does not constitute a "prospectus" for the purposes of the Prospectus Directive in respect of any Notes (i) involving an offer to the public outside the European Economic Area (EEA) (if so specified in the applicable Final Terms) or of a type listed in Article 3.2 of the Prospectus Directive and (ii) which are not admitted to trading on a regulated market under Article 3.3 of the Prospectus Directive (any such Notes, "Private Placement Notes").

CERTAIN ISSUES OF NOTES MAY NOT BE SUITABLE INVESTMENTS FOR ALL INVESTORS. NO INVESTOR SHOULD PURCHASE A NOTE UNLESS SUCH INVESTOR UNDERSTANDS, AND IS ABLE TO BEAR THE YIELD, MARKET LIQUIDITY, STRUCTURE, REDEMPTION AND OTHER RISKS ASSOCIATED WITH THE NOTE. FOR FURTHER DETAILS, SEE THE SECTION HEADED "RISK FACTORS" HEREIN.

The Issuer and the Guarantor (each, a **Responsible Person** and together, the **Responsible Persons**) are solely responsible for the information contained in this prospectus. They declare that, to the best of their knowledge, the information contained in this prospectus is accurate and does not contain any material omissions.

Subject as provided in the applicable Final Terms, the only persons authorised to use this Base Prospectus in connection with an offer of Notes are the persons named in the applicable Final Terms as the relevant Purchaser or the Managers and the persons named in or identifiable following the applicable Final Terms as the Financial Intermediaries, as the case may be.

Copies of Final Terms will be available free of charge from the head office of each of Société Générale Effekten GmbH and the specified office of each of the Paying Agents, in each case at the address given at the end of this Base Prospectus (provided that Final Terms relating to Private Placement Notes will only be available for inspection by a holder of such Notes upon production of evidence satisfactory to the Issuer or Paying Agent as to its holding of such Notes and identity).

This Base Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see the section headed "*Documents Incorporated by Reference*") and any supplements hereto. This Base Prospectus shall be read and construed on the basis that such documents are incorporated in, and form part of, this Base Prospectus. Full information on the Issuer, the Guarantor and any Tranche of Notes issued hereunder is only available on the basis of the combination of this Base Prospectus, any supplements and the relevant applicable Final Terms.

Any additional dealer appointed under the Programme has not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility is accepted by any additional dealer appointed under the Programme as to the accuracy or completeness of the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Responsible Persons. Any additional dealer appointed under the Programme does not accept any liability in relation to the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Responsible Persons in connection with the Programme or the Notes.

No person is or has been authorised by the Issuer or the Guarantor to give any information or to make any representation not contained in or not consistent with this Base Prospectus, any supplements, the applicable Final Terms or any other information supplied in connection with the Programme or the Notes and consequently, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Guarantor and the Dealer or any additional dealer.

Neither this Base Prospectus, any supplement(s), the relevant applicable Final Terms nor any other information supplied in connection with the Programme or the Notes should be considered as a

recommendation or a statement of opinion (or a report on either of those things) by the Issuer, the Guarantor and the Dealer or any additional dealer that any recipient of this Base Prospectus, any supplement(s), the relevant applicable Final Terms or any other information supplied in connection with the Programme or the Notes should purchase any Notes. Each Investor contemplating purchasing any Notes should have sufficient knowledge and experience in financial and business matters, and access to, and knowledge of, appropriate analytical resources, to evaluate the information contained in this Base Prospectus and in the relevant Final Terms (if any) and the merit and risks of investing in the Notes in the context of their financial position and circumstances. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the Notes constitutes an offer or invitation by or on behalf of the Issuer, the Guarantor and the Dealer or any additional dealer to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Issuer or the Guarantor is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme or the Notes is correct as of any time subsequent to the date indicated in the document containing the same. Every significant new factor or material mistake relating to the information included in the prospectus which is capable of affecting the assessment of the securities and which arises or is noted after the time the prospectus is approved and before the final closing of the offer to the public or the time when the quotation of the securities commences or trading on an organised market begins, will be mentioned in a supplement to the prospectus. Any additional dealer appointed under the Programme expressly does not undertake to review the financial condition or affairs of any of the Issuer or the Guarantor during the life of the Programme or to advise any investor in the Notes of any information coming to their attention.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. Provided that the distribution or offering is conducted by a third party the Issuer and the Guarantor do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuer, the Guarantor, and the Dealer- or any additional dealer which is intended to permit a public offering of any Notes outside the EEA or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Note comes must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes (See the section headed "*Subscription and Sale*").

This Base Prospectus has been prepared on the basis that, except to the extent subparagraph (ii) below may apply, any offer of Notes in any Member State of the EEA which has implemented the Prospectus Directive (each, a **Relevant Member State**) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate,

approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent subparagraph (ii) above may apply, neither the Issuer nor the Dealer has authorised, nor does it authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or the Dealer to publish or supplement a prospectus for such offer.

The Guarantor or its affiliates do not assume any obligation to purchase any Notes or to establish or maintain a market liquidity, and no assurances can be given that a liquid market will develop for the Notes issued under the Programme.

All references in this document to euro, Euro, EUR and € refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended.

IN CONNECTION WITH THE ISSUE OF ANY TRANCHE OF NOTES, THE DEALER OR ANY ADDITIONAL DEALER NAMED AS THE STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN THE APPLICABLE FINAL TERMS MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF A STABILISING MANAGER) WILL UNDERTAKE STABILISATION ACTION. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE RELEVANT TRANCHE OF NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE OF NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE OF NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

The delivery of these Final Terms at any time does not imply that the information in it is correct as any time subsequent to this date.

The purchase of the Notes issued under the Debt Issuance Programme is associated with certain risks. Each prospective investor in Notes must ensure that the complexity and risks inherent in the Notes are suitable for its investment objectives and are appropriate for itself or the size, nature and condition of its business, as the case may be. No person should deal in the Notes unless that person understands the nature of the relevant transaction and the extent of that person's exposure to potential loss. Each prospective purchaser of Notes should consider carefully whether the Notes are suitable for it in the light of its circumstances and financial position.

The investor should only invest in the Notes if it is able to understand the Conditions. All investors should be versed in respect of the Notes and should particularly understand and comprehend the yield of the Notes (*Leistungsversprechen*) promised by the Issuer and the Guarantor in its entirety. If this is not the case, an investment in the Notes is not advised.

Prospective investors in Notes should consult their own legal, tax, accountancy and other professional advisers to assist them in determining the suitability of the Notes for them as an investment.

CONDITION 1 - FORM, DENOMINATION, TITLE AND REDENOMINATION

The Notes are issued in bearer form in [*In the case of Table in Condition 1 being applicable, insert: the currency as defined in the Table in Condition 1*] [*Insert specified currency*] (the **Specified Currency**) in [the aggregate principal amount [of] [*Insert aggregate principal amount*]] (the **Aggregate Principal Amount**) [*In the case of Table in Condition 1 being applicable, insert: as defined in the Table in Condition 1*], divided into Notes in the specified denomination [*In the case of Table in Condition 1 being applicable, insert: as defined in the Table in Condition 1*] [of] [*Insert specified denomination*] (the **Specified Denomination**) each.

[*In the case of Credit Linked Notes, insert any other applicable provisions, if necessary: [●]*]

The Notes are [represented by a permanent global bearer Note (a **Permanent Global Note**)] [initially represented by a temporary global bearer Note (a **Temporary Global Note**)] without interest coupons. [The Permanent Global Note] [Each of the Temporary Global Note and the Permanent Global Note] shall bear the manual or facsimile signatures of two duly authorised officers of the Issuer.

[*In the case of Notes which are represented by a Temporary Global Note, add the following provision:*

The Temporary Global Note will be exchangeable, free of charge to the Noteholder, on or after its Exchange Date (as defined below), in whole or in part, upon certification as to non-U.S. beneficial ownership in the form set out in the Temporary Global Note for a Permanent Global Note (the Temporary Global Note and the Permanent Global Note, each a **Global Note**) without interest coupons.

For the purposes of this Condition 1:

Exchange Date means a day falling not earlier than 40 days after the date of issue of the Temporary Global Note.]

The right of the Noteholders to require the issue and delivery of definitive Notes [or interest coupons] is excluded.

[The Permanent Global Note] [Each of the Temporary Global Note and the Permanent Global Note] will be held in custody by or on behalf of [Clearstream Banking AG, Frankfurt (**Clearstream Banking, Frankfurt** or **CBF**)] [a depositary common to Clearstream Banking, *société anonyme*, Luxembourg (**Clearstream Banking, Luxembourg** or **CBL**) and Euroclear Bank S.A./N.V., as operator of the Euroclear system (**Euroclear**)] [Euroclear France (**Euroclear France**)] [a depositary or nominee for purposes of introducing the Notes into the clearing system operated by [*Insert other clearing system*]]

([together,] the **Clearing System[(s)]**) until all obligations of the Issuer under the Notes have been satisfied.

The Issuer may (if so specified in the applicable Final Terms), on any Interest Payment Date as specified in the applicable Final Terms, without the consent of the Noteholders, in accordance with Condition 13, and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not only some, of the Notes of any Series into Euro and adjust the Aggregate Principal Amount and the Specified Denomination(s) set out hereon accordingly, as described above. The date on which such redenomination becomes effective shall be referred to in these Terms and Conditions as the **Redenomination Date**.

The redenomination of the Notes pursuant to the above paragraph shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Agent that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments.

If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 13. Any balance remaining from the redenomination with a denomination higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to Noteholders by the Issuer.

Upon redenomination of the Notes, any reference hereon to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified hereon, the Issuer may, with prior approval of the Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 15, without the consent of the Noteholders, make any changes or additions to these Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition or Condition 17 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Noteholders. Any such changes or additions shall, in the absence of manifest error, be binding on and shall be notified to Noteholders in accordance with Condition 17 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

CONDITION 2 - STATUS OF THE NOTES AND THE GUARANTEE

(a) *Status of the Notes*

The obligations under the Notes constitute direct, unconditional, unsubordinated and, subject to the Guarantee, unsecured limited recourse obligations of the Issuer and shall at all times rank *pari passu* and without any preference or priority among themselves.

The payment obligations of the Issuer under the Notes (save for certain obligations preferred by mandatory provisions of statutory law) shall rank *pari passu* with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

(b) *Guarantee*

The Guarantor has given an unconditional and irrevocable guarantee dated 9 February 2012 (the **Guarantee**) for the due and punctual payment of principal of, and interest on, and any other amounts expressed to be payable under the Notes and/or the due and punctual physical delivery of securities deliverable under or in respect of the Notes for the benefit of the Noteholders.

CONDITION 3 - NEGATIVE PLEDGE

The Guarantor will not, so long as any of the Notes [or any receipts or coupons relating thereto] remain outstanding, create or have outstanding a Security Interest (as defined below) other than a Permitted Security Interest (as defined below) upon, or with respect to, any of its present or future business, undertaking, assets or revenues (including any uncalled capital) to secure any Relevant Indebtedness (as defined below), unless the Guarantor, in the case of the creation of a Security Interest, before or at the same time and, in any other case, promptly, takes any and all action necessary to ensure that:

- (i) all amounts payable by it under the Notes [and the coupons] are secured by the Security Interest equally and rateably with the Relevant Indebtedness; or
- (ii) such other Security Interest or other arrangement (whether or not it includes the giving of a Security Interest) is provided as approved by an extraordinary resolution (duly passed by a majority of not less than three-fourths of the votes cast) of the Noteholders.

For the purposes of this Condition 3:

Permitted Security Interest means (i) any Security Interest created or outstanding upon any property or assets (including current and/or future revenues, accounts, receivables and other payments) of the Guarantor arising out of any securitisation or other similar structured finance transaction involving such property or assets where the primary source of payment of any obligations secured by such property or assets is the proceeds of such property or assets (or where the payment of such obligations is otherwise supported by such property or assets) and where recourse to the Guarantor in respect of such obligations does not extend to defaults by the obligors in relation to such property or assets; or (ii) a lien arising solely by operation of law.

Relevant Indebtedness means (i) any present or future indebtedness (whether being principal, premium, interest or other amounts) for or in respect of any notes, certificates, bonds, debentures (including, without limitation, *obligations*, as such term is defined for the purposes of French law) or other securities, of the Guarantor, which are for the time being quoted, listed or ordinarily dealt in on any stock exchange or regulated securities market and (ii) any guarantee or indemnity of any such indebtedness.

Security Interest means any mortgage, charge, lien, pledge or other encumbrance.

CONDITION 4 - INTEREST

[(a) *Interest on Fixed Rate Notes*

(i) Unadjusted Fixed Rate Notes

Unless otherwise specified in the applicable Final Terms, each Unadjusted Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except in the case of Notes where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated by applying the Rate of Interest to, in the case of Fixed Rate Notes which are Notes represented by a global Note, the aggregate outstanding nominal amount of the Notes of the relevant Series (or, if they are Partly Paid Notes, the aggregate amount paid up) and multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (as defined below) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise as specified in the applicable Final Terms.

(ii) Adjusted Fixed Rate Notes

Unless otherwise specified in the applicable Final Terms, each Adjusted Fixed Rate Note bears interest from (and including) the Interest Commencement Date specified in the applicable Final Terms, and such interest will be payable in respect of each Interest Period and in arrear on the Interest Payment Date(s) in each year specified in the applicable Final Terms; provided that (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) the **Following Business Day Convention**, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (B) the **Modified Following Business Day Convention**, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or
- (C) the **Preceding Business Day Convention**, such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

[If other Business Day Convention is applicable in respect of the Fixed Rate Notes, give details here and in the applicable Final Terms: [●]]

and the expression **Interest Payment Date** shall be construed accordingly.

For the purposes of this Condition 4(a):

Fixed Rate Note means a Note which bears a fixed rate of interest.

Unadjusted Fixed Rate Note means a Fixed Rate Note in respect of which the interest amount and the Interest Payment Date remain unchanged and are calculated as provided in Condition 4(a)(i) above.

Adjusted Fixed Rate Note means a Fixed Rate Note in respect of which the interest amount and the Interest Payment Date are subject to modification in accordance with Condition 4(a)(ii) above.

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

Day Count Fraction means:

if **30/360** is specified in the applicable Final Terms and the Notes are Fixed Rate Notes, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

if **Actual/Actual (ICMA)** is specified in the applicable Final Terms:

- (A) if the Interest Period (from and including the first day of such period but excluding the last) is equal to or shorter than the Determination Period during which the Interest Period ends, the number of days in such Interest Period (from and including the first day of such period but excluding the last) divided by the product of (A) the number of days in such Determination Period and (B) the number of Determination Dates (as specified in Condition 4 (a)) that would occur in one calendar year; or
- (B) if the Interest Period is longer than the Determination Period during which the Interest Period ends, the sum of: (A) the number of days in such Interest Period falling in the Determination Period in which the Interest Period begins divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in Condition 4 (a)) and (B) the number of days in such Interest Period falling in the next Determination Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in Condition 4 (a)) that would occur in one calendar year.

Interest Period means, unless otherwise specified in the applicable Final Terms, the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next Interest Payment Date or such other period as is specified in the applicable Final Terms;

Determination Period means the period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date).

Determination Date means the date specified as such in the applicable Final Terms.

[If other Day Count Fraction is applicable in respect of the Fixed Rate Notes, give details here and in the applicable Final Terms: [●]]

Notes may provide for a method of calculating interest on Fixed Rate Notes which does not require any Day Count Fraction as interest payable on each specified Interest Payment Date is determined by applying a fixed specified percentage to the Specified Denomination as it shall be detailed here in the applicable Final Terms and/or Schedule thereto.]

[(b) Interest on Floating Rate Notes

(i) Interest Payment Dates

(A) The Notes bear interest on their principal amount from (and including) [Insert Interest Commencement Date] (the **Interest Commencement Date**) to (but excluding) the first Interest Payment Date and thereafter from (and including) each Interest Payment Date to (but excluding) the next following Interest Payment Date (each, an **Interest Period**). Interest on the Notes shall be payable in arrears on each Interest Payment Date.

(B) **Interest Payment Date** means:

In which event (i) the Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls [[Insert number] months] [Insert other specified periods] after the preceding applicable Interest Payment Date.]

[If Following Business Day Convention is specified in the applicable Final Terms, insert: postponed to the next day which is a Business Day.]

[If Preceding Business Day Convention is specified in the Final Terms, insert: the immediately preceding Business Day.]

Notwithstanding the foregoing, where the applicable Final Terms specify that the relevant Business Day Convention is to be applied on an **unadjusted** basis, the amount of interest (the **Interest Amount**) payable on any date shall not be affected by the application of such Business Day Convention.

- (D) In this Condition 4(b) "**Business Day**" means (unless otherwise stated in the applicable Final Terms) a day which is both:

Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to each Specified Denomination and rounding the resulting figure *[If the Specified Currency is Euro insert: to the nearest 0.01 Euro, 0.005 Euro being rounded upwards.] [If the Specified Currency is not Euro insert: to the nearest minimum unit of the Specified Currency, with 0.005 of such unit being rounded upwards.]* Where any Interest Period comprises two or more Interest Periods, the Interest Amount payable in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Periods.

(iv) *Minimum and/or Maximum Rate of Interest*

Subject to the provisions of Condition 4(b) (ii) (**Alternative 2**):

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(v) *Notification of Rate of Interest and Interest Amount*

Any such amendment will

be promptly notified to any stock exchange on which the Notes are listed and to the Noteholders in accordance with Condition 13.

(vi) *Determinations Binding*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4 by the Agent or the Calculation Agent (if applicable) shall (in the absence of manifest error) be binding on the Issuer, the Guarantor, the Agent, the Calculation Agent (if applicable), the Paying Agent(s) and the Noteholders. No liability to the Issuer, the Guarantor or the Noteholders shall attach to the Agent or the Calculation Agent (if applicable) in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(vii) *Accrual of Interest*

The Notes shall cease to bear interest as from the beginning of the day on which they are due for redemption. If the Issuer shall fail to redeem the Notes when due, interest shall not cease to accrue on (and including) the day which precedes the due date, but shall continue to accrue until (and including) the day which precedes actual redemption of the Notes. If at any time after the issuance of the Notes a Gross up Event (as defined below) occurs, the Notes may be redeemed (in whole but not in part) at the option of the Issuer at their Early Redemption Amount (as defined in Condition 6(f)) [together (if applicable) with accrued interest to but excluding the date of redemption] *[In the case of Notes other than Floating Rate Notes or any other interest bearing Notes in respect of which the Rate of Interest is not calculated on a fixed rate basis (variable interest Notes), insert: at any time] [In the case of Floating Rate Notes or variable interest Notes insert: on any Interest Payment Date]* upon giving not less than 30 nor more than 60 days' notice to the Noteholders in accordance with Condition 13, provided that no such notice of redemption may be given earlier than 90 days prior to the earliest date on which the Issuer would be for the first time obliged to pay the Additional Amounts.

Any notice given in accordance with the above paragraph shall be irrevocable, must specify the date fixed for redemption and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

Gross up Event means the occurrence of an event where the Issuer has or will become obliged by a legislative body, a court or any authority to pay Additional Amounts pursuant to Condition 7 or the Guarantor has or will become obliged to pay Additional Amounts in respect of payments due under the Guarantee or the Trust Agreement dated 24 February 2006 between the Issuer and the Guarantor as a result of any change in or amendment to the laws (or any rules or regulations thereunder) of the Federal Republic of Germany or France or any political subdivision or any authority of or in the Federal Republic of Germany or France (each a **Tax Jurisdiction**), or any change in or amendment to any official interpretation or application of those laws or rules or regulations, and that obligation cannot be avoided by the Issuer and/or the Guarantor taking reasonable measures it (acting in good faith) deems appropriate.

(ii) Special Tax Redemption

If the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment of principal or interest in respect of the Notes, be prevented by the law of a Tax Jurisdiction from causing payment to be made to the Noteholders of the full amount then due and payable, then the Issuer or the Guarantor, as the case may be, shall forthwith give notice of such fact to the Agent and the Issuer or the Guarantor, as the case may be, shall, upon giving not less than seven (7) nor more than forty five (45) days' prior notice to the Noteholders in accordance with Condition 13, forthwith redeem all, but not only some, of the Notes at their Early Redemption Amount, together, if appropriate, with accrued interest, on

the latest practicable Interest Payment Date on which the Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Notes, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice to Noteholders shall be the later of:

[If the Redemption at the option of the Noteholders is also specified in the applicable Final Terms insert:

In respect of any Note, any notice given by the Issuer pursuant to this Condition 6(c) shall be void and of no effect in relation to that Note in the event that, prior to the giving of such notice by the Issuer, the Noteholder of such Note has already delivered a Put Notice in relation to that Note in accordance with Condition 6 (d).]

The appropriate notice of redemption given by the Issuer to the Noteholders in accordance with Condition 13 shall specify:

- whether such Tranche or Series is to be redeemed in whole or in part only and, if in part only, the aggregate principal amount of the Notes which are to be redeemed;

[In the case of redemption of only some of the Notes, the Notes to be redeemed will be selected in accordance with the rules of the relevant Clearing System.]

The Issuer will inform, if required by the stock exchange on which the Notes are listed, such stock exchange, as soon as possible of such redemption.

[If the [No] Redemption at the option of the Noteholders is specified in the applicable Final Terms, insert the following paragraph (d):

(d) [No] Redemption at the option of the Noteholders

[Alternative 1: *if there is no right to early redemption of the Notes at the option of the Noteholders, the following applies:* The Noteholders shall not be entitled to put the Notes for early redemption otherwise than provided in Condition 9.]

[Alternative 2: *If there is a right to early redemption of the Notes at the option of the Noteholders, the following applies:* The Noteholders may require the Issuer to redeem any Note, upon the holder of any Note giving not less than [fifteen (15)] *[Insert Other Minimum Notice Period to the Issuer]* nor more than [thirty (30)] *[Insert Other Maximum Notice Period to the Issuer]* days' notice. The Issuer will, upon the expiry of such notice, redeem in whole (but not in part) such Note on the Put Redemption Date set forth below together with accrued interest, if any, to (but excluding) the Put Redemption Date.

Put Redemption Date	Put Redemption Amount
[•]	[•]

To exercise the right to require redemption of a Note, the Noteholder, if the Note is represented by a Global Note, must, within the notice period, give notice to the Agent of such redemption (a **Put Redemption Notice**) in accordance with the standard procedures of the relevant Clearing System, in a form acceptable to it.

The Put Redemption Notice must specify (i) the principal amount of the Notes in respect of which such option is exercised, and (ii) the securities identification number of such Notes, if any. The Issuer shall only be required to redeem Notes in respect of which such option is exercised against delivery of such Notes to the Issuer or to its order.

Any Put Redemption Notice given by a Noteholder of any Note pursuant to this Condition 6(d) shall be:

- irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and is continuing in which event such Noteholder, as its option, may elect by notice to the Issuer to withdraw the Put Redemption Notice given pursuant to this Condition 6(d) and instead declare such Note forthwith due and payable pursuant Condition 9[; and]

[If Notes are also subject to Redemption at the option of the Issuer the following applies:

- void and of no effect in relation to such Note in the event that, prior to the giving of such Put Redemption Notice by the relevant Noteholder, the Issuer had notified the Noteholders of its intention to redeem all of the Notes in a Series then outstanding, in each case pursuant to Condition 6(c).

[If the Notes are subject to repurchase by the Issuer insert the following paragraph (e):

(e) Purchase

The Issuer may at any time purchase Notes in the open market or otherwise and at any price. Such acquired Notes may be cancelled, held or resold.

(f) Early Redemption Amount

Early Redemption Amount means [the principal amount of the Notes] [plus accrued interest to but excluding the date of redemption] [and all outstanding Arrears of Interest] [the Amortised Face Amount] [*In the case of Structured Notes or if "Market Value" is specified in the applicable Final Terms, insert: the amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Notes immediately prior (and ignoring the circumstances leading) to such early redemption, adjusted to account fully for any reasonable expenses and costs of unwinding any underlying and/or related hedging and funding arrangements (including, without limitation any equity options, equity swaps or other instruments of any type whatsoever hedging the Issuer's obligations under the Notes).*] [*Insert other applicable provisions: [●]*]

[If the Notes subject to early redemption are Zero Coupon Notes, the following paragraphs shall be added to Condition 6(f) to provide for early redemption:

- (i)* Subject to the provisions of subparagraph (ii) below, the **Amortised Face Amount** of any such Note shall be the sum of (x) [*Insert reference price*] (the **Reference Price**) and (y) the product of [*Insert the Accrual Yield*] (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable.
- (ii)* If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 6(b) or upon it becoming due and payable as provided in Condition 9 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Face Amount of such Note as defined in subparagraph (i) above, except that such subparagraph shall have effect as though the date fixed for the redemption or the date on which the Note becomes due and payable were the date on which notice of receipt of the full amount has been given to the Noteholders in accordance with Condition 13.

Where such calculation is to be made for a period of less than one (1) year, it shall be made on the basis of the Day Count Fraction (as defined in Condition 4 above).]

[In the case of Physical Delivery Notes, insert any other applicable provisions here and in the applicable Final Terms: [●]

[In the case of Structured Notes, insert any other applicable provisions here and in the applicable Final Terms: [●]

CONDITION 7 – TAXATION

All payments in respect of the Notes or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction, unless such withholding or deduction is required by law.

In the event that any amounts required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the Issuer or the Guarantor (as the case may be) shall, to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Noteholder, after withholding or deduction of such taxes, duties, assessments or governmental charges, will receive the full amount then due and payable provided that no such additional amount shall be payable with respect to any Note:

- (i) the Noteholder of which is liable to such taxes, duties, assessments or governmental charges in respect of such Note by reason of its being connected with the Federal Republic of Germany or France (as the case may be) other than by the mere holding of such Note; or
- (ii) presented for payment more than thirty (30) days after the Relevant Date (as defined below), except to the extent that the Noteholder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth (30th) day assuming that day to have been a Payment Business Day (as defined in Condition 5(e)); or
- (iii) in respect of an issue of Notes which have been privately placed, if the applicable Final Terms indicate that no such additional amounts shall be payable; or
- (iv) where such withholding or deduction (a) is imposed on a payment to an individual beneficial owner or a residual entity and is required to be made pursuant to European Council Directive 2003/48/EC on the taxation of savings income or any law (whether in or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directive or (b) is required to be made pursuant to any agreements between the European Community and other countries or territories providing for measures equivalent to those laid down in the EU Savings Tax Directive or any law or other governmental regulation implementing or complying with, or introduced in order to conform to, such agreements; or
- (v) presented for payment by or on behalf of a Noteholder who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a Member State of the European Union.

For the purposes of this Condition 7:

Tax Jurisdiction means the Federal Republic of Germany or France (as the case may be) or any political subdivision or any authority of the Federal Republic of Germany or France (as the case may be) that has power to tax; and

Relevant Date means whichever is the later of the date on which the payment in question first becomes due and, if the full amount payable has not been received by the Agent on or prior to that due date, the date on which notice of receipt of the full amount has been given to the Noteholders in accordance with Condition 13.

CONDITION 8 – PRESENTATION, PRESCRIPTION

(a) *Presentation*

The period for presentation of Notes due, as established in § 801 paragraph 1 sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch*), is reduced to ten (10) years.

(b) *Prescription*

The period for prescription for Notes presented for payment during the presentation period shall be two (2) years beginning at the end of the relevant presentation period.

CONDITION 9 – EVENTS OF DEFAULT

(a) *Events of Default*

Each Noteholder shall be entitled to declare its Notes due and demand immediate redemption thereof at the Early Redemption Amount (as described in Condition 6 (f) [, together with accrued interest (if any)]) to the date of repayment, if any of the events below occurs and is continuing:

- (i) the Issuer or the Guarantor fails to pay, for any reason whatsoever, any amount due under the Notes within 30 days from the relevant due date; or
- (ii) the Issuer or the Guarantor is in default in the performance of any other obligation arising from the Notes or the Guarantee, as the case may be, which default is not capable of remedy or, if such default is capable of being remedied by the Issuer or the Guarantor, such default has not been so remedied within 60 days after the Agent has received written notification thereof from a Noteholder; or
- (iii) the Issuer or the Guarantor suspends payment or announces its inability to pay its debts (*Zahlungsunfähigkeit*); or
- (iv) insolvency or court composition proceedings are commenced before a court against the Issuer or the Guarantor, as the case may be, which shall not have been discharged or stayed within 60 days after the commencement thereof, or the Issuer or the Guarantor, as the case may be, institutes such proceedings or suspends payments or offers or makes a general arrangement for the benefit of all its creditors; or
- (v) the Issuer or the Guarantor, as the case may be, enters into a winding up or dissolution or liquidation, unless such a winding up or dissolution or liquidation is to take place in connection with a merger, consolidation or other combination with another company and such company assumes all obligations of the Issuer or the Guarantor, as the case may be, under these Conditions.

The right to declare Notes due shall terminate if the situation giving rise to it has been cured before the right is exercised.

(b) *Notice*

Any notice, including any notice declaring Notes due, in accordance with subparagraph (a) of this Condition shall be made by means of a written declaration in the English language delivered by hand or registered mail to the specified office of the Agent together with proof that such Noteholder at the time of such notice is a holder of the relevant Notes. The Notes shall be redeemed following receipt of the notice declaring Notes due.

CONDITION 10 – LIMITED RECOURSE

The Issuer and the Guarantor have entered into a trust agreement (the **Trust Agreement**) pursuant to which the Issuer shall, *inter alia*, (i) issue and redeem the Notes on a fiduciary basis (*treuhänderisch*) in its own name but for the account of the Guarantor; (ii) collect any proceeds resulting from the issuance of the Notes and forward them to the Guarantor; and (iii) use only the funds made available to it by the Guarantor under the Trust Agreement (which funds shall equal the amount of any payments owed by the Issuer under the Notes as and when such payment obligations fall due and in a manner that allows the Issuer to fulfil its payment obligations in a timely manner) for payments owed under the Notes as and when they fall due and to make such payments on a fiduciary basis in its own name but for the account of the Guarantor. The Issuer's ability to satisfy its payment obligations under the Notes in full is therefore dependent upon it receiving in full the amounts payable to it by the Guarantor under the Trust Agreement.

Any payment obligations of the Issuer under the Notes shall therefore be limited to the funds received from the Guarantor under the Trust Agreement. To the extent such funds prove ultimately insufficient to satisfy the claims of all Noteholders in full, then any shortfall arising therefrom shall be extinguished and no Noteholder shall have any further claims against the Issuer, regardless of whether the Issuer would be able to fulfil its payment obligations under the Notes out of its own funds, provided that the foregoing shall be without prejudice to the right to exercise any termination or early redemption rights.

The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent. If, in connection with any Series of Notes, the Calculation Agent is Société Générale, its appointment will be governed by the terms of the Calculation Agency Agreement set out in the Appendix to the Agency Agreement. - (i) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes and, if service of process *vis-à-vis* the Substitute Debtor would have to be effected outside the Federal Republic of Germany, appoints a process agent within the Federal Republic of Germany;
- (ii) the Substitute Debtor has obtained all necessary authorisations and approvals for the substitution and the fulfilment of the obligations in respect of the Notes and may transfer to the Agent in the currency required hereunder and without being obligated to deduct or withhold any taxes or other duties of whatever nature levied by the country in which the Substitute Debtor or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Notes;
- (iii) the Substitute Debtor has agreed to indemnify and hold harmless each Noteholder against any tax, duty, assessment or governmental charge imposed on such Noteholder in respect of such substitution;

The purchase of the Certificates issued under the Debt Issuance Programme is associated with certain risks. Each prospective investor in Certificates must ensure that the complexity and risks inherent in the Certificates are suitable for its investment objectives and are appropriate for itself or the size, nature and condition of its business, as the case may be. Each prospective purchaser of Certificates should consider carefully whether the Certificates are suitable for it in the light of its circumstances and financial position.

The investor should only invest in the Certificates if it is able to understand the Terms and Conditions. All investors should be versed in respect of the Certificates and should particularly understand and comprehend the yield of the Certificates (*Leistungsversprechen*) promised by the Issuer and the Guarantor in its entirety. If this is not the case, an investment in the Certificates is not advised.

Prospective investors in Certificates should consult their own legal, tax, accountancy and other professional advisers to assist them in determining the suitability of the Certificates for them as an investment.

TERMS AND CONDITIONS OF THE ITALIAN CERTIFICATES

*The following, together with the Technical Annex (if applicable), are the Terms and Conditions (the **Conditions**) of the Italian Certificates to be issued under German law. The applicable Final Terms in relation to any Tranche of Italian Certificates may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Conditions, complete the following and meet the purpose of such Italian Certificates.*

The provisions of these Conditions apply to the Italian Certificates as completed in whole or in part, by the applicable Final Terms, which are attached hereto and which together with the Conditions will apply to the Italian Certificates to be issued under the Debt Issuance Programme and will be endorsed on, attached to or incorporated by reference into each Global Certificate.

*Without prejudice to the foregoing paragraph, when the Certificates qualify as securities (the **Securities**) to be distributed in Italy, the term “Certificates” shall be deemed to be instead to “Italian Certificates” (the **Italian Certificates**, which expression shall include Italian Certificates to be listed for admission to trading on SeDeX and/or to be admitted to trading on other regulated or unregulated markets with similar listing requirements, the **Italian Listed Certificates**) in all applicable provisions*

This Certificate is one of a Series (as defined below) of Certificates. Reference herein to the **Issuer** shall be references to Société Générale Effekten GmbH, as specified in the applicable Final Terms (as defined below) and in the case of any substitution of the Issuer in accordance with Condition 12, the **Substitute Debtor** as defined in Condition 12).

References herein to the **Certificates** shall be references to the Certificates of this Series and shall mean (i) in relation to any Certificate(s) represented by a global Certificate, units of each Specified Denomination in the Specified Currency of issue and (ii) any global Certificate in bearer form (a **Global Certificate**)

References herein to **Holder** in relation to any Certificates shall mean the holders of the Certificates and shall, in relation to any Certificates represented by a Global Certificate, be construed as provided below.

References herein to “Monte Titoli S.p.A.” (as defined below) shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms and approved by the Issuer, the Guarantor, the Agent, and in the case of Certificates listed in the Italian Stock Exchange, the Italian Stock Exchange.

The final terms for this Certificate (or other relevant provisions thereof) are set out in Part A of the Final Terms that are endorsed on, attached to, incorporated by reference in, this Certificate and which complete these terms and conditions (the **Conditions**). The applicable final terms (or other relevant provisions thereof) complete these Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Conditions, replace or modify these Conditions for the purposes of this Certificate.

References herein to the **applicable Final Terms** are to Part A of the Final Terms (or other relevant provisions thereof) and, if applicable, the schedule to the applicable Final Terms (the **Schedule**), which applicable Final Terms are endorsed on, attached to, incorporated by reference in, this Certificate.

References herein to **Tranche** shall mean Certificates which are identical in all respects and references herein to **Series** shall mean a Tranche of Certificates together with any further Tranche or Tranches of Certificates which are (a) expressed to be consolidated and form a single Series and (b) identical in all respects except for their respective Issue Date and/or Issue Price.

References herein to **Physical Delivery Certificates** shall mean any Series of Certificates specified as such in the applicable Final Terms in respect of which an amount of principal and/or interim amount

is payable and/or (by reference to any underlying security or asset described in the applicable Final Terms (the **Underlying Asset(s)**) a physical delivery amount (the **Physical Delivery Amount**) (being the number of Underlying Asset(s) plus/minus any amount due to/from the Holder in respect of each Certificate) is deliverable and/or payable, in each case by reference to one or more Underlying Asset(s) as indicated in the applicable Final Terms.

In these Conditions, the **Guarantor** shall mean Société Générale in its capacity as guarantor pursuant to the Guarantee (as defined in Condition 2(b)) in respect of any Certificates issued by the Issuer. Accordingly, references herein to the Guarantor are applicable only in the context of such Certificates.

BASIC TERMS

CONDITION 1 - FORM, DENOMINATION, TITLE AND REDENOMINATION

The Certificates are issued in bearer form in the Specified Currency (the **Specified Currency**) in the Aggregate Number of Securities (the **Aggregate Number of Securities**), divided into Certificates in the Specified Denomination (the **Specified Denomination**) each, specified in the applicable Final Terms. Certificates of one Specified Denomination may not be exchanged for Certificates of another Specified Denomination.

The Certificates may be represented by a permanent global bearer Certificate (a **Permanent Global Certificate**) or initially represented by a temporary global bearer Certificate (a **Temporary Global Certificate**). The Temporary Global Certificate and/or the Permanent Global Certificate shall bear the manual or facsimile signatures of two duly authorised officers of the Issuer.

The Temporary Global Certificate and/or the Permanent Global Certificate will be deposited in the central clearing system managed by Monte Titoli S.p.A. (**Monte Titoli**, also referred to as the **Clearing System**). As better described below, the Certificates will be transferred in accordance with dematerialised securities regulations contained under the Italian legislative decree and subsequent implementing provisions.

The Temporary Global Certificate will be exchangeable, free of charge to the Holder, on or after its Exchange Date (as defined below), in whole or in part, upon certification as to non-U.S. beneficial ownership in the form set out in the Temporary Global Certificate for a Permanent Global Certificate (the Temporary Global Certificate and the Permanent Global Certificate, each a **Global Certificate**) without interest coupons.

For the purposes of this Condition:

Exchange Date means a day falling not earlier than forty (40) days after the date of issue of the Temporary Global Certificate.

The right of the Holders to require the issue and delivery of definitive Certificates is excluded.

The circulation of Certificates centralised with Monte Titoli will be made pursuant to the Italian legislative decree and subsequent implementing provisions.

The Certificates are freely transferable by way of book entries on the accounts registered on the settlement system of Monte Titoli.

In the case of Italian Listed Certificates, the Certificates may be transferred in lots at least equal to the Minimum Tradable Lot (as defined in Condition 6 (g) or multiplies thereof pursuant to the Listing Rules of Borsa Italiana S.p.A. and/or the rules of any other regulated or unregulated markets with similar listing requirements as specified in the applicable Final Terms in relation to each Series.

The Issuer may (if so specified in the applicable Final Terms), on any Fixed Amount Payment Date or Interim Payment Date as specified in the applicable Final Terms, without the consent of the Holders, in

accordance with Condition 13, and on or after the date on which the European Member State in whose national currency the Certificates are denominated has become a participating Member State in the third stage of the European Economic and Monetary Union (as provided in the Treaty on the Functioning of the European Union (the **EU**), as amended from time to time (the **Treaty**)) or events have occurred which have substantially the same effects (in either case, **EMU**), redenominate all, but not only some, of the Certificates of any Series into Euro and adjust the Aggregate Number of Securities and the Specified Denomination(s) set out hereon accordingly, as described above. The date on which such redenomination becomes effective shall be referred to in these Conditions as the **Redenomination Date**.

The redenomination of the Certificates pursuant to the above paragraph shall be made by converting the principal amount of each Certificate from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 140 of the Treaty and rounding the resultant figure to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards), provided that, if the Issuer determines, with the agreement of the Agent that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Holders, the stock exchange (if any) on which the Certificates may be listed and the Paying Agents of such deemed amendments.

If the Issuer so elects, the figure resulting from conversion of the principal amount of each Certificate using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Certificates so determined shall be notified to Holders in accordance with Condition 13. Any balance remaining from the redenomination with a denomination higher than 0.01 Euro shall be paid by way of cash adjustment rounded to the nearest 0.01 Euro (with 0.005 Euro being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to Holders by the Issuer.

Upon redenomination of the Certificates, any reference hereon to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified hereon, the Issuer may, with prior approval of the Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 15, without the consent of the Holders, make any changes or additions to these Conditions which it reasonably believes to be necessary or desirable to give effect to the provisions of this Condition or Condition 17 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of the Holders. Any such changes or additions shall, in the absence of manifest error, be binding on and shall be notified to Holders in accordance with Condition 17 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to any Holder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

CONDITION 2 - STATUS OF THE CERTIFICATES AND THE GUARANTEE

(a) Status of the Certificates

The obligations under the Certificates constitute direct, unconditional, unsubordinated and, subject to the Guarantee, unsecured limited recourse obligations of the Issuer and shall at all times rank *pari passu* and without any preference or priority among themselves.

The payment obligations of the Issuer under the Certificates (save for certain obligations preferred by mandatory provisions of statutory law) shall rank *pari passu* with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

(b) *Guarantee*

The Guarantor has given an unconditional and irrevocable guarantee dated 9 February 2012 (the **Guarantee**) for the due and punctual payment of principal of, and interest on, and any other amounts expressed to be payable under the Certificates and/or the due and punctual physical delivery of securities deliverable under or in respect of the Certificates for the benefit of the Holders.

CONDITION 3 - NEGATIVE PLEDGE

The Guarantor will not, so long as any of the Certificates remain outstanding, create or have outstanding a Security Interest (as defined below) other than a Permitted Security Interest (as defined below) upon, or with respect to, any of its present or future business, undertaking, assets or revenues (including any uncalled capital) to secure any Relevant Indebtedness (as defined below), unless the Guarantor, in the case of the creation of a Security Interest, before or at the same time and, in any other case, promptly, takes any and all action necessary to ensure that:

- (i) all amounts payable by it under the Certificates are secured by the Security Interest equally and rateably with the Relevant Indebtedness; or
- (ii) such other Security Interest or other arrangement (whether or not it includes the giving of a Security Interest) is provided as approved by an extraordinary resolution (duly passed by a majority of not less than three-fourths of the votes cast) of the Holders.

For the purposes of this Condition 3:

Permitted Security Interest means (i) any Security Interest created or outstanding upon any property or assets (including current and/or future revenues, accounts, receivables and other payments) of the Guarantor arising out of any securitisation or other similar structured finance transaction involving such property or assets where the primary source of payment of any obligations secured by such property or assets is the proceeds of such property or assets (or where the payment of such obligations is otherwise supported by such property or assets) and where recourse to the Guarantor in respect of such obligations does not extend to defaults by the obligors in relation to such property or assets; or (ii) a lien arising solely by operation of law.

Relevant Indebtedness means (i) any present or future indebtedness (whether being principal, premium, interest or other amounts) for or in respect of any notes, certificates, bonds, debentures (including, without limitation, *obligations*, as such term is defined for the purposes of French law) or other securities, of the Guarantor, which are for the time being quoted, listed or ordinarily dealt in on any stock exchange or regulated securities market and (ii) any guarantee or indemnity of any such indebtedness.

Security Interest means any mortgage, charge, lien, pledge or other encumbrance.

CONDITION 4 - INTERIM PAYMENT

(a) *Fixed Amount(s)*

The Fixed Amount(s) shall be payable on the Fixed Amount Payment Date(s) specified in the applicable Final Terms.

Certificates may provide for a method of calculating Fixed Amount(s) which does not require any day count fraction as Fixed Amount(s) payable on each specified Fixed Amount Payment Date(s) is determined by applying a fixed specified percentage per Certificate of the Specified Denomination as it shall be detailed in the applicable Final Terms and/or the Schedule thereto.

For the purposes of this Condition 4(a):

Fixed Amount(s) means, in respect of each Certificate, the amount(s) specified as such in the applicable Final Terms, payable to the Holders of the Certificates on the relevant Fixed Amount Payment Date(s);

(b) *Interim Amount(s)*

The Interim Amount(s) shall be payable on the Interim Amount Payment Date(s) specified in the applicable Final Terms.

Certificates may provide for a method of calculating Interim Amount(s) which does or does not require any day count fraction as specified in the applicable Final Terms and/or the Schedule thereto.

For the purposes of this Condition 4(b):

Interim Amount(s) means, in respect of each Certificate, the amount(s) specified as such in the applicable Final Terms, payable to the Holders of the Certificates on the relevant Interim Amount Payment Date(s);

Interim Amount Payment Date(s) means the date(s) specified as such in the applicable Final Terms.

For the purposes of this Condition 4:

Unless otherwise specified in the applicable Final Terms, each Certificate bears Fixed Amount(s) and/or Interim Amount(s), and such Fixed Amount(s) and/or Interim Amount(s) will be payable on the Fixed Amount Payment Date(s) and/or the Interim Amount Payment Date(s); provided that (x) if there is no numerically corresponding day in the calendar month in which a Fixed Amount Payment Date and/or an Interim Amount Payment Date should occur or (y) if any Fixed Amount Payment Date and/or Interim Amount Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) the **Following Business Day Convention**, such Fixed Amount Payment Date and/or Interim Amount Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (B) the **Modified Following Business Day Convention**, such Fixed Amount Payment Date and/or Interim Amount Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Fixed Amount Payment Date and/or Interim Amount Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or
- (C) the **Preceding Business Day Convention**, such Fixed Amount Payment Date and/or Interim Amount Payment Date (or other date) shall be brought forward to the immediately preceding Business Day,

Otherwise, the applicable Final Terms will specify if other Business Day Convention is applicable in respect of the Certificates.

For the purposes of this Condition 5, references to payment or repayment (as the case may be) of principal and/or interim amount and other similar expressions will, where the context so admits, be deemed also to refer to delivery of the Underlying Asset(s) with respect to any Physical Delivery Amount(s).

(a) Payment of Principal

Payment of principal in respect of the Certificates shall be made, subject to subparagraph (c) below, to the Clearing System or to its order for credit to the accounts of the relevant account holders of the Clearing System.

This shall also apply if payment in the Specified Currency is not possible for any other reason.

(c) Discharge

The Issuer shall be discharged by payment to, or to the order of, the Clearing System.

(d) Payment Business Day

If the date for payment of any amount in respect of any Certificate is not a Payment Business Day, the holder thereof shall instead be entitled to payment: (i) on the next following Payment Business Day in the relevant place, if "Following Payment Business Day" is specified in the applicable Final Terms; or (ii) on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place, if "Modified Following Payment Business Day" is specified in the applicable Final Terms; provided that if neither

"Following Payment Business Day" nor "Modified Following Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that any adjustment is made to the date for payment in accordance with this Condition 6(d), the relevant amount due in respect of any Certificate shall not be affected by any such adjustment, unless otherwise specified in the applicable Final Terms.

For the purposes of this Condition 5(d):

Payment Business Day means (unless otherwise stated in the applicable Final Terms) a day which is both:

a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the relevant place of presentation; and

- (ii) the **Final Exercise Amount** of the Certificates (as specified in the applicable Final Terms);
- (iii) the **Early Exercise Amount** of the Certificates (as specified in the applicable Final Terms);
- (iv) if the Certificates are exercisable at the option of the Issuer other than for Tax Reasons, the **Optional Exercise Amount(s)** of the Certificates (as specified in the applicable Final Terms);
- (v) if the Certificates are exercisable at the option of the Holder, the **Put Exercise Amount(s)** of the Certificates (as specified in the applicable Final Terms); and
- (vi) any premium and any other amounts which may be payable by the Issuer under or in respect of the Certificates.

Any reference in these Conditions to interim payment in respect of the Certificates shall be deemed to include, as applicable, any additional amounts which may be payable under Condition 7.

References in these Conditions to principal and/or interim amount and Physical Delivery Amount(s) shall mean such amount less any expenses, fees, stamp duty, levies or other amounts payable on or in respect of the relevant Physical Delivery Amount(s).

(f) Deposit of principal and interim amount

The Issuer may deposit with the *Amtsgericht* in Frankfurt am Main principal or interim amount not claimed by Holders within twelve (12) months after the due date, even though such Holders may not be in default of acceptance of payment. If and to the extent that the deposit is effected and the right of withdrawal is waived, the respective claims of such Holders against the Issuer shall cease.

(g) *Knock-In/-Out Event(s)*

The exercise amount and/or interim amount and/or physical delivery amount due by the Issuer under these Certificates is subject to the occurrence of a Knock-In-Event or a Knock-Out Event as specified in the applicable Final Terms.

For the purposes of this Condition 5(g):

Knock-In Event or **Knock-Out Event** means the event as described in the applicable Final Terms and/or the Schedule thereto.

CONDITION 6 – EXERCISE AND PURCHASE

(a) *Exercise at maturity*

Certificates other than Open-End Certificates:

Without prejudice to Condition 6 (g), to the extent not previously exercised in whole or in part, each Certificate, other than Open-end Certificate, shall be exercised by the Issuer at its Final Exercise Amount on the Final Exercise Date or on the Interim Amount Payment Date falling in Exercise Month, as specified in the applicable Final Terms.

In the case of Italian Listed Certificates whose underlying is a share listed on the Italian Exchange or an index managed by Borsa Italiana S.p.A., the Final Exercise Amount shall be paid on the Final Exercise Date, if specified as such in the applicable Final Terms, otherwise on the Final Payment Date.

Final Exercise Amount means, in respect of each Certificate, (i) if exercised at its principal amount, its principal amount] or (ii) if exercised at an amount other than the principal amount, other Final Exercise Amount or (iii) an amount calculated by the Calculation Agent specified in, or determined in the manner specified in, the applicable Final Terms, provided always that the Final Exercise Amount shall in no event be less than zero.

Open-End Certificates:

The Open-End Certificates may only be exercised in accordance with the following provisions of this Condition 6.

(b) *Early Redemption for Tax Reasons*

(i) Early Exercise because of a Gross-up Event

If at any time after the issuance of the Certificates a Gross up Event (as defined below) occurs, the Certificates may be exercised (in whole but not in part) at the option of the Issuer at their Early Exercise Amount (as defined in Condition 6(f)) upon giving not less than 30 nor more than 60 days' notice to the Holders in accordance with Condition 13, provided that no such notice of exercise may be given earlier than 90 days prior to the earliest date on which the Issuer would be for the first time obliged to pay the Additional Amounts.

Any notice given in accordance with the above paragraph shall be irrevocable, must specify the date fixed for exercise and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

Gross up Event means the occurrence of an event where the Issuer has or will become obliged by a legislative body, a court or any authority to pay Additional Amounts pursuant to Condition 7 or the Guarantor has or will become obliged to pay Additional Amounts in respect of payments due under the Guarantee or the Trust Agreement dated 24 February 2006 between the Issuer and the Guarantor as a result of any change in or amendment to the laws (or any rules or regulations thereunder) of the Federal Republic of Germany or France or any political subdivision or any authority of or in the Federal

Republic of Germany or France (each a **Tax Jurisdiction**), or any change in or amendment to any official interpretation or application of those laws or rules or regulations, and that obligation cannot be avoided by the Issuer and/or the Guarantor taking reasonable measures it (acting in good faith) deems appropriate.

(ii) Special Tax Exercise

If the Issuer or, as the case may be, the Guarantor would, on the occasion of the next payment of principal or interim amount in respect of the Certificates, be prevented by the law of a Tax Jurisdiction from causing payment to be made to the Holders of the full amount then due and payable, notwithstanding the undertaking to pay additional amount contained in Condition 7, then the Issuer or the Guarantor, as the case may be, shall forthwith give notice of such fact to the Agent and the Issuer or the Guarantor, as the case may be, shall, upon giving not less than seven (7) nor more than forty five (45) days' prior notice to the Holders in accordance with Condition 13, forthwith exercise all, but not only some, of the Certificates at their Early Exercise Amount, on the latest practicable payment date on which the Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Certificates, provided that if such notice would expire after such payment date, the date for exercise pursuant to such notice to Holders shall be the later of:

- (A) the latest practicable date on which the Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Certificates; and
- (B) fourteen (14) days after giving notice to the Agent as aforesaid.

The Final Terms applicable to the Certificates indicate:

- (Y) that the Certificates cannot be exercised prior to their Exercise Date (except as otherwise provided in Condition 6 (b)(i) and 6 (b)(ii) and in Condition 9); or
- (Z) that such Certificates will be exercisable at the option of the Issuer and/or the Holders prior to such Exercise Date in accordance with the provisions of Condition 6(c) and 6(d) on the date or dates and at the amount or amounts indicated in the applicable Final Terms.

(c) *Exercise at the option of the Issuer*

If the Issuer is specified in the applicable Final Terms as having an option to exercise, the Issuer may, having (unless otherwise specified in the applicable Final Terms) given not less than thirty (30) nor more than forty five (45) days' notice, in accordance with Condition 13, to the Holders (which notice shall be irrevocable and shall specify the date fixed for exercise), exercise all or only some of the Certificates outstanding on any Optional Exercise Date(s) and at the Optional Exercise Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms. Any such exercise must be of a nominal amount not less than the Minimum Exercise Amount and not more than the Maximum Exercise Amount, if so specified in the applicable Final Terms.

In respect of any Certificate, any notice given by the Issuer pursuant to this Condition 6(c) shall be void and of no effect in relation to that Certificate in the event that, prior to the giving of such notice by the Issuer, the Holder of such Certificate has already delivered a Put Notice in relation to that Certificate in accordance with Condition 6 (d).

The appropriate notice of exercise given by the Issuer to the Holders in accordance with Condition 13 shall specify:

- the Tranche or Series of Certificates subject to exercise;
- whether such Tranche or Series is to be exercised in whole or in part only and, if in part only, the aggregate number of Certificates which are to be exercised;

- the Optional Exercise Date; and
- the Optional Exercise Amount at which such Certificates are to be exercised.

In the case of an exercise of only some of the Certificates, the Certificates to be exercised will be selected in accordance with the rules of the Clearing System.

The Issuer will inform, if required by the stock exchange on which the Certificates are listed, such stock exchange, as soon as possible of such exercise.

(d) Exercise at the option of the Holders

If the Holders are specified in the applicable Final Terms as having an option to require the Issuer to exercise any Certificate, upon the Holder of any Certificate giving to the Issuer in accordance with Condition 13 not less than fifteen (15) nor more than forty three (43) days' notice or such other period of notice as is specified in the applicable Final Terms the Issuer will, upon the expiry of such notice, exercise, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Certificate on the Put Exercise Date and at the Put Exercise Amount specified in, or determined in the manner specified in, the applicable Final Terms. It may be that before an option can be exercised to require the Issuer to exercise any Certificate, certain conditions and/or circumstances will need to be satisfied. Where relevant, the provisions will be set out in the applicable Final Terms.

To exercise the right to require exercise of a Certificate, the Holder, if the Certificate is represented by a Global Certificate, must, within the notice period, give notice to the Agent of such exercise (a **Put Exercise Notice**) in accordance with the standard procedures of the Clearing System, in a form acceptable to it.

The Put Exercise Notice must specify (i) the principal amount of the Certificates in respect of which such option is exercised, and (ii) the securities identification number of such Certificates, if any. The Issuer shall only be required to exercise Certificates in respect of which such option is exercised against delivery of such Certificates to the Issuer or to its order.

Any Put Exercise Notice given by a Holder of any Certificate pursuant to this Condition 6(d) shall be:

- irrevocable except where, prior to the due date of exercise, an Event of Default has occurred and is continuing in which event such Holder, as its option, may elect by notice to the Issuer to withdraw the Put Exercise Notice given pursuant to this Condition 6(d) and instead declare such Certificate forthwith due and payable pursuant Condition 9; and
- void and of no effect in relation to such Certificate in the event that, prior to the giving of such Put Exercise Notice by the relevant Holder, the Issuer had notified the Holders of its intention to exercise all of the Certificates in a Series then outstanding, in each case pursuant to Condition 6(c).

(e) Purchase

The Issuer may at any time purchase Certificates in the open market or otherwise and at any price. Such acquired Certificates may be cancelled, held or resold.

(f) Early Exercise Amount(s)

For the purpose of Condition 6(b) and Condition 9, unless otherwise specified in the applicable Final Terms, the Certificates will be exercised at the Early Exercise Amount calculated as follows:

- in the case of Certificates with a Final Exercise Amount equal to the Issue Price, at the Final Exercise Amount thereof; or

- in the case of Certificates with a Final Exercise Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Certificates are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the Final Terms, at their nominal amount; or
- in the case of Physical Delivery Certificates, as determined in the manner specified in the applicable Final Terms; or
- if Market Value is specified in the applicable Final Terms as the Early Redemption Amount, at an amount determined by the Calculation Agent, which, on the due date for the exercise of the Certificate, shall represent the fair market value of the Certificates and shall have the effect (after taking into account the costs of unwinding any hedging arrangements entered into in respect of the Certificates) of preserving for the Holders the economic equivalent of the obligations of the Issuer to make the payments in respect of the Certificates which would, but for such early exercise, have fallen due after the relevant early exercise date.

Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, specified in the applicable Final Terms.

(g) *Final Exercise Amount*

- (i) **Multiplier** means, in respect of each Certificate, the number of Underlying(s).
- (ii) **Final Exercise Amount** means, in respect of each Certificate, an amount calculated by the Calculation Agent in accordance with the formula or the provisions as indicated in Part A paragraph 20 of the applicable Final Terms.
- (iii) **Final Exercise Date** means the date on which the automatic exercise (the **Automatic Exercise**) of the Certificates occurs.
- (iv) **Final Payment Date** means (a) the date specified as such in the applicable Final Terms or (b), in the case of Italian Listed Certificates whose underlying is a share listed on the Italian Exchange or an index managed by Borsa Italiana S.p.A. (such as the FTSE MIB Index), at least five Exchange Business Days following the Final Valuation Date, unless otherwise specified in the applicable Final Terms.
- (v) **Final Valuation Date** means (a) the date specified as such in the applicable Final Terms or (b), in the case of Italian Listed Certificates whose underlying is an index managed by Borsa Italiana S.p.A., the Final Exercise Date or (c), in the case of Italian Listed Certificates whose underlying is a share listed on the Italian Exchange, the Exchange Business Day preceding the Final Exercise Date, if specified as such in the applicable Final Terms (such date being a Valuation Date as defined in the Technical Annex).
- (vi) **Initial Closing Price** means the amount equal to the Closing Price on the date specified in the applicable Final Terms, as determined by the Calculation Agent and without regard to any subsequently published adjustment(s).
- (vii) **Final Closing Price** means the amount equal to the Closing Price on the date specified in the applicable Final Terms or, for Italian Listed Certificates and whose underlying is a share listed on the Italian Exchange or an index managed by Borsa Italiana S.p.A., on the Final Valuation Date, if specified as such in the applicable Final Terms, as determined by the Calculation Agent and without regard to any subsequently published adjustment(s).
- (viii) **Minimum Trading Lot** means the minimum number of Certificates that may be traded in SeDeX and/or other regulated or unregulated markets with similar listing requirements as

determined by Borsa Italiana S.p.A. and/or by other regulated or unregulated markets with similar listing requirements, if applicable.

- (ix) **Notice Date** means 10:00 CET of the Exchange Business Day immediately following the Valuation Date, if not specified differently in the applicable Final Terms.
- (x) **Waive of Automatic Exercise at Final Exercise Date** means the Holder may waive the Automatic Exercise at Final Exercise Date, in whole or in part, by delivering a Waiver Notice that must be received by the Paying Agent by the Notice Date.

The Waiver Notice shall specify:

- (1) the Series Number, the ISIN code and the number of Certificates held by the Holder;
- (2) the number of Certificates, equal at least to the Minimum Exercise Amount and multiples thereof, in respect of which Automatic Exercise is being waived by the Holder;
- (3) the number of the account of the Holder with the intermediary adhering to Monte Titoli or any other relevant Clearing System where the Certificates that are the subject of the waiver are held;
- (4) name, address, telephone and fax number of the Holder.

Any Waiver Notice that has not been delivered in compliance with this paragraph and/or not received by the Paying Agent on or prior to the Notice Date shall be deemed invalid.

If the right to waive the Automatic Exercise is not validly exercised, the Automatic Exercise of the Certificates shall apply on the specified Final Exercise Date in accordance with Condition 6 (a) above.

The Waiver Notice shall be sent via fax to the Paying Agent.

The Waiver Notice shall be deemed to have been received by the Paying Agent at the time indicated on the facsimile transmission report.

An incomplete Waiver Notice or a Waiver Notice which has not been timely sent shall be deemed to be void and ineffective. Any assessment relating to the validity, both from a substantial and a formal perspective, of the Waiver Notice will be performed by the Paying Agent and will be final and binding for both the Issuer and the Holder. Any Waiver Notice which, in accordance with the mentioned above, is deemed to be incomplete or not completed will be considered as void and ineffective.

In the event that such Waiver Notice is subsequently amended in such a way that is satisfactory to the Paying Agent, such Waiver Notice, as amended, will be deemed as a new Waiver Notice filed at the time such amendments are received by the Paying Agent.

When the Paying Agent deems the Waiver Notice to be invalid or incomplete, such Paying Agent undertakes to notify such invalidity or incompleteness to the relevant Holder as soon as practicable.

Notification of the Waiver Notice: the Holder, by way of sending the Waiver Notice, irrevocably exercises the right to waive the Automatic Exercise of the relevant Certificate.

Waiver Notices may not be withdrawn after their receipt by the Paying Agent. After a Waiver Notice is sent, the Certificate to which it refers may no longer be transferred.

CONDITION 7 – TAXATION

All payments in respect of the Certificates or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction, unless such withholding or deduction is required by law.

In the event that any amounts required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the Issuer or the Guarantor (as the case may be) shall, to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Holder, after withholding or deduction of such taxes, duties, assessments or governmental charges, will receive the full amount then due and payable provided that no such additional amount shall be payable with respect to any Certificate:

- (i) the Holder of which is liable to such taxes, duties, assessments or governmental charges in respect of such Certificate by reason of its being connected with the Federal Republic of Germany or France (as the case may be) other than by the mere holding of such Certificate; or
- (ii) presented for payment more than thirty (30) days after the Relevant Date (as defined below), except to the extent that the Holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth (30th) day assuming that day to have been a Payment Business Day (as defined in Condition 5(d)); or
- (iii) in respect of an issue of Certificates which have been privately placed, if the applicable Final Terms indicate that no such additional amounts shall be payable; or
- (iv) where such withholding or deduction (a) is imposed on a payment to an individual beneficial owner or a residual entity and is required to be made pursuant to European Council Directive 2003/48/EC on the taxation of savings income or any law (whether in or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directive or (b) is required to be made pursuant to any agreements between the European Community and other countries or territories providing for measures equivalent to those laid down in the EU Savings Tax Directive or any law or other governmental regulation implementing or complying with, or introduced in order to conform to, such agreements; or
- (v) presented for payment by or on behalf of a Holder who would have been able to avoid such withholding or deduction by presenting the relevant Certificate to another Paying Agent in a Member State of the European Union.

For the purposes of this Condition 7:

Tax Jurisdiction means the Federal Republic of Germany or France (as the case may be) or any political subdivision or any authority of the Federal Republic of Germany or France (as the case may be) that has power to tax; and

Relevant Date means whichever is the later of the date on which the payment in question first becomes due and, if the full amount payable has not been received by the Agent on or prior to that due date, the date on which notice of receipt of the full amount has been given to the Holders in accordance with Condition 13.

CONDITION 8 – PRESENTATION, PRESCRIPTION

(a) *Presentation*

The period for presentation of Certificates due, as established in § 801 paragraph 1 sentence 1 of the German Civil Code (*Bürgerliches Gesetzbuch*), is reduced to ten (10) years.

(b) *Prescription*

The period for prescription for Certificates presented for payment during the presentation period shall be two (2) years beginning at the end of the relevant presentation period.

CONDITION 9 – EVENTS OF DEFAULT

(a) *Events of Default*

Each Holder shall be entitled to declare its Certificates due and demand immediate redemption thereof at the Early Exercise Amount (as described in Condition 6 (f) [, together with accrued interest (if any)]) to the date of repayment, if any of the events below occurs and is continuing:

- (i) the Issuer or the Guarantor fails to pay, for any reason whatsoever, any amount due under the Certificates within 30 days from the relevant due date; or
- (ii) the Issuer or the Guarantor is in default in the performance of any other obligation arising from the Certificates or the Guarantee, as the case may be, which default is not capable of remedy or, if such default is capable of being remedied by the Issuer or the Guarantor, such default has not been so remedied within 60 days after the Agent has received written notification thereof from a Holder; or
- (iii) the Issuer or the Guarantor suspends payment or announces its inability to pay its debts (*Zahlungsunfähigkeit*); or
- (iv) insolvency or court composition proceedings are commenced before a court against the Issuer or the Guarantor, as the case may be, which shall not have been discharged or stayed within 60 days after the commencement thereof, or the Issuer or the Guarantor, as the case may be, institutes such proceedings or suspends payments or offers or makes a general arrangement for the benefit of all its creditors; or
- (v) the Issuer or the Guarantor, as the case may be, enters into a winding up or dissolution or liquidation, unless such a winding up or dissolution or liquidation is to take place in connection with a merger, consolidation or other combination with another company and such company assumes all obligations of the Issuer or the Guarantor, as the case may be, under these Conditions.

The right to declare Certificates due shall terminate if the situation giving rise to it has been cured before the right is exercised.

(b) *Notice*

Any notice, including any notice declaring Certificates due, in accordance with subparagraph (a) of this Condition shall be made by means of a written declaration in the English language delivered by hand or registered mail to the specified office of the Agent together with proof that such Holder at the time of such notice is a holder of the relevant Certificates. The Certificates shall be exercised following receipt of the notice declaring Certificates due.

CONDITION 10 – LIMITED RECOURSE

The Issuer and the Guarantor have entered into a trust agreement (the **Trust Agreement**) pursuant to which the Issuer shall, *inter alia*, (i) issue and exercise debt instruments on a fiduciary basis (*treuhänderisch*) in its own name but for the account of the Guarantor; (ii) collect any proceeds resulting from the issuance of the debt instruments and forward them to the Guarantor; and (iii) use only the funds made available to it by the Guarantor under the Trust Agreement (which funds shall equal the amount of any payments owed by the Issuer under the debt instruments as and when such payment obligations fall due and in a manner that allows the Issuer to fulfil its payment obligations in a

timely manner) for payments owed under the debt instruments as and when they fall due and to make such payments on a fiduciary basis in its own name but for the account of the Guarantor. The Issuer's ability to satisfy its payment obligations under the debt instruments in full is therefore dependent upon it receiving in full the amounts payable to it by the Guarantor under the Trust Agreement.

Any payment obligations of the Issuer under the debt instruments shall therefore be limited to the funds received from the Guarantor under the Trust Agreement. To the extent such funds prove ultimately insufficient to satisfy the claims of all Holders in full, then any shortfall arising therefrom shall be extinguished and no Holder shall have any further claims against the Issuer, regardless of whether the Issuer would be able to fulfil its payment obligations under the debt instruments out of its own funds, provided that the foregoing shall be without prejudice to the right to exercise any termination or early exercise rights.

CONDITION 11 – AGENT, PAYING AGENT(S) AND CALCULATION AGENT

The names of the initial Agent, the additional Agent(s), and the other Paying Agent(s) and their specified offices are set out below and the name(s) and specified office(s) of the Calculation Agent(s) are specified in the applicable Final Terms. In addition, the Agent may (with the prior written consent of the Issuer and the Guarantor) delegate certain of its functions and duties in relation to Physical Delivery Certificates to a settlement agent (the **Settlement Agent**).

The Issuer and the Guarantor are entitled to vary or terminate the appointment of any Paying Agent or Settlement Agent and/or appoint additional or other Paying Agents or Settlement Agents and/or approve any change in the specified office through which any Paying Agent or Settlement Agent acts, provided that:

- so long as the Certificates are listed on any stock exchange or admitted to trading or listing by another relevant authority, there will at all times be a Paying Agent (which may be the Agent) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange; and
- there will at all times be a Paying Agent (which may be the Agent) with a specified office in a city in Europe; and
- there will at all times be a Paying Agent in a Member State of the European Union (a **Member State**) that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive (any such Directive or law, an **EU Savings Directive Tax Law**) to the extent that any Member State does not maintain any obligation to so withhold or deduct pursuant to any EU Savings Directive Tax Law; and
- there will at all times be an Agent.

Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than thirty (30) or more than forty five (45) days' prior notice thereof shall have been given to the Holders in accordance with Condition 13.

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and the Guarantor and do not assume any obligation to, or relationship of agency or trust with, any Holders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent. If, in connection with any Series of Certificates, the Calculation Agent is Société Générale, its appointment will be governed by the terms of the Calculation Agency Agreement set out in the Appendix to the Agency Agreement. In the event that a Calculation Agent other than Société Générale is appointed in connection with any Series of Certificates, the terms of its appointment will be summarised in the applicable Final Terms.

CONDITION 12 – SUBSTITUTION

(a) *Substitution*

The Issuer and/or the Guarantor may, without the consent of the Holders, if it is not in default with any payment of principal of any of the Certificates, at any time substitute for the Issuer either itself or any Affiliate (as defined below) of the Issuer as principal debtor (the **Substitute Debtor**) in respect of all obligations arising from or in connection with the Certificates with the effect of releasing the Issuer of all such obligations, provided that:

- (i) the Substitute Debtor assumes all obligations of the Issuer in respect of the Certificates and, if service of process *vis-à-vis* the Substitute Debtor would have to be effected outside the Federal Republic of Germany, appoints a process agent within the Federal Republic of Germany;
- (ii) the Substitute Debtor has obtained all necessary authorisations and approvals for the substitution and the fulfilment of the obligations in respect of the Certificates and may transfer to the Agent in the currency required hereunder and without being obligated to deduct or withhold any taxes or other duties of whatever nature levied by the country in which the Substitute Debtor or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Certificates;
- (iii) the Substitute Debtor has agreed to indemnify and hold harmless each Holder against any tax, duty, assessment or governmental charge imposed on such Holder in respect of such substitution;
- (iv) the Issuer and/or the Guarantor (except in the case that the Guarantor itself is the Substitute Debtor) irrevocably and unconditionally guarantees, and in the case of Italian Listed Certificates, as evidenced by the declaration of the Issuer filed at the time of the application to the Borsa Italiana S.p.A. and/or the other regulated or unregulated markets with similar listing requirements in favour of each Holder the payment of all sums payable by the Substitute Debtor in respect of the Certificates on terms which ensure that each Holder will be put in an economic position that is at least as favourable as that which would have existed if the substitution had not taken place.

For the purposes of this Condition 12:

Affiliate shall mean any affiliated company (*verbundenes Unternehmen*) within the meaning of § 15 German Stock Corporation Act (*Aktiengesetz*).

(b) *Notice and Effectiveness of Substitution*

Notice of any such substitution shall be published in accordance with Condition 13 without delay. Upon such Notice, the substitution shall become effective, and the Issuer, and in the event of any repeated application of this Condition 12, any previous Substitute Debtor, shall be discharged from any and all obligations under the Certificates. In the event of such substitution, the stock exchange(s), if any, on which the Certificates are listed will be notified and a Supplement to the Base Prospectus describing the Substitute Issuer will be prepared.

(c) *Change of References*

In the event of any such substitution, any reference in these Conditions to the Issuer shall from then on be deemed to refer to the Substitute Debtor and any reference to the country in which the Issuer is domiciled or resident for taxation purposes shall from then on be deemed to refer to the country of domicile or residence for taxation purposes of the Substitute Debtor. Furthermore, in the event of such substitution the following shall apply:

- (i) In Condition 6(b) and Condition 7 an alternative reference to the Federal Republic of Germany shall be deemed to have been included in addition to the reference according to the preceding sentence to the country of domicile or residence for taxation purposes of the Substitute Debtor;
- (ii) in Condition 9 (iii) to (v) an alternative reference to the Issuer in its capacity as Guarantor shall be deemed to have been included in addition to the reference to the Substitute Debtor; and
- (iii) in Condition 9 a further Event of Default shall be deemed to have been included; such Event of Default shall exist in the case that the Guarantee pursuant to subparagraph (a) (iv) above is or becomes invalid for any reason.

CONDITION 13 – NOTICES

(a) Publication

Notices to Holders relating to the Certificates will be published on the website of the Issuer (<http://prospectus.socgen.com>).

So long as the Certificates are listed, notices to the Holders shall be published in accordance with the rules of the Italian Exchange and/or the other regulated or unregulated markets with similar listing requirements as amended from time to time. Any notice so given will be deemed to have been validly given on the date of first such publication.

(b) Notification to the Clearing System

To the extent permissible under applicable laws and other regulations and by the rules and regulations of the Clearing System, the Issuer may, in lieu of the publication set forth in Condition 13(a) above, deliver the relevant notice to the Clearing System, for communication by such Clearing System to the Holders, provided that, so long as any Certificates are listed the Italian stock exchange, the rules of such stock exchange permit such form of notice.

Unless otherwise specified in the applicable Final Terms, any such notice shall be deemed to have been given to the Holders on the fourth day after the day on which the notice was given to the Clearing System if "Clearing System Delivery Period" is specified "Applicable" in the applicable Final Terms or the day on which the notice was given to the relevant Clearing System if "Clearing System Delivery Period" is specified "Not Applicable" in the applicable Final Terms.

CONDITION 14 – RESOLUTIONS OF THE HOLDERS

(a) Matters subject to resolutions

With regard to matters affecting the interests of the Issuer or the Holders in relation to the Certificates, the Holders may agree in accordance with the German Bond Act (*Schuldverschreibungsgesetz*) by majority resolution to amend the Conditions and on all other issues permitted by law. Resolutions affecting the interests of the Issuer require the consent of the Issuer.

(b) Resolutions of the Holders

The resolutions of the Holders are subject to the German Bond Act unless otherwise specified in the Conditions.

(c) Passing of resolutions

Holders shall pass resolutions by vote taken without a physical meeting (*Abstimmung ohne Versammlung*) in accordance with § 18 of the German Bond Act.

(d) *Proof of eligibility*

Holders must demonstrate their eligibility to participate in the vote at the time of voting by means of a special confirmation of the custodian bank (the **Custodian Bank**) in text form, which includes the complete name and full address of the Holder, the aggregate number of securities which have been, as of the date of such confirmation booked to the account of such Holder and by submission of a blocking instruction by the Custodian Bank up to and including the voting period.

CONDITION 15 – FURTHER ISSUES AND CONSOLIDATION

The Issuer shall be at liberty from time to time, without the consent of the Holders, to create and issue further Tranche of Certificates with identical terms and conditions as the existing Certificates in all respects except for the first payment of fixed amount, if any, on them so as to be consolidated and form a single Series with the existing Certificates.

For the purposes of this Condition 15:

Certificates shall also comprise further Certificates in the event of further issue.

The Issuer may from time to time on any Fixed Amount Payment Date occurring on or after the date specified for a redenomination of the Certificates pursuant to Condition 1, on giving prior notice to the Holders in accordance with Condition 13, without the consent of Holders, consolidate the Certificates with one or more issue(s) of other certificates issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other certificates have been redenominated in Euro (if not originally denominated in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Certificates.

CONDITION 16 – ADJUSTMENTS AND DISRUPTION

The Technical Annex will (where stated to be applicable in the applicable Final Terms) contain provisions relating to adjustments with respect to Underlying(s) (as defined in the Technical Annex) as well as settlement disruption and market disruption in respect of such Underlying(s) (including, without limitation and where necessary, appropriate definitions of Potential Adjustment Event(s), Settlement Disruption Event(s) and Market Disruption Event(s) and details of the consequences of such events).

CONDITION 17 – GOVERNING LAW AND SUBMISSION TO JURISDICTION; RESCISSION; MISCELLANEOUS PROVISIONS

(a) *Applicable Law in respect of the Certificates and the Guarantee*

The form and content of the Certificates as well as all the rights and duties arising therefrom shall be governed exclusively by the laws of the Federal Republic of Germany. (f) Declaration of Rescission

After becoming aware of the reason for the Rescission (*Anfechtungsgrund*) the declaration of Rescission shall be made without undue delay and in accordance with Condition 13. In the event of a Rescission by the Issuer, the Holder is entitled to demand repayment of the actual purchase price paid at the time of the first purchase of the Certificates delivered for repayment, or if this price cannot be determined, the Issue Price of the Certificates (the **Rescission Amount**) by delivery of a duly completed exercise notice (the **Exercise Notice**) in the form available from the specified office of the Agent.

The Issuer shall only be required to exercise Certificates in respect of which such exercise is requested against delivery of such Certificates to the Issuer or to its order.

The Issuer shall refer to this effect in the notification.

Any such modification shall be binding on all Holders and shall be notified to them without undue delay in accordance with Condition 13.

PART 1 – DEFINITIONS RELATING TO SHARES, AMERICAN DEPOSITARY RECEIPTS (ADR), INDICES, SGI INDICES, DIVIDENDS AND EXCHANGE TRADED FUNDS (ETF)

I. COMMON DEFINITIONS AND PROVISIONS FOR SHARES, ADR, INDICES AND DIVIDENDS

I.1 General Definitions

Averaging Date means, in respect of a Valuation Date and a Share, an ADR or an Index, each date specified as such in the applicable Final Terms for the purpose of determining an average (or if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day) unless such day is a Disrupted Day in which case it shall be postponed pursuant to the provisions of Part I.3 “*Consequences of Disrupted Days for a Share, an ADR or an Index*”.

Basket means a basket composed of the Shares and/or ADR and/or Indices and/or any other asset (each an Underlying) in the relative proportions or numbers of Shares, ADR, Indices or other asset specified in the applicable Final Terms.

Business Day means a “Business Day” as defined in Condition 4 of the Terms and Conditions, determined on the basis of the Specified Currency of the relevant Notes.

Closing Price means:

- A. in respect of a Share:
 - (a) if such Share is traded on the Tokyo Stock Exchange or the Osaka Securities Exchange, the last traded price of such Share for the day quoted by the Exchange, provided however, that if there is a closing special quote on such Share quoted by the Exchange (*tokubetsu kehaine*), such quote shall be deemed to be the relevant Closing Price;
 - (b) if such Share is traded on the Italian Stock Exchange (Borsa Italiana S.p.A.), the *Prezzo di Riferimento*, which means the price as published by the Borsa Italiana S.p.A. at the close of trading and having the meaning ascribed thereto in the Rules of the markets organised and managed by Borsa Italiana S.p.A., as such Rules may be amended by Borsa Italiana S.p.A. from time to time;
 - (c) in any other case, the official closing price of such Share on the relevant Exchange;
- B. in respect of an Index, the official closing level of the Index published and announced by the Index Sponsor;
- C. in respect of an ADR, the official closing price of such ADR on the relevant Exchange;

in any case as adjusted (if applicable) pursuant to the provisions of Part 2 below.

Company means, in respect of a Share, the issuer of such Share and, in respect of an ADR, the issuer of the Deposited Securities related to such ADR.

Exchange(s) means, in respect of a Share, an ADR or an Index, the corresponding exchange or quotation system specified in the applicable Final Terms, or any successor exchange or quotation system or any substitute exchange or quotation system to which trading in the Share, ADR or Shares underlying such Index, has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such Share, ADR or Shares underlying an Index, on such temporary substitute exchange or quotation system as on the original Exchange). In respect of Deposited Securities, **Exchange** means the primary exchange or market of trading of such Deposited Securities.

Fx Rate means, in respect of a date, the currency exchange rate of one currency against another currency, as specified in the applicable Final Terms, quoted by the relevant exchange rate provider on such date, as ascertained by the Calculation Agent on the Reuters page (or any other relevant page of an information provider) specified in the applicable Final Terms. If such Fx Rate cannot be or ceases to be determined, then the Calculation Agent shall select another Reuters page (or any other relevant page of an information provider) or determine in good faith such exchange rate by reference to such sources as it may select in its absolute discretion.

Related Exchange(s) means, in respect of a Share, an ADR or an Index (and, in the case the Underlying is an ADR, the Deposited Securities), each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures and options contracts relating to such Share, ADR, Index or Deposited Securities, any successor exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to a Share, ADR, Index or Deposited Securities, has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating such Share, ADR, Index or Deposited Securities, on such temporary substitute exchange or quotation system as on the original Related Exchange).

Scheduled Closing Time means, in respect of an Exchange or Related Exchange, the scheduled weekday closing time of such Exchange or Related Exchange, without regard to after hours or any other trading outside of the regular trading session hours.

I.2 Definitions and provisions relating to valuation and Market Disruption Event

Valuation Date means, in respect of a Share, an ADR or an Index, each date specified as such in the applicable Final Terms (or, if such date is not a Scheduled Trading Day for such Share, ADR or Index, the next following Scheduled Trading Day), unless such day is a Disrupted Day in which case it shall be postponed pursuant to the provisions of Part I.3 "*Consequences of Disrupted Days for a Share, an ADR or an Index*".

Valuation Time means, in respect of a Share, an ADR or an Index, the Scheduled Closing Time provided however that if the Exchange closes prior to its Scheduled Closing Time, the Valuation Time shall be the actual closing time of the Exchange.

Market Disruption Event means, in respect of a Share or an Index, the occurrence or existence of (a) a Trading Disruption, (b) an Exchange Disruption which, in either case, the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time or (c) an Early Closure. For the purpose hereof:

A. **Trading Disruption** means, in respect of a Share or an Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) relating to the Share on the Exchange or, in the case of an Index, on the relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index or (b) in futures or options contracts relating to the Share or the relevant Index on any relevant Related Exchange;

- B. **Exchange Disruption** means, in respect of a Share or an Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (a) the Share on the Exchange, or, in the case of an Index, on any relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index, or (b) futures or options contracts relating to the Share or the relevant Index on any relevant Related Exchange;
- C. **Early Closure** means, the closure on any Exchange Business Day of (a) (i) in the case of a Share, the relevant Exchange, or (ii) in the case of an Index any relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index, or (b) any Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (x) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (y) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

In the event that the Underlying is in the form of an ADR issued pursuant to a Deposit Agreement (a) references to Share in the definitions of **Market Disruption Event**, **Trading Disruption**, **Exchange Disruption** and **Early Closure** above refer both to the ADR and to the Deposited Securities relating to such ADR, and (b) references to Exchange and Related Exchange in these definitions refer to such exchanges as they relate to both the ADR and to the Deposited Securities relating to such ADR. For the avoidance of doubt, a Disrupted Day will be deemed to have occurred with respect to an ADR if a Disrupted Day has occurred with respect to the related Deposited Securities.

I.3 Consequences of Disrupted Days for a Share, an ADR or an Index

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Share, an ADR or an Index, the Valuation Date or the Averaging Date for such Share, ADR or Index shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Share, ADR or Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or the Scheduled Averaging Date is also a Disrupted Day. In that case:

- A. that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, for the Share, ADR or Index notwithstanding the fact that such day is a Disrupted Day, and
- B. the Calculation Agent shall determine (a) in respect of a Share or an ADR, its good faith estimate of the value of the Share or ADR as of the Valuation Time on that eighth Scheduled Trading Day or (b) in respect of an Index, the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value of the relevant security as of the Valuation Time on that eighth Scheduled Trading Day) and the good faith estimate of the value of the Share or ADR or the level of the Index so calculated shall be deemed the Closing Price;

Provided that if the Share, ADR or Index is included in a Basket, the hereabove provisions shall apply only to the Share, ADR or Index affected by the occurrence of a Disrupted Day and the Valuation Date or the Averaging Date for each Share, ADR or Index not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the value of the Share or ADR or the level of the Index so calculated shall be deemed the Closing Price;
- (b) notwithstanding the foregoing, in respect of any Notes, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall less than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the Share or ADR or the level of the Index so calculated shall be deemed the Closing Price.

If, during the Valuation Date, the Opening Price of the Index cannot be determined for any reason whatsoever, the Calculation Agent shall determine the level of the Index in good faith on that Valuation Date in accordance with the formula for, and method of, calculating that Index last in effect prior to the occurrence of the event that prevents the determination of the Opening Price of the Index and taking into account any other objective element that may be available.

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date or the Scheduled Averaging Date**) is a Disrupted Day for a SGI Index, then the Valuation Date or Averaging Date for such SGI Index shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that SGI Index, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or Averaging Date is a Disrupted Day. In that case:

- A. the eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date, notwithstanding the fact that such day is a Disrupted Day, and
- B. the Calculation Agent shall determine the level of the SGI Index on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that SGI Index last in effect prior to the occurrence of the first Disrupted Day, notwithstanding the fact that the Index Calculation Agent has published a Closing Price on such date.

Provided that if the SGI Index is included in a Basket, the hereabove provisions shall apply only to the SGI Index affected by the occurrence of a Disrupted Day and the Valuation Date or Averaging Date for each other underlying comprised in the Basket and not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date.

Provided however that,

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the level of the SGI Index so calculated shall be deemed the Closing Price;
- (b) notwithstanding the foregoing, in respect of any Notes, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall less than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the level of the SGI Index so calculated shall be deemed the Closing Price.

 - (b) any taxes, credits, refunds or benefits imposed, withheld, assessed or levied on the Credits referred to in (a) above, and/or
- B. an amount per Share being the cash value of any dividend paid in shares (whether or not such dividend comprises shares that are not the ordinary shares of the issuer) declared by the Company (or, if no cash value is declared by the issuer, the cash value of such dividend as determined by the Calculation Agent, calculated by reference to the opening price of such ordinary shares on the Ex-Dividend Date applicable to that dividend) provided that if holders of record of the relevant Share may elect between receiving an amount as defined in (A) above or in this subparagraph (B), the dividend shall be deemed to be an amount as defined in (A) above.

Provided that, this definition shall exclude (a) any dividends in relation to which the Index Sponsor makes an adjustment to the Index when the Share is considered as a component of an Index, or (b) any dividends in relation to which the Related Exchange makes an adjustment to the Designated Contract when the Share is considered individually or as part of a basket (however where the Index Sponsor has adjusted the Index for part of a dividend or as the case may be the Related Exchange, the provisions above shall apply only to the unadjusted part).

Designated Contract means an options or futures contract on the Share traded on the Related Exchange with an expiry date (or the date which would have been the expiry date but for that day being a Disrupted Day or not being a Scheduled Trading Day) that matches the relevant Valuation Date specified in the applicable Final Terms.

Official Number means, in respect of a date, an Index and a Share comprising such Index, the number of free-floating shares relating to such Share comprised in the Index, as calculated and published by the Index Sponsor on such date, subject to "Failure to Publish" under Part 2 - IV.2 below.

PART 2 – ADJUSTMENTS, EXTRAORDINARY EVENTS, HEDGING DISRUPTION, INSOLVENCY FILING AND CHANGE IN LAW RELATING TO SHARES, ADR, INDICES, SGI INDICES AND DIVIDENDS

I. ADJUSTMENTS AND EXTRAORDINARY EVENTS RELATING TO SHARES AND ADR

I.1 Potential Adjustment Events

Potential Adjustment Event means, in relation to a Share, any of the following:

- A. a subdivision, consolidation or reclassification of such Share (unless resulting in a Merger Event), including, for the avoidance of doubt, a stock split or reverse stock split, or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- B. a distribution, issue or dividend to existing holders of such Share of (a) such Shares, (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company equally or proportionately with such payments to holders of such Shares, (c) share capital, other securities of another issuer acquired or owned (directly or indirectly) by the Company as a result of a spin-off or other similar transaction, or (d) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- C. an extraordinary dividend as determined by the Calculation Agent;
- D. a call by the Company in respect of Shares that are not fully paid;
- E. a repurchase by the Company or any of its subsidiaries of Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- F. an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares.

Following the occurrence of any Potential Adjustment Event as defined above, the Calculation Agent will, as soon as reasonably practicable after it becomes aware of such event determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Share and, if so, will (a) calculate the corresponding adjustment, if any, to be made to the elements relating to the relevant Share used to determine any settlement or payment terms under the Notes and/or adjust any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and (b) determine the effective date of that adjustment. In its determinations of the existence and extent of any dilutive or concentrative effect on the theoretical value of the Shares of any Potential Adjustment Event, and any related adjustments to the terms of the Notes, the Calculation Agent shall take into account any amounts of Local Taxes that would, in the determination of the Calculation Agent, be withheld from or paid or otherwise incurred by an Offshore Investor in connection with such Potential Adjustment Event. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options on the Share traded on such Related Exchange.

In the event that the Underlying is in the form of an ADR, references to **Share** in the definition of **Potential Adjustment Event** above refer to the Deposited Securities underlying such ADR. In addition, an event that has a diluting or concentrative effect on the Deposited Securities will affect the theoretical value of the ADR unless (and to the extent that) the Company or the Depositary, pursuant to its authority (if any) under the Deposit Agreement, elects to adjust the number of the Deposited Securities that are represented by each ADR such that the price of the ADR will not be affected by any such event (as determined by the Calculation Agent), in which case the Calculation Agent will make no adjustment. If the Company or the Depositary elects not to adjust the number of Deposited Securities that are represented by an ADR or makes an adjustment that the Calculation Agent determines not to have been adequate, then the Calculation Agent may, in its discretion, make the necessary adjustment to the elements relating to the Underlying used to determine any settlement or payment terms under the Notes and/or any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and determine the effective date of that adjustments. The Depositary may also have the ability pursuant to the Deposit Agreement to make adjustments in respect of the ADR for share distributions, rights distributions, cash distributions and distributions other than shares, rights and cash. Upon any such adjustment by the Depositary, the Calculation Agent may, in its discretion, make the necessary adjustments as the Calculation Agent deems appropriate to account for such event.

Definitions applicable to this section:

Local Taxes shall mean taxes, duties, and similar charges imposed by the taxing authority of the country in which the Company has been incorporated or in which the Exchange on which the Share is listed is located.

Offshore Investor shall mean a holder of Shares who is an institutional investor not resident in the country in which the Company has been incorporated or in which the Exchange on which the Share is listed is located (the **Local Jurisdiction**), for the purposes of the tax laws and regulations of the Local Jurisdiction and, for the avoidance of doubt, whose jurisdiction of residence (a) shall be determined by the Calculation Agent and (b) may be the jurisdiction of Société Générale or one of its affiliates.

I.2 Extraordinary Events

- A. Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of the opening of an Offering Period relating to a Merger Event, a De-merger Event, a De-listing Event, an Insolvency, a Nationalisation or a Participation Event, in respect of a Share or an ADR (an **Affected Share** or an **Affected ADR**), then during such Offering Period, the Calculation Agent may decide in good faith to apply Method of Substitution with respect to the Affected Share or Affected ADR.
- B. If the Calculation Agent decides not to apply Method of Substitution during the Offering Period with respect to the Affected Share or Affected ADR, then:
- (a) in respect of a Merger Event, from the Merger Date, and/or upon consummation of the Merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, shall apply either:
 - (i) Share-for-Share Merger Event: Alternative Obligation and/or Method of Substitution or Early Redemption;
 - (ii) Share-for-Other Merger Event: Alternative Obligation and/or Method of Substitution or Early Redemption; or
 - (iii) Share-for-Combined Merger Event: Alternative Obligation and/or Method of Substitution or Early Redemption;

- (b) in the case of a Merger Event affecting two Shares or ADR comprised in a Basket, the Calculation Agent will either:
- (i) continue with the share or ADR resulting from the Merger Event and in order to maintain the original number of companies in the Basket, a Substitute Share or Substitute ADR (as applicable) will be elected and included in the Basket;
 - (ii) substitute both Shares (or ADR) with two Substitute Shares (or ADR) selected as described in the Method of Substitution; or
 - (iii) apply the Early Redemption;
- (c) in respect of a De-merger Event, from the De-merger Date, and/or upon consummation of the De-merger Event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, will either:
- (i) replace the Affected Share or Affected ADR with the shares or ADR of the successor companies;
 - (ii) substitute one or more share(s) resulting from such De-merger Event pursuant to the Method of Substitution; or
 - (iii) apply the Early Redemption;
- it being understood that, in the case of a Basket, the Calculation Agent shall maintain the initial number of companies in the Basket and that in the case where the Calculation Agent has elected to substitute the Affected Share or Affected ADR with several shares or ADR resulting from such De-merger Event, such shares or ADR shall be placed in a sub-basket and considered as one component of the Basket;
- (d) in respect of a De-listing Event or a Nationalisation, from the effective date of such event, until the sixtieth Business Day thereafter, the Calculation Agent, acting in good faith, may, but is not obliged to, apply the Method of Substitution or the Early Redemption;
- (e) in respect of an Insolvency, the Calculation Agent will decide, either that:
- (i) the Affected Share or the Affected ADR will be substituted pursuant to the Method of Substitution; or
 - (ii) the value of the relevant component in the formula used to determine the amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms, representing the Affected Share or the Affected ADR will be accounted by the Calculation Agent for its fair market value determined at any time as from the date of occurrence of such Insolvency until the last Valuation Date or the last Averaging Date. The determination of the fair market value shall depend upon the liquidity of the market and the trading conditions relating to the Share or ADR affected at the time of calculation; or
 - (iii) the Early Redemption; and
- (f) in respect of a Participation Event from the effective date of such event until the sixtieth Business Day thereafter, the Calculation Agent may, but is not obliged to, select a Substitute Share or Substitute ADR for the Affected Share or the Affected ADR pursuant to the Method of Substitution.

- C. Notwithstanding anything herein to the contrary, the Calculation Agent shall use its reasonable endeavours at all times to maintain the original number of companies in the Basket as Companies hereunder.

Definitions applicable to this section:

Alternative Obligation means:

- A. if, in respect of a Share-for-Share Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date the New Shares and the issuer of such New Shares (or, in the case of New Shares which are issued in the form of ADR, the issuer of the Deposited Securities related to such ADR) will be deemed the **Shares** (or **ADR**, as the case may be) and the Company, respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the number of New Shares (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares or ADR immediately prior to the occurrence of the Merger Event would be entitled upon consummation of the Merger Event;
- B. if, in respect of a Share-for-Other Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the relevant Merger Date, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares or ADR would be entitled upon consummation of the Merger Event and, if necessary, any relevant terms of the Notes; and
- C. if, in respect of a Share-for-Combined Merger Event, the Calculation Agent decides to apply Alternative Obligation, then on or after the Merger Date the New Shares and the Other Consideration will be deemed the **Shares** (or **ADR**, as the case may be) and the issuer of the New Shares (or, in the case of New Shares which are issued in the form of ADR, the issuer of the Deposited Securities related to such ADR) will be deemed the Company respectively, and, if necessary, the Calculation Agent will adjust any relevant terms of the Notes on the basis of the number of New Shares and the amount of Other Consideration (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable) to which a holder of the relevant number of Shares or ADR would be entitled upon consummation of the Merger Event.

Combined Consideration means New Shares in combination with Other Consideration.

De-listing Event means, in respect of a Share or an ADR, that such Share or ADR (or Deposited Securities related to such ADR): (a) ceases to be listed, traded or publicly quoted on the relevant Exchange or listing compartment of the relevant Exchange (for any reason other than a Merger Event or a tender offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or where the Exchange is within the European Union, in any Member State of the European Union) or (b) has its listing, trading or public quotation maintained in inappropriate conditions in the opinion of the Calculation Agent (such conditions to include, without limitation, a lack of liquidity or the disappearance of the relevant futures and/or option contract of the relevant Share) or (c) in respect of an Underlying in the form of an ADR, the Deposit Agreement is terminated.

De-merger Event means, in respect of any Share or ADR, that the Company relevant to such Share or ADR is affected by a de-merger including, without limitation, a spin off, *scission* or any operation of a similar nature.

- A. Société Générale or one of its affiliates sells the Affected Shares, Affected ADR, the New Shares and/or the Other Consideration, (as the case may be), on the basis of the weighted average of the closing prices of the relevant assets traded by Société Générale or one of its affiliates with regards to the relevant Notes, as observed during such Fixing Period; and
- B. the proceeds of such sale are re-invested in the Substitute Shares, Substitute ADR and/or New Shares accordingly during the said Fixing Period on the basis of the weighted average of the closing prices of such Substitute Shares, Substitute ADR and/or New Shares traded by Société Générale or one of its affiliates with regards to the relevant Notes, as observed during such Fixing Period.

Insolvency means, in respect of a Company, voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, such Company, as determined in good faith by the Calculation Agent.

Merger Date means, in respect of a Share or an ADR, the date upon which holders of the necessary number of the relevant Shares or ADR (other than, in the case of a takeover offer, Shares or ADR owned or controlled by the offeror) to constitute a Merger Event have agreed or have irrevocably become obliged to transfer their Shares.

Merger Event means, in respect of any Share:

- A. any reclassification or change of such Share (including the change of currency reference of the Share) that results in a transfer of or an irrevocable commitment to transfer all of such Share outstanding to another entity or person;
- B. any consolidation, amalgamation, merger or binding share exchange of the relevant Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding);
- C. other take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares that results in a transfer of or an irrevocable commitment to transfer all or part of such Shares (other than any of such Shares owned or controlled by the offeror);
- D. any consolidation, amalgamation, merger or binding share exchange of the relevant Company or its subsidiaries with or into another entity in which such Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event; or
- E. take-over offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Company, as determined by the Calculation Agent based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

In the event that the Underlying is in the form of an ADR issued pursuant to a Deposit Agreement references to **Share** in this definition refer to the Deposited Securities underlying such ADR.

Method of Substitution means that in the case of a Merger Event, De-merger Event, De-listing Event, Nationalisation, Insolvency or Participation Event (regardless of the consideration to be received), in respect of an Affected Share or an Affected ADR, the Calculation Agent may consider that the Affected Share, the Affected ADR, the New Shares and/or, all or part of the Other Consideration (as the case may be) is/are converted into cash and that the proceeds will be reinvested either (a) into a new share or ADR of the same economic sector or into a share or ADR issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or Affected ADR (the **Substitute Share** or the **Substitute ADR**, as the case may be) or (b) in the case of Combined Consideration into New Shares. In the event of Other Consideration to be received in cash, in the future, the Calculation Agent may consider that the cash to be received in the future is discounted in order to immediately re-invest the proceeds then procured in accordance with (a) and (b) above.

The sale of the Affected Share, the Affected ADR, the New Shares and/or the Other Consideration shall be deemed to take place during the Fixing Period. The Substitute Share (or the Substitute ADR, as the case may be) and the company issuing such Substituted Share (or, in the case of an ADR, the company issuing the Deposited Securities related to such ADR) will be deemed a **Share** and the **Company** respectively, and the Calculation Agent will adjust any relevant terms of the Notes.

For information purposes, it is understood that in all cases described herein where a Share or ADR is substituted, on any date "t", with a Substitute Share or Substitute ADR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute ADR and would mean the closing price of such Substitute Share or Substitute ADR on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected ADR on such date "t".

Nationalisation means that all the Shares or all or substantially all of the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

Share-for-Combined Merger Event means, in respect of a Merger Event, that the consideration for the relevant Shares or ADR consists of Combined Consideration.

Share-for-Other Merger Event means, in respect of a Merger Event, that the consideration for the relevant Shares or ADR consists solely of Other Consideration.

Share-for-Share Merger Event means, in respect of a Merger Event, that the consideration for the relevant Shares or ADR consists (or, at the option of the holder of such Shares or ADR, may consist) solely of New Shares.

I.3 Stop-Loss Event relating to a Share or an ADR

If on any Exchange Business Day between the initial Valuation Date (excluded) and the last Valuation Date (included), the Closing Price of a Share or ADR is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Share** or **Affected ADR** and the event, the **Stop-Loss Event**), then

- A. the Calculation Agent may decide to substitute the Affected Share or Affected ADR by a new share or ADR issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share or Affected ADR (the **Substitute Share** or **Substitute ADR**, as the case may be) and will adjust any relevant terms of the Notes accordingly; or
- B. the Calculation Agent may decide to continue with the Affected Share or Affected ADR; or
- C. if the Calculation Agent has neither retained any Substitute Share or Substitute ADR nor decided to continue with the Affected Share or the Affected ADR, the Issuer may terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

For information purposes, it is understood that in all cases described herein where a Share or ADR is substituted, on any date "t", with a Substitute Share or Substitute ADR, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute Share or Substitute ADR and would mean that the closing price of such Substitute Share or Substitute ADR on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected Share or the Affected ADR on such date "t".

I.4 Correction of the Closing Price of a Share

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction.

II. ADJUSTMENTS AND EVENTS RELATING TO INDICES

II.1 Adjustments

- A. If an Index is:
 - (a) not calculated and announced by the relevant Index Sponsor or the **Index Calculation Agent** as the case may be, but is calculated and announced by a relevant successor sponsor (the **Successor Sponsor**) or a successor calculation agent (the **Successor Calculation Agent**) acceptable to the Calculation Agent; or
 - (b) replaced by a successor index (the **Successor Index**) using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and announced by the relevant Successor Sponsor or Successor Calculation Agent or that Successor Index (as the case may be).

B. If, in the determination of the Calculation Agent:

- (a) on or prior to a Valuation Date or an Averaging Date, the relevant Index Sponsor (or if applicable the Successor Sponsor) makes a material change in the formula for, or the method of calculating, that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events);
- (b) on any Valuation Date or Averaging Date, the relevant Index Sponsor (or, if applicable, the relevant Successor Sponsor) or the Index Calculation Agent (or the **Successor Index Calculation Agent**) as the case may be, fails to calculate and publish the level of the Index and such failure is likely to have a material impact on the hedge of Société Générale in connection with the Notes; or
- (c) the Index Sponsor (or, if applicable, the Successor Sponsor) permanently cancels the Index and no Successor Index exists;

then the Calculation Agent shall either:

- (x) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, *in lieu* of a published level for the Index, the level of that Index as at the Valuation Time on the relevant Valuation Date or Averaging Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation, but using only those securities that comprised that Index immediately prior to that change, failure or cancellation (other than those securities that have since ceased to be listed on any relevant Exchange); or
- (y) replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies).

If the Calculation Agent has not retained (x) and if in (y) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of any of the events described in B.(a), B.(b) or B.(c) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

In case of Italian Certificates, the Calculation Agent will adjust any relevant terms of the instruments as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the instruments

C. If an Index merges with another index or if an Index which forms part of the Basket merges with another index which does not form part of the Basket (the **Event**), the Calculation Agent will either:

- (a) continue using the index resulting from the merger; or
- (b) replace the Index with another index (the **New Index**); as long as the New Index is (i) representative of the same economic or geographic sector (as the case may be) and

(ii) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies).

If the Calculation Agent has not retained (a) and if in (b) no index meeting the criteria (i) and (ii) can be selected by the Calculation Agent, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in (C) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

D. In the case of a merger affecting two Indices comprised in a Basket (the **Event**), the Calculation Agent will either:

- (a) continue using the index resulting from the merger and, in order to maintain the same number of indices within the Basket, the Calculation Agent will select a further index (a **New Index**) to be included in the Basket, as long as such New Index is (i) representative of the same economic or geographic sector (as the case may be) and (ii) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies); or
- (b) replace both Indices with two other indices (each a **New Index**); as long as each New Index is (i) representative of the same economic or geographic sector (as the case may be) and (ii) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies).

If the Calculation Agent has not retained (a) and if in (b) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in (D) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

E. If an Index is split into two or more new indices (the **Event**), the Calculation Agent will, either:

- (a) use the indices resulting from the split to determine an index equivalent to the one existing prior to the split (provided that the indices resulting from the split will be deemed to form together the **New Index**); or
- (b) replace the split Index with a new index (a **New Index**) as long as such New Index is (i) representative of the same economic or geographic sector (as the case may be), and (ii) to the extent possible representative of shares listed on one or more Exchange(s) of one or more OECD country(ies).

If the Calculation Agent has not retained (i) and if in (ii) no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in (E) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

F. In the case of a Basket of Indices, in the event that shares forming part of one Index comprising the Basket represent at least 20 per cent. of the capitalisation of another Index forming part of the Basket (the **Affected Index**) (the **Event**), the Calculation Agent may, but is not obliged to, replace such Affected Index with a new index as long as such new index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies). If no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event, described in this (F),

an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

- G. In the event that an Index ceases to be the underlying of a futures and/or option contract (as the case may be) (the Event), the Calculation Agent may, but is not obliged to, replace such Index with a new index as long as such new index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies). If no index meeting the criteria (a) and (b) can be selected by the Calculation Agent, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Event described in this (G), an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

II.2 Stop-Loss Event relating to an Index

If on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of an Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected Index**) and the event, the **Stop-Loss Event**, then:

- A. the Calculation Agent may decide to substitute the Affected Index by a new index representative of the same economic or geographic sector (as the case may be), and to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies) (the **Substitute Index**) and will adjust any relevant terms of the Notes accordingly; or
- B. the Calculation Agent may decide to continue with the Affected Index; or
- C. if the Calculation Agent has neither retained any Substitute Index nor decided to continue with the Affected Index, the Issuer may terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

II.3 Correction of the Closing Price of an Index

In the event that any price or level published on the Exchange or by the Index Sponsor and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Exchange or the Index Sponsor after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction.

III. ADJUSTMENTS AND EVENTS RELATING TO SGI INDICES

III.1 Adjustments

- A. If on any Scheduled Trading Day, a SGI Index is:
- (a) not published by the relevant **Index Calculation Agent**, but is published by a successor index calculation agent (the **Successor Calculation Agent**), acceptable to the Calculation Agent; or
- (b) replaced by a Similar Index,

then in each case that index published by the Successor Calculation Agent or Similar Index will be deemed to be the SGI Index so calculated and announced.

- B. If, in the determination of the Calculation Agent:
- (a) on or prior to any Valuation Date or Averaging Date, the relevant Index Sponsor and/or Index Calculation Agent announce(s) that it/they will make a material change in the formula for or the method of calculating that SGI Index or in any other way materially modifies that SGI Index (other than a modification prescribed in that formula or method to maintain that SGI Index in the event of changes in Index Components and other routine events) (an **Index Modification**); or
 - (b) the Index Sponsor permanently cancels the SGI Index and no Similar Index exists or the agreement between the Index Calculation Agent and the Index Sponsor is terminated (an **Index Cancellation**); or
 - (c) on any Valuation Date or Averaging Date, the Index Calculation Agent fails to publish the Closing Price of the SGI Index other than as a result of the occurrence of a Market Disruption Event (an **Index Disruption**) and together with an Index Modification and an Index Cancellation, each an **Index Adjustment Event**);

then the Calculation Agent shall either:

- (w) calculate the relevant formula used to determine an amount to be paid or whether a condition has occurred, if any, as described in the applicable Final Terms using, in lieu of a published level for the SGI Index, the level of that SGI Index on the relevant Valuation Date or Averaging Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that SGI Index last in effect prior to that Index Adjustment Event, but using only those Index Components that comprised the SGI Index immediately prior to that Index Adjustment Event (other than those Index Components that have since then ceased to be listed on any relevant Exchange), and adjust, as the case may be, any of the relevant terms of the Notes; or
- (x) replace the SGI Index by a Similar Index; or
- (y) consider such Index Adjustment Event as an event triggering an early redemption of the Notes (hereafter an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder as soon as possible after the occurrence of any of the events described in B.(a), B.(b) or B.(c) above, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- (z) apply the Monetisation to the Maturity Date (as defined below).

III.2 Stop-Loss Event relating to a SGI Index

If, on any Exchange Business Day after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Closing Price of a SGI Index is affected by a decrease of 80 per cent. or more of its Closing Price on the initial Valuation Date (the **Affected SGI Index** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

- A. substitute the Affected SGI Index by a Similar Index and will adjust any relevant terms of the Notes accordingly; or
- B. continue with the Affected SGI Index; or

- C. consider such event as an event triggering an early redemption of the Notes (hereafter an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- D. continue the Notes according to their terms.

III.3 Correction of the Closing Price of a SGI Index

In the event that any price or level published by the Index Calculation Agent and which is used for any calculation or determination made under the Notes is subsequently corrected and the correction is published and made available to the public by the Index Calculation Agent after the original publication but no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms), the Calculation Agent will determine the amount that is payable as a result of that correction, and, to the extent necessary, will adjust the terms of the Notes to account for such correction.

III.4 Monetisation to the Maturity Date

In respect of the Final Redemption Amount the Issuer shall no longer be liable for the payment, on the Maturity Date, of the Final Redemption Amount as defined in the Final Terms, but instead will, in full and final satisfaction of its obligations:

- A. in respect of the redemption of Notes whose Final Redemption Amount as defined in the Final Terms could be as low as zero, pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that the Calculation Agent would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary in the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by the Calculation Agent as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Calculation Agent under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or
- B. in respect of the redemption of Notes whose Final Redemption Amount as defined in the Final Terms cannot be in any case lower than an amount strictly positive (the **Minimum Redemption Amount**), pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between (i) (1) the net positive cash amount that the Calculation Agent would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary in the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the

fourth Business Day preceding the Maturity Date (excluded), and (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by the Calculation Agent as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by the Calculation Agent under its Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

Definitions applicable to this section:

Associated Costs means an amount determined by the Calculation Agent in its reasonable discretion equal to the sum of (without duplication) all costs (including, without limitation, cost of funding), losses, expenses, tax and duties incurred by the Calculation Agent in connection with the termination, liquidation or re-establishment of the Hedge Positions, such amount to be apportioned pro rata amongst the Specified Denomination of each outstanding Note.

Compounding Method means, when interest is specified herein as accruing pursuant to the Compounding Method, that the amount of interest shall be equal to the sum of the Compounding Period Amounts for each Compounding Period in the related Calculation Period,

where

Adjusted Calculation Amount means (a) in respect of the first Compounding Period of a Calculation Period, the Calculation Amount for that Calculation Period and (b) in respect of any succeeding Compounding Period in that Calculation Period, an amount equal to the sum of the Calculation Amount for that Calculation Period and the Compounding Period Amounts for each of the previous Compounding Periods in that Calculation Period;

Compounding Date means, in respect of a Compounding Period, each Business Day (being a Business Day at Paris) of such Compounding Period;

Compounding Period means, in respect of a Calculation Period, each period from and including a Compounding Date to but excluding the immediately following Compounding Date during that Calculation Period;

Compounding Period Amount means, in respect of a Compounding Period, the product of (a) the Adjusted Calculation Amount, (b) the Compounding Rate and (c) the Day Count Fraction;

Compounding Rate means, in respect of a Compounding Period Amount, the interbank overnight rate in the Specified Currency as determined by the Calculation Agent on the first day of the relevant Compounding Period; the specific Compounding Rate used in respect of a Specified Currency shall be available at the office of the Calculation Agent from the first day of a Calculation Period; and

Day Count Fraction means, for the purposes of Compounding Method above, the exact number of days in a Compounding Period (the first included and the last excluded), divided by 360.

Full Liquidation Date means, in respect of the Maturity Date, the date on which the liquidation proceeds of the Hedge Positions (including *inter alia* by meeting the liabilities of such Hedge Positions, if any, with the liquidation proceeds of the assets of such Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by the Calculation Agent.

Hedge Positions means any purchase, sale, entry into or maintenance, by the Calculation Agent, of one or more (a) position(s) or contract(s) in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowings and/or (d) other instruments, arrangements, assets or liabilities

howsoever described in order to hedge individually or on a portfolio basis the part of the Issuer's obligations under one Note linked to or indexed to the relevant Index due on the Maturity Date.

Relevant Spot Exchange Rate means in respect of a date and an amount to be converted in the Specified Currency, the rate of exchange of the currency in which such amount is denominated into the Specified Currency as determined by the Calculation Agent used to convert such amount on such date into the Specified Currency.

IV. ADJUSTMENTS AND EVENTS RELATING TO DIVIDENDS

IV.1 Adjustments

Adjustments in relation to an Index the components of which are used to determine the amounts due under Notes indexed on Dividends

If an event occurs affecting the Index the components of which are used to determine the amounts due under Notes indexed on Dividends, which in the determination of the Calculation Agent has a material effect on the amounts due under the Notes, then the Calculation Agent shall either:

- A. adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event; or
- B. replace the Index by a new index provided that such index is (a) representative of the same economic or geographic sector (as the case may be), and (b) to the extent possible, representative of shares listed on one or more Exchange(s) of one or more OECD country(ies); or
- C. consider such event as an event triggering an early redemption of the Notes and then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

Adjustments in relation to a Share the dividend of which is used to determine the amounts due under Notes indexed on Dividends

If an Extraordinary Event (as defined in Part 2-1.2 above) occurs affecting the Share (the **Affected Share**) the dividend of which is used to determine the amounts due under Notes indexed on Dividends, then the Calculation Agent shall either:

- A. adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event; or
- B. replace the Affected Share by the resulting share or by a new share issued by a company of a similar international standing or creditworthiness as the Company related to the Affected Share; or
- C. apply the Early Redemption (as defined in Part 2 - 1.2) above on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

If a Potential Adjustment Event (as defined in Part 2 - 1.1 above) occurs affecting the Share (the **Affected Share**) the dividend of which is used to determine the amounts due under Notes indexed on Dividends, then the Calculation Agent will, subject to the provisions of the last paragraph of the definition of "Dividend" in Part 1 - VI above, adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event.

IV.2 Extraordinary Events

Failure to Publish

If during the Dividend Period, the Index Sponsor fails (for whatever reason including without limitation, a Market Disruption Event as defined in Part 1 - I “*Common definitions and provisions for Shares, ADR, Indices and Dividends*”) to calculate and publish the number of free-float shares in respect of any Share or the Official Index Divisor, then the Calculation Agent shall determine the number of free-float shares in respect of such Share or the Official Index Divisor (as the case may be).

In making any such determination, the Calculation Agent may (but shall not be obliged to) make reference to the formula for and method of calculating the number of free-float shares or the Official Index Divisor (as the case may be) last in effect prior to the failure by the Index Sponsor to make the relevant calculation or publication.

Dividend Recovery

If (a) the amount actually paid or delivered by an issuer to holders of record of the relevant Share in respect of any Dividend declared by such issuer (a **Declared Dividend**) to holders of record of such Share is not equal to such Declared Dividend (a **Dividend Mismatch Event**); or (b) such issuer fails to make any payment or delivery in respect of such Declared Dividend by the third Business Day following the relevant due date, then the Calculation Agent may (but shall not be obliged to) determine any appropriate adjustment to be made to account for such correction or subsequent publication, together with interest, on any amount subsequently due under the Notes.

IV.3 Corrections

In the event that an Official Index Divisor or number of free floating shares calculated and published by the Index Sponsor (or determined by the Calculation Agent pursuant to the provisions above relating to Part 2-IV.2 “*Failure to Publish*”) and utilised for any calculation or determination made in respect of the Notes is subsequently corrected (or, where there has been a Failure to Publish, published by the Index Sponsor) and the correction is published (or, where there has been a Failure to Publish, publication is made) by the Index Sponsor within five Scheduled Trading Days (as defined in the Definitions specific to Indices in Part 1 - III above) after the original publication, the Calculation Agent will adjust the Dividend, as required, to take into account such correction, *provided that* such correction or subsequent publication occurs no later than four Business Days prior to the Maturity Date (or any payment date(s) determined in the applicable Final Terms).

V. HEDGING DISRUPTION, INSOLVENCY FILING AND CONSEQUENCES – CHANGE IN LAW AND CONSEQUENCES

V.1 Hedging Disruption and Insolvency Filing

Hedging Disruption means, in respect of Notes that have one or more Share(s), Index(ices), SGI Index(ices), ADR(s), Dividend(s) as Underlying(s), that Société Générale or one of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale by the Issuer of the Notes; or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Insolvency Filing means, in respect of Notes that have one or more Share(s), ADR(s) or Dividend(s) as Underlying(s) that the Company institutes or has instituted against it by a regulator, supervisor or

any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditor's rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Company shall not be deemed an Insolvency Filing.

In the case of the occurrence of a Hedging Disruption relating to a Share, an Index, a SGI Index, an ADR or Dividend(s) or of the occurrence of an Insolvency Filing relating to a Share, an ADR or Dividend(s) (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector and which, in the case of a SGI Index, will be a Similar Index; or
- C. apply the Monetisation to the Maturity Date (as defined above).

For the purpose of this provision:

Hedge Positions means any purchase, sale, entry into or maintenance of one or more (a) position(s) or contract(s) in securities, options, futures, derivatives or foreign exchange, (b) stock loan transactions or (c) other instruments or arrangements (howsoever described) by Société Générale or one of its affiliates, in order to hedge, individually or on a portfolio basis, the Notes.

V.2 Change in Law

Change in Law means in respect of Notes that have one or more Share(s), Index(ices), SGI Index(ices), ADR(s), or Dividend(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any tax law) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale or one of its affiliates to hold, acquire or dispose of Hedge Positions (as defined in Part 2-V.1 above) or to maintain the agreement entered into with Société Générale or one of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, then the Calculation Agent will decide with regard to the Affected Underlying by such Change in Law, either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- B. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector and which, in the case of a SGI Index, will be a Similar Index; or

- C. apply the Monetisation to the Maturity Date (as defined above).

PART 3 – CALCULATIONS – PHYSICAL DELIVERY

I. CALCULATIONS – CALCULATION AGENT

- A. Unless otherwise specified in the applicable Final Terms, and in respect of Notes to which this Equity Technical Annex applies, the Calculation Agent responsible for calculating the Rate of Interest and/or the Final Redemption Amount and/or interest payable and/or the Physical Delivery Amount and/or the Early Redemption Amount shall be Société Générale, 17 cours Valmy, 92987 Paris La Défense Cedex, France. The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor, the Agent and the Noteholders, in the absence of manifest error or proven error.
- B. Following the occurrence of an event giving rise to an Adjustment which is substantial in the opinion of the Calculation Agent or of an Extraordinary Event affecting an Underlying, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders pursuant to the provisions of Condition 13 of the Terms and Conditions of the relevant adjustment made or decision taken by the Calculation Agent. Details on such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's specified address.

II. PHYSICAL DELIVERY NOTES

- A. Unless otherwise specified in the applicable Final Terms, the Underlying used to determine the Physical Delivery Amount will be the Underlying(s) specified in the applicable Final Terms.
- B. When the settlement of a Physical Delivery Note is by way of physical delivery, the delivery will be made through Clearstream, Luxembourg or Euroclear or other relevant clearance institution (a **Clearing System**). The Transfer Notice will be delivered using the transfer procedures currently utilised by the relevant Clearing System. A Noteholder's entitlement to any Physical Delivery Amount will be evidenced by the Noteholder's account balance appearing on the records of the relevant Clearing System.
- C. Additional terms applicable to the settlement of the Physical Delivery Amount:
- (a) The Physical Delivery Amount will be determined subject to the provisions in Part 1 and Part 2 of this Equity Technical Annex, relating to Adjustments and Market Disruption Event. If as a result of an adjustment or otherwise, the number of Underlyings to be delivered is not a whole number, any fraction thereof will be payable in cash, on the basis of the value of such Underlying, converted, as the case may be, into the Specified Currency at the current exchange rate.
- (b) In addition, if a Settlement Disruption Event does prevent delivery of the Physical Delivery Amount on the Maturity Date, then, such delivery shall occur on the first succeeding day on which delivery of the Physical Delivery Amount can take place through the relevant Clearing System (the **Settlement Date**) unless a Settlement Disruption Event prevents delivery for a period of 20 Clearing System Days immediately following the original date that would have been the Settlement Date (the **Delivery Period**). In that latter case, the Issuer shall, in lieu of delivering the Physical Delivery Amount, pay, in respect of each Note, the fair market value of the number of Underlying(s) to be delivered (the **Fair Market Value**) converted into the Specified Currency at the current exchange rate, if applicable. The Fair Market Value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Delivery Period.

 - (1) in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero, pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Full Liquidation Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**)

between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (2) in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the **Minimum Redemption Amount**), pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Full Liquidation Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero;

or,

- (b) **Postponement to the Adjusted Intermediate Payment Date** and the Issuer shall no longer be liable for the payment, on the Intermediate Payment Date(s) following the occurrence of the Extraordinary Event, of the Intermediate Amount(s) initially scheduled to be paid on such Intermediate Payment Date(s), but instead will, in full and final satisfaction of its obligations:
- (i) in respect of the payment of the Intermediate Amount as defined in the applicable Final Terms which could be as low as zero, pay on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation

Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Intermediate Hypothetical Hedge Positions (inter alia by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (ii) in respect of the payment of the Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**), pay (a) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (b) on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision) and (ii) an amount equal to the Minimum Intermediate Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero

or,

- (c) **Substitution** and the Calculation Agent shall (i) identify a Fund (the **New Fund**) having an investment strategy similar to the investment strategy of the Fund affected by the Extraordinary Event (the **Affected Fund**) and (ii) may adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

III. DISRUPTION EVENTS RELATING TO ANY FUND AND/OR ANY FUND UNIT

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date (the **Disrupted Day**) and a Fund or Fund Unit:

- A. **Calculation and/or Publication Disruption** means the occurrence of an event, beyond the control of a Hypothetical Investor (including in the case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official net asset value per Unit of the Fund by the Fund (or the Fund Service Provider generally in charge of calculating such official net asset value); or
- B. **Fund Settlement Disruption** means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (b) the restriction on the amount or number of redemptions orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (c) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders), or (d) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Issue Date of the Notes or are already envisaged by the Fund Documents on the Issue Date of the Notes and are solely implemented by the Fund after such date; or
- C. **NAV Determination Disruption Event** means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "*Calculation and/or Publication Disruption*" in (A) above or "*Fund Settlement Disruption*" in (B) above affecting such Fund which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the Affected Fund, shall be postponed to the immediately following Fund Business Day or Fund Valuation Day (as specified to be applicable in relation to such Valuation Date in the Final Terms) that is no longer affected by a Disruption Event for such Affected Fund.

If a Disruption Event has occurred or is continuing on each of the five scheduled Fund Business Days or Fund Valuation Days, as the case may be, following the Scheduled Valuation Date or if no Fund Business Day or Fund Valuation Day, as the case may be, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

- X. determine its good faith estimate of the net asset value per Unit of such Fund which shall be deemed to be the Closing Price in respect of such Valuation Date provided that if the Calculation Agent decides to make such determination, the Valuation Date shall occur no later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of such determination; or
- Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- Z. determine that the Issuer will apply one of the following methods:
- (i) In respect of the Intermediate Amount,

(1) the **Monetisation to the Maturity Date** and the Issuer shall no longer be liable for the payment, on the Intermediate Payment Date related to the Disrupted Day, of the Intermediate Amount initially scheduled to be paid on such Intermediate Payment Date, but instead will, in full and final satisfaction of its obligations:

(1.1) in respect of the payment of the Intermediate Amount as defined in the applicable Final Terms which could be as low as zero, pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Disrupted Day, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

(1.2) in respect of the payment of the Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**), pay (a) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Disrupted Day, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which,

converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and (ii) an amount equal to the Minimum Intermediate Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero;

or,

(2) the **Postponement to the Adjusted Intermediate Payment Date** and the Issuer shall no longer be liable for the payment, on such Intermediate Payment Date, of the Intermediate Amount initially scheduled to be paid on such Intermediate Payment Date, but instead will, in full and final satisfaction of its obligations:

(2.1) in respect of the payment of the Intermediate Amount as defined in the applicable Final Terms which could be as low as zero, pay on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Disrupted Day, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

(2.2) in respect of the payment of the Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**), pay (a) on the Intermediate Payment Date an amount

per Note equal to the Minimum Intermediate Amount and (b) on the Adjusted Intermediate Payment Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Disrupted Day, the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision) and (ii) an amount equal to the Minimum Intermediate Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero;

and/or,

- (ii) in respect of the Final Redemption Amount, the **Monetisation to the Maturity Date** and the Issuer shall no longer be liable for the payment, on the Maturity Date, of the Final Redemption Amount as defined in the applicable Final Terms, but instead will, in full and final satisfaction of its obligations:
 - (1) in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero, pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Full Liquidation Date, as a result of liquidating, pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Disrupted Day, the Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under

its Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (2) in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the **Minimum Redemption Amount**), pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Full Liquidation Date, as a result of liquidating, pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Disrupted Day, the Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero;

or,

- (iii) **Substitution** and the Calculation Agent shall (1) identify a Fund (the **New Fund**) having an investment strategy similar to the investment strategy of the Fund affected by the Extraordinary Event (the **Affected Fund**) and (2) may adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

Notwithstanding the foregoing, in respect of any Notes, a Valuation Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date; if a Valuation Date (postponed as the case may be pursuant to the provisions above) would fall less than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date, then that fourth Business Day shall be deemed the Valuation Date and the Calculation Agent shall make the determinations described in (X) above on such fourth Business Day and the good faith estimate of the net asset value of the Fund so calculated shall be deemed the Closing Price.

IV. OCCURRENCE OF AN EXTRAORDINARY EVENT OR A DISRUPTION EVENT IN RELATION TO AN OPTIONAL REDEMPTION

If "Redemption at the option of the Noteholders" or "Redemption at the option of the Issuer" is specified as being applicable in the Final Terms of the relevant Notes:

- A. Upon the occurrence or likely occurrence of an Extraordinary Event or a Disruption Event, the Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void.
- B. Upon the occurrence or likely occurrence of an Extraordinary Event or a Disruption Event, with respect to Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent will determine which one of the following methods the Issuer will apply:
- (a) **Early Redemption Event** and the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- (b) **Monetisation to the Maturity Date** and the Issuer shall no longer be liable for the payment, on the Optional Redemption Date, of the Optional Redemption Amount, but instead will, in full and final satisfaction of its obligations:
- (i) in respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero, pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Optional Full Liquidation Date, as a result of liquidating (either within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event or pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Valuation Date relating to the Optional Redemption Date in the case of a Disruption Event), the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or
- (ii) in respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an

amount strictly positive (the **Optional Minimum Redemption Amount**), pay (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Optional Full Liquidation Date, as a result of liquidating (either within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event or pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Valuation Date relating to the Optional Redemption Date in the case of a Disruption Event), the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded), and (ii) an amount equal to the Optional Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

or,

(c) **Postponement to the Adjusted Optional Redemption Date** and the Issuer shall no longer be liable for the payment, on the Optional Redemption Date, of the Optional Redemption Amount, but instead will, in full and final satisfaction of its obligations:

(i) in respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero, pay on the Adjusted Optional Redemption Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Optional Full Liquidation Date, as a result of liquidating (either within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event or pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Valuation Date relating to the Optional Redemption Date in the case of a Disruption Event) the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision); for the avoidance of

doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

- (ii) in respect of the redemption of Notes whose Optional Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the **Optional Minimum Redemption Amount**), pay (a) on the Optional Redemption Date an amount per Note equal to the Optional Minimum Redemption Amount and (b) on the Adjusted Optional Redemption Date an amount per Note, determined by the Calculation Agent, equal to the positive difference between (i) (1) the net positive cash amount that a Hypothetical Investor would be left with on the Optional Full Liquidation Date, as a result of liquidating (either within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event or pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Valuation Date relating to the Optional Redemption Date in the case of a Disruption Event) the Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Optional Hypothetical Hedge Positions) minus (2) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Optional Full Liquidation Date is a **Calculation Amount** for the purposes of this provision) and (ii) an amount equal to the Optional Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero.

V. MATURITY DISRUPTION EVENT RELATING TO ANY FUND AND/OR ANY FUND UNIT

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event:

- A. the Issuer shall consider such Extraordinary Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- B. the Maturity Date of the Notes shall be postponed to the Adjusted Maturity Date; and
- C. the Issuer shall no longer be liable for the payment, on the Maturity Date, of the Intermediate Amount and/or Optional Redemption Amount and/or Final Redemption Amount as defined in the applicable Final Terms, but instead will, in full and final satisfaction of its obligations:

 - (i) in respect of the redemption of Notes whose Intermediate Amount and/or Optional Redemption Amount as defined in the applicable Final Terms could be as low as zero, pay on the Adjusted Maturity Date an amount per Note,

determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date, as a result of liquidating (either within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event that gives rise to the Maturity Disruption Event or pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Valuation Date relating to the Intermediate Payment Date and/or the Optional Redemption Date in the case of a Disruption Event giving rise to the Maturity Disruption Event) the Intermediate and/or Optional Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate or Optional Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate and/or Optional Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period, if any, (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Adjusted Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate and/or Optional Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate and/or Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

Amount for the purposes of this provision and of the Compounding Method) together with (3) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period, if any, (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date and/or the Optional Full Liquidation Date (included) and (y) the fourth Business Day preceding the Adjusted Maturity Date (excluded), and (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate and/or Optional or Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate and/or Optional Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero,

If, in the determination of the Calculation Agent:

A. the relevant Commodity Reference Price disappears or permanently discontinues or otherwise becomes unavailable; or

B. at any time following the first Valuation Date, a material change in the formula or the calculation method for the relevant Commodity Reference Price occurs; or

C. at any time following the first Valuation Date, a material change in the content, the composition or the constitution of the relevant Commodity occurs,

then the Calculation Agent will be entitled to either:

Y. determine in good faith the fair market value of the relevant Commodity for the relevant Valuation Date or Barrier Date; or

Z. replace, to the extent possible, the affected Commodity Reference Price with a similar price.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no price meets the criteria to be an appropriate replacement price in accordance with Z above, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

IV. CONSEQUENCES OF ADJUSTMENT EVENTS AFFECTING THE COMMODITY REFERENCE PRICE

If a Commodity Reference Price made public on the relevant Price Source's page and utilised in any calculation or determination made under the Notes is subsequently corrected and the correction is made available to the public on the relevant Price Source's page after the original publication but no later than four Commodity Business Days or Index Business Days, as applicable, prior to the Maturity Date or any payment date(s) (as set out in the applicable Final Terms), the Calculation Agent will determine in its sole discretion whether adjustments to the terms of the Notes are necessary to account for such correction. Any adjustment resulting from such correction shall be made in the Calculation Agent's sole discretion.

PART 3 - PROVISIONS APPLICABLE TO INDICES ON COMMODITIES

I. INDEX BUSINESS DAY ADJUSTMENT

- A. If a Valuation Date is not an Index Business Day with respect to an Index, then the Valuation Date for such Index shall be postponed to the next day which is an Index Business Day with respect to such Index, subject to valuation deadline provisions in C below.
- B. If a Barrier Date is not a Common Index Business Day, then such Barrier Date shall be postponed to the next day which is a Common Index Business Day, subject to determination deadline provisions in C below.
- C. Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date; as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith the fair market level of the Index or Indices for which that fourth Business Day is not an Index Business Day.

II. CONSEQUENCES OF INDEX DISRUPTION EVENTS

- A. If a Valuation Date specified in the Final Terms is subject to an Index Disruption Event for an Index and any Underlying Index, as applicable, the level of such Index or Underlying Index shall be determined by the Calculation Agent in good faith in accordance with the formula and calculation method for that Index and Underlying Index, as applicable, last in effect prior to the occurrence of the first Index Disruption Event (subject to determination deadline provisions in B below), using:
 - (a) with respect to each commodity comprised in the Index or any Underlying Index for which no Relevant Futures Contract is affected by an Index Disruption Event, its settlement price as determined and made public by the relevant Exchange for the Valuation Date; and
 - (b) with respect to each commodity comprised in the Index or any Underlying Index for which one or more Relevant Futures Contract(s) is affected by an Index Disruption Event:
 - (i) the settlement price of Relevant Futures Contracts related to such commodity as determined and made public by the relevant Exchange on the Valuation Date or retrospectively within five Observation Business Days from and including the relevant Valuation Date;
 - (ii) if the settlement price is not determined as per (i) above or is a Limit Price, the settlement price of all Relevant Futures Contract related to such commodity published by the relevant Exchange for the next Commodity Business Day with respect to all Relevant Futures Contracts_and on which the Index Disruption Event ceases to exist; or
 - (iii) if the settlement price of one or more Relevant Futures Contract(s) is not determined as per (i) or (ii) above, the fair market value of all Relevant Futures Contracts on that fifth Observation Business Day.
- B. Notwithstanding the foregoing, the date on which the value of a Commodity comprised in the Index and the level of Index are determined shall occur not later than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such date.

III. CONSEQUENCES OF EXTRAORDINARY EVENTS AND ADJUSTMENTS TO INDICES

A. If an Index is:

- (a) not calculated and made public by the relevant Index Sponsor but is calculated and made public by a relevant successor sponsor (the **Successor Sponsor**) acceptable to the Calculation Agent, or
- (b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Index;

then the Index will be deemed to be the index so calculated and made public by the relevant Successor Sponsor or that successor index (as the case may be).

B. If, in the determination of the Calculation Agent:

- (a) the relevant Index Sponsor (or if applicable the Successor Sponsor) makes a material change in the formula of an Index or in any other way materially modifies an Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in commodities comprised in the Index and capitalisation and other routine events), or
- (b) the Index Sponsor (or, if applicable, the Successor Sponsor) permanently cancels an Index and no successor index exists;

then the Calculation Agent will be entitled to either:

- Y. determine the level of that Index for the relevant Valuation Date or Barrier Date in accordance with the formula and calculation method for that Index last in effect prior to that change, failure or cancellation. The Index so calculated will be used in lieu of the Closing Price made public by the Index Sponsor for the determination of an amount to be paid under the Notes or to determine whether a condition, if any, has occurred or not, or
- Z. replace the Index with a new index to the extent possible, representative of the similar type of commodities comprised in the Index and traded on one or more Exchange(s).

If the Calculation Agent does not make a calculation in accordance with (Y) above and if, in the determination of the Calculation Agent, no index meets the criteria to be an appropriate replacement index in accordance with (Z) above, then the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions.

PART 4 - HEDGING DISRUPTION, CHANGE IN LAW AND CONSEQUENCES THEREOF

Change in Law means, with respect to Notes that have one or more Commodity(ies) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes, due to:

- A. the adoption of, or any change in, any applicable law (including without limitation, any Commodity Futures Trading Commission or tax law) or any regulation, rule or procedure of any exchange or principal trading market on which a Commodity or any component thereof is traded (together the **Applicable Regulation**); or

- B. the promulgation of, or any change in the published interpretation by any court, tribunal or regulatory authority with competent jurisdiction or supervisory duty, of any Applicable Regulation (including any action taken by a taxing authority),

the Calculation Agent determines in good faith that:

- Y. it has become illegal or contrary to any Applicable Regulation for Societe Generale or one of its affiliates to (a) hold, acquire or dispose of any Hedge Position (as defined below) or (b) maintain the agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or to perform its obligations or exercise its rights thereunder; or
- Z. Societe Generale or one of its affiliates incurs or there is a substantial likelihood that Societe Generale or one of its affiliates will incur increased costs, fees or charges in (a) acquiring, establishing, re-establishing, substituting, maintaining, unwinding or disposing of any Hedge Position or (b) maintaining any agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or performing its obligations thereunder.

Hedging Disruption means, with respect to Notes that have one or more Commodity(ies) or one or more Index(ices) as Underlying(s), that, as determined in good faith by the Calculation Agent, Societe Generale or one of its affiliates is unable, after using commercially reasonable efforts, to either:

- A. acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Position; or
- B. freely realise, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Position or any agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes.

For the purpose hereof, **Hedge Position** means one or more position(s) in or contract(s) related to commodities, over-the-counter or exchange-traded commodity derivative transactions, foreign exchange transactions or other instruments or arrangements (howsoever described) necessary to hedge, individually or on a portfolio basis or otherwise, the risks of Societe Generale or one of its affiliates of (a) issuing and performing any of the obligations with respect to the Notes or (b) entering into and performing the obligations under the agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes.

Upon the occurrence, as determined by the Calculation Agent in good faith, of a Hedging Disruption or a Change in Law (the relevant Commodity(ies) as Underlying being the **Affected Underlying**), the Calculation Agent may:

- X. consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). In that case, where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount based on the Market Value as defined in Condition 6(f) of the Terms and Conditions; or
- Y. replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector.

PART 5 - CALCULATIONS BY THE CALCULATION AGENT

- A. Unless otherwise specified in the applicable Final Terms, and with respect to Notes to which this Commodities Technical Annex applies, the Calculation Agent responsible for determining the Commodity Reference Price and calculating the Rate of Interest, the Final Redemption Amount, interest payable and the Early Redemption Amount shall be Societe Generale of 17 cours Valmy F 92987 Paris La Défense Cedex, France. The calculations and determinations of the Calculation Agent will be conclusive and binding upon the Issuer, the Guarantor, the Agent and the Noteholders, in the absence of manifest error or proven error.

- B. Following the occurrence of an event giving rise to an adjustment which is substantial in the opinion of the Calculation Agent or of an extraordinary event affecting an Underlying in respect of this Commodities Technical Annex, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders, pursuant to the provisions of Condition 13 in respect of the Terms and Conditions, of the relevant adjustment made or decision taken by the Calculation Agent. Details of such adjustment made or decision taken can be obtained by the Noteholders upon request at the Calculation Agent's specified address.

D) CREDIT TECHNICAL ANNEX

Capitalised terms used but not defined in this Part 1 shall have the meanings given to them in Part 2 of this Credit Technical Annex save to the extent it is supplemented or modified in the applicable Final Terms.

In the case of Italian Certificates, all references in this Commodities Technical Annex to “Notes”, “Noteholders”, “Maturity Date”, “Scheduled Maturity Date”, “Early Redemption Amount” and “Final Redemption Amount” shall be deemed to be references to “Italian Certificates”, “Holders”, “Final Exercise Date”, “Scheduled Final Exercise Date”, “Early Exercise Amount”, and “Final Exercise Amount”, respectively.

PART 1 – CREDIT EVENT PROVISIONS

I. PHYSICAL SETTLEMENT

If the Notes are Single Name Notes or First-to-Default Notes and the Settlement Method specified in the related Final Terms is Physical Settlement

1. Physical Settlement

- 1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, if applicable, a Notice of Publicly Available Information are delivered during the Notice Delivery Period by or on behalf of the Issuer to the Relevant Clearing System for the Noteholders’ information, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next following paragraph and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be specified in Section III below.

The Delivery of the Specified Deliverable Obligations (or the payment of the Cash Redemption Amount as the case may be) is subject to the prior delivery by or on behalf of the Issuer to the Relevant Clearing System for the Noteholders’ information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

- 1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Issuer has sole and absolute discretion to select the Specified Deliverable Obligations.
- 1.3 The Issuer will not necessarily Deliver all the Specified Deliverable Obligations on the same date, and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.
- 1.4 The Issuer is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.
- 1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the Relevant Clearing System, then the Issuer may, at its discretion but upon prior notice to the Noteholders, arrange:
- (i) Delivery of those Specified Deliverable Obligations, if any, that are eligible for clearance by the Relevant Clearing System in the Relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the Relevant Clearing System outside the Relevant Clearing System; or

- (ii) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the Relevant Clearing System.

The Relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the Relevant Clearing System, the Issuer must receive the relevant Noteholders' transfer instructions in terms that are satisfactory to the Issuer sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

2. Cash Settlement

- 2.1** If, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of clause 1.5 above, then the Calculation Agent will calculate in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations a Cash Redemption Amount and the Issuer will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in final and full satisfaction of its obligations in respect of the Undeliverable Obligations.
- 2.2** The Issuer must notify the relevant Noteholders through the Relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.
- 2.3** If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible; and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the Relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the Relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.
- 2.4** If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder, Deliver Specified Deliverable Obligations and pay a Cash Redemption Amount. The Issuer is not obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.
- 2.5** If clause 2.1 or clause 2.3 of this Part 1 applies, the Issuer may arrange that all settlements hereunder be made outside the Relevant Clearing System in the manner described in clause 1.5 above provided that the Issuer receives transfer instructions in terms that are satisfactory to the Issuer to allow for such settlements.
- 2.6** The Calculation Agent will inform the Noteholders via the Relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.

II. CASH SETTLEMENT

If the Settlement Method specified in the related Final Terms is Cash Settlement:

1. If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, if applicable, a Notice of Publicly Available Information are delivered during the Notice Delivery Period by or on behalf of the Issuer to the Noteholders, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, pay or procure payment of the Cash Redemption Amount on the Cash Redemption Date (subject as specified in clause 2 below) and (ii) the Interest Period(s) and or the Interest Calculation Amount shall be specified in Section III below. The Selected Obligations, the Cash Redemption Amount and the Cash Redemption Date shall be notified to the Noteholders in the Final Valuation Notice on the Final Valuation Notice Receipt Date.
2. In the case of Basket Notes or Tranche Notes, if an Unsettled Credit Event has occurred, a Preliminary Cash Redemption Amount will be payable on the Scheduled Maturity Date and a Residual Cash Redemption Amount will be payable on the Maturity Date.
3. For the avoidance of doubt, under no circumstances will the Final Value be determined later than the 180th Business Day following the corresponding Credit Event Determination Date.

III. PROVISIONS RELATING TO INTEREST

Interest Period means each period from and including an Interest Payment Date to but excluding the next Interest Payment Date; provided however that the first Interest Period begins on the Interest Commencement Date (inclusive) and the last Interest Period remains subject to the provisions of this Part 1.

1. Single Name Notes and First-to-Default Notes

- (a) *If the Accrual of Interest upon Credit Event option specified in the related Final Terms is Accrued Interest upon Credit Event:* The last Interest Period will be the period from and including the Interest Payment Date immediately preceding the Credit Event Determination Date (or from and including the Interest Commencement Date in the case of a Credit Event occurring before the first Interest Payment Date) to but excluding the Credit Event Determination Date, and the last Interest Payment Date will be the earlier of the Interest Payment Date following the fourth Business Day falling after the Credit Event Determination Date and the Maturity Date. No interest shall accrue nor be payable from and including the Credit Event Determination Date to the Maturity Date.
- (b) *If (i) the Accrual of Interest upon Credit Event option specified is Accrued Interest upon Credit Event and (ii) Repudiation /Moratorium or Grace Period Extension are specified as Applicable in the related Final Terms:* The last Interest Period will be the period from and including the Interest Payment Date immediately preceding the Credit Event Determination Date (or from and including the Interest Commencement Date in the case of a Credit Event occurring before the first Interest Payment Date) to but excluding the earlier of (a) the Credit Event Determination Date and (b) the Scheduled Maturity Date.

In such event, the last Interest Payment Date will be the earlier of the Interest Payment Date following the fourth Business Day falling after the Credit Event Determination Date and the Maturity Date. Provided that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Repudiation/Moratorium that occurs after the fourth Business Day prior to the Scheduled Maturity Date, (ii) the Potential Repudiation/Moratorium with respect to such

Repudiation/Moratorium occurs on or prior to the fourth Business Day prior to the Scheduled Maturity Date and (iii) the Repudiation/Moratorium Extension Condition is satisfied, the last Interest Payment Date shall be the Scheduled Maturity Date. Provided further that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Failure to Pay that occurs after the fourth Business Day prior to the Scheduled Maturity Date and (ii) the Potential Failure to Pay with respect to such Failure to Pay occurs on or prior to the fourth Business Day prior to the Scheduled Maturity Date, the last Interest Payment Date shall be the Scheduled Maturity Date.

No interest shall accrue nor be payable from and including the Credit Event Determination Date to the Maturity Date. In particular, in the event the Maturity Date falls after the Scheduled Maturity Date, no interest will be payable from and including the Scheduled Maturity Date to the Maturity Date.

- (c) *If the Accrual of Interest upon Credit Event option specified in the related Final Terms is No Accrued Interest upon Credit Event:* The last Interest Period will be the Interest Period (if any) ending on the earlier of (i) the Interest Payment Date immediately preceding the Credit Event Determination Date and (ii) the Scheduled Maturity Date. No interest shall accrue nor be payable from and including the Interest Payment Date preceding the Credit Event Determination Date (or the Interest Commencement Date in the case of a Credit Event Determination Date occurring before the first Interest Payment Date) to the Maturity Date.
- (d) *If (i) the Accrual of Interest upon Credit Event option specified is No Accrued Interest upon Credit Event and (ii) Repudiation /Moratorium or Grace Period Extension are specified as Applicable in the related Final Terms:* The last Interest Period will be the Interest Period (if any) ending on the earlier of (i) the Interest Payment Date immediately preceding the Credit Event Determination Date and (ii) the Scheduled Maturity Date.

Provided that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Repudiation/Moratorium that occurs after the fourth Business Day prior to the Scheduled Maturity Date, (ii) the Potential Repudiation/Moratorium with respect to such Repudiation/Moratorium occurs on or prior to the fourth Business Day prior to the Scheduled Maturity Date and (iii) the Repudiation/Moratorium Extension Condition is satisfied, the last Interest Payment Date shall be the Scheduled Maturity Date.

Provided further that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Failure to Pay that occurs after the fourth Business Day prior to the Scheduled Maturity Date and (ii) the Potential Failure to Pay with respect to such Failure to Pay occurs on or prior to the fourth Business Day prior to the Scheduled Maturity Date, the last Interest Payment Date shall be the Scheduled Maturity Date.

No interest shall accrue nor be payable from and including the Interest Payment Date preceding the Credit Event Determination Date (or the Interest Commencement Date in the case of a Credit Event Determination Date occurring before the first Interest Payment Date) to the Maturity Date. In the event the Maturity Date falls after the Scheduled Maturity Date, no interest will be payable from and including the Scheduled Maturity Date to the Maturity Date.

- (e) *If (i) the Accrual of Interest upon Credit Event option specified in the related Final Terms is Accrued Interest upon Credit Event and (ii) there is only one Interest Period:* The Interest Period will be the period from and including the Interest Commencement Date to but excluding the Credit Event Determination Date, and the Interest Payment Date will be the Maturity Date. No interest shall accrue nor be payable from and including the Credit Event Determination Date to the Maturity Date.
- (f) *If (i) the Accrual of Interest upon Credit Event option specified is Accrued Interest upon Credit Event, (ii) Repudiation /Moratorium or Grace Period Extension are specified as Applicable in*

the related Final Terms and (iii) there is only one Interest Period: The Interest Period will be the period from and including the Interest Commencement Date to but excluding the earlier of (a) the Credit Event Determination Date and (b) the Scheduled Maturity Date.

In such event, the last Interest Payment Date will be the Maturity Date. Provided that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Repudiation/Moratorium that occurs after the fourth Business Day prior to the Scheduled Maturity Date, (ii) the Potential Repudiation/Moratorium with respect to such Repudiation/Moratorium occurs on or prior to the fourth Business Day prior to the Scheduled Maturity Date and (iii) the Repudiation/Moratorium Extension Condition is satisfied, in which case, the Interest Payment Date shall be the Scheduled Maturity Date. Provided further that, if (i) the Credit Event that is the subject of the Credit Event Notice is a Failure to Pay that occurs after the fourth Business Day prior to the Scheduled Maturity Date and (ii) the Potential Failure to Pay with respect to such Failure to Pay occurs on or prior to the fourth Business Day prior to the Scheduled Maturity Date, the Interest Payment Date shall be the Scheduled Maturity Date.

No interest shall accrue nor be payable from and including the Credit Event Determination Date to the Maturity Date. In particular, in the event the Maturity Date falls after the Scheduled Maturity Date, no interest will be payable from and including the Scheduled Maturity Date to the Maturity Date.

- (g) *If (i) the Accrual of Interest upon Credit Event option specified in the related Final Terms as No Accrued Interest upon Credit Event and (ii) there is only one Interest Period:* No interest shall accrue nor be payable in respect of the Notes.

Only if European Settlement is specified in the related Final Terms:

- (h) *If the Accrual of Interest upon Credit Event option specified in the related Final Terms is Guaranteed Coupon:* The last Interest Period will end on, but exclude, the earlier of the Scheduled Maturity Date or the Maturity Date and the interest shall accrue in respect of each Interest Period on the Aggregate Nominal Amount.

2. Basket Notes and Tranche Notes

In the case of Basket Notes and Tranche Notes, the last (or if there is only one, the only) Interest Period will end on (but exclude) the earlier of the Maturity Date and the Scheduled Maturity Date and the Interest Calculation Amount will be as specified below.

- (a) *If the Accrual of Interest upon Credit Event option specified in the related Final Terms is Accrued Interest upon Credit Event:* In respect of each Interest Period, the Interest Calculation Amount will be calculated on the fourth Business Day preceding the relevant Interest Payment Date and be an amount equal to (i) the sum, for each day of such Interest Period, of the Daily Interest Calculation Amount, divided by (ii) the number of days in such Interest Period.
- (b) *If the Accrual of Interest upon Credit Event option specified in the related Final Terms is No Accrued Interest upon Credit Event:* In respect of each Interest Period, the Interest Calculation Amount will be an amount equal to the Daily Interest Calculation Amount as of the fourth Business Day preceding the relevant Interest Payment Date.
- (c) *If (i) the Accrual of Interest upon Credit Event option specified in the related Final Terms is Accrued Interest upon Credit Event and (ii) there is only one Interest Period:* The Interest Calculation Amount will be an amount, calculated on the fourth Business Day preceding the Interest Payment Date equal to (i) the sum, for each day of the Interest Period, of the Daily Interest Calculation Amount, divided by (ii) the number of days in the Interest Period.

- (d) *If (i) the Accrual of Interest upon Credit Event option specified in the related Final Terms is No Accrued Interest upon Credit Event and (ii) there is only one Interest Period:* The Interest Calculation Amount will be an amount equal to the Daily Interest Calculation Amount as of the fourth Business Day preceding the Interest Payment Date.

Only if European Settlement is specified in the related Final Terms:

- (e) *If the Accrual of Interest upon Credit Event option specified in the related Final Terms is Guaranteed Coupon:* The Interest Calculation Amount will be the Daily Interest Calculation Amount as at the Issue Date.

For the avoidance of doubt, except in the case of a Guaranteed Coupon, if a Notice of Pending Credit Event is delivered to the Noteholders, payment of interest on the Notes, or, in the case of Basket Notes or Tranche Notes, on the portion of the Interest Calculation Amount relating to the relevant Reference Entity, will be deferred until:

- (i) if a Credit Event Notice is delivered in relation to the relevant event, the Maturity Date, or in the case of Basket Notes or Tranche Notes, the Scheduled Maturity Date or the Maturity Date, as the case may be; or
- (ii) the date that is 10 Business Days following the publication of a DC No Credit Event Announcement;
- (iii) if no DC No Credit Event Announcement is published and no Credit Event Notice is delivered in relation to the relevant event, the date that is 110 Business Days following the Credit Event Resolution Request Date (all as defined in Part 2 *Definitions* below).

For the avoidance of doubt, (x) should a Credit Event Determination Date occur within an Interest Period less than four Business Days prior to the relevant Interest Payment Date and the Issuer's payment instructions have already been given in respect of interest payable with respect to such Interest Period, then the Issuer may deduct from the Cash Redemption Amount or the Physical Delivery Amount, as the case may be, the amount of overpaid interest; and (y) if payment of interest is deferred following the delivery of a Notice of Pending Credit Event, no additional interest will be payable on the Suspended Amounts for the period of the deferral.

In relation to Notes which are not Single Name Notes or First-to-Default Notes or Basket Notes or Tranche Notes (all as defined in Part 2 *Definitions* below), the provisions relating to interest will be specified in the related Final Terms.

IV. CREDIT EVENT NOTICE AFTER RESTRUCTURING

Upon the occurrence of a Restructuring in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date if either "Restructuring Maturity Limitation and Fully Transferable Obligation" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applicable in the related Final Terms:

(1) Single Name Notes and First-to-Default Notes

If American Settlement is specified in the related Final Terms:

- (a) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the Partial Redemption Amount) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Section I or Section II to this Part 1 shall be deemed to apply to the Partial Redemption Amount only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount);

- (b) for the avoidance of doubt (i) the Nominal Amount of each such Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of such Note as provided in the related Final Terms (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (ii) the provisions of Section I or Section II to this Part 1 shall apply to such Nominal Amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and
- (c) on redemption of part of each Note the relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption.

For the avoidance of doubt, the outstanding Nominal Amount of each Note in respect of which no Credit Event Notice has been delivered during the Notice Delivery Period (and, if applicable, no Potential Repudiation/Moratorium or Potential Failure to Pay has occurred on or prior to the fourth Business Day immediately preceding the Scheduled Maturity Date), will be redeemed on the Scheduled Maturity Date.

If European Settlement is specified in the related Final Terms:

- (a) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the “**Partial Redemption Amount**”) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Section I or Section II to this Part 1 shall apply to the Partial Redemption Amount; and
- (b) for the avoidance of doubt the provisions of Section I or Section II to this Part 1 shall apply to the Nominal Amount of each Note outstanding after reduction by such Partial Redemption Amount in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity.

(2) Basket Notes and Tranche Notes

- (a) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the “**Partial Restructuring Notional Amount**”) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Section II to this Part 1 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and
- (b) for the avoidance of doubt, following such Restructuring, the provisions of this Credit Technical Annex shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Notional Amount being reduced by the Partial Restructuring Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

V. MULTIPLE SUCCESSORS

If the Notes are Single Name Notes and if Multiple Successor is specified as Applicable in the related Final Terms the following shall apply:

Where, pursuant to the definition of “**Successor**” (see Part 2 of this Credit Technical Annex), more than one Successor has been identified, each such Successor (a “**Multiple Successor**”) shall be a Reference Entity for the purposes of the Conditions, but only in respect of a principal amount of each Note equal to the Nominal Amount divided by the number of Multiple Successors to such Reference

Entity (the “**Multiple Successor Notional Amount**”) as determined by the Calculation Agent. Where Multiple Successors to such Reference Entity (each, a “**Sub-Multiple Successor**”) have been identified in respect of a Reference Entity (an “**Original Multiple Successor**”) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of the Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, if applicable a Notice of Publicly Available Information, in respect of a Multiple Successor, the Notes will not be redeemed in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Note (an “**Instalment Amount**”) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. Following delivery or payment of an Instalment Amount in respect of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount so redeemed and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, if applicable a Notice of Publicly Available Information in relation to the original Reference Entity.

If Multiple Successor is specified as Not Applicable in the related Final Terms the following provisions shall apply:

Should more than one Successor succeed to the Reference Entity and a Credit Event occur in respect of any one of them, the Notes will be early redeemed in whole in accordance with the paragraph “Settlement Method”, as if First-to-Default was specified as Applicable in the related Final Terms.

Sovereign Restructured Selected Obligation means an Obligation of a Sovereign Reference Entity (a) in respect of which a Restructuring that is the subject of the relevant Credit Event Notice has occurred and (b) described by the Selected Obligation Category specified in the related Final Terms and having each of the Selected Obligation Characteristics, if any, specified in the related Final Terms, in each case, immediately preceding the date on which such Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring without regard to whether the Obligation would satisfy such Selected Obligation Category or Selected Obligation Characteristics after such Restructuring.

For purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign.

Substitute Reference Obligation(s) means one or more Obligation(s) of the Reference Entity (either directly or as a provider of a Qualifying Affiliate Guarantee, or if All Guarantees is specified as Applicable in the related Final Terms, as provider of any Qualifying Guarantee) that will replace one or more Reference Obligation(s), identified by the Calculation Agent in accordance with the following procedures:

- (a) in the event that (i) a Reference Obligation is redeemed in whole or (ii) in the opinion of the Calculation Agent (A) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments), (B) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of the Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding obligation of the Reference Entity enforceable in accordance with its terms, or (C) for any other reason, other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an obligation of the Reference Entity, the Calculation Agent shall identify one or more Obligation(s) to replace such Reference Obligation.
- (b) Any Substitute Reference Obligation or Substitute Reference Obligations shall be an Obligation that (1) ranks *pari passu* in priority of payment with the ranking in priority of payment of each of the Substitute Reference Obligation and such Reference Obligation (with the ranking in priority of payment of such Reference Obligation being determined as of the date as of which such Reference Obligation was issued or incurred and not reflecting any change to such ranking in priority of payment after such date), (2) preserves the economic equivalent, as closely as practicable as determined by the Calculation Agent, of the Issuer's obligations under the Notes and (3) is an obligation of the relevant Reference Entity (either directly or as provider of a Qualifying Affiliate Guarantee, or if All Guarantees is specified as Applicable in the related Final Terms, as provider of any Qualifying Guarantee). Upon notice to the Noteholders, the Substitute Reference Obligation or Substitute Reference Obligations identified by the Calculation Agent shall, without further action, replace such Reference Obligation or Reference Obligations.

The Calculation Agent will (in its absolute discretion) make such adjustments to the terms of the Notes that it determines are necessary in order to preserve the economic equivalent of the Issuer's obligations under the Notes.

succeed means, for the purposes of determining a Successor, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than such Reference Entity (i) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (ii) issues Bonds that are exchanged for Relevant Obligations (or, as applicable, obligations), and in either case such Reference Entity is no longer an obligor (primarily or secondarily) or guarantor with respect to such Relevant Obligations (or, as applicable, obligations). The determinations required pursuant to the definition of Successor shall be made, in the case of an exchange offer, on the basis of the outstanding principal balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the outstanding principal balance of Bonds for which Relevant Obligations have been exchanged.

Succession Event means

- (a) with respect to a Reference Entity that is not a Sovereign, an event such as a merger, consolidation, amalgamation, transfer of assets or liabilities, demerger, spin-off or other similar event in which one entity succeeds to the obligations of another entity, whether by operation of law or pursuant to any agreement; or
- (b) with respect to a Reference Entity that is a Sovereign, an event such as annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other event that results in any direct or indirect successor(s) to such Reference Entity.

Notwithstanding the foregoing, Succession Event shall not include an event (i) in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity, unless such exchange occurs in connection with a merger, consolidation, amalgamation, transfer of assets or liabilities, demerger, spin-off or other similar event or (ii) with respect to which the legally

effective date (or in the case of a Reference Entity that is a Sovereign, the date of occurrence) has occurred prior to the Succession Event Backstop Date.

Succession Event Backstop Date means the date that is 120 calendar days prior to the Issue Date of the relevant Notes.

Succession Event Notice means an irrevocable notice delivered by or on behalf of the Issuer to the Noteholders that describes a Succession Event that occurred on or after the Succession Event Backstop Date. Successor means:

- (a) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any determined as set forth below:
 - (i) If one entity directly or indirectly succeeds to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.
 - (ii) If only one entity directly or indirectly succeeds to more than twenty-five per cent. (but less than seventy five per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.
 - (iii) If more than one entity each directly or indirectly succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Section V of Part 1 of this Credit Technical Annex. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event, divided by the number of Successors.
 - (iv) If one or more entity(ies) each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Section V of Part 1 of this Credit Technical Annex. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event, subject to adjustment of the Reference Entity Weighting, divided by the number of Successors.

- (v) If one or more entity(ies) directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the terms of the Notes will not be changed in any way as a result of the Succession Event.
- (vi) If one or more entity(ies) directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.

PROVIDED THAT, in the case of Basket Notes and Tranche Notes, if the resulting Successor of a Reference Entity affected by a Succession Event, or as the case may be, one or more of the several resulting Successors of such Reference Entity is(are) another Reference Entity comprised in the Reference Portfolio at the legally effective date of the Succession Event, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the Succession Event as determined in accordance to paragraph (a)(i), (ii), (iii), (iv) or (vi) and the Reference Entity Weighting of such Successor in effect prior to the Succession Event.

PROVIDED FURTHER THAT, in the case of Basket Notes and Tranche Notes, if two or more Reference Entities are affected by a Succession Event resulting in at least one common Successor, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the Succession Event as determined in accordance to paragraph (a)(i), (ii), (iii), (iv) or (vi) with respect to each Reference Entity in respect of which it is a Successor.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under (vi) above, as applicable. PROVIDED THAT the Calculation Agent will not make such determination if at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve in accordance with the Rules (y) whether an event that constitutes a Succession Event has occurred with respect to the relevant Reference Entity and (x) the legally effective date of such event (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) are satisfied or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such relevant Obligation listed in the Best Available Information.

- (b) With respect to a Sovereign Reference Entity, Successor means each entity which becomes a direct or indirect successor to such Reference Entity by way of a Succession Event,

irrespective of whether any such successor assumes any of the obligations of such Reference Entity.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the date of the occurrence of the relevant Succession Event), and with effect from the date of the occurrence of the Succession Event, each Sovereign and/or entity, if any, that qualifies under (b) above. PROVIDED THAT the Calculation Agent will not make such determination if at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve in accordance with the Rules (y) whether an event that constitutes a Succession Event has occurred with respect to the relevant Reference Entity and (x) the date of the occurrence of such event (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) are satisfied or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. A notice will be sent by or on behalf of the Issuer to the Noteholders evidencing the Succession Event and giving all necessary relevant indications as to the Successor(s), the Multiple Successor Notional Amount (if applicable), the Reference Entity Weighting (if applicable) and the change in Reference Obligation(s).

Basket_t = 100 or 100 per cent. or any other figure or percentage specified in the applicable Final Terms;

Basket_{t_i} = $Basket_t \times (\text{Basket Value per Note on the Final Valuation Date} / \text{Basket Value per Note on the Initial Determination Date})$;

Basket_{t_d} = $Basket_t \times (\text{Basket Value per Note on the Valuation Date "t"} / \text{Basket Value per Note on the Initial Determination Date})$;

otherwise, all references herein to Portfolio, Portfolio Value and Portfolio Value per Note shall be deemed to be references to Basket, Basket Value and Basket Value per Note respectively; for the avoidance of doubt, all references herein to $Portfolio_i$, $Portfolio_f$ and $Portfolio_t$ shall also be deemed to be references to $Basket_i$, $Basket_f$ and $Basket_t$ except for aforementioned.

Final Valuation Date means, unless otherwise specified in the applicable Final Terms, the tenth Business Day before the Maturity Date, provided that if such Business Day is not a Valuation Date, the Final Valuation Date will be the immediately following Valuation Date, provided further that, if none of the Business Days which follow up to and including the fifth Business Day before the Maturity Date is a Valuation Date, the fifth Business Day before the Maturity Date will be deemed to be the Final Valuation Date and the relevant valuation shall be made on this date by the Calculation Agent acting in good faith, on the basis of estimated value of each relevant Risky Asset and or Non Risky Asset and or Cash components when an official value is not disclosed.

Fund means any Risky Fund or Non Risky Fund.

Fund Prospectus means, in respect of a Fund, the document describing such Fund and providing, *inter alia*, for the subscription and redemption process in respect of Units of such Fund and rights attached to such Units, as such document may be supplemented and amended from time to time and available, free of charge, at the office of the Agent in Luxembourg.

Portfolio means a portfolio of assets comprising (i) a selection of Risky Funds, a single Risky Fund or such other type of risky asset(s) specified in the applicable Final Terms constituting, together with the Other Instruments (if any) related to them, the **Risky Asset** and, if any, (ii) the Non Risky Fund(s) and the Cash constituting, together with the Other Instruments (if any) related to them, the **Non Risky Asset**. Where applicable, any Borrowed Capital shall form part of the Portfolio provided that, as liabilities, it shall come in deduction from the aforementioned assets. The Portfolio allocation amongst the components of the Risky Asset applicable on the Initial Determination Date shall be specified in the applicable Final Terms; such specification may be only indicative.

The Portfolio may be managed and allocated by the Portfolio Manager in different manners as detailed below (unless otherwise specified in the applicable Final Terms):

(a) Portfolio Management

- (i) If **Dynamic Selection** is specified in the applicable Final Terms the Portfolio Manager will manage the Risky Asset in its absolute discretion without limitation to the number and/or the weighting of the components in the Risky Asset; it may, in particular, remove any component from the Risky Asset or add one or more new component(s) therein. Specific rules, guidelines or constraints on or in relation to the Portfolio Management's authority or discretion to manage the Risky Asset may be provided for in the applicable Final Terms.
- (ii) If **Permanent Selection** is specified in the applicable Final Terms, the Portfolio Manager is not authorised to remove or add components from or to the Risky Asset provided however that (i) the respective weightings of the components of the Risky Asset may be modified by the Portfolio Manager and (ii) the Portfolio Manager and/or the Calculation Agent, acting in good faith, may make adjustments to the Risky Asset following the occurrence of an Extraordinary Event.

(b) Portfolio Allocation

In allocating the Portfolio amongst the relevant components the Portfolio Manager will take into account (i) variations in the performance of the Risky Asset and (ii) the specific market conditions. The Portfolio Manager may permit the exposure of the Portfolio to the Risky Asset (the **Risky Asset Exposure** being Risky Asset Value / Portfolio Value) to vary from the Minimum Exposure (0 per cent. means that the Portfolio is exclusively invested in the Non Risky Asset) to the Maximum Exposure (100 per cent. or more means that the Portfolio is exclusively invested in the Risky Asset). For the avoidance of doubt, a Risky Asset Exposure exceeding 100 per cent. reflects the leverage feature of the investment in the Portfolio (Risky Asset in the Portfolio partly financed by borrowings).

- (i) If **Portfolio Allocation** is specified in the applicable Final Terms, the Portfolio Manager will allocate the Portfolio amongst the relevant components on a dynamic basis in accordance with the methodology known as the DPI ("Dynamic Portfolio

Insurance”) methodology or the CPPI (“Constant Portfolio Proportion Insurance”) methodology or the ODPI (“Objective Driven Portfolio Insurance”) methodology (or any other similar methodology as specified and described in the applicable Final Terms) with a view to achieving (i) a capital protection feature for the Notes and/or (ii) a participation in the growth of the value of the assets comprised in the Portfolio and/or (iii) a Performance Objective in the case of the ODPI methodology.

(ii) If **DPI Basket Allocation** is specified in the applicable Final Terms, it shall mean that allocation amongst the relevant components of the Basket will be managed on a dynamic basis in accordance with the methodology known as the DPI or the CPPI methodology but making use of some arbitrary parameters that will not allow any capital protection, as follows:

- the Portfolio Manager will periodically make observation of the difference (such difference being the **Cushion**) between (i) the Basket Value per Note on a given date t and (ii) the Reference Level (expressed as a percentage) on the same date multiplied by the Basket Value per Note on the Initial Determination Date
- the Portfolio Manager may determine, at its absolute discretion, a range within which the ratio of the Risky Asset Value per Note to the Cushion (such ratio being the **Multiplier**) should remain. If the Portfolio Manager observes that the Multiplier has deviated from such targeted range it may adjust the allocation of components within the Basket by increasing or decreasing (as appropriate) the allocation of the Risky Asset in the Basket such that the Multiplier falls within the targeted range, subject to the Maximum Exposure and Minimum Exposure. Alternatively the Multiplier may be a pre-determined fixed factor which generates a norm of Risky Asset Value (or Risky Asset Exposure) on the basis of current level of the Cushion. Adjustment of the Basket allocation is made only if the actual figures diverge from the norm by more than a specified percentage; where such alternative applies a Fixed Multiplier and a Specified Percentage in respect of the Risky Asset Exposure shall be specified in the applicable Final Terms.

(iii) If **Volatility Cap Basket Allocation** is specified in the applicable Final Terms, the Portfolio Manager will dynamically manage the allocation of the Basket according to the Volatility Cap methodology as set below.

Volatility Re-Balancing: the Portfolio Manager will determine the level of the Basket Volatility on each Business Day t (the **Basket Volatility(t)**) in accordance with the formula below. If the Basket Volatility_(t) exceeds the Volatility Cap Level or is below the Volatility Floor Level, then the Portfolio Manager will proceed with a re-balancing of the Basket by increasing/decreasing the exposure to the Non Risky Asset and by decreasing/increasing the exposure to the Risky Asset in order to reach the Volatility Reset Level.

The target weights of the 2 components within the Basket on a Business Day t are defined as follows:

Risky Asset Target Weight (t) =

Max[Minimum Exposure; Min (Maximum Exposure; Risky Asset Target Weight (t-1) × Volatility Reset Level / Basket Volatility(t))]

Non Risky Asset Target Weight(t) = 1 - Risky Asset Target Weight(t)

where **t-1** is the first Business Day before the date t

On the Initial Determination Date (t=0) Risky Asset Target Weight (t-1) = Maximum Exposure.

The re-balancing of the Basket will be made within 3 (or 5) Business Days of such date t, on a best efforts basis, and subject to valuation delay, liquidity and execution condition of the constituents of the Risky Asset.

Once a new allocation between the Risky Asset and the Non Risky Asset is determined, it will remain constant unless the Basket Volatility leads to a re-balancing in accordance with these allocation rules.

Each of the **Volatility Cap Level**, the **Volatility Floor Level** and the **Volatility Reset Level** is the relevant percentage as specified in the applicable Final Terms.

Basket Volatility (t) means, on each Business Day t, the Annualised Standard Deviation of the Daily Return of the Risky Asset multiplied by the Risky Asset Target Weight (t-1). The Basket Volatility will be determined for the first time on the Initial Determination Date, subject to valuation delay, liquidity and execution condition of the constituents of the Risky Asset.

Annualised Standard Deviation:

$$\sigma = \sqrt{260 \times \frac{1}{n-1} \sum_{i=0}^{19} R_{t-i}^2}$$

where:

n is the number of Business Days in the Rolling Period.

R_{t-i} is the Daily Return of the Risky Asset on Business Day *t-i* of the Rolling Period.

i designates the numerical order (from 0 to 19) of the Business Days within a Rolling Period.

Rolling Period means a 20 Business Days period starting on each Business Day occurring from and including the twenty first Business Day preceding the Initial Determination Date or any other period as may be specified in the applicable Final Terms.

Daily Return of the Risky Asset means, on each Business Day t, the difference between the Risky Asset Value on such Business Day and the Risky Asset Value on the preceding Business Day, divided by the Risky Asset Value on such preceding Business Day.

PROVIDED THAT (i) if “**One to One**” is specified in the applicable Final Terms, the Notes will simply be indexed on the constituent(s) of the Risky Asset without any management or allocation strategy being implemented (unless otherwise specified in the applicable Final Terms), (ii) if “**Leverage Strategy**” is specified in the applicable Final Terms, the Portfolio will consist exclusively in the Risky Asset and **Borrowed Capital** and will remain permanently exposed to such Risky Asset with generally no other management or allocation strategy than the periodical resetting of the Risky Asset Exposure at a specified level (the “**Target Exposure Level**”) and (iii) if “**Specific Strategy**” is specified in the applicable Final Terms, the Portfolio shall be managed and allocated in accordance with the specific rules detailed in such Final Terms.

PROVIDED FURTHER THAT in all cases the Risky Asset remains subject to the adjustment provisions set out in section 4 below.

Portfolio_i means the Portfolio Value per Note on the Initial Determination Date being an amount in the Specified Currency equal to a fixed percentage of the Nominal Amount as specified in the applicable Final Terms. Portfolio_i remains subject to appropriate adjustments made in good faith by the Calculation Agent in relation to certain events affecting any Fund and / or any Unit and /or any other underlying Risky Asset.

Portfolio_f means the Portfolio Value per Note on the Final Valuation Date as determined by the Calculation Agent. Portfolio_f remains subject to appropriate adjustments made in good faith by the Calculation Agent in relation to certain events affecting any Fund and/or any Unit and /or any other underlying Risky Asset.

Portfolio_t means the Portfolio Value per Note on any Valuation Date “t” as determined by the Calculation Agent. Portfolio_t remains subject to appropriate adjustments made in good faith by the Calculation Agent in relation to certain events affecting any Fund and/or any Unit and /or any other underlying Risky Asset.

Portfolio Manager means the entity specified as such in the applicable Final Terms, being the agent responsible for managing and allocating the Portfolio amongst the relevant components; in such capacity, the Portfolio Manager will act in the best interest of the Noteholders pursuant to a Portfolio Management Deed. - (g) an increase in the holding by the Hedging Counterparty or any of its affiliates of up to 20 per cent. (unless otherwise specified in the applicable Final Terms) in the underlying Fund or a reduction of the Fund's total net assets below €25,000,000 (unless otherwise specified in the applicable Final Terms) and which, in the reasonable opinion of the Calculation Agent and/or the Portfolio Manager, has or is likely to have a significant effect on the management conditions of the Fund and/or its operating expenses;

- (iii) consider such event as an event triggering an early redemption of the Notes (hereafter, an Early Redemption Event). If an Early Redemption Event occurs, the Notes shall no longer be linked to the performance of the Risky Asset and the Issuer's obligations under the Notes shall be terminated and the Issuer shall pay or cause to be paid an Early Redemption Amount as if it were a redemption for taxation reasons or an Event of Default on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions provided that the Early Redemption Amount will, as the case may be, wholly or partly depend on the amounts received as the result of the unwinding of hedging arrangements entered into in respect of the Notes.

Should the event cease on or after the decision of the Calculation Agent and/or the Portfolio Manager to early redeem the Notes, no Noteholder will be entitled to any payment whether of interest or otherwise in respect of the Notes other than the Early Redemption Amount and none of the Issuer, the Dealer, the Portfolio Manager and the Calculation Agent shall have any liability in respect of such early redemption.

The Early Redemption Amount payable upon the occurrence of an event affecting the underlying equity index as mentioned above will be paid or caused to be paid to the Noteholders as if it were a redemption for taxation reason or an Event of Default on the basis of Market Value as defined in Condition 6(f) of the Terms and Conditions, provided that the Early Redemption Amount will, as the

case may be, wholly or partly depend on the amounts received as the result of the unwinding of hedging arrangements entered into in respect of the Notes.

Should the event cease on or after the decision of the Calculation Agent and the Portfolio Manager to early redeem the Notes, no Noteholder will be entitled to any payment whether of interest or otherwise in respect of the Notes other than the Early Redemption Amount and none of the Issuer, the Dealer, the Portfolio Manager and the Calculation Agent shall have any liability in respect of such early redemption.

Calculations – Calculation Agent

The Calculation Agent shall notify the Issuer, which shall in its turn notify the Agent and the Noteholders pursuant to the provisions of Condition 13 of the Terms and Conditions, of (a) of any adjustments which are substantial in the opinion of the Calculation Agent, and (b) upon the occurrence of an extraordinary event listed in this Managed Assets Portfolio Technical Annex, of any modification of the composition of the Underlying and/or of Market Value of the Notes payable in respect thereof together with the calculation details if necessary.

The Calculation Agent responsible for calculating the Rate of Interest and/or the Final Redemption Amount and/or interest payable and/or the Early Redemption Amount and in respect of Notes to which this Managed Assets Portfolio Technical Annex applies shall be specified in the applicable Final Terms. Valuation Date means any date specified as such in the applicable Final Terms.

PART 2 – EVENTS AND ADJUSTMENTS

- (a) In the case of the occurrence at any time on or prior to the last Valuation Date of the material or substantial modifications of the conditions of the Non Equity Security (such as but not limited to modification of the legal documentation related thereto) or any event or any change affecting the Non Equity Security (such as but not limited to definitive interruption of quotation of the Non Equity Security or termination of the obligations of the Issuer of the Non Equity Security under the Non Equity Security for any reason) and that, in the reasonable opinion of the Calculation Agent, is likely to have a significant effect on the value of the Non Equity Security, then, the Calculation Agent may:
- (i) adjust any terms of the Notes, it determines appropriate, in order to take into account the economic effect on the Notes of such event; or
 - (ii) substitute the Non Equity Security with a new underlying asset; or
 - (iii) consider such event as an event triggering the termination of the Notes (a **Termination Event**).
- (b) If a Termination Event occurs in respect of the Non Equity Security on or before the Maturity Date, then, the Calculation Agent shall determine, in good faith, the fair market value of the Notes and the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Termination Event, the amount determined by the Calculation Agent in respect of each Note.

When used in a condition, it means that the item preceding this sign must be equal to or greater than the item following this sign for the condition to be met. E.g. "If $X \geq Y$ then,..." means that X must be equal to or greater than Y for the condition to be met.
\leq	means that the item preceding this sign is equal to or lower than the item following this sign. When used in a condition, it means that the item preceding this sign must be equal to or lower than the item following this sign for the condition to be met. E.g. "If $X \leq Y$ then,..." means that X must be equal to or lower than Y for the condition to be met.
i, j or k	means in respect of the item to which it applies which can be without limitation a date (e.g. "Valuation Date (i)"), an underlying (e.g. "Share (i)") or a combination of underlyings (e.g. "Basket (i)") or a figure obtained pursuant to a formula (e.g. "Coupon (i)"), the designation of such item within a countable list, with the use of the variable i, j or k.
i from X to Y	means that within the countable list of the designated item to which i applies (as defined above), only the items with a

rank between X and Y both included (X and Y are numbers) are considered.

i from X to Y and ≠ i0

by extension the item ranked i0 is excluded from the above list.

i^k

means, when an item is designated in a list by 2 variables, the designation of such item in the list. e.g. "Share i^k " with Valuation Date (k) means Share(i) on the Valuation Date(k).

Min [X;Y]

means that the considered value is the lowest value between the values of the two numbers X and Y. If the two values X and Y are positive, the value that will be retained by application of this formula, will be the value that is the lowest of these two positive values (e.g. Min [3;2] 2 will be retained). If X is positive and Y negative, Y will be the value retained by application of this formula (e.g. Min [3; -2], -2 will be retained) . If X is negative and Y positive, X will be the value retained by application of this formula (e.g. Min [-3;2], -3 will be retained). If both X and Y are negative values, the value retained by application of this formula will be the greatest negative value (e.g. Min [-3; -2], -3 will be retained). If X is positive and Y equal to 0 (e.g. Min [3; 0], Y = 0 will be retained) and if X is negative and Y equal to 0 (e.g. Min [-3; 0], X = -3 will be retained). The same rule applies, if more than two values are considered.

Max [X;Y]

means that the considered value is the highest value between the values of the two numbers X and Y. If the two values X and Y are positive, the value that will be retained by application of this formula, will be the value that is the highest of these two positive values (e.g. Max [3;2], 3 will be retained). If X is positive and Y negative, X will be the value retained by application of this formula (e.g. Max [3; -2], 3 will be retained). If X is negative and Y positive, Y will be the value retained by application of this formula (e.g. Max [-3;2], 2 will be retained). If both X and Y are negative values, the value retained by application of this formula will be the least negative value (e.g. Max [-3; -2], -2 will be retained). If X is positive and Y equal to 0 (e.g. Max [3; 0], X = 3 will be retained) and if X is negative and Y equal to 0 (e.g. Max [-3;0], Y = 0 will be retained). The same rule applies, if more than two values are considered.

Min_{i from X to Y}

means that the considered value of the item to which it applies, will be the lowest of the different values that such item can take determined pursuant to the rules of Min above, when its rank in the list varies from X to Y. e.g. Min_{i from 1 to 5} Share(i) means that the relevant value to be considered is the lowest value amongst the 5 values that Share(i) takes.

Max_{i from X to Y}

means that the considered value of the item to which it

applies, will be the greatest of the different values that such item can take determined pursuant to the rules of Max above when its rank in the list varies from X to Y. e.g. $\text{Min}_{i \text{ from } 1 \text{ to } 5} \text{Share}(i)$ means that the relevant value to be considered is the greatest value amongst the 5 values that Share(i) takes.

$$\sum_{n=1}^X \text{ or } \text{Sum}_{n \text{ from } 1 \text{ to } X}$$

means, for the item to which it applies, the sum of the X values that the item will take.

$$\text{E.g. } \sum_{n=1}^{10} \text{Basket}(n)$$

means the sum of the 10 values that Basket (n) takes when n varies from 1 to 10.

$$\frac{1}{X} \times \sum_{n=1}^X$$

means for the item to which it applies, the arithmetic average of the values that the item will take.

$$\text{E.g. } \frac{1}{10} \times \sum_{n=1}^{10} \text{Basket}(n)$$

means the arithmetic average of the 10 values that Basket (n) takes.

|X| or Abs (X) or absolute value of X

means that even if X has a negative value this negative value will be disregarded. E.g. $|-10|$ means that the value to be retained is 10.

x^n

means that the value to be considered is the result of X multiplied by itself "n-1" times. E.g. 2^5 means $2 \times 2 \times 2 \times 2 \times 2$ (i.e. 2 multiplied by itself 4 times) = 32.

\sqrt{X} or the square root of X

means that the value to be considered is the number which when multiplied by itself gives X. E.g. $\sqrt{9} = 3$ since $3 \times 3 = 9$.

$$\prod_{n=1}^x$$

means, for the item to which it applies, the product of the x values that the item will take.

$$\text{E.g. } \prod_{n=1}^3 (n+1)$$

$$(1+1)(2+1)(3+1) = 2 \times 3 \times 4 = 24$$

"a power b"

means the exponential function of b with base a.

$\text{LN}(x) = \ln(x) = \text{Ln}(x)$

means logarithm to the base e of x, for example $\text{LN}(2) = 0.69315$.

INT(x)

means the function which gives the integer part of the number x (rounded down to the closest integer number), for example $\text{INT}(2.3) = 2$, $\text{INT}(1.6) = 1$, $\text{INT}(-1.4) = -2$, $\text{INT}(-4.6) = -5$.

IND(condition)

means the characteristic function of the condition which is equal to 1 if the condition is satisfied and which is equal to 0 if the condition is not satisfied, for example :

S(0): closing value of the Underlying on Valuation Date(0)

S(1): closing value of the Underlying on Valuation Date(1)

if $S(0) > S(1)$, then $\text{IND}(S(0) > S(1)) = 1$

if $S(0) = S(1)$, then $\text{IND}(S(0) > S(1)) = 0$

if $S(0) < S(1)$, then $\text{IND}(S(0) > S(1)) = 0$

H) OTHER DEFINITIONS

The applicable Final Terms may contain other definitions not specifically referred to in this Technical Annex. The meanings and/or functions of such definitions will be set out in full in the Schedule to the applicable Final Terms.

This Agreement shall come into force with effect from 1st July 2005. It is concluded for an initial term of one year, and thereafter shall be deemed renewed from year to year unless one of the Parties provides notice of termination in writing no later than 15 days prior to the date at which the Agreement is due to be renewed. Shall the Agreement be terminated, the Parties agree to be bound by its terms until all obligations under the Notes have been fully satisfied.

Article 6 - Modifications - Prior Agreements

Any modification of this Agreement shall be set forth in a written amendment signed by all the Parties.

Article 7 - Applicable law - Jurisdiction

This Agreement shall be governed by the laws of Germany.

All disputes relating to its validity, interpretation or performance shall be submitted to the law courts in Frankfurt with jurisdiction, provided however, that SG and SG alone, in whose favour such attribution of jurisdiction has been granted, shall have the option of bringing such proceedings before any other court with jurisdiction."

B. Limitation of Recourse

Pursuant to Condition 10 of the Terms and Conditions of the Notes, any payment obligations of the Issuer under the Notes are limited to the funds received from the Guarantor under the Trust Agreement. To the extent such funds prove ultimately insufficient to satisfy the claims of all Noteholders in full, then any shortfall arising therefrom will be extinguished and no Noteholder has any further claims against the Issuer, regardless of whether the Issuer would be able to fulfil its payment obligations under the Notes out of its own funds, subject, however, to the right of the Noteholders to exercise any termination or early redemption rights.

C. Impact of the Trust Agreement and the Limitation of Recourse on the Position of the Issuer vis-à-vis the Noteholders

As a result of the Trust Agreement, the Issuer's ability to satisfy its payment obligations under the Notes in full is dependent upon it receiving in full the amounts payable to it by the Guarantor under the Trust Agreement. Moreover, since the Terms and Conditions of the Notes provide for a limitation of recourse, this applies irrespective of whether the Issuer would be able to make such payments out of other funds available to it.

Thus, from an economic perspective, the Notes are issued by the Guarantor and not the Issuer, whose role is comparable to that of a special purpose vehicle used for the issue of Notes and the Noteholders directly depend on the credit risk of the Guarantor (see "Risk Factors Issue of the Notes by the Issuer on the account of the Guarantor and Creditworthiness of the Guarantor") rather than that of the Issuer."

TAXATION

THE FOLLOWING SECTION PROVIDES INFORMATION ON TAXES ON THE INCOME FROM THE NOTES WITHHELD AT SOURCE IN RESPECT OF (I) THE COUNTRY OF THE REGISTERED OFFICE OF THE ISSUER AND (II) THE COUNTRIES WHERE OFFERS OF NOTES MAY BE MADE OR ADMISSION TO TRADING MAY BE SOUGHT. SUCH INFORMATION IS NOT INTENDED TO PROVIDE AN EXHAUSTIVE DESCRIPTION OF THE POTENTIAL TAX ISSUES ASSOCIATED WITH THE NOTES. ACCORDINGLY, ANY INVESTOR CONSIDERING AN INVESTMENT IN THE NOTES SHOULD OBTAIN INDEPENDENT TAX ADVICE ON THE TAXATION IMPLICATIONS FOR IT, IN EACH RELEVANT JURISDICTION, OF PURCHASING, OWNING OR DISPOSING OF ANY NOTE.

The Issuer does not assume liability for the deduction of taxes at the source.

FEDERAL REPUBLIC OF GERMANY

The following discussion of certain German tax consequences of buying, holding or disposing of the Notes is based on tax laws, regulations, decisions, judgments and administrative decrees currently in effect, which may be amended or construed differently, potentially with retroactive or retrospective effect. However, this section does not refer to all possible tax considerations which are relevant to the decision of any potential purchaser with respect to buying, holding or disposing of a Note; in particular, it does not refer to specific circumstances which may be relevant to certain purchasers such as church tax (Kirchensteuer) or individual tax privileges. This means that the following text exclusively refers to Notes as an investment as such (unless expressly indicated otherwise) and does not address any persons in their specific tax situation. The information contained in the following section is not intended as and does not purport to be legal or tax advice.

Potential investors in the Notes are therefore advised to consult their own tax advisers as to the German and other tax consequences of buying, holding or disposing of the Notes.

As each Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Tranche of Notes as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment. If necessary, the prospectus regarding the respective Tranche of Notes will contain more specific but also general information on the possible tax treatment of the respective Notes. Potential investors should therefore always review the respective Final Terms also with respect to additional tax information.

German Taxation of Residents

Notes held as a Private Asset

Taxation of Interest Income

Under German tax law, payment of interest on the Notes to persons who are tax residents of Germany (including persons whose residence, habitual abode, statutory seat or place of management is located in Germany, a "German Holder") and who held the Note as a private asset is subject to German income tax as capital income in the meaning of § 20 German Income Tax Act. From the year 2009, a final taxation ("Abgeltungsteuer") is charged on capital income at an amount of 25% plus 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon, resulting in a total final taxation of 26.375%. Taxable base is the received interest without any deduction of expenses actually incurred. The total capital income of the individual will be deducted by a personal annual exemption ("Sparer-Pauschbetrag") of EUR 801 (EUR 1,602 for married couples filing their tax return jointly). The personal income tax liability regarding the capital income is, in principle, settled by the tax withheld. If no withholding tax was charged on the payment of the interest, the German Holder will have to include

this interest income in its tax return. The final taxation will then be charged by way of assessment. The German Holder may also apply for assessment of the capital income based on the general rules if the personal income tax rate of the German Holder is lower than the final taxation rate. In such assessment, the withholding tax will be credited.

Withholding Tax on Interest Income

If the Notes are held in a custodial account maintained by a German Holder with a German branch of a German or foreign bank or financial services institution (a "German Disbursing Agent"), which pays or credits the interest, a 25% withholding tax ("Kapitalertragsteuer") on interest payments, plus a 5.5% solidarity surcharge ("Solidaritatzuschlag") thereon will be levied, resulting in a total withholding tax charge of 26.375% on the gross amount of interest paid. Accrued Interest paid by a German Holder upon the purchase of the Notes may be set-off against the amount of interest income received by such German Holder and, under certain circumstances, may reduce the amount subject to withholding tax.

If the Noteholder is an individual to whom income from the Notes constitutes income from a capital investment and such Noteholder has filed a certificate of exemption ("Freistellungsauftrag") with the German Disbursing Agent, no tax will be withheld by the German Disbursing Agent to the extent that the interest income derived from the Notes together with other investment income administered by the German Disbursing Agent does not exceed the maximum exemption amount shown on this certificate. Similarly, no tax will be withheld if the Noteholder submits to the German Disbursing Agent a certificate of non-assessment ("Nichtveranlagungsbescheinigung") issued by the competent local tax office.

Disposal or Redemption of the Notes

Capital gains resulting from the disposal or redemption of Notes (or, as the case may be, from the payment at maturity of the Notes) realised by individual German Holders holding the Notes as private assets are taxable as capital gains. They are also subject to the final taxation ("Abgeltungsteuer") at an amount of 25% plus 5.5% solidarity surcharge ("Solidaritatzuschlag") thereon, resulting in a total final taxation of 26.375%.

Base for this taxation is the capital gain, which is in general the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. The taxable capital gains from Notes issued in a currency other than Euro also include any currency gains (and losses). In the case of a physical settlement of certain Notes which grant the Issuer or the individual Noteholder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment in cash, generally no taxable capital gain may result, because the acquisition costs of the Notes are regarded as acquisition costs of the underlying securities received by the individual Noteholder upon physical settlement. Therefore, only loss can arise from the deduction of directly related expenses.

Capital losses in respect of the Notes held as a private asset may only be set-off against capital income within the same financial year and in subsequent years. However, if losses result from Notes held in a custodial account maintained by a German Disbursing Agent, initially the German Disbursing Agent will take these losses into account when calculating the withholding tax. In case that the losses can not be compensated in the current year the losses will be set off against the income of the subsequent year. Upon request of the German Holder the German Disbursing Agent will provide a certificate of all losses, which could not be set off during the current year within the custodial account. This certificate enables the German Holder to claim a deduction within the assessment of capital income.

Withholding Tax on Disposal or Redemption of the Notes

Like the treatment of interest income a withholding tax at an amount of 25%, plus a 5.5% solidarity surcharge ("Solidaritatzuschlag") thereon (in total 26.375%) will be levied on capital gains from

disposal or redemption of the Notes, if the Note is held in a custodial account maintained by a German Disbursing Agent. A withholding tax will not be charged if the German Holder has provided a certificate of exemption ("*Freistellungsauftrag*") or a certificate of non-assessment ("*Nichtveranlagungsbescheinigung*") to the German Disbursing Agent.

Base for this taxation is again the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. However, in case the Notes have not been kept in a custodial account with the same German Disbursing Agent since the time of acquisition, upon the disposal, redemption or repayment the withholding applies to 30% of the disposal proceeds, unless the current Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous Disbursing Agent or by a statement of a bank or financial services institution within the European Economic Area or certain other countries in accordance with art. 17 para. 2 of the EC Council Directive 2003/48/EC. Furthermore, the special provision for a physical settlement of certain Notes applies for purposes of the withholding. Therefore, in principle, redemption accompanied by physical settlement may not result in a withholding tax.

Notes held as Business Assets or by a Corporate Body

If the Notes are held as business assets or by a corporate body all income received from the Notes (interest as well as capital gains) is subject to German income tax or German corporate income tax. The income from the Notes will be taxed at the German Noteholder's individual tax rate. The income tax or the corporate income tax is not settled by the tax withheld. Withholding tax and the solidarity surcharge thereon might be credited as prepayments against the German Holder's final tax liability for German personal or corporate income tax purposes and the respective solidarity surcharge, or, if in excess of such final tax liability, refunded upon application.

If the Notes are held in a German business establishment for trade tax purposes, interest income derived from the Notes will also be subject to trade tax on income, which is a municipal tax levied whose effective tax rate depends on the trade tax factor applied by the relevant municipality.

The taxation of the investment in the Notes might be calculated on an accruals basis. The income might therefore be taxed before the German Holder receives a payment from the Notes.

In general, withholding tax will be deducted in accordance to the same provisions like the withholding with respect to Notes held as private assets. The withholding tax on capital gains might not apply under certain circumstances and for certain capital income if the Notes are held by a tax resident corporate or if the Notes are held by a individual or by a partnership as part of the business assets as far as the German Holder provides the German Disbursing Agent with a certificate of the character of the Notes as business assets.

German Taxation of Non-Residents

Income derived from the Notes by persons who are not tax residents of Germany ("Non-German Holders") is in general exempt from German income or corporate income taxation, and no withholding tax shall be withheld (even if the Notes are held with a German Disbursing Agent), provided (i) the Notes are not held as business assets of a German permanent establishment of the Non-German Holder, including a permanent representative, or fixed base of the Noteholder, (ii) the income derived from the Notes does not otherwise constitute German source income (such as income from the letting and leasing of certain German situs property), (iii) the Notes or coupons are not presented for payment at the offices of a German branch of a German or foreign bank or financial services institution, that do not hold in custody or manage the Notes, in an over-the-counter-transaction ("*Tafelgeschäft*") by a person who is not a foreign bank or financial service institution and, (iv) in the event that the Notes are held in a custodial account maintained by a German Disbursing Agent, the Noteholder complies with the applicable procedural rules under German law and provides evidence of the fact that the Notes are not subject to taxation in Germany. Unjustified retained withholding tax shall be refunded upon request to the Local Tax Office ("*Finanzamt*") to whom the withholding tax was paid.

If the interest is subject to German taxation (for example, if the Notes are held as business assets of a German permanent establishment of a Non-German Holder), such holder is subject to a tax treatment similar to that described above under the caption "German Tax Residents". The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

If the Notes are offered by the Issuer other than in the Federal Republic of Germany, information relating to withholding tax may be disclosed in the Final Terms or, in the event of an offer which is made after completion of the Final Terms, in amended Final Terms.

European Council Directive on the Taxation of Savings Income

On 3 June 2003 the Council of the European Union ("ECOFIN") approved a directive regarding the taxation of interest income. Accordingly, each EU Member State must provide to the tax authorities of the other Member States details of the payment of interest made by a person in its jurisdiction to any individual resident in the other relevant EU Member State. The directive has to be applied by the member states since 1 July 2005. The directive came into effect in German law on 1 July 2005.

For a transitional period, Austria and Luxembourg may opt instead to withhold tax from interest payments within the meaning of the directive at a rate of 35% from 1 July 2011 onwards.

Gift or Inheritance Taxation

No estate, inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of estate and inheritance taxes, both the decedent and the beneficiary, and, in the case of gift taxes, both the donor and the donee, are tax non-residents and are not deemed to be a tax resident of Germany at the time of the transfer and such Notes are not attributable to a permanent establishment in Germany. In the case of a decedent, donor or heir who is a German national, this only applies if such person has been a non-resident of Germany for more than five consecutive years.

Stamp Duty

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax is not levied in Germany.

AUSTRIA

The following is a brief summary of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes. In some cases a different tax regime may apply. Further, this summary does not take into account the tax laws of any country other than Austria, nor any double-taxation aspects, nor does it take into account the investors' individual circumstances. Prospective investors are advised to consult their own professional advisors to obtain further information about the tax consequences of the acquisition, ownership, disposition or redemption of the Notes. Only personal advisors are in a position to adequately take into account special tax aspects of the particular Notes in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor.

This summary is based on Austrian law as in force upon having the Base Prospectus approved. The Austrian tax laws will change on April 1, 2012 due to the Austrian Accompanying Budget Act 2011 published in the Federal Legal Gazette I 2010/111 and to the Austrian Tax Amendment Act 2011 published in the Federal Legal Gazette I 2011/76. That is why the following summary describes the tax laws to be applied to the Notes before and after this effective date. Relating to the new tax laws there is currently neither case law nor guidelines or regulations by the Federal Ministry of Finance nor a secure practice applied by the paying agents and/or securities depository agents so that deviations may result from the factual implementation and practice as compared to the legal situation described herein. Prospective investors are therefore explicitly advised to consult their own professional advisers to obtain further information about the tax consequences of the acquisition, ownership, disposition, exchange, exercise, settlement or redemption of the Notes before or after April 1, 2012.

This summary does not describe the tax consequences for a holder of Notes that are redeemable in exchange for, or convertible into, shares or other securities or rights or which in other way provide for physical settlement, of the exchange, exercise, physical settlement or redemption of such Notes and/or any tax consequences after the moment of exchange, exercise, physical settlement or redemption.

Austrian Resident Taxpayers

Income derived by individuals or corporations resident in Austria is taxable pursuant to the Austrian Income Tax Act (*Einkommensteuergesetz*) or the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*). The term "resident" in this regard generally means persons having either their residence or habitual abode or companies having their seat or place of management in Austria.

Risk of re-qualification of Notes as investment fund units

Certain Notes such as non-capital guaranteed basket or index linked notes, fund linked notes or credit linked notes may be re-qualified by the tax authorities as foreign investment fund units under certain conditions. Pursuant to Sec 42 of the Austrian Investment Fund Act 1993 (as from April 1, 2012: Sec 188 of the Austrian Investment Fund Act 2011 [see Sec 198 para 2 of the Austrian Investment Fund Act 2011]), a portfolio of assets which is subject to the laws of a foreign country and which is invested according to the principle of risk spreading is qualified as non-Austrian investment fund for tax purposes, without regard to its legal form (substance over form approach).

Pursuant to the Investment Fund Guidelines 2008 applying to index linked notes, a requalification of notes into fund units requires (i) that an investment governed by non-Austrian law is effected in line with the principle of risk spreading and (ii) that the issuer (or a trustee mandated by the issuer) factually and predominantly acquires the (underlying) securities or that the investment qualifies as actively managed portfolio. This, inter alia, excludes capital guaranteed notes and notes with no more than six underlyings from requalification. However, "directly held index linked notes will in no case be requalified as foreign investment fund units, irrespective, whether the underlying index is a recognized or individually composed, fixed or flexible index". The latter provision targets to immunize (genuine) index linked notes against requalification. The Investment Fund Guidelines 2008 were published in the form of a ministerial decree and have therefore no binding effect for courts. However, the Guidelines are regarded as binding for the Austrian tax authorities.

a) If a requalification of Notes into non-Austrian fund units took place, the following would apply before April 1, 2012:

Investment funds are treated as transparent for income tax purposes. Taxable income from investment funds includes distributions as well as retained earnings of the fund (interests, dividends, capital gains) deemed to be distributed to the investor ("*ausschüttungsgleiche Erträge*"). Such retained earnings are deemed to be distributed to the investor for tax purposes to the extent of the share interest of the investor no later than four months after the end of the business year of the investment fund in which the earnings were derived by the fund. If no Austrian tax representative is appointed for the fund and the retained earnings of the fund deemed to be distributed to the investor are also not reported to the tax authorities by the investors themselves, the non-Austrian fund will be qualified a "black fund" and the retained earnings of the fund deemed to be distributed each calendar year will be determined on a lump-sum-basis which will result in a tax base of 90% of the difference between the first and the last redemption price of the fund units fixed in a calendar year, at least, however, 10 % of the last redemption price (or net asset value (NAV) or stock exchange price) of the fund units fixed in a calendar year. As the applicable tax rate is 25% for corporate investors as well as, in general, for individuals, this minimum lump sum tax base results in a minimum tax of 2,5% per year on the last redemption price (NAV) in any calendar year before maturity. In case of a sale (redemption) of black foreign investment

fund units, the tax base would be the difference between the redemption price (NAV) upon disposal and at the end of the last calendar year, at least, however, 0,8% of the redemption price (NAV) upon disposal for each month of the current calendar year. The investors will have to include the pertaining income into their income tax statement. Further, non-Austrian investment fund units, with the exception of funds that are daily reporting relevant figures to the *Oesterreichische Kontrollbank*, which are held in an Austrian credit institution deposit are subject to an annual 1,5 % compliance tax (calculated on the last redemption price (NAV) in any calendar year) deducted by the credit institution unless the investor discloses the funds vis-à-vis the Austrian tax authorities and evidences this to the Austrian credit institution. Moreover, a pro rata compliance tax applies in the calendar year of the sale or redemption of the fund unit. This compliance tax will automatically be deducted by the Austrian credit institution.

b) If a requalification of Notes into non-Austrian fund units took place, the following would apply on or after April 1, 2012 to Notes acquired before, on or after April 1, 2012:

If no Austrian tax representative is appointed for the fund and the retained earnings of the fund deemed to be distributed to the investor are also not reported to the securities depository agent by the investors themselves, the non-Austrian fund will be qualified a "black fund" and the retained earnings of the fund deemed to be distributed each calendar year will be determined on a lump-sum basis which will result in a tax base of 90 per cent of the difference between the first and the last redemption price of the fund units fixed in a calendar year, but will be minimum 10 per cent of the last redemption price of the fund units fixed in a calendar year. As the applicable tax rate is 25 per cent for corporate investors as well as, in general, for individuals, this minimum lump sum tax base results in a minimum tax of 2.5 per cent per year on the last redemption price (NAV) in any calendar year before maturity.

In the case of sales or redemptions of black foreign investment fund units acquired on or after January 1, 2011, the whole difference amount between the sale price of the fund unit on the one hand and its acquisition cost plus already taxed retained earnings of the fund deemed to be distributed to the investor on the other hand will be subject to Austrian withholding tax of 25% with effect from April 1, 2012. Special transitional rules will apply to sales or redemptions of fund units before April 1, 2012.

In the following we assume that the Notes do not qualify as foreign investment funds for income tax purposes.

Individuals

1. Tax laws applying to Notes acquired before April 1, 2012

Generally, income arising from the Notes should qualify as income from debt-securities (*Kapitalerträge aus Forderungswertpapieren*). Income from debt-securities includes (i) interest payments as well as (ii) income, if any, realized upon redemption or prior redemption (being the difference between the issue price and the redemption amount, or in case of prior redemption, the repurchase price - a maximum 2 % tax-exempt threshold applies to specified Notes bearing also ongoing coupons with a minimum 5 year maturity; in practice, however, this exemption is not available for index linked notes and other underlying linked notes treated like index linked notes) or (iii) realized upon sale of the Notes (only to the extent of accrued interest and comparable consideration for future fixed redemption or interest payments but excluding capital gains, - in case of index, share, fund, commodity or other underlying linked notes including discounted share certificates and bonus certificates, however, the whole gain would be treated as income from debt-securities, see also below "Certain aspects of the tax treatment of certain notes").

If income from debt-securities is paid out by a coupon paying agent (*kuponauszahlende Stelle*) located in Austria, it is subject to 25% Austrian withholding tax (*Kapitalertragsteuer-KESt*). The coupon paying agent is the credit institution, including an Austrian branch of a non-Austrian credit institution or investment firm, which pays out such income to the holder of the Notes.

Provided that the Notes have been offered to the public within the meaning of Sec 97 of the Austrian Income Tax Act (public placement), the 25% withholding tax constitutes a final taxation (*Endbesteuerung*) for all individuals, no matter whether they act as private investors or hold the Notes as business asset. Final taxation means that no further income tax will be assessed and the income is not to be included in the investor's income tax return. As regards the taxation of capital gains please see below.

Generally, for a public placement within the meaning of Sec 97 of the Austrian Income Tax Act the Notes have to be offered legally and factually to an undetermined number of persons. The Austrian Ministry of Finance requires that the offer is addressed (whether in Austria or abroad) to an undetermined number of addressees or to more than 250 persons in order to qualify as a public placement. This is deemed to be the case if notes are traded at a regulated market (e.g. a listing of notes on the Third Market of the Vienna Stock Exchange (*Dritter Markt*) does not suffice for the qualification as a public placement for income tax purposes) or if they are acquired within six months after the issuance by more than 250 different purchasers (whether in or outside of Austria). Evidence of the acquisition by more than 250 purchasers can be given by a confirmation of the credit institution having arranged the issue or by the purchase of the Notes by an Austrian investment fund. Evidence for a public offer within the meaning of Sec 97 of the Austrian Income Tax Act may also be given by underwriting agreements pursuant to which the Notes are subscribed for, and distributed by, one or more credit institutions or if the Notes are offered via Reuters, Bloomberg or similar widely recognized trading systems, or over other public media.

If the Notes are not offered to the public within the meaning of Sec 97 of the Austrian Income Tax Act (private placement), the income derived from the Notes is taxable at the respective Noteholder's normal progressive personal income tax rate amounting up to 50%. The Austrian withholding tax will be credited against the income tax liability.

Please note that the definition of a public offer in Sec 97 of the Austrian Income Tax Act is not completely in line with the definition of a public offer according to the Austrian Capital markets Act 1991, as amended (*CMA*) which reflects the definition in the EU Prospectus Directive (particularly an offer to more than 100 persons will usually be a public offer according to the Austrian Capital markets Act 1991). It cannot be ruled out that the definition of a public offer for tax purposes or the construction of the term "public offer" by the tax authorities will also change accordingly.

Where there is no deduction of Austrian withholding tax because the income from the Notes is not received in Austria (not paid out by a coupon paying agent located in Austria) Austrian investors will have to declare the income derived from the Notes in their income tax returns pursuant to the Austrian Income Tax Act. A special 25% income tax rate pursuant to Sec 37 subpara 8 of the Austrian Income Tax Act is applicable provided that the Notes have been offered to the public within the meaning of Sec 37 subpara 8 of the Austrian Income Tax Act.

Individuals whose regular personal income tax rate is lower than 25% may opt for taxation of the income derived from the Notes at such regular personal income tax rate. In this case, the withholding tax will be credited against the income tax liability and the excess amount shall be refunded. Expenses incurred by the investor in connection with income derived from (publicly placed) Notes are not deductible.

Special rules apply in case a noteholder transfers his residence or deposit account outside Austria.

Upon the sale of the Notes accrued interest realised upon such sale is taxed as income from debt-securities being subject to withholding tax as set out above (with regard to index, share, fund, commodity or other underlying linked notes including discounted share certificates and bonus certificates the whole gain would be treated as income from debt-securities, see below "Certain aspects

of the tax treatment of certain notes"). For private investors, any additional capital gain on the disposal of the Notes is taxable if the disposal takes place within one year after the date of the acquisition of the Notes pursuant to Sec 30 Income Tax Act (*Spekulationsgeschäft* – speculative transaction). For Notes acquired after September 30, 2011 but before April 1, 2012, any sale or other settlement of the Notes taking place before April 1, 2012 is taxable as speculative transaction at normal progressive income tax rates and any sale or other settlement of the Notes taking place on or after April 1, 2012 is taxable at the new special tax rate of 25%. Such speculative gain before April 1, 2012 is taxed at normal progressive income tax rates amounting up to 50% if the total of such speculative gain exceeds 440 Euro per year. If the Notes qualify as business assets, capital gains on the disposal are taxable irrespective of the date of the disposal at normal progressive income tax rates.

2. Tax laws applying to Notes acquired on or after April 1, 2012

For Notes acquired against consideration on or after April 1, 2012, the following applies with effect as of April 1, 2012: Not only interest amounts but also realized capital gains will, irrespective of the period of time the Notes have been held for, qualify as investment income (*Einkünfte aus Kapitalvermögen*) and be subject to income tax at a special rate of 25%. Investment income will, inter alia, include income derived from the sale, redemption or other pay-off of the Notes and, in the case of derivative financial instruments, from any other settlement of the Notes. The tax base is, in general, the difference amount between the sale proceeds or, the redemption or other pay-off amount and the acquisition costs, in each case including accrued interest. There will be no more withholding tax credits upon the purchase of Notes. Expenses which are directly connected with income subject to the special tax rate of 25% shall be non-deductible. For Notes held as private assets, the acquisition costs shall not include incidental acquisition costs. For the calculation of the acquisition costs of Notes held within the same Notes account and having the same Notes identification number which are acquired at different points in time, an average price shall apply.

If an Austrian securities depository agent or an Austrian paying agent is involved and settles the realization of the income or capital gain, the income tax will be deducted by applying a 25% withholding tax. The 25% withholding tax deduction will result in a final income taxation for private investors (holding the Notes as private assets) provided that the investor has evidenced the factual acquisition costs of the Notes to the securities depository agent.

Withdrawals (*Entnahmen*) and other transfers of Notes from the securities deposit (including Notes acquired before April 1, 2012) will be treated as disposals (sales), unless specified exemptions will be fulfilled like the transfer of the Notes to a securities deposit owned by the same taxpayer (i) with the same Austrian bank, (ii) with another Austrian bank if the account holder has instructed the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder has instructed the transferring bank to transmit the pertaining information to the competent tax office; or like the transfer without consideration (e.g. gift, inheritance) to a securities deposit held by another taxpayer, if the fact that the transfer has been made without consideration has been evidenced (e.g. certificate about the notification of a gift or an inheritance statement) to the securities depository agent or the agent has been instructed to inform the Austrian tax office thereof.

To the extent that no withholding tax deduction will be effected due to the lacking of an Austrian paying agent and of an Austrian securities depository agent, the investment income derived from the Notes will have to be included into the income tax return in line with the provisions of the Austrian Income Tax Act.

Taxpayers, whose regular personal income tax is lower than 25% may opt for taxation of the income derived from the Notes at such regular personal income tax rate. Such application for opting into taxation at the regular personal income tax rate must, however, include all income subject to the special 25% tax rate. Expenses in connection with income subject to final taxation or to the special 25% income

tax rate and incurred by the investor are also not deductible for persons having opted for taxation at the regular personal income tax rate.

Losses from Notes held as private assets may only be set off with other investment income (excluding, inter alia, interest income from bank deposits and other claims against banks and investment income not subject to the special 25% tax rate) and must not be set off with any other income. The set-off of losses will require the filing of a tax return with the competent tax office. A carry-forward of such losses is not permitted.

Income (capital gains) derived from the Notes which are held as business assets will also be subject to the special tax rate of 25% deducted by way of a withholding tax, however, such income has to be included in the tax return. Write-downs to the going-concern value and losses derived from the sale, redemption or other pay-off of Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments and only half of the remaining loss may be set off or carried forward against any other income. This applies with effect of 1 April 2012 also to Notes acquired before such date.

For income derived from Notes which have not been offered to the public, no undefined circle of addressees from a legal and factual perspective, the general income tax rate amounting up to 50% (as opposed to the 25% special tax rate) will apply.

The formerly applicable provisions on the taxation of speculative transactions will not apply to any Notes acquired against consideration on or after April 1, 2012, because the new capital gains taxation neither considers a certain holding period nor a certain amount of shares held. As from April 1, 2012 any capital gains shall be subject to taxation.

Further, with effect of 1 April 2012, amended exit tax rules will enter into force. These exit tax rules lead to the immediate taxation of the hidden reserves (difference amount between the market price at the time of departure and issue or purchase price) in the case of departure, unless a person moves to another EU or EEC country with an assistance in the execution treaty. In such cases the Notes will only be taxed at the time of a real disposal. Departure means that Austria loses the right of taxation.

Corporations

Corporate investors deriving business income from the Notes may avoid the application of Austrian withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian entity obliged to deduct the Austrian withholding tax. Income including any capital gain derived from the Notes by corporate investors is subject to Austrian corporate income tax at the general rate of 25% (flat rate). There is, inter alia, a special tax regime for Private Foundations established under Austrian law (*Privatstiftungen*).

Certain aspects of the tax treatment of certain notes

1. Tax laws applying to Notes acquired before April 1, 2012

Upon the sale of Zero Coupon Notes the difference between the issue price and the proceeds from the sale would be taxable as income from debt-securities being subject to withholding tax (where such withholding tax applies) merely to the extent of the positive difference amount between the issue price and the inner value of the notes; any additional capital gain would be taxable for private investors pursuant to Sec 30 Income Tax Act (*Spekulationsgeschäft – speculative transaction*) if the sale took place within one year after the date of the acquisition of the Notes.

Relating to index linked Notes, the whole positive difference amount realized upon redemption or sale of the Notes as compared to the issue price is treated as income from debt-securities and therefore also subject to withholding tax (where such withholding tax applies). The taxable gain is calculated as positive difference between issue price and redemption amount/sales price. Positive difference amount (parts) between purchase or redemption price and issue price are taxable for private investors pursuant to Sec. 30 Income Tax Act (*Spekulationsgeschäft – speculative transaction*) if the sale or redemption of the notes takes place within one year after the date of the acquisition of the Notes. The same tax treatment applies to share, fund, commodity or other underlying linked notes including discounted share certificates and bonus certificates (if no requalification as fund units takes place) – for these, the whole positive difference amount between redemption (sale) price and issue price is treated as income from debt-securities.

The Austrian tax authorities have decided that Notes where only the coupon(s) but not the redemption amount is (are) linked to an index or other underlying must be treated as "index linked Notes". In such case the (whole) positive difference amount between issue price and sale price or redemption price is subject to withholding tax.

If inflation linked Notes bear interest and their redemption amount is linked to the performance of an inflation index, apart from the coupon payments also the difference amount between issue price and redemption price and in cases of sales, also the difference amount between issue price and index linked calculated value (but not the whole capital gain [however the capital gain could be subject to income tax as speculative transaction]) is subject to withholding tax.

Income from leveraged Notes (turbo notes), e.g. certificates or notes which may be subscribed at a lower price than the underlying's current market price, qualifies as income from debt-securities subject to 25% Austrian withholding tax provided that the leverage factor applied upon subscription/issue to the notes' or certificate's subscription price is less than five (the note's subscription price amounts to more than 20 per cent of the underlying's market price). If the leverage factor is at least five, income from the sale or redemption of the notes will not be subject to the 25% withholding tax (but qualify as capital gain potentially subject to taxation as speculative transaction, see above under "individuals") provided that the leverage factor is sufficiently evidenced by the foreign issuer submitting the terms and conditions of the notes to the Oesterreichische Kontrollbank AG before or within 24 hours after the first offering of the notes in the Austrian market. If such evidence is provided later, the Austrian coupon paying agents have to continue to deduct withholding tax. However, the noteholder may claim refund of the withholding tax upon personal income tax assessment or pursuant to Sec 240 subpara 3 of the Austrian Fiscal Procedure Code (BAO).

Guidelines issued by the Austrian Ministry of Finance provide further details for the tax treatment of some other structured financial instruments. In case of reverse convertibles (cash or share-notes) bearing high interest the full coupon would be treated as interest; however, pursuant to current practice, losses incurred upon the redemption could with an amount equalling to the interest income of the last coupon payment period be set off upon redemption against the interest income (also) by private investors (Income Tax Guidelines no. 6198). Callable yield notes are treated in the same way as reverse convertibles.

In case of option notes bearing low interest, the issue price is split between the price of the bond and the price for the option which leads to the recalculation of the issue price for tax purposes.

Tax consequences of conversion or of any option exercise or of any other physical settlement of Notes are not discussed in this context.

This entire outline of the taxation of the Notes is based on the assumption that the Notes will be treated as debt-securities (*Forderungswertpapiere*) and will not be qualified as equity instruments for tax

purposes such as shares or equity participation rights (*Substanzgenussrechte*). Further, this outline is based on the assumption that the Notes do not qualify as derivative instruments or contracts for differences resulting for private investors in taxation of capital gain pursuant to Sec 30 Income Tax Act (*Spekulationsgeschäft*) at progressive rates rather than being subject to withholding tax. Pursuant to Sec 30 Income Tax Act certain types of transactions such as the sale of securities would be taxable for private investors only if carried out within one year following the acquisition (speculative period) whereas other transactions such as futures, forwards or contracts for differences (*Differenzgeschäfte*) would be taxable irrespective of the one year speculative period. For Notes acquired on or after October 1, 2011 and before April 1, 2012, the speculative period is unlimited in time. This latter rule does not apply to Notes sold on or after April 1, 2012 in which case the new 25% special tax rate will apply.

2. Tax laws applying to Notes acquired on or after April 1, 2012

As of April 1, 2012, any income and capital gain from the sale or redemption of Notes acquired against consideration on or after April 1, 2012 will be subject to income tax of 25% and the tax will be deducted by way of a withholding tax, if an Austrian paying agent or an Austrian securities depository agent will be involved. The tax base will be the difference amount between the sales price, the redemption amount or other pay-off amount and the acquisition costs, in all cases including accrued interest, if any. Please also refer to the above described new tax laws for the Notes acquired on or after April 1, 2012.

Zero coupon Notes will qualify as notes under the new taxation rules but be subject to the taxation of the difference amount between the sales price, the redemption amount and the acquisition costs, including accrued interest, if any.

Index linked Notes, inflation linked Notes and leveraged Notes (turbo notes) will qualify as (securitized) derivative financial instruments and be subject to the 25% withholding tax on capital gains and other income from such financial instruments. As of April 1, 2012, leverage factor notifications to Oesterreichische Kontrollbank AG will be abolished.

Option Notes and convertible and reverse convertible Notes will be subject to a 25% withholding tax on income from the sale or other settlement of such securities or from compensation amounts for differences. If the settlement of such Notes will be linked to an acquisition or receipt of shares and/or investment funds units, such receipt of shares and/or investment funds units will qualify as acquisition of the pertaining underlying. If the acquisition date of the share and/or investment fund unit is later than the December 31, 2010, then any capital gains achieved upon the sale of the underlying on or after April 1, 2012 will no longer be subject to the rules for speculative transactions (Section 30 Income Tax Act in its old version) but will be subject to the special income tax rate of 25% as at the effective date April 1, 2012, which will be deducted by way of a withholding tax if an Austrian paying agent and or securities depository agent will be involved. If the sale of the share and/or investment fund units acquired later than December 31, 2010 will take place before April 1, 2012, then the rules for speculative transactions (Section 30 Income Tax Act in its old version) will continue to apply with a speculative period extended until March 31, 2011.

Non-Residents

Income including any capital gain derived from the Notes by individuals who do not have a domicile or their habitual abode in Austria ("non-residents") is not taxable in Austria provided that the income is not attributable to a permanent establishment or other Austrian source income taxable in Austria (for withholding tax under the EU Savings Directive see below; tax consequences of a requalification into a foreign investment fund are not discussed with regard to non-residents herein).

Income including any capital gain derived from the Notes by corporate investors who do not have their corporate seat or their place of management in Austria ("non-residents") is not taxable in Austria provided that the income is not attributable to a permanent establishment or other Austrian source income taxable in Austria.

Thus, non-resident investors - in case they receive income from the Notes through a paying agent or a securities depository agent located in Austria - may avoid the application of Austrian withholding tax if they evidence their non resident-status vis-à-vis the Austrian entity obliged to deduct the Austrian withholding tax. The provision of evidence that the investor is not subject to Austrian withholding tax is the responsibility of the investor.

If any Austrian withholding tax is deducted by the agent, the tax withheld shall be refunded to the non-resident investor upon his application, which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax.

Exceptionally there may be a limited tax liability for non-residents in the case of capital gains directly or indirectly secured by Austrian real estates, domestic rights or domestic ships.

Where non-residents receive income from the Notes as part of business income taxable in Austria (permanent establishment), they will be, in general, subject to the same tax treatment as resident investors.

EU Council Directive on Taxation of Savings Income

The EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (Savings Directive) provides for an exchange of information between the authorities of EU member states regarding interest payments made in one member state to beneficial owners who are individuals and resident for tax purposes in another member state of the European Union or certain dependent associated territories. Austria has implemented the Savings Directive by way of the EU Withholding Tax Act (*EUQuellensteuergesetz*) which provides for a withholding tax rather than for an exchange of information. Such EU Withholding tax will be levied on interest payments within the meaning of the EU Withholding Tax Act made by a paying agent located in Austria to an individual resident for tax purposes in another member state. The EU Withholding Tax amounts to 35%.

Withholding tax will be deducted upon actual or deemed interest payments as well as upon sale, refund or redemption of debt claims. Further, withholding tax will be deducted - on a *pro rata temporis* basis - in case of changes of the individual's withholding tax status such as changes of his country of residence or transfer of his securities to a non Austrian account.

Deduction of EU withholding tax can be avoided if the EU-resident investor provides the paying agent with a certificate drawn up in his name by the tax office of his member state of residence. Such certificate has to indicate, inter alia, the name and address of the paying agent as well as the account number of the investor or the identification of the Notes. (Sec. 10 EU Withholding Tax Act)

The scope of the definition of interest payments for EU Withholding Tax purposes may differ from the scope of interest payments for Austrian income and withholding tax purposes. For example, under certain conditions and subject to the guidelines and information issued by the Austrian Ministry of Finance income from share linked notes, index linked notes or fund linked notes may not be considered as interest for EU Withholding Tax purposes while being interest for Austrian tax purposes.

Notes without capital guarantee (the term "capital guarantee" for such tax purposes is deemed to include guaranteed interest payments) are treated as follows: Factually paid interest amounts are

subject to EU Withholding Tax. Difference amounts from notes linked to shares, share indices, metals, currencies and the like which are not in advance guaranteed are not subject to EU Withholding Tax. Such difference amounts derived from notes linked to bonds or bond indices are not subject to EU Withholding Tax if the index or basket is comprised of minimum five differing bonds from differing issuers, if the portion of a single bond does not exceed 80% of the index and, with regard to dynamic notes, the 80%-threshold is complied with throughout the entire term of the notes. With regard to notes linked to fund indices, the difference amounts do not qualify as interest within the meaning of the EU Withholding Tax Act, if the index is composed of minimum five differing funds and a portion of each fund does not exceed 80%; in the case of dynamic notes the 80%-threshold must be complied with during the entire term of the notes. If notes are linked to mixed indices composed of funds as well as of bonds, difference amounts do not qualify as interest within the meaning of the EU Withholding Tax Act, if the index is composed of minimum five bonds and five funds of differing issuers and a portion of a single bond or a single fund does not exceed 80% of the pertaining index.

Relating to capital guaranteed Notes, factually paid interest amounts, whether guaranteed or not, are subject to EU Withholding Tax. Guaranteed parts of difference amounts (between issue price and redemption price respectively sale price) are subject to EU Withholding Tax on the basis of the yield upon issue. Non-guaranteed income, like (non guaranteed parts of) difference amounts (difference amounts between issue price and redemption price respectively sale price) are treated as follows: If the underlying qualifies as bond, interest rate or inflation rate, then the difference amounts will qualify as interest within the meaning of the EU Withholding Tax Act and be subject to EU Withholding Tax. If shares, share indices, share baskets, metals, currencies and commodities are referred to as underlyings, the difference amounts are not subject to EU Withholding Tax. If funds and fund indices are referred to as underlying, the difference amounts are not subject to EU Withholding Tax, provided that the funds do not generate interest income within the meaning of the EU Withholding Tax Act. Should the underlyings qualify as certificates or other securities the proceeds of which do not qualify as interest subject to EU Withholding Tax, then the difference amounts derived therefrom are not subject to EU Withholding Tax, too.

FRANCE

This summary is based on the tax legislation, published case law, treaties, regulations and published policy in force as of the date of this Prospectus, although it does not take into account any developments or amendments thereof after that date, whether or not such developments or amendments have retroactive effect.

This summary is intended as general information only and each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes.

Payments made by the Guarantor

There is no direct authority under French law on the withholding tax status of payments by the Guarantor under the Guarantee. In accordance with one interpretation of French tax law, payments made by the Guarantor of any amount due by the Issuer to a Noteholder which is a non-French tax resident and which is not acting through a French establishment or branch may be treated as a payment in lieu of payments to be made by the Issuer with respect to the Notes. Accordingly, under this interpretation payments made by the Guarantor, of any amounts due by the Issuer under the Notes, would be exempt from any taxes, duties or other charges of whatever nature by way of deduction or withholding by the Republic of France or any political subdivision or authority thereof or therein having power to tax, to the extent that interest payments made or to be made by the Issuer would be exempt from withholding tax by reason of the Issuer not being resident of, or otherwise established in, France.

In accordance with another interpretation, any such payment may be treated as a payment independent from the payments to be made by the Issuer with respect to the Notes. In the absence of any specific

provision in the *Code général des impôts*, such payments would be exempt from any taxes, duties or other charges of whatever nature by way of deduction or withholding by the Republic of France or any political subdivision or authority thereof or therein having power to tax.

In the improbable case that none of the two above interpretations would prevail and if the payments by the Guarantor under the Guarantee would qualify as interest payments paid by a French debtor within the meaning of article 125 A III of the *Code général des impôts*, such payments would be exempt from any taxes, duties or other charges of whatever nature by way of deduction or withholding by the Republic of France or any political subdivision or authority thereof or therein having power to tax, unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of article 238-0 A of the *Code général des impôts*. If such payments under the Notes are made in a Non-Cooperative State, a 50 per cent. withholding tax will be applicable (subject to certain exceptions and to the more favorable provisions of any applicable double tax treaty) by virtue of Article 125 A III of the French *Code général des impôts*.

Furthermore, according to Article 238 A of the French *Code général des impôts*, interest and other revenues on such Notes may no longer be deductible from the Issuer's taxable income, as from the fiscal years starting on or after 1 January 2011, if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State. Under certain conditions, any such non-deductible interest and other revenues may be recharacterized as constructive dividends pursuant to Article 109 of the French *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* of the French *Code général des impôts*, at a rate of 25 per cent or 50 per cent, subject to the more favorable provisions of an applicable double tax treaty, if any.

Notwithstanding the foregoing, neither the 50 per cent. withholding tax nor the non-deductibility will apply in respect of a particular issue of Notes if the Issuer can prove that the principal purpose and effect of such issue of Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the "**Exception**"). Pursuant to the ruling (*rescrit*) n°2010/11 (FP and FE) of the French tax authorities dated 22 February 2010, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (1) offered by means of a public offer within the meaning of Article L.411.1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State which is not a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (2) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (3) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Tax treatment of payments received by the Subscriber/Investor

– Individuals

For French resident individuals, payments relating to the Notes will be subject in France to personal income tax at a progressive rate from 5.5% to 41%. For Notes issued by an Issuer established in the European Economic Area, the French resident individual is eligible to make an option for a final levy at a rate of 19% instead of personal income tax. In both cases, social security tax will apply at the rate of 13.5%.

Capital gains on the transfer of the Notes will be subject to a final levy at a rate of 19%, whatever the amount of annual sale price by the French resident individual. A social security tax at the rate of 13.5% will also apply.

When French individual investors receive payments relating to a Note into accounts domiciled outside France in another European Union country, one of five non member countries (Switzerland, Andorra, Liechtenstein, Monaco or Saint-Martin) or one of ten UK or Dutch dependant or overseas territories, investors are advised to study the potential impact of the EC Council Directive 2003/48/EC on the taxation of savings income ("EU Saving Tax Directive n°2003/48"), which means that, in these countries or territories, withholding tax (35% as from 30 June 2011) will either be deducted at source or the tax authorities will be informed of the beneficiary's identity. Withholding tax can be refunded in France through the allowance of a tax credit.

For non-French resident individuals, the EC Council Directive 2003/48/EC on the taxation of savings income was implemented into French law under Article 242 *ter* of the *Code général des impôts* which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner, the total amount of interest paid to that beneficial owner and the total amount of the proceeds from sale, redemption or refund of debt claims of every kind realised by the beneficial owner during the calendar year. "

– Legal entities

Redemption premium, capital gains and other revenues with respect to Notes that constitute "*obligation*" under French law, are subject to corporate income tax at the standard rate.

European Directive on Taxation of Savings Income

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "Savings **Directive**"), each Member State are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person (qualified as "paying agent") within its jurisdiction to, or collected by such a person for, an individual (qualified as "beneficial owner") resident in that other Member State or certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria may instead a withholding system in relation to such payments, deducting tax at a rate of 35%. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such person, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information arrangements or transitional withholding arrangements with certain of

those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such person for, an individual resident in one of those territories.

The tax Savings Directive was implemented into French law under Article 242 ter of the French General Tax Code, which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner and the total amount of the proceeds from sale, redemption or refund of debt claims of every kind realized by the beneficial owner during the calendar year.

The European Commission has proposed certain amendments to the Savings Directive which may, if implemented amend or broaden the scope of the requirements described above.

ITALY

The following is a brief summary of the tax regime relating to the purchase, holding, sale and exercise of the Italian Certificates, pursuant to the Italian applicable laws and regulations and the market practice, by investors who are individuals residing in Italy and not involved in carrying out business enterprises.

This summary does not aim at being an exhaustive analysis of all the tax implications deriving from the purchase, holding, sale and exercise of the Certificates and is written taking into account tax laws in force at the date of this Programme; it is, therefore, subject to possible changes that have a retroactive effect and is intended only as an introduction to the relevant issues.

Potential investors in the Certificates are therefore advised to consult their own tax advisors as to the Italian and other tax consequences of buying, holding or disposing of the Certificates.

General

Pursuant to Italian Legislative Decree 21st November, 1997, No. 461 payments in respect of Certificates qualifying as Securitised derivative financial instruments received by Certificateholders as well as capital gains realised by Italian resident individuals (not engaged in entrepreneurial activities to which the Italian Certificates are connected) on any sale or transfer for consideration of the Certificates or redemption or exercise thereof are subject to a 12.5% (20% starting from 1st January 2012) capital gain tax ("*imposta sostitutiva*").

Under the so called "tax declaration regime", which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in entrepreneurial activities, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains (and other incomes) net of any relevant incurred capital losses realised by Italian resident individuals not engaged in entrepreneurial activities pursuant to all investment transactions carried out during any given fiscal year. The capital gains realised in a year net of any relevant incurred capital losses must be detailed in the relevant annual tax return to be filed with Italian tax authorities and *imposta sostitutiva* must be paid on such capital gains by Italian resident individuals together with any balance income tax due for the relevant tax year. Capital losses in excess of capital gains may be carried forward against capital gains of the same kind for up to the fourth subsequent fiscal year.

Alternatively to the tax declaration regime, the holders of the Certificates may elect to pay *imposta sostitutiva* separately on capital gains realised on each sale or transfer or redemption of the Certificates (*Risparmio Amministrato* tax regime). Such separate taxation of capital gains is allowed subject to (i) the Certificates being deposited with banks, SIMs (stock brokerage companies – *Società di Intermediazione Mobiliare*) and any other Italian qualified intermediary (or permanent establishment in Italy of foreign intermediary) and (ii) an express election for the *Risparmio Amministrato* tax regime being timely made in writing by the relevant holder of the Certificates. The intermediary is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or transfer or

redemption of the Certificates, as well as on capital gains realised as at revocation of its mandate, net of any relevant incurred capital losses, and is required to pay the relevant amount to the Italian fiscal authorities on behalf of the holder of the Certificates, deducting a corresponding amount from proceeds to be credited to the holder of the Certificates. Where a sale or transfer or redemption of the Certificates results in a capital loss, the intermediary is entitled to deduct such loss from gains of the same kind subsequently realised on assets held by the holder of the Certificates within the same relationship of deposit in the same tax year or in the following tax years up to the fourth. Under the Risparmio Amministrato tax regime, the realised capital gain is not required to be included in the annual income tax return of the Certificateholder.

Special rules apply if the Certificates are part of a portfolio managed in a regime of Asset Management Option by an Italian asset management company or an authorised intermediary. In such case, the capital gains realised upon sale, transfer or redemption of the Certificates will not be subject to the imposta sostitutiva on capital gains but will contribute to determine the taxable base of the Asset Management Tax. In particular, under the Asset Management Option, capital gains accrued on the Certificates, even if not realised, will contribute to determine the annual accrued appreciation of the managed portfolio, subject to the Asset Management Tax. Any depreciation of the managed portfolio accrued at year-end may be carried forward against appreciation accrued in each of the following years up to the fourth. Also under the Asset Management Option the realised capital gain is not requested to be included in the annual income tax return of the Certificateholder and the Certificateholder remains anonymous.

It must however be noted that, according to a different interpretation of the applicable provisions in force, the Certificates, in case representing debt instruments implying a “use of capital”, could be qualified as “atypical security” and accordingly be subject to a 27 per cent (20 per cent starting from 1st January 2012) final withholding tax.

Inheritance and gift tax

Transfers of any valuable assets (including the Certificates) as a result of death or donation (or other transfers for no consideration) and the creation of liens on such assets for a specific purpose are taxed as follows:

- 4% if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on the value exceeding EUR 1 mln. (per beneficiary);
- 6% if the transfer is made to brothers and sisters; in this case, the transfer is subject to the tax on the value exceeding EUR 100,000 (per beneficiary);
- 6% if the transfer is made to relatives up to the fourth degree, to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree; and
- 8% in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax applies on the value exceeding EUR 1.5 mln.

Transfer tax

Transfer tax previously payable on generally the transfer of the Certificates, has been abolished. A EUR 168 registration tax may be applicable to the transfer of the Certificates under certain circumstances.

Tax Monitoring Obligations

Italian resident individuals will be required to report in their yearly income tax return, according to Law Decree 28 June 1990, No. 167 converted into law by Law 4 August 1990, No. 227 for tax monitoring purposes:

- the amount of Certificates held at the end of each tax year, if exceeding in the aggregate EUR 10,000;
- the amount of any transfers from abroad, towards abroad and occurring abroad, related to the Certificates, occurring during each tax year, if these transfers exceed in the aggregate EUR 10,000. This also applies in the case that at the end of the tax year, Certificates are no longer held by Italian individuals.

Italian individuals will however not be required to comply with the above reporting requirements with respect to Certificates deposited for management with qualified Italian financial intermediaries and with respect to contracts entered into through their intervention, upon condition that the items of income derived from the Instruments are received through the intervention of the same intermediaries.

European Withholding tax directive

Italy has implemented the EU Directive No. 2003/48/EC regarding the taxation of savings income through Legislative Decree No. 84 of 18 April 2005.

LUXEMBOURG

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Withholding Tax

(i) Non-resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005 (the **Laws**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

Under the Laws implementing the EC Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it is levied at a rate of 35% since 1 July 2011. Responsibility for the withholding of the tax will be assumed by the Luxembourg

paying agent. Payments of interest under the Notes coming within the scope of the Laws would at present be subject to withholding tax of 35 per cent.

(ii) Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Law**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 10 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Law would be subject to withholding tax of 10 per cent.

SUBSCRIPTION AND SALE

The Notes are freely transferable. Offers and sales of Notes issued under this Programme are subject to the selling restrictions applicable in the jurisdictions where the Notes are offered or sold. The selling restrictions in respect of Austria, France, the Grand Duchy of Luxembourg and Italy and in general such jurisdictions as are parties to the Agreement on the European Economic Area (EEA), the United States, are set out below. Additional selling restrictions, if any, may be set out in the Final Terms.

UNITED STATES

The Notes and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**) or any state securities law, and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, any U.S. person (as defined in Regulation S under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended and regulations thereunder.

The Dealer has agreed that it will not offer, sell or deliver any Notes of any Tranche within the United States or to, or for the account or benefit of, any U.S. person, except as permitted by the Programme Agreement.

In addition, until 40 days after the commencement of the offering of any identifiable tranche of such Notes, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

EEA STATES

Public Offer Selling Restriction under the Prospectus Directive

In relation to each member state of the EEA which has implemented the Prospectus Directive (each, a **Relevant Member State**), the Dealer has represented and agreed, and each further dealer appointed under the Programme and each other Purchaser will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (i) at any time to any legal entity which is a qualified investor as defined under the Prospectus Directive. And in respect of investors in Norway that are duly registered as a professional investor pursuant to the Norwegian Securities Trading Act;
- (ii) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provisions of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the Dealer or any additional dealers nominated by the Issuer for any such offer; or
- (iii) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Notes referred to in (i) to (iii) above shall require the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression **Prospectus Directive** means Directive 2003/71/EC (and the amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression **2010 PD Amending Directive** means Directive 2010/73/EU.

AUSTRIA

No offer of the Notes issued by the Issuer may be made to the public in Austria, except that an offer of the Notes issued by the Issuer may be made to the public in Austria (a) in the case of bearer Notes in the period beginning one bank working day following (i) the date of publication of this Base Prospectus including any supplements but excluding any Final Terms in relation to those Notes issued by the Issuer which has been approved by the *Finanzmarktaufsichtsbehörde* in Austria (the “FMA”) or, where appropriate, approved in another Member State and notified to the FMA, all in accordance with the Prospectus Directive; (ii) or being the date of publication of the relevant Final Terms for the Notes issued by the Issuer and (iii) the date of filing of a notification with *Oesterreichische Kontrollbank*, all as prescribed by the Capital Market Act 1991 (“CMA”: *Kapitalmarktgesetz 1991*), or (b) in the case of bearer Notes otherwise in compliance with the CMA.

Further, the Dealer represents, warrants and agrees that it has not and will not offer any registered Notes in Austria, either by private placement or to the public in Austria.

For the purposes of this provision, the expression “an offer of the Notes issued by the Issuer to the public” means the communication to the public in any form and by any means of sufficient information on the terms of the offer and the Notes issued by the Issuer to be offered so as to enable an investor to decide to purchase or subscribe the Notes issued by the Issuer.

Furthermore, where the Notes are placed solely with "qualified investors" and are then systematically resold on the secondary market at any time in the 12 months following such placing, purchasers of Notes who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorized person at whose premises the Notes were purchased, unless an exemption provided for under the Financial Services Act applies.

As of the date of approval of this Base Prospectus, the Guarantor has received the following ratings from Standard and Poor's, Moody's and Fitch set out below:

A1¹³ by Moody's

A¹⁴ by Standard & Poor's

A+¹⁵ by Fitch

The credit ratings mentioned above have been issued by Moody's France S.A.S., Paris, France, Standard and Poor's Credit Market Services France S.A.S., Paris, France and Fitch France S.A.S. Paris, France, respectively, as indicated. Each of these credit rating agencies is established in the European Union and is registered under Regulation (EC) n° 1060/2009 of the European Parliament and of the Council of 16 September 2009 (as amended by Regulation (EU) No. 513/2011, the "**CRA Regulation**"). The latest update of the list of registered credit rating agencies is published on the website of the European Securities and Markets Authority (ESMA).

¹³ **Long-Term Ratings:** Moody's long-term ratings are opinions of the relative credit risk of financial obligations with an original maturity of one year or more. A rating of "A" means: Obligations rated A are considered upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

¹⁴ **Long-term issuer credit ratings:** Rating "A" means: An obligor rated 'A' has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

¹⁵ **Issuer Credit Rating Scales (Long-Term):** A rating of "A" means: **A: High credit quality.** 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. *The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the 'AAA' Long-Term IDR category, or to Long-Term IDR categories below 'B'.*

Garantie auf erstes Anfordern

Im Rahmen ihres Debt Issuance Programme mit einem Volumen von EUR 30.000.000.000,00 (das „**DIP**“) kann die Société Générale Effekten GmbH (der „**Emittent**“) Noten und Zertifikate (die „**Schuldtitel**“) in einem Volumen von bis zu EUR 30.000.000.000,00 (dreißig Milliarden Euro) oder dem entsprechenden Gegenwert in einer anderen Währung gemäß dem Basisprospekt für Noten und Zertifikate vom 9. Februar 2012 (der „**DIP-Prospekt**“) ausgeben, der dem deutschen Wertpapierprospektgesetz entspricht, mit dem die Richtlinie 2003/71/EG des Europäischen Parlaments und des Rates vom 4. November 2003 (die „**Prospektrichtlinie**“) in deutsches Recht umgesetzt wird.

Société Générale (der „**Garantiegeber**“) garantiert hiermit unbeding und unwiderruflich zugunsten der Inhaber von Schuldtiteln, die gemäß dem DIP-Prospekt zwischen dem 9. Februar 2012 und dem 9. Februar 2013 ausgegeben wurden, die ordnungsgemäße und pünktliche Zahlung aller fälligen und zahlbaren Beträge und/oder die ordnungsgemäße und pünktliche physische Lieferung von Wertpapieren, die gemäß den jeweiligen Bestimmungen von seitens des Emittenten ausgegebenen Schuldtiteln zu liefern sind (die „**Verpflichtungen**“), soweit am Ausgabebetag der betreffenden Schuldtitel (A) die Gesamt-Nennbeträge dieser Schuldtitel und (B) sämtliche Gesamt-Nennbeträge von vom Emittenten ausgegebenen Schuldtiteln, die am betreffenden Ausgabebetag ausstehen, jeweils zum Devisenkassakurs an dem betreffenden Ausgabebetag in Euro umgerechnet, einschließlich der nach früheren DIP-Prospekten (die „**früheren Prospekte**“) ausgegebenen Schuldtitel, EUR 30.000.000.000,00 (dreißig Milliarden Euro) (die „**Garantiehöhe**“) nicht übersteigt.

Wenn der Emittent mit der pünktlichen Zahlung und/oder physischen Lieferung von Wertpapieren für sämtliche Verpflichtungen oder einen Teil davon in Verzug gerät, wird der Garantiegeber sämtliche Zahlungen auf erstes Anfordern vornehmen bzw. sämtliche Wertpapiere auf erstes Anfordern physisch liefern, vorausgesetzt

- die Anforderung ergeht per Einschreiben mit Rückschein an den Garantiegeber und darin wird bestätigt, (i) dass die Zahlung der geforderten Beträge bzw. die physische Lieferung von Wertpapieren im Rahmen dieser Garantie garantiert ist und (ii) die Voraussetzungen für die Zahlung bzw. Lieferung erfüllt sind und (iii) der Emittent die geforderten Zahlungen noch nicht geleistet bzw. die betreffenden Wertpapieren noch nicht physisch geliefert hat,
- der Garantiegeber ist verpflichtet, die geforderten Beträge zu zahlen bzw. die geforderten Wertpapiere zu liefern, ohne Einwendungen erheben zu können, insbesondere aufgrund des früheren oder künftigen Verhältnisses zwischen den Inhabern von Schuldtiteln und dem Emittenten.

Für vor dem Datum dieser Garantie gemäß früheren Prospekten ausgegebene Schuldtitel gelten nach wie vor die von der Société Générale für die betreffenden Schuldtitel gegebenen Garantien.

Diese Garantie tritt am Tag der Unterzeichnung dieser Urkunde in Kraft und gilt bis zur vollständigen oder teilweisen Zahlung bzw. Lieferung auf alle gemäß den vom Emittenten ausgegebenen Schuldtiteln fälligen Verpflichtungen.

Diese Garantie begründet eine unmittelbare, unbedingte, nicht besicherte und nicht nachrangige Verbindlichkeit des Garantiegebers und ist gleichrangig mit allen anderen bestehenden und künftigen unmittelbaren, unbedingten, nicht besicherten und nicht nachrangigen Verbindlichkeiten des Garantiegebers, ausgenommen derzeit gesetzlich vorgeschriebene Vorrangstellungen.

Falls der Emittent gemäß den Bestimmungen von Schuldtiteln durch eine Tochter des Garanten (der „**neue Emittent**“) ersetzt wird, erstreckt sich diese Garantie auf alle vom neuen Emittenten gemäß den Bestimmungen dieser Schuldtitel zu zahlenden Beträge.

Diese Garantie und alle sich daraus oder im Zusammenhang damit ergebenden nicht-vertraglichen Verpflichtungen unterliegen französischem Recht und sind dementsprechend auszulegen. Für sämtliche Streitigkeiten, die sich aus ihrer Gültigkeit, Auslegung oder Erfüllung ergeben oder damit zusammenhängen, ist ausschließlich das *Tribunal de Commerce de Paris* in Frankreich zuständig.
