Our revenues increased due to the confirmed growth in International Retail Banking & Financial Services and the healthy momentum in Financing & Advisory and market activities. The Group pursued its disciplined approach to cost management and the low cost of risk confirms the quality of our loan portfolio. The Group put an end this quarter to the financial impact of the major litigation issues with the US authorities relating to the pre-financial crisis period. Finally, the Group continued to optimise its portfolio of activities, with the announcement of the disposal of its Polish subsidiary. (1) Adjusted for non-economic items (in Q3 17 and 9M 17), exceptional items and linearisation of IFRIC 21.

Societe Generale's Board of Directors, which met on November 7th, 2018 under the chairmanship of Lorenzo Bini Smaghi, examined the results for Q3 and 9M 2018 of the Societe Generale Group.

The various restatements enabling the transition from underlying data to published data are presented in the methodology notes (section 10.5).

Net banking income: EUR 6,530m (+9.6% vs. Q3 17), EUR 19,278m (+9.3% vs. 9M 17)

Underlying net banking income was significantly higher (+9.0%) in Q3 18 (+4.4% excluding the revaluation of Euroclear securities) at EUR 6,530 million vs. EUR 5,993 million in Q3 17. In 9M 18, underlying net banking income totalled EUR 19,278 million, up +2.4% (+0.9% excluding the revaluation of Euroclear securities) vs. EUR 18,834 million in 9M 17.

- French Retail Banking revenues were up +1.8% in Q3 18 (+2.3% vs. Q3 17 excluding changes in the PEL/CEL provision) and down -0.3% in 9M 18 (-0.6% vs. 9M 17 excluding PEL/CEL provision), driven by dynamic commissions in an environment still characterised by low interest rates.
- International Retail Banking & Financial Services' net banking income was significantly higher (+7.3%, +8.0%*) in Q3 18 vs. Q3 17 and up +5.1% (+6.4%*) in 9M 18 vs. 9M 17, driven by the growth in activities across all businesses and geographical regions.
- Global Banking & Investor Solutions' revenues were higher in Q3 18 (+7.7%) than in Q3 17 due to a rebound in Global Markets and the healthy momentum in Financing & Advisory activities, and slightly lower in 9M 18 (-2.5%) vs. 9M 17.

In accordance with IFRS 9, the variation in the revaluation of the Group's own financial liabilities is no longer recognised in profit or loss for the period. Consequently, in 2018, the Group no longer restates its earnings for non-economic items.

The increase in operating expenses is in line with the full-year target in French Retail Banking. (1) Adjusted for linearisation of IFRIC 21, PEL/CEL provision and adjustment of hedging costs in Q3 17 and 9M 17

French Retail Banking delivered a resilient performance in Q3 18, against the backdrop of a persistently low interest rate environment and the transformation of the French networks.

Activity and net banking income

French Retail Banking's three brands, Societe Generale, Crédit du Nord and Boursorama, enjoyed a solid commercial momentum in Q3 18.

Boursorama consolidated its position as the leading online bank in France, with nearly 1.6 million clients at end-September 2018.

The Societe Generale and Crédit du Nord networks strengthened their franchises on the Group's target customers.

In the case of mass affluent and wealthy clients, French Retail Banking is supported by a solid private banking platform, with the number of clients up +5.1% at end-August 2018 (vs. end-August 2017). Private Banking in France recorded net inflow of EUR 3.1 billion in the first nine months of the year and a 3.9% increase in outstandings in Q3 18 vs. Q3 17 to EUR 64.3 billion (including Crédit du Nord).

Bancassurance enjoyed buoyant activity, with net inflow of EUR 411 million. Outstandings were up +2.0% at EUR 94 billion, with the unit-linked share accounting for 25%.

In the Business customer segment, French Retail Banking continued to develop its expertise in order to serve its customers, with the rollout of 4 regional business centres at end-October. The number of business customers increased by 1% vs. Q3 17.

In the case of Professional customers, Societe Generale continued to strengthen its expertise/proximity-based model, with the opening of three new "Pro Corners" (*espaces pro*) in Q3 18. The number of professional customers in French Retail Banking grew by 1% vs. Q3 17.

In a low interest rate environment, the Group confirmed its selective origination strategy.

Housing loan production totalled EUR 4.9 billion in Q3 18, down -10.5% vs. Q3 17 but up +12.0% vs. Q2 18. Consumer loan production remained dynamic in Q3 18, with an increase of +2.6% vs. Q3 17 and +11.1% over nine months.

Outstanding loans to individuals totalled EUR 110.3 billion and rose +3.0% in Q3 18 vs. Q3 17.

Corporate investment loan production was particularly dynamic in Q3 18, up +18.0% at EUR 3.5 billion, with an increase in average investment loan outstandings of +4.2% vs. Q3 17.

Overall, average loan outstandings rose +3.5% vs. Q3 17 to EUR 186.7 billion. Average outstanding balance sheet deposits came to EUR 201.5 billion in Q3 18, up +3.0% vs. Q3 17, driven by sight deposits (+8.2%). As a result, the average loan/deposit ratio stood at 93% in Q3 18 (vs. 92% in Q3 17).

French Retail Banking posted net banking income (after neutralising the impact of PEL/CEL provisions) of EUR 1,942 million in Q3 18, up +2.3% vs. Q3 17. In 9M 18, net banking income was down -0.6%. Published net banking income (after neutralising the impact of PEL/CEL provisions) is expected to be slightly lower (between -1% and -2%) in 2018 than in 2017 (EUR 7,982 million).

When restated for the impact of the adjustment of hedging costs (EUR -88 million in Q3 17), net banking income (after neutralising the impact of PEL/CEL provisions) was down -2.2% in Q3 18 and -2.0% in 9M 18.

This trend reflects the strong fee momentum (+3.6% vs. Q3 17 and +1.7% vs. 9M 17), with a good performance by service commissions and a pick-up in financial commissions particularly in Private Banking and Insurance. This healthy momentum was offset by the impact of the low interest rate environment on net interest income excluding PEL/CEL provision (+1.1% vs. Q3 17 and -4.4% vs. 9M 17, with a contraction of 7.2% in Q3 18 and 7.0% in 9M 18 when restated for the impact of the adjustment of hedging costs in Q3 17).

Operating expenses

French Retail Banking's operating expenses totalled EUR 1,358 million, up +1.4% vs. Q3 17.

In 9M 18, they were up +2.1%, in line with the expected increase in underlying operating expenses of less than 3% for the year, and reflect the acceleration of investments in the digital transformation process and the development of growth drivers.

As part of its transformation plan, the Group notably closed 75 branches over nine months. At the same time, the Group continued to digitalise the banking networks, with the ongoing dematerialisation of the offering.

The cost to income ratio stood at 71.3% in Q3 18, after linearisation of the IFRIC 21 charge (70.6% in 9M 18).

Operating income

The net cost of risk increased by 13.3% in Q3 18 vs. Q3 17 and remained at a low level of 25bp. Operating income came to EUR 472 million in Q3 18 (+0.4% vs. Q3 17). In 9M 18, French Retail Banking posted operating income of EUR 1,403 million (EUR 1,489 million in 9M 17).

Contribution to Group net income

French Retail Banking's contribution to Group net income amounted to EUR 320 million in Q3 18 (EUR 320 million in Q3 17). The return on normative equity after linearisation of the IFRIC 21 charge and restated for the PEL/CEL provision came to 10.6% (vs. 12.7% in Q3 17 restated for the adjustment of hedging costs). In 9M 18, the contribution to Group net income amounted to EUR 955 million (EUR 1,021 million in 9M 17).

In 9M 18, underlying RONE amounted to 11.3%.

2 – Net banking income

The pillars' **net banking income** is defined on page 44 of Societe Generale's 2018 Registration Document. The terms "Revenues" or "Net Banking Income" are used interchangeably. They provide a normalised measure of each pillar's net banking income taking into account the normative capital mobilised for its activity.

3 – Operating expenses

Operating expenses correspond to the "Operating Expenses" as presented in notes 5 and 8.2 to the Group's consolidated financial statements as at December 31st, 2017 (pages 390 et seq. and page 410 of Societe Generale's 2018 Registration Document). The term "costs" is also used to refer to Operating Expenses.

The **Cost/Income Ratio** is defined on page 44 of Societe Generale's 2018 Registration Document.

4 – IFRIC 21 adjustment

The **IFRIC 21 adjustment** corrects the result of the charges recognised in the accounts in their entirety when they are due (generating event) so as to recognise only the portion relating to the current quarter, i.e. a quarter of the total. It consists in smoothing the charge recognised accordingly over the financial year in order to provide a more economic idea of the costs actually attributable to the activity over the period analysed.

5 – Restatements and other significant items for the period – Transition from accounting data to underlying data

Non-economic items correspond to the revaluation of the Group's own financial liabilities and the debt value adjustment on derivative instruments (DVA). These two factors constitute the restated non-economic items in the analyses of the Group's results. They lead to the recognition of self-generated earnings reflecting the market's evaluation of the counterparty risk related to the Group. They are also restated in respect of the Group's earnings for prudential ratio calculations. In accordance with IFRS 9, the variation in the revaluation of the Group's own financial liabilities is no longer recognised in earnings for the period but in shareholders' equity. Consequently, the Group will no longer present published information restated for non-economic items.

Moreover, the Group restates the revenues and earnings of the French Retail Banking pillar for **PEL/CEL provision allocations or write-backs**. This adjustment makes it easier to identify the revenues and earnings relating to the pillar's activity, by excluding the volatile component related to commitments specific to regulated savings.

Details of these items, as well as the other items that are the subject of a one-off or recurring restatement (exceptional items), are provided below, given that, in the table below, the items marked with one asterisk (*) are the non-economic items and the items marked with two asterisks (**) are the exceptional items.

The reconciliation enabling the transfer from accounting data to underlying data is set out below.

6 – Cost of risk in basis points, coverage ratio for doubtful outstandings

The cost of risk or commercial cost of risk is defined on pages 46 and 564 of Societe Generale's 2018 Registration Document. This indicator makes it possible to assess the level of risk of each of the pillars as a percentage of balance sheet loan commitments, including operating leases.

French Retail Banking	Net Cost Of Risk	118	100	346	369

	Gross loan Outstandings	487,133	467,995	477,887	472,862
	Cost of Risk in bp	22	17	18	19

The **gross coverage ratio for doubtful outstandings** is calculated as the ratio of provisions recognised in respect of the credit risk to gross outstandings identified as in default within the meaning of the regulations, without taking account of any guarantees provided. This coverage ratio measures the maximum residual risk associated with outstandings in default (“doubtful”).

7 – ROE, ROTE, RONE

The notions of **ROE** (Return On Equity) and **ROTE** (Return On Tangible Equity), as well as their calculation methodology, are specified on page 47 of Societe Generale's 2018 Registration Document. This measure makes it possible to assess Societe Generale's return on equity and return on tangible equity.

RONE (Return On Normative Equity) determines the return on average normative equity allocated to the Group's businesses, according to the principles presented on page 47 of Societe Generale's Registration Document.

Group net income used for the ratio numerator is book Group net income adjusted for “interest, net of tax payable to holders of deeply subordinated notes and undated subordinated notes, interest paid to holders of deeply subordinated notes and undated subordinated notes, issue premium amortisations” and “unrealised gains/losses booked under shareholders' equity, excluding conversion reserves” (see methodology note No. 9). For ROTE, income is also restated for goodwill impairment.

Details of the corrections made to book equity in order to calculate ROE and ROTE for the period are given in the table below:

9 – Calculation of Earnings Per Share (EPS)

The EPS published by Societe Generale is calculated according to the rules defined by the IAS 33 standard (see page 48 of Societe Generale's 2018 Registration Document). The corrections made to Group net income in order to calculate EPS correspond to the restatements carried out for the calculation of ROE. As specified on page 48 of Societe Generale's 2018 Registration Document, the Group also publishes EPS adjusted for the impact of non-economic items, exceptional items and the effect of the linearisation of IFRIC 21 presented in methodology note No. 5 (underlying EPS).

The number of shares used for the calculation is as follows:

Average number of shares (thousands)	9M 18	H1 18	2017	9M 17

10 – The Societe Generale Group's **Common Equity Tier 1 capital** is calculated in accordance with applicable CRR/CRD4 rules. The fully-loaded **solvency ratios** are presented pro forma for current earnings, net of dividends, for the current financial year, unless specified otherwise. When there is reference to phased-in ratios, these do not include the earnings for the current financial year, unless specified otherwise. The leverage ratio is calculated according to applicable CRR/CRD4 rules including the provisions of the delegated act of October 2014.

NB (1) The sum of values contained in the tables and analyses may differ slightly from the total reported due to rounding rules.

(2) All the information on the results for the period (notably: press release, downloadable data, presentation slides and supplement) is available on Societe Generale's website www.societegenerale.com in the "Investor" section.

1.1.2 Press releases of 3rd and 4th September 2018: Update of the information related to investigations by U.S. authorities

In the context of the investigation by the Office of Foreign Assets Control of the U.S. Department of the Treasury, the U.S. Attorney's Office of the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York, and the New York State Department of Financial Services (the "U.S. Authorities"), regarding certain U.S. dollar transactions processed by Société Générale involving countries that are the subject of U.S. economic sanctions (the "U.S. Sanctions Matter"), Societe Generale has entered into a phase of more active discussions with these U.S. authorities with a view to reaching a resolution of this matter within the coming weeks.

Within the provision for disputes amounting to EUR 1.43 billion, approximately 1.1 billion in Euro equivalent is allocated to the U.S. Sanctions Matter, in accordance with IFRS standards. At this stage, Société Générale expects that the amount of the penalties in the U.S. Sanctions Matter will be almost entirely covered by the provision for disputes allocated to this matter.

The Group's debt policy is based on 2 principles:

- firstly, maintaining an active policy of diversifying the Societe Generale Group's sources of refinancing issued in the capital market in order to guarantee its stability;
- secondly, adopting a Group refinancing structure that consistently matches the maturities of its assets and liabilities.

GROUP LONG-TERM DEBT ISSUED IN THE CAPITAL MARKET AT 30 SEPTEMBER 2018⁽¹⁾

**Stressed VaR : Identical approach to VaR (historical simulation with 1-day shocks and a 99% confidence interval), but over a fixed one-year historical window corresponding to a period of significant financial tension instead of a one-year rolling period

2.6 Risks and litigation - Update of the page 232 of the 2018 Registration Document

- On 24th October 2012, the Court of Appeal of Paris confirmed the first judgment delivered on 5th October 2010, finding J. Kerviel guilty of breach of trust, fraudulent insertion of data into a computer system, forgery and use of forged documents. J. Kerviel was sentenced to serve a prison sentence of five years, two years of which are suspended, and was ordered to pay EUR 4.9 billion as damages to the bank. On 19th March 2014, the Supreme Court confirmed the criminal liability of J. Kerviel. This decision puts an end to the criminal proceedings. On the civil front, the Supreme Court has departed from its traditional line of case law regarding the compensation of victims of criminal offences against property and remanded the case to the Versailles Court of Appeal for it to rule on the amount of damages. On 23rd September 2016, the Versailles Court of Appeal rejected J. Kerviel's request for an expert determination of the damage suffered by Societe Generale, and therefore confirmed that the net accounting losses suffered by the Bank as a result of his criminal conduct amount to EUR 4.9 billion. It also declared J. Kerviel partially responsible for the damage caused to Societe Generale and sentenced him to pay to Societe Generale EUR 1 million. Societe Generale and J. Kerviel did not appeal before the Supreme Court. Societe Generale considers that this decision has no impact on its tax situation. However, as indicated by the Minister of the Economy and Finance in September 2016, the tax authorities have examined the tax consequences of this book loss and recently confirmed that they intended to call into question the deductibility of the loss caused by the actions of J. Kerviel, amounting to EUR 4.9 billion. This proposed tax rectification has no immediate effect and will possibly have to be confirmed by an adjustment notice sent by the tax authorities when Societe Generale is in a position to deduct the tax loss carryforwards arising from the loss from its taxable income. Such a situation will not occur for several years according to the bank's forecasts. In view of the 2011 opinion of the French Supreme Administrative Court (Conseil d'état) and its established case law which was recently confirmed again in this regard, Societe Generale considers that there is no need to provision the corresponding deferred tax assets. In the event that the authorities decide, in due course, to confirm their current position, Societe Generale group will not fail to assert its rights before the competent courts. By a decision handed down on the 20th September 2018, the Investigation Committee of the reviewing and reassessment Criminal Court has declared inadmissible the request filed in May 2015 by J. Kerviel against his criminal sentence, confirming the absence of any new element or fact that could justify the reopening of the criminal file.

- On 10th December 2012, the French Supreme Administrative Court (Conseil d'État) rendered two decisions confirming that the "précompte tax" which used to be levied on corporations in France does not comply with EU law and defined a methodology for the reimbursement of the amounts levied by the tax authorities. However, such methodology considerably reduces the amount to be reimbursed. Societe Generale purchased in 2005 the "précompte tax" claims of two companies (Rhodia and Suez, now ENGIE) with a limited recourse on the selling companies. One of the above decisions of the French Supreme Administrative Court relates to Rhodia. Societe Generale has brought proceedings before the French administrative courts. The latest court decision rendered is a rejection, on 1st February 2016 by the French Administrative Supreme Court, of an appeal lodged by ENGIE and Societe Generale.

Several French companies applied to the European Commission, who considered that the decisions handed down by the French Supreme Administrative Court on 10th December 2012, which was supposed to implement the decision rendered by the Court of Justice of the European Union C-310/09 on 15th September 2011, infringed a number of principles of European law. The European Commission subsequently brought infringement proceedings against the French Republic in November 2014, and since then confirmed its position by publishing a reasoned opinion on 29th April 2016 and by referring the matter to the Court of Justice of the European Union on 8th December 2016. The Court of Justice of European Union rendered its judgement on 4th October 2018 and sentenced France for failure by the the French Supreme Administrative Court to disregard the tax on EU sub-subsidiaries in order to secure the withholding tax paid in error. With regard to the practical implementation of the decision, Societe Generale will assert its rights before the competent courts and the French tax authority, from which it expects diligent treatment and in accordance with the legitimate expectations of the concerned companies.

- Societe Generale continues to cooperate with the Office of Foreign Assets Control of the U.S. Department of the Treasury, the U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the Federal Reserve System, the Federal Reserve Bank of New York, and the New York Department of Financial Services (collectively, the "US Authorities") in connection with an investigation relating to certain U.S. dollar transactions processed by Societe Generale involving countries, persons and entities that are subject to economic sanctions under U.S. law (the "U.S. Sanctions" matter).

This matter should be resolved with the US authorities within the next few days or weeks. With the new increase of the provision for disputes, Société Générale expects that the amount of the penalties in the U.S. Sanctions matter will be entirely covered by the fraction of the provision for disputes allocated to this matter.

- Since August 2015, various former and current employees of the Société Générale group have been under investigation by German criminal prosecution and tax authorities for their alleged participation in the so called “CumEx” patterns in connection with withholding tax on dividends on German shares. These investigations relate to the administration of a fund, proprietary trading activities and transactions carried out on behalf of clients. The Group entities respond to the requests of the German authorities.
- The New York Department of Financial Services (“NYDFS”) has indicated to Societe Generale New York branch (“SGNY”) that it is considering taking enforcement action against the bank concerning SGNY’s Bank Secrecy Act and Anti Money Laundering compliance program. SGNY has entered into a phase of more active discussions with the NYDFS with a view to reaching a resolution of this matter within the next few days or weeks. Société Générale expects that any financial penalties associated with this matter will be covered by the bank’s provisions.
