B.4b	Informazioni sulle tendenze	<p><i>In relazione a BNPP:</i></p> <p><i>Scenario macroeconomico</i></p>

Elemento	Titolo	
		<p>I risultati di BNPP sono influenzati dal contesto macroeconomico e di mercato. Data la natura della sua attività, BNPP è particolarmente sensibile alle condizioni macroeconomiche e di mercato in Europa, che negli ultimi anni sono state difficili e caratterizzate da volatilità.</p> <p>Nel 2013 l'economia globale ha iniziato a entrare in una fase di equilibrio, con il rallentamento di molti paesi emergenti e una lieve ripresa dei paesi avanzati. La situazione economica globale è generalmente rimasta stabile rispetto al 2012. Le previsioni economiche¹ del FMI e dell'OCSE per il 2014 indicano in linea generale un proseguimento della crescita moderata nei paesi avanzati sebbene in maniera meno marcata e uniforme nell'euro zona. Secondo le analisi dei suddetti organismi persistono le incertezze riguardo alla forza della ripresa, in particolare in seguito all'annuncio a dicembre 2013 dell'inizio del tapering da parte della Federal Reserve, e nell'eurozona, dove esiste un rischio di deflazione.</p> <p>Nella zona euro gli spread sovrani hanno continuato a scendere nel 2013 in seguito alla diminuzione record da livelli storicamente alti registrata nel 2012. Le condizioni finanziarie di alcuni emittenti sovrani sono migliorate ma rimangono incertezze riguardo alla solvibilità di altri.</p>
		<p><i>Legislazione e regolamenti applicabili alle istituzioni finanziarie</i></p>
		<p>BNPP è influenzata dalla legislazione e dai regolamenti applicabili alle istituzioni finanziarie, che stanno subendo modifiche significative sulla scia della crisi finanziaria globale. Nuove misure che sono state proposte e adottate negli ultimi anni includono requisiti patrimoniali e di liquidità più severi (in particolare per i gruppi bancari internazionali di grandi dimensioni come BNPP), imposte sulle transazioni finanziarie, restrizioni e tasse sulla remunerazione dei dipendenti, limiti alle attività che le banche commerciali possono intraprendere, nonché isolamento a livello finanziario e persino divieto di alcune attività considerate come speculative all'interno delle controllate separate, restrizioni su alcuni tipi di prodotti finanziari, un aumento dei requisiti di trasparenza e di controllo interno, regole di condotta commerciale più severe, rendicontazione e autorizzazione di operazioni su derivati obbligatorie, requisiti di limitazione dei rischi relativi ai derivati fuori Borsa e la costituzione di nuovi e più solidi organi di regolamentazione. Le misure recentemente adottate o, in alcuni casi proposte e ancora in fase di discussione, che avranno o avranno probabilmente un'influenza su BNPP, comprendono in particolare l'ordinanza francese del 27 giugno 2013 relativa agli istituti di credito e alle società di finanziamento ("Sociétés de financement"), entrata in vigore il 1° gennaio 2014 e la legge francese in materia bancaria del 26 luglio 2013 sulla separazione e regolamentazione delle attività bancarie nonché l'ordinanza del 20 febbraio 2014 per il recepimento dalla legge francese della normativa comunitaria sulle questioni finanziarie; la Direttiva e il Regolamento UE sui requisiti prudenziali "CRD</p>

Nel 2015, le attività del perimetro interessato saranno compensate mediante banche terze anziché attraverso BNP Paribas New York, e sono già in via di adozione tutte le misure necessarie per assicurare una transizione regolare e senza impatti significativi per i clienti interessati. BNP Paribas ricorda che una parte delle attività di compensazione in USD del Gruppo sono già oggi effettuate attraverso banche terze.</p> <p>Sulla base delle sue stime, BNP Paribas prevede che il suo indice CET1 di Basilea III Fully Loaded al 30 giugno 2014 si attesti o sia leggermente superiore al 10% , in linea con gli obiettivi del Gruppo annunciati nel suo piano di sviluppo aziendale 2014-2016. Questa stima tiene conto dei buoni risultati netti sottostanti del secondo trimestre e pro rata temporis dell'intensione della banca di adattare il suo dividendo per il 2014 ad un livello pari a 1,50 € per azione.</p> <p>In prospettiva a questo accordo, la banca ha strutturato proattivamente nuove e rigorose procedure di compliance e controllo. Molte di esse sono già in vigore, stanno funzionando in modo efficace ed implicano importanti cambiamenti delle procedure del Gruppo. Più precisamente:</p> <ul style="list-style-type: none"> • un nuovo dipartimento - denominato Group Financial Security US - appartenente alla funzione Compliance del Gruppo, sarà localizzato a New York con il compito di assicurare che BNP Paribas rispetti in termini di compliance le normative USA relative a sanzioni e ad embarghi internazionali. • tutti i flussi in USD per l'intero Gruppo BNP Paribas saranno in ultima istanza gestiti e controllati dalla filiale di New York. <p>In seguito all'audit interna di BNP Paribas, alcuni dirigenti e dipendenti delle aree interessate sono stati sanzionati e, di questi, alcuni hanno già lasciato il Gruppo.</p> <p>Jean-Laurent Bonnafe, CEO di BNP Paribas, ha dichiarato: "Siamo molto dispiaciuti per i comportamenti scorretti del passato che hanno portato a questa soluzione. Gli errori che sono venuti alla luce nel corso di questa indagine sono contrari ai principi sulla base dei quali BNP Paribas ha sempre cercato di operare. Abbiamo annunciato oggi un piano rigoroso per rafforzare i nostri controlli e processi interni, in stretto coordinamento con le autorità USA e la nostra autorità di vigilanza nazionale per assicurare che non scendiamo al di sotto degli elevati standard di comportamento responsabile che ci attendiamo da tutti i soggetti associati a BNP Paribas".</p> <p>"Aver risolto questa questione è un importante passo in avanti per noi. Fatto salvo l'impatto della multa, BNP Paribas registrerà ancora una volta risultati solidi questo trimestre e desideriamo ringraziare i nostri clienti, dipendenti, azionisti e investitori per il loro sostegno offerto in questo momento difficile".</p> <p>"L'impegno del Gruppo resta incentrato sulla realizzazione del suo piano di sviluppo aziendale 2014-2016. Confermiamo la nostra ambizione di raggiungere gli obiettivi di questo piano annunciato lo scorso mese di marzo. In particolare, il Nord America resta un mercato strategico per il Gruppo, nel quale intendiamo sviluppare ulteriormente la nostra attività bancaria retail, corporate e di investment banking nei prossimi anni".</p> <p>"BNP Paribas è una banca costruita intorno alla centralità del cliente: continueremo quindi a lavorare giorno dopo giorno per guadagnarci la fiducia e il rispetto di tutti i nostri stakeholder al servizio dei nostri clienti e dell'economia"."</p>

		<p>A seguito dell'accordo, la Banca prevede il mantenimento delle sue autorizzazioni bancarie dove opera (sebbene questo accordo possa porre le basi per una risoluzione da parte del regolatore) e ha ricevuto conferme o rassicurazioni a tale riguardo dai suoi principali regolatori. La Banca non prevede alcuna ripercussione dell'accordo sulle sue capacità operative o di business nel servire la grande maggioranza dei suoi clienti. Non è tuttavia possibile escludere conseguenze collaterali imprevedute a seguito dell'accordo che possano avere un impatto negativo sull'attività. Tali possibili conseguenze collaterali imprevedute includono la possibilità che clienti, controparti e altre persone o entità con le quali la Banca opera possano scegliere di limitare il proprio campo di attività con la Banca. È altresì inclusa, per talune attività limitate, in particolare negli Stati Uniti, la possibilità che un'autorità neghi alla Banca il rilascio di una deroga necessaria a perseguire un'attività specifica, o possa ritirare un'autorizzazione per lo svolgimento di un'attività specifica. Analogamente, la Banca non può escludere con certezza la perdita di attività a seguito della sospensione della compensazione in dollari USA in relazione ad alcune sue divisioni aziendali.</p> <p>Non si sono verificati cambiamenti significativi nella posizione finanziaria o commerciale di BNPP B.V., BGL o BP2F dal 30 giugno 2014 e non si sono verificati cambiamenti negativi sostanziali nelle prospettive di BNPP B.V., BGL o BP2F dal 31 dicembre 2013.</p>

B.19/ B.4b	Informazioni sulle tendenze	Scenario macroeconomico
		I risultati di BNPPF sono influenzati dal contesto macroeconomico e di mercato. Data la natura della sua attività, BNPPF è particolarmente sensibile alle condizioni macroeconomiche e di mercato in Europa, che negli ultimi anni sono state difficili e caratterizzate da volatilità.
		Nel 2013 l'economia globale ha iniziato a entrare in una fase di equilibrio, con il rallentamento di molti paesi emergenti e una lieve ripresa dei paesi avanzati. La situazione economica globale è generalmente rimasta stabile rispetto al 2012. Le previsioni economiche ² del FMI e dell'OCSE per il 2014 indicano in linea generale un proseguimento della crescita moderata nei paesi avanzati sebbene in maniera meno marcata e uniforme nell'eurozona. Secondo le analisi dei suddetti organismi persistono le incertezze riguardo alla forza della ripresa, in particolare in seguito all'annuncio a dicembre 2013 dell'inizio del tapering da parte della Federal Reserve, e nell'eurozona, dove esiste un rischio di deflazione.
		Nella zona euro gli spread sovrani hanno continuato a scendere nel 2013 in seguito alla diminuzione record da livelli storicamente alti registrata nel 2012.

² Si veda in particolare: FMI – Aggiornamento delle Prospettive dell'economia mondiale – gennaio 2014 e Rapporto dei G20 sulle Prospettive mondiali e sulle sfide politiche – febbraio 2014, Ocse – Le Prospettive dell'economia mondiale – novembre 2013

		Le condizioni finanziarie di alcuni emittenti sovrani sono migliorate ma rimangono incertezze riguardo alla solvibilità di altri.
		<i>Legislazione e regolamenti applicabili alle istituzioni finanziarie</i>
		<p>BNPPF è influenzata dalla legislazione e dai regolamenti applicabili alle istituzioni finanziarie, che stanno subendo modifiche significative sulla scia della crisi finanziaria globale. Le misure che sono state proposte e adottate negli ultimi anni includono requisiti patrimoniali e di liquidità più severi (in particolare per i gruppi bancari internazionali di grandi dimensioni come il Gruppo BNP Paribas), imposte sulle transazioni finanziarie, restrizioni e tasse sulla remunerazione dei dipendenti, limiti alle attività che le banche commerciali possono intraprendere, nonché isolamento a livello finanziario e persino divieto di alcune attività considerate come speculative all'interno delle controllate separate, restrizioni su alcuni tipi di prodotti finanziari, un aumento dei requisiti di trasparenza e di controllo interno, regole di condotta commerciale più severe, rendicontazione e autorizzazione di operazioni su derivati obbligatorie, requisiti di limitazione dei rischi relativi ai derivati fuori Borsa e la costituzione di nuovi e più solidi organi di regolamentazione. Le misure recentemente adottate o, in alcuni casi, proposte e ancora in fase di discussione, che avranno o avranno probabilmente un'influenza su BNPPF, comprendono in particolare la Direttiva e il Regolamento UE sui requisiti prudenziali "CRD IV" del 26 giugno 2013, di cui molte disposizioni sono già entrate in vigore il 1° gennaio 2014; le proposte di un quadro normativo tecnico ed esecutivo relativo alla Direttiva e al Regolamento CRD IV pubblicato dall'ABE; la legge bancaria belga; la consultazione pubblica per la riforma strutturale del settore bancario UE del 2013 e la proposta di regolamento della Commissione europea il 29 gennaio 2014 sulle misure strutturali da adottare per migliorare la solidità degli istituti di credito nell'UE; la proposta di un regolamento sugli indici utilizzati come benchmark degli strumenti e contratti finanziari; il meccanismo di vigilanza unico europeo; la proposta di un meccanismo di risoluzione unico a livello europeo e la proposta di una Direttiva europea sul risanamento e risoluzione delle banche; la norma finale della regolamentazione sulle banche estere che impone determinati requisiti di liquidità, capitale e di altro tipo a livello prudenziale adottata dalla Federal Reserve statunitense; la proposta della Federal Reserve statunitense relativa ai rapporti di liquidità per le banche di grandi dimensioni; e la "Volcker" Rule che impone alcune limitazioni agli investimenti in hedge fund e fondi di private equity, alla loro sponsorizzazione, nonché alle attività di proprietary trading (delle banche statunitensi e in parte anche delle banche non statunitensi) che è stata recentemente adottata dalle autorità di regolamentazione statunitensi. Più in generale, le autorità di regolamentazione e legislative di qualsiasi paese possono, in qualsiasi momento, introdurre l'applicazione di nuove o differenti misure che potrebbero avere un impatto importante sul sistema finanziario in generale o su BNPPF in particolare.</p>

D.3	Rischi chiave relativi ai Titoli	<p>Esistono certi fattori che sono rilevanti ai fini della valutazione dei rischi di mercato associati ai Titoli emessi ai sensi del Programma; questi comprendono quanto segue: (i) i Titoli (diversi dai Titoli Garantiti) sono obbligazioni non garantite; (ii) i Titoli che includono l'effetto leva comportano un livello di rischio più alto e qualora vi siano perdite su tali Titoli, le stesse potrebbero essere più elevate di quelle di un titolo simile che non è oggetto di leverage; (iii) i Bull and Bear Certificates (payout ETS 2300) sono concepiti esclusivamente per negoziazioni a breve termine, essendo valutati sulla base della loro performance giornaliera composta; (iv) il prezzo di negoziazione dei Titoli è influenzato da vari fattori tra cui, a mero titolo esemplificativo (in relazione ai Titoli legati a un Sottostante di Riferimento), il prezzo del o dei relativi Sottostanti di Riferimento, il tempo restante alla scadenza o al rimborso e la volatilità, e tali fattori implicano che il prezzo di negoziazione dei Titoli può essere inferiore all'Importo del Rimborso Finale o all'Importo del Regolamento in Contanti o al valore del Diritto Spettante; (v) l'esposizione al Sottostante di Riferimento in molti casi sarà ottenuta tramite la stipula da parte dell'Emittente di accordi di copertura e, in relazione ai Titoli legati a un Sottostante di Riferimento, i potenziali investitori sono esposti all'andamento di questi accordi di copertura e ad eventi che possono avere un effetto sugli accordi di copertura e, di conseguenza, il verificarsi di uno di questi eventi può avere un effetto sul valore dei Titoli; (vi) il collateral associato ad una o più serie di Titoli Garantiti può essere insufficiente ad eliminare il rischio di credito di un Portatore sull'Emittente; (vii) i Titoli possono avere un importo di negoziazione minimo e qualora, a seguito della cessione di un Titolo, un Portatore di Titoli detenga meno Titoli rispetto all'importo di negoziazione minimo specificato, a tale Portatore non sarà consentito cedere i propri Titoli residui prima della scadenza o del rimborso, a seconda dei casi, senza prima avere acquistato sufficienti Titoli aggiuntivi al fine di detenere l'importo minimo di negoziazione; (viii) limiti all'esercizio di Warrant possono comportare l'incapacità di un Portatore di esercitare tutti i Warrant che intenderebbe esercitare in una data specifica, quando l'Emittente ha la possibilità di limitare il numero di Warrant esercitabili in una data o può essere</p>

Elemento	Titolo	
		<p>tenuto a vendere o acquistare Warrant (sostenendo in ogni caso costi di transazione) al fine di realizzare il proprio investimento, ove debba essere esercitato un numero minimo di Warrant; (ix) nel caso dei Warrant, le variazioni nell'Importo di Regolamento in Contanti nell'intervallo di tempo compreso fra il momento nel quale un Portatore impartisce le istruzioni di esercizio e il momento della determinazione dell'Importo di Regolamento in Contanti possono ridurre l'Importo di Regolamento in Contanti; (x) ove indicato nelle Condizioni Definitive, l'Emittente può, a sua esclusiva e assoluta discrezione, decidere di variare il regolamento dei Titoli; (xi) gli Open End Certificates e gli OET Certificates non contemplano una scadenza prestabilita e possono essere rimborsati in qualsiasi data determinata dall'Emittente di riferimento, a sua esclusiva e totale discrezione, e gli investimenti in tali Open End Certificates e OET Certificates comportano rischi aggiuntivi rispetto ad altri Certificates a causa dell'impossibilità da parte dell'investitore di stabilire la data di rimborso; (xii) il regolamento potrebbe essere differito a seguito del verificarsi o dell'esistenza di un Evento di Turbativa del Regolamento e, in tali circostanze, l'Emittente potrebbe pagare un Prezzo del Regolamento in Contanti Soggetto a Turbativa (che potrebbe essere inferiore al giusto valore di mercato del Diritto Spettante) al posto della consegna del Diritto Spettante; (xiii) il verificarsi di un ulteriore evento di turbativa o di un evento di turbativa ulteriore opzionale può portare a una rettifica dei Titoli, alla cancellazione (nel caso dei Warrant) o a un rimborso anticipato (nel caso di Notes e Certificates) o può avere come conseguenza una differenza tra l'importo pagabile al momento del rimborso programmato e l'importo che si prevede sia pagato al momento del rimborso programmato e, di conseguenza, il verificarsi di un evento di turbativa ulteriore e/o di un evento di turbativa ulteriore opzionale può avere un effetto pregiudizievole sul valore o sulla liquidità dei Titoli; (xiv) i Titoli possono maturare spese e oneri fiscali; (xv) i Titoli potrebbero essere annullati (nel caso dei Warrant) o rimborsati (nel caso delle Notes e dei Certificati) nel caso di illegalità o impraticabilità, e tale annullamento o rimborso potrebbe avere come conseguenza il fatto che un investitore non realizzi un profitto su un investimento nei Titoli; (xvi) le disposizioni sulle assemblee dei Portatori consentono a maggioranze definite di vincolare tutti i Portatori; (xvii) una decisione giudiziaria o un mutamento di una prassi amministrativa o una modifica della legge inglese o francese, a seconda dei casi, dopo la data del Prospetto di Base potrebbero avere un impatto sostanzialmente pregiudizievole sul valore delle Notes da essi influenzate; (xviii) una riduzione dell'eventuale rating assegnato a titoli di debito in essere dell'Emittente o Garante (se applicabile) da parte di un'agenzia di rating potrebbe causare una riduzione del valore di negoziazione dei Titoli; (xix) potrebbero sorgere certi conflitti di interessi (si veda l'Elemento E.4 che segue); (xx) l'unico mezzo attraverso il quale un Detentore può realizzare valore dal Titolo prima della sua Data di Esercizio, Data di Scadenza o Data di Rimborso, a seconda dei casi, consiste nella sua vendita al prezzo di mercato in vigore al momento dell'operazione in un mercato secondario disponibile, fermo restando che potrebbe non esistere alcun mercato secondario per i Titoli (il che potrebbe significare, per un investitore, dover attendere di esercitare il rimborso dei Titoli, al fine di realizzare un valore superiore rispetto al valore</p>

Elemento	Titolo	
		<p>di scambio); (xxi) può darsi che non sia mai stabilito un mercato secondario attivo, o che questo sia illiquido, e che questo abbia un effetto negativo sul valore al quale un investitore può vendere i suoi Titoli (gli investitori potrebbero subire una perdita parziale o totale dell'importo del loro investimento). In determinate circostanze all'inizio di un periodo d'offerta relativo ai Titoli ma prima della data di emissione, talune informazioni specifiche (in particolare il Tasso di Interesse fisso, il Tasso Minimo di Interesse e/o il Tasso Massimo di Interesse pagabile, il Margine applicato al tasso di interesse variabile pagabile, il Gearing (Leva) applicato all'interesse o al payout finale, il Gearing Up (Leva Superiore) applicato al payout finale (nel caso di Autocall Securities, Autocall One Touch Securities o Autocall Standard Securities), la componente Tasso FR del payout finale (la quale sarà pagabile laddove determinate condizioni siano soddisfatte, come specificato nelle Condizioni del Payout) e/o il Livello Knock-in e/o il Livello Knock-out utilizzato per accertare se l'Evento Knock-in o l'Evento Knock-out, secondo quanto applicabile, si sia verificato) potrebbero non essere note, ma le Condizioni Definitive specificheranno un intervallo indicativo. In tali circostanze, i potenziali investitori potrebbero dover assumere la loro decisione di acquistare i Titoli sulla base di tale intervallo, prima che il Tasso di Interesse, il Margine, il Gearing, il Gearing Up, il Tasso FR, il Livello Knock-in e/o Knock-out, a seconda dei casi, che si applicherà ai Titoli, gli sia notificato. Un avviso relativo al tasso, al livello o alla percentuale effettivi, secondo quanto applicabile, sarà pubblicato con le stesse modalità della pubblicazione delle Condizioni Definitive.</p> <p>Inoltre, esistono rischi specifici in relazione ai Titoli che sono legati a un Sottostante di Riferimento (inclusi Titoli Ibridi) e un investimento in tali Titoli comporterà rischi significativi non associati a un investimento in un titolo di debito tradizionale. I fattori di rischio relativi ai Titoli Legati a un Sottostante di Riferimento includono: (i) nel caso dei Titoli su Indici, esposizione a uno o più indici, eventi di rettifica e turbative di mercato o la mancata apertura di una borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (ii) nel caso dei Titoli Azionari, esposizione a una o più azioni, rischi di mercato simili a quelli di un investimento diretto in capitale azionario, certificati di deposito globale (global depository receipt, "GDR") o certificati di deposito americani (American depository receipt "ADR"), eventi di rettifica potenziali o eventi straordinari aventi un effetto sulle azioni e turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (iii) nel caso dei Titoli Legati a Materie Prime, esposizione a una o più commodity e/o indici di commodity, rischi di mercato simili a quelli di un investimento diretto in commodity, turbative di mercato ed eventi di rettifica che potrebbero avere un effetto pregiudizievole sul valore o sulla liquidità dei Titoli, ritardi nella determinazione del livello finale di un indice di commodity, con il risultato di ritardi nel pagamento dell'Importo del Regolamento in Contanti, dell'Importo del Rimborso, dell'Importo del Rimborso Finale, a seconda dei casi; (iv) nel caso dei Titoli ETI, esposizione a una o più interessi in un exchange traded fund, ad una exchange traded note, ad una exchange traded commodity o altro</p>

		<p>prodotto negoziato in borsa (ciascuno uno "exchange traded instrument"), analoghi rischi di mercato ad un investimento diretto in strumenti negoziati in borsa, il rischio che l'importo dovuto per titoli ETI sia inferiore e in talune circostanze sensibilmente inferiore al rendimento di un investimento diretto nel relativo ETI, eventi di rettifica potenziali o eventi straordinari aventi un effetto sugli strumenti negoziati in borsa e turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (v) nel caso dei Titoli Indicizzati all'Inflazione, esposizione ad un indice inflazionistico e relative correzioni; (vi) nel caso di Titoli Legati a Valute, esposizione ad una valuta, analoghi rischi di mercato ad un investimento valutario diretto e turbative di mercato; (vii) nel caso dei Titoli Legati a Fondi, esposizione all'azione o alla quota di un Fondo, analoghi rischi di investimento diretto in un fondo, il rischio che l'importo dovuto sui Titoli Legati a Fondi sia inferiore rispetto all'importo maturato da un investimento diretto del relativo Fondo, eventi straordinari del fondo aventi un effetto negativo sul valore o sulla liquidità dei Titoli; (viii) nel caso dei Titoli Legati a Futures, esposizione a contratti futures, analoghi rischi di mercato per l'investimento diretto in un contratto futures, turbative di mercato o la mancata apertura di una Borsa, che potrebbero avere un effetto negativo sul valore e sulla liquidità dei Titoli; (ix) nel caso di Titoli Legati ad Obbligazioni, esposizione all'obbligazione di una o più entità di riferimento; (x) nel caso dei Titoli Legati al Tasso d'Interesse Sottostante, esposizione all'interesse sottostante o ad un tasso CMS; (xi) nel caso dei Certificati Azionari Privilegiati, esposizione ad un'azione privilegiata e all'emittente di azioni privilegiate, il rischio che gli investitori perdano la totalità o una parte del proprio investimento, ove il valore delle azioni privilegiate non si muova nella direzione prevista, il rischio che i Certificati Azionari Privilegiati possano essere rimborsati in anticipo, in talune circostanze, (xii) nel caso dei Titoli di Debito o Titoli Legati all'Indice; dove è applicabile la Valutazione del Prezzo dei Futures, esposizione a un contratto futures o di opzioni in relazione ad uno strumento di debito sintetico (nel caso dei Titoli di Debito) o ad un indice (nel caso dei Titoli Legati ad un Indice), analoghi rischi di mercato per un investimento diretto in tali contratti futures o di opzioni e turbative di mercato; e (xiv) il rischio che, a meno che sia diversamente indicato nelle Condizioni Definitive, l'Emittente non fornisca informazioni post-emissione in relazione al Sottostante di Riferimento.</p> <p>Esistono inoltre rischi specifici relativi ai Titoli Legati a un Sottostante di Riferimento di un mercato emergente o in via di sviluppo (inclusi, a mero titolo esemplificativo, rischi associati a incertezze politiche ed economiche, politiche governative sfavorevoli, restrizioni agli investimenti stranieri e alla convertibilità delle valute, oscillazioni dei tassi di cambio delle valute, possibili riduzioni dei livelli di informativa e di regolamentazione e incertezze sullo status, l'interpretazione e l'applicazione delle leggi, l'aumento dei costi di custodia e difficoltà amministrative e l'aumento della probabilità del verificarsi di un evento di turbativa o di rettifica). I Titoli negoziati in paesi emergenti o in via di sviluppo tendono a essere meno liquidi e i loro prezzi tendono a essere più volatili. Sussistono inoltre rischi specifici relativi ai Titoli Dinamici che sono intrinsecamente più complessi e che quindi rendono la loro</p>

D.6	Avvertenza relativa ai rischi	<p>Si veda l'Elemento D.3 di cui sopra</p> <p>Nel caso di insolvenza di un Emittente o qualora lo stesso non sia altrimenti in grado di, o disposto a, rimborsare i Titoli alla scadenza, un investitore potrebbe perdere tutto o parte del suo investimento nei Titoli. Qualora i Titoli siano garantiti e il Garante non sia in grado di, o non sia disposto a, adempiere le proprie obbligazioni ai sensi della Garanzia quando diventano dovute, un investitore può perdere tutto o parte del suo investimento nei Titoli. BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- *a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*
- *all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

"BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy"

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP

Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- *a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*
- *all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

“BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy””

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.

(f) the following new section is added at the end of the "General Information" section:

"19. Recent Developments of BNPP and the BNP Paribas Group

As indicated in the Second Update to the BNPP 2013 Registration Document (filed with the *Autorités des Marchés Financiers* on July 7, 2014), on June 30, 2014 the Bank entered into a comprehensive settlement that included agreements with and orders issued by U.S. federal and New York state government agencies and regulatory authorities comprising the U.S. Department of Justice, the New York County District Attorney's Office, the U.S. Attorney's Office for the Southern District of New York, the Board of Governors of the Federal Reserve System, the Office of Foreign Assets Control of the U.S. Department of the Treasury and the New York State Department of Financial Services, in settlement of investigations into violations of U.S. laws and regulations regarding economic sanctions.

The fines and penalties imposed on the Bank as part of this settlement include, among other things, the payment of monetary penalties totaling approximately \$8.97 billion (€6.6 billion), guilty pleas by BNP Paribas S.A., the parent company of the BNP Paribas group, to charges of having violated U.S. federal criminal law (conspiracy to violate the Trading with the Enemy Act and the International Emergency Economic Powers Act) and New York State criminal law (conspiracy and falsifying business records), and the suspension of the New York branch of BNP Paribas for (a) a one-year period (2015) of the USD direct clearing focused mainly on the Oil & Gas Energy and Commodity Finance business line in certain locations and (b) a two-year period of U.S. dollar clearing as a correspondent bank for unaffiliated third party banks in New York and London.

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business."

BNP Paribas annonce un accord global avec les autorités des Etats-Unis relatif à la revue de certaines transactions en dollars

BNP Paribas annonce aujourd'hui être parvenue à un règlement global relatif à l'enquête portant sur certaines transactions en dollars concernant des pays soumis aux sanctions des Etats-Unis. Ce règlement inclut des accords avec le US Department of Justice, le US Attorney's Office pour le district sud de New York, le District Attorney's Office du comté de New York, le Conseil des Gouverneurs de la Réserve fédérale américaine (FED), le Département des Services financiers de l'Etat de New York (DFS) et l'Office of Foreign Assets Control (OFAC) du Département du Trésor américain.

Dans le cadre de cet accord, BNP Paribas SA reconnaît sa responsabilité (« guilty plea ») pour avoir enfreint certaines lois et réglementations des Etats-Unis relatives à des sanctions économiques à l'encontre de certains pays et aux enregistrements des opérations liées. BNP Paribas accepte également de payer un total de 8,97 milliards de dollars (6,6 milliards d'euros). Compte tenu des sommes déjà provisionnées, ce montant donnera lieu à la comptabilisation d'une charge exceptionnelle de 5,8 milliards d'euros dans les comptes du 2ème trimestre 2014. Par ailleurs, BNP Paribas accepte une suspension temporaire, pour une durée d'un an à compter du 1er janvier 2015, de certaines opérations directes de compensation en dollars US, portant principalement sur le périmètre de l'activité de financement du négoce international de matières premières, pour la partie pétrole et gaz, dans certaines implantations.

BNP Paribas a travaillé avec les autorités des Etats-Unis pour aboutir à cet accord dont le règlement a été coordonné par son autorité de tutelle nationale (l'Autorité de Contrôle Prudentiel et de Résolution - ACPR), en lien avec ses principales autorités de tutelle à l'étranger. BNP Paribas conservera ses licences dans le cadre de ces accords, et n'anticipe aucune incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. En 2015, les activités du périmètre concerné seront compensées en dollars via une banque tierce et non par l'intermédiaire de la succursale de BNP Paribas à New York. Toutes les mesures nécessaires sont prises pour assurer une transition sans difficulté et éviter tout impact significatif pour les clients concernés. BNP Paribas rappelle qu'une partie de l'activité de compensation en dollars US du Groupe est déjà réalisée via des banques tierces.

BNP Paribas estime que son ratio de fonds propres (CET1) de « Bâle 3 plein » devrait rester de l'ordre de 10% au 30 juin 2014, en ligne avec les objectifs annoncés dans le plan de développement

2014-2016. Cette estimation tient compte notamment d'un résultat net hors exceptionnels solide au 2ème trimestre et, prorata temporis, de l'intention de la banque d'ajuster le niveau de dividende pour 2014 au niveau de celui de 2013 (1,50 euros par action).

Sans attendre cet accord, la banque a mis au point un ensemble de procédures solides en matière de conformité et de contrôle. Nombre de ces procédures sont déjà en place et fonctionnent efficacement. Elles traduisent une évolution majeure des processus opérationnels du Groupe. En particulier :

- un nouveau département, baptisé « Sécurité Financière Groupe aux Etats-Unis » et faisant partie de la fonction « Conformité Groupe », sera localisé à New York et aura pour mission de veiller à ce que BNP Paribas respecte dans le monde entier les réglementations des Etats-Unis relatives aux sanctions internationales et aux embargos.
- la totalité des flux en dollars du Groupe BNP Paribas sera à terme traitée et contrôlée par la succursale de New York.

A l'issue de la revue interne menée par BNP Paribas, plusieurs cadres et collaborateurs des entités concernées ont été sanctionnés. D'autres ont quitté le Groupe.

Jean-Laurent Bonnafé, Administrateur Directeur général de BNP Paribas, a déclaré : « Nous exprimons nos regrets pour ces erreurs passées qui nous amènent aujourd'hui à cet accord. Certaines défaillances qui ont été identifiées lors de cette enquête sont contraires aux principes éthiques que BNP Paribas a toujours cherché à respecter. Nous avons annoncé aujourd'hui un plan d'envergure pour renforcer nos contrôles et nos processus internes, en étroite coopération avec les autorités américaines et notre régulateur national, pour veiller à ce que nos pratiques soient conformes aux standards élevés en matière de comportement responsable que nous attendons de chacun chez BNP Paribas».

« Cet accord constitue une étape importante pour nous. Au titre de ses activités courantes, BNP Paribas enregistra à nouveau des résultats solides ce trimestre et nous tenons à remercier nos clients, nos collaborateurs, nos actionnaires et nos investisseurs pour leur soutien tout au long de cette période difficile. »

« Le Groupe reste mobilisé sur la mise en œuvre de son plan de développement 2014-2016. Nous confirmons notre ambition d'atteindre les objectifs prévus dans ce plan, annoncé en mars 2014. En particulier, les États-Unis demeurent un marché stratégique pour le Groupe et nous comptons continuer à y développer nos activités de banque de détail, d'investissement solutions et de banque de financement et d'investissement (BFI) au cours des années à venir. »

« BNP Paribas est une banque qui place les clients au cœur de ses priorités. Nous allons continuer à travailler chaque jour pour mériter la confiance et le respect de tous, au service de nos clients et de l'économie. »

A la suite de cet accord, la Banque s'attend à conserver ses licences bancaires là où elle opère (même si l'accord pourrait constituer un motif d'annulation d'une licence pour un régulateur), et a reçu des confirmations ou assurances dans ce sens de ses principaux régulateurs bancaires. La Banque ne s'attend pas à ce que l'accord ait une incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. Cependant, il ne peut être exclu que des conséquences collatérales imprévisibles de cet accord impactent de manière négative son activité. Ces conséquences collatérales imprévisibles incluent le risque que des clients, contreparties et toute autre personne ou entité contractant avec la Banque, décident de limiter leur activité future avec la Banque. Cela inclut également pour certaines activités limitées, en particulier aux Etats-Unis, le risque qu'une autorité refuse d'accorder à la Banque une dispense nécessaire à la poursuite d'une activité déterminée ou ne retire une autorisation nécessaire à l'exercice d'une activité déterminée. De

même, la Banque ne peut savoir avec certitude si la suspension de la compensation en dollars dans certains de ses activités conduira à une perte d'activité.";

B.13	Evénements impactant la solvabilité de l'Emetteur	A la date de ce Prospectus de Base et à la connaissance de l'Emetteur, il ne s'est produit aucun événement récent qui présente un intérêt significatif pour l'évaluation de la solvabilité de l'Emetteur depuis le 31 décembre 2013, à l'exception de ce qui est indiqué dans le communiqué de presse publié par BNP Paribas le 30 juin 2014 dont le texte est reproduit en italique dans l'Elément B.12 ci-dessus.

2. Le "Modèle de Résumé du Programme Spécifique à l'Emission en relation avec le Prospectus de Base" des pages 1288 à 1349 est modifié comme suit:

Par ailleurs, BNP Paribas accepte une suspension temporaire, pour une durée d'un an à compter du 1er janvier 2015, de certaines opérations directes de compensation en dollars US, portant principalement sur le périmètre de l'activité de financement du négoce international de matières premières, pour la partie pétrole et gaz, dans certaines implantations.

BNP Paribas a travaillé avec les autorités des Etats-Unis pour aboutir à cet accord dont le règlement a été coordonné par son autorité de tutelle nationale (l'Autorité de Contrôle Prudentiel et de Résolution - ACPR), en lien avec ses principales autorités de tutelle à l'étranger. BNP Paribas conservera ses licences dans le cadre de ces accords, et n'anticipe aucune incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. En 2015, les activités du périmètre concerné seront compensées en dollars via une banque tierce et non par l'intermédiaire de la succursale de BNP Paribas à New York. Toutes les mesures nécessaires sont prises pour assurer une transition sans difficulté et éviter tout impact significatif pour les clients concernés. BNP Paribas rappelle qu'une partie de l'activité de compensation en dollars US du Groupe est déjà réalisée via des banques tierces.

BNP Paribas estime que son ratio de fonds propres (CET1) de « Bâle 3 plein » devrait rester de l'ordre de 10% au 30 juin 2014, en ligne avec les objectifs annoncés dans le plan de développement 2014-2016. Cette estimation tient compte notamment d'un résultat net hors exceptionnels solide au 2ème trimestre et, prorata temporis, de l'intention de la banque d'ajuster le niveau de dividende pour 2014 au niveau de celui de 2013 (1,50 euros par action).

Sans attendre cet accord, la banque a mis au point un ensemble de procédures solides en matière de conformité et de contrôle. Nombre de ces procédures sont déjà en place et fonctionnent efficacement. Elles traduisent une évolution majeure des processus opérationnels du Groupe. En particulier :

- *un nouveau département, baptisé « Sécurité Financière Groupe aux Etats-Unis » et faisant partie de la fonction « Conformité Groupe », sera localisé à New York et aura pour mission de veiller à ce que BNP Paribas respecte dans le monde entier les réglementations des Etats-Unis relatives aux sanctions internationales et aux embargos.*
- *la totalité des flux en dollars du Groupe BNP Paribas sera à terme traitée et contrôlée par la succursale de New York.*

A l'issue de la revue interne menée par BNP Paribas, plusieurs cadres et collaborateurs des entités concernées ont été sanctionnés. D'autres ont quitté le Groupe.

Jean-Laurent Bonnafé, Administrateur Directeur général de BNP Paribas, a déclaré : « Nous exprimons nos regrets pour ces erreurs passées qui nous amènent aujourd'hui à cet accord. Certaines défaillances qui ont été identifiées lors de cette enquête sont contraires aux principes éthiques que BNP Paribas a toujours cherché à respecter. Nous avons annoncé aujourd'hui un plan d'envergure pour renforcer nos contrôles et nos processus internes, en étroite coopération avec les autorités américaines et notre régulateur national, pour veiller à ce que nos pratiques soient conformes aux standards élevés en matière de comportement responsable que nous attendons de chacun chez BNP Paribas».

« Cet accord constitue une étape importante pour nous. Au titre de ses activités courantes, BNP Paribas enregistrera à nouveau des résultats solides ce trimestre et nous tenons à remercier nos

clients, nos collaborateurs, nos actionnaires et nos investisseurs pour leur soutien tout au long de cette période difficile. »

« Le Groupe reste mobilisé sur la mise en œuvre de son plan de développement 2014-2016. Nous confirmons notre ambition d'atteindre les objectifs prévus dans ce plan, annoncé en mars 2014. En particulier, les États-Unis demeurent un marché stratégique pour le Groupe et nous comptons continuer à y développer nos activités de banque de détail, d'investissement solutions et de banque de financement et d'investissement (BFI) au cours des années à venir. »

« BNP Paribas est une banque qui place les clients au cœur de ses priorités. Nous allons continuer à travailler chaque jour pour mériter la confiance et le respect de tous, au service de nos clients et de l'économie. »

A la suite de cet accord, la Banque s'attend à conserver ses licences bancaires là où elle opère (même si l'accord pourrait constituer un motif d'annulation d'une licence pour un régulateur), et a reçu des confirmations ou assurances dans ce sens de ses principaux régulateurs bancaires. La Banque ne s'attend pas à ce que l'accord ait une incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. Cependant, il ne peut être exclu que des conséquences collatérales imprévisibles de cet accord impactent de manière négative son activité. Ces conséquences collatérales imprévisibles incluent le risque que des clients, contreparties et toute autre personne ou entité contractant avec la Banque, décident de limiter leur activité future avec la Banque. Cela inclut également pour certaines activités limitées, en particulier aux États-Unis, le risque qu'une autorité refuse d'accorder à la Banque une dispense nécessaire à la poursuite d'une activité déterminée ou ne retire une autorisation nécessaire à l'exercice d'une activité déterminée. De même, la Banque ne peut savoir avec certitude si la suspension de la compensation en dollars dans certains de ses activités conduira à une perte d'activité.

"Paris, 30 June 2014

BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- *a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*

- *all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

"BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy".

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.

There has been no significant change in the financial or trading position of BNPP B.V., BP2F or BGL since 31 December 2013 and there has been no material adverse change in the prospects of BNPP B.V., BP2F or BGL since 31 December 2013.";

- (c) Element B.13 is deleted and replaced with the following:

B.13	Events impacting the Issuer's solvency	As at 7 August 2014 and to the best of the Issuers' knowledge, there have not been any recent events which are to a material extent relevant to the evaluation of any of the Issuers' solvency since 31 December 2013 (in the case of BNPP B.V., BP2F, BNPPF and BGL) or 30 June 2014 (in the case of BNPP).

"Paris, 30 June 2014

BNP Paribas announces a comprehensive settlement regarding the review of certain USD transactions by US authorities

BNP Paribas today announced a comprehensive settlement of the pending investigation relating to US dollar transactions involving parties subject to US sanctions, including agreements with the U.S. Department of Justice, U.S. Attorney's Office for the Southern District of New York, the New York County District Attorney's Office, the Board of Governors of the U.S. Federal Reserve System (FED), the New York State Department of Financial Services (DFS), and the US Department of the Treasury's Office of Foreign Assets Control (OFAC).

The settlement includes guilty pleas entered into by BNP Paribas SA in relation to violations of certain US laws and regulations regarding economic sanctions against certain countries and related recordkeeping. BNP Paribas also agrees to pay a total of USD 8.97 billion (Euros 6.6 billion). Beyond what has already been provisioned, this will result in an exceptional charge of Euros 5.8 billion to be booked in the second quarter of 2014. BNP Paribas also accepts a temporary suspension of one year starting 1st January 2015 of the USD direct clearing focused mainly on the Oil & Gas Energy & Commodity Finance business line in certain locations.

BNP Paribas has worked with the US authorities to resolve these issues and the resolution of these matters was coordinated by its home regulator (Autorité de Contrôle Prudentiel et de Résolution - ACPR) with its lead regulators. BNP Paribas will maintain its licenses as part of the settlements, and expects no impact on its operational or business capabilities to serve the vast majority of its clients. During 2015, the activities of the perimeter concerned will clear US dollars through a third party bank instead of clearing through BNP Paribas New York and all necessary measures are being taken to ensure smooth transition and no material impact for the clients concerned. BNP Paribas notes that part of the Group's USD clearing is already done today through third party banks.

Based on its estimates, BNP Paribas expects its fully loaded Basel III CET1 ratio as at 30 June 2014 to be at around 10%, consistent with the Group's targets announced within its 2014-2016 business development plan. This estimate takes into account in particular solid

underlying second quarter net results and pro rata temporis the current intention of the bank to adapt its dividend for 2014 to a level equal to that of 2013 (1.50 euros per share).

In advance of the settlement, the bank designed new robust compliance and control procedures. Many of these are already in force and are working effectively, and involve important changes to the Group's procedures. Specifically:

- *a new department called Group Financial Security US, part of the Group Compliance function, will be headquartered in New York and will ensure that BNP Paribas complies globally with US regulation related to international sanctions and embargoes.*
- *all USD flows for the entire BNP Paribas Group will be ultimately processed and controlled via the branch in New York.*

As a result of BNP Paribas' internal review, a number of managers and employees from relevant business areas have been sanctioned, a number of whom have left the Group.

Jean-Laurent Bonnafe, CEO of BNP Paribas, said: "We deeply regret the past misconduct that led to this settlement. The failures that have come to light in the course of this investigation run contrary to the principles on which BNP Paribas has always sought to operate. We have announced today a comprehensive plan to strengthen our internal controls and processes, in ongoing close coordination with the US authorities and our home regulator to ensure that we do not fall below the high standards of responsible conduct we expect from everyone associated with BNP Paribas".

"Having this matter resolved is an important step forward for us. Apart from the impact of the fine, BNP Paribas will once again post solid results this quarter and we want to thank our clients, employees, shareholders and investors for their support throughout this difficult time".

"The Group remains focused on implementing its 2014-2016 business development plan. We confirm our ambition to meet the targets of this plan announced in March this year. In particular, North America remains a strategic market for the Group where we plan to further develop our retail, investment solutions and corporate & investment banking franchise over the coming years".

"BNP Paribas is a client-centric bank and we will continue to work every single day to earn the trust and respect of all our stakeholders in service of our clients and the economy".

Following the settlement, the Bank expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. The Bank expects that the settlement will have no impact on its operational or business capabilities to serve the vast majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom the Bank does business may choose to limit their future business with the Bank. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant the Bank a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, the Bank cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.

 - (iv) the following new paragraph (xviii) is added:

 - (v) the first sentence in the last paragraph under the heading "4. Documents Available" on page 1221 is deleted and replaced with the following:

"In the case of (iii), (ix), (xv), (xvi), (xvii) and (xviii) above, the documents are also available via BNPP's website: "www.invest.bnpparibas.com".";
- (b) the following new paragraphs are inserted immediately below the first paragraph (which was included in the Base Prospectus by virtue of the First Supplement) under the heading "5. Material Adverse Change":

"As indicated in the Second Update to the BNPP 2013 Registration Document (filed with the *Autorités des Marchés Financiers* on 7 July 2014), on 30 June 2014 BNPP entered into a comprehensive settlement that included agreements with and orders issued by U.S. federal and New York state government agencies and regulatory authorities comprising the U.S. Department of Justice, the New York County District Attorney's Office, the U.S. Attorney's Office for the Southern District of New York, the Board of Governors of the Federal Reserve System, the Office of Foreign Assets Control of the U.S. Department of the Treasury and the New York State Department of Financial Services, in settlement of investigations into violations of U.S. laws and regulations regarding economic sanctions.

The fines and penalties imposed on BNPP as part of this settlement include, among other things, the payment of monetary penalties totaling approximately \$8.97 billion (€6.6 billion), guilty pleas by BNP Paribas S.A., the parent company of the BNP Paribas group, to charges of having violated U.S. federal criminal law (conspiracy to violate the Trading with the Enemy Act and the International Emergency Economic Powers Act) and New York State criminal law (conspiracy and falsifying business records), and the suspension of the New York branch of BNP Paribas for (a) a one-year period (2015) of the USD direct clearing focused mainly on the Oil & Gas Energy and Commodity Finance business line in certain locations and (b) a two-year period of U.S. dollar clearing as a correspondent bank for unaffiliated third party banks in New York and London.

Following the settlement, BNPP expects its banking licenses to be maintained where it operates (although this settlement could provide the basis for a regulator to rescind a license), and has received confirmations or assurances in this regard from its principal regulators. BNPP expects that the settlement will have no impact on its operational or business capabilities to serve the vast

majority of its clients. There can be no assurance, however, that unanticipated collateral consequences of the settlement will not adversely affect its business. Such unanticipated collateral consequences include the possibility that clients, counter-parties and other persons or entities with whom BNPP does business may choose to limit their future business with BNPP. It also includes for some limited activities, in particular in the United States, the possibility that an authority may refuse to grant BNPP a waiver needed to pursue a specific activity, or may withdraw an authorization to conduct a specific activity. Similarly, BNPP cannot be certain that the suspension of U.S. dollar clearing in respect of certain of its business lines will not lead to a loss of business.";

- (c) the paragraph under the heading "6. Legal and Arbitration Proceedings" on page 1222 of the Base Prospectus (which was included in the Base Prospectus by virtue of the First Supplement) is deleted and replaced with the following:

"Save as disclosed on pages 100 to 101 and 137 to 138 of the Third Update to the BNPP 2013 Registration Document, there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which BNPP is aware), during the period covering at least the twelve (12) months prior to 7 August 2014 which may have, or have had in the recent past, significant effects on BNPP and/or the Group's financial position or profitability.";

- (d) the first two paragraphs under the heading "7. Significant Change" on page 1223 of the Base Prospectus (which were included in the Base Prospectus by virtue of the First Supplement) are deleted and replaced with the following:

"There has been no significant change in the financial or trading position of the Group since 30 June 2014 (being the end of the last financial period for which interim financial statements have been published).";

BNP Paribas annonce un accord global avec les autorités des Etats-Unis relatif à la revue de certaines transactions en dollars

BNP Paribas annonce aujourd'hui être parvenue à un règlement global relatif à l'enquête portant sur certaines transactions en dollars concernant des pays soumis aux sanctions des Etats-Unis. Ce règlement inclut des accords avec le US Department of Justice, le US Attorney's Office pour le district sud de New York, le District Attorney's Office du comté de New York, le Conseil des Gouverneurs de la Réserve fédérale américaine (FED), le Département des Services financiers de l'État de New York (DFS) et l'Office of Foreign Assets Control (OFAC) du Département du Trésor américain.

Dans le cadre de cet accord, BNP Paribas SA reconnaît sa responsabilité (« guilty plea ») pour avoir enfreint certaines lois et réglementations des Etats-Unis relatives à des sanctions économiques à l'encontre de certains pays et aux enregistrements des opérations liées. BNP Paribas accepte également de payer un total de 8,97 milliards de dollars (6,6 milliards d'euros). Compte tenu des sommes déjà provisionnées, ce montant donnera lieu à la comptabilisation d'une charge exceptionnelle de 5,8 milliards d'euros dans les comptes du 2ème trimestre 2014. Par ailleurs, BNP Paribas accepte une suspension temporaire, pour une durée d'un an à compter du 1er janvier 2015, de certaines opérations directes de compensation en dollars US, portant principalement sur le périmètre de l'activité de financement du négoce international de matières premières, pour la partie pétrole et gaz, dans certaines implantations.

BNP Paribas a travaillé avec les autorités des Etats-Unis pour aboutir à cet accord dont le règlement a été coordonné par son autorité de tutelle nationale (l'Autorité de Contrôle Prudentiel et de Résolution - ACPR), en lien avec ses principales autorités de tutelle à l'étranger. BNP Paribas conservera ses licences dans le cadre de ces accords, et n'anticipe aucune incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. En 2015, les activités du périmètre concerné seront compensées en dollars via une banque tierce et non par l'intermédiaire de la succursale de BNP Paribas à New York. Toutes les mesures nécessaires sont prises pour assurer une transition sans difficulté et éviter tout impact significatif pour les clients concernés. BNP Paribas rappelle qu'une partie de l'activité de compensation en dollars US du Groupe est déjà réalisée via des banques tierces.

BNP Paribas estime que son ratio de fonds propres (CET1) de « Bâle 3 plein » devrait rester de l'ordre de 10% au 30 juin 2014, en ligne avec les objectifs annoncés dans le plan de développement 2014-2016. Cette estimation tient compte notamment d'un résultat net hors exceptionnels solide au 2ème trimestre et, prorata temporis, de l'intention de la banque d'ajuster le niveau de dividende pour 2014 au niveau de celui de 2013 (1,50 euros par action).

Sans attendre cet accord, la banque a mis au point un ensemble de procédures solides en matière de conformité et de contrôle. Nombre de ces procédures sont déjà en place et fonctionnent efficacement. Elles traduisent une évolution majeure des processus opérationnels du Groupe. En particulier :

- *un nouveau département, baptisé « Sécurité Financière Groupe aux Etats-Unis » et faisant partie de la fonction « Conformité Groupe », sera localisé à New York et aura pour mission de veiller à ce que BNP Paribas respecte dans le monde entier les réglementations des Etats-Unis relatives aux sanctions internationales et aux embargos.*
- *la totalité des flux en dollars du Groupe BNP Paribas sera à terme traitée et contrôlée par la succursale de New York.*

A l'issue de la revue interne menée par BNP Paribas, plusieurs cadres et collaborateurs des entités concernées ont été sanctionnés. D'autres ont quitté le Groupe.

Jean-Laurent Bonnafé, Administrateur Directeur général de BNP Paribas, a déclaré : « Nous exprimons nos regrets pour ces erreurs passées qui nous amènent aujourd'hui à cet accord. Certaines défaillances qui ont été identifiées lors de cette enquête sont contraires aux principes éthiques que BNP Paribas a toujours cherché à respecter. Nous avons annoncé aujourd'hui un plan d'envergure pour renforcer nos contrôles et nos processus internes, en étroite coopération avec les autorités américaines et notre régulateur national, pour veiller à ce que nos pratiques soient conformes aux standards élevés en matière de comportement responsable que nous attendons de chacun chez BNP Paribas».

« Cet accord constitue une étape importante pour nous. Au titre de ses activités courantes, BNP Paribas enregistrera à nouveau des résultats solides ce trimestre et nous tenons à remercier nos clients, nos collaborateurs, nos actionnaires et nos investisseurs pour leur soutien tout au long de cette période difficile ».

« Le Groupe reste mobilisé sur la mise en œuvre de son plan de développement 2014-2016. Nous confirmons notre ambition d'atteindre les objectifs prévus dans ce plan, annoncé en mars 2014. En particulier, les États-Unis demeurent un marché stratégique pour le Groupe et nous comptons continuer à y développer nos activités de banque de détail, d'investissement solutions et de banque de financement et d'investissement (BFI) au cours des années à venir ».

« BNP Paribas est une banque qui place les clients au cœur de ses priorités. Nous allons continuer à travailler chaque jour pour mériter la confiance et le respect de tous, au service de nos clients et de l'économie »."

A la suite de cet accord, la Banque s'attend à conserver ses licences bancaires là où elle opère (même si l'accord pourrait constituer un motif d'annulation d'une licence pour un régulateur), et a reçu des confirmations ou assurances dans ce sens de ses principaux régulateurs bancaires. La Banque ne s'attend pas à ce que l'accord ait une incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. Cependant, il ne peut être exclu que des conséquences collatérales imprévisibles de cet accord impactent de manière négative son activité. Ces conséquences collatérales imprévisibles incluent le risque que des clients, contreparties et toute autre personne ou entité contractant avec la Banque, décident de limiter leur activité future avec la Banque. Cela inclut également pour certaines activités limitées, en particulier aux Etats-Unis, le risque qu'une autorité refuse d'accorder à la Banque une dispense nécessaire à la poursuite d'une activité déterminée ou ne retire une autorisation nécessaire à l'exercice d'une activité déterminée. De même, la Banque ne peut savoir avec certitude si la suspension de la compensation en dollars dans certains de ses activités conduira à une perte d'activité.

Il ne s'est produit aucun changement significatif dans la situation financière ou commerciale de BNPP B.V., BP2F ou BGL depuis le 31 décembre 2013 et il ne s'est produit aucun changement défavorable significatif dans les perspectives de BNPP B.V., BP2F ou BGL depuis le 31 décembre 2013.";

BNP Paribas annonce aujourd'hui être parvenue à un règlement global relatif à l'enquête portant sur certaines transactions en dollars concernant des pays soumis aux sanctions des Etats-Unis. Ce règlement inclut des accords avec le US Department of Justice, le US Attorney's Office pour le district sud de New York, le District Attorney's Office du comté de New York, le Conseil des Gouverneurs de la Réserve fédérale américaine (FED), le Département des Services financiers de l'État de New York (DFS) et l'Office of Foreign Assets Control (OFAC) du Département du Trésor américain.

Dans le cadre de cet accord, BNP Paribas SA reconnaît sa responsabilité (« guilty plea ») pour avoir enfreint certaines lois et réglementations des Etats-Unis relatives à des sanctions économiques à l'encontre de certains pays et aux enregistrements des opérations liées. BNP Paribas accepte également de payer un total de 8,97 milliards de dollars (6,6 milliards d'euros). Compte tenu des sommes déjà provisionnées, ce montant donnera lieu à la comptabilisation d'une charge

exceptionnelle de 5,8 milliards d'euros dans les comptes du 2ème trimestre 2014. Par ailleurs, BNP Paribas accepte une suspension temporaire, pour une durée d'un an à compter du 1er janvier 2015, de certaines opérations directes de compensation en dollars US, portant principalement sur le périmètre de l'activité de financement du négoce international de matières premières, pour la partie pétrole et gaz, dans certaines implantations.

BNP Paribas a travaillé avec les autorités des Etats-Unis pour aboutir à cet accord dont le règlement a été coordonné par son autorité de tutelle nationale (l'Autorité de Contrôle Prudentiel et de Résolution - ACPR), en lien avec ses principales autorités de tutelle à l'étranger. BNP Paribas conservera ses licences dans le cadre de ces accords, et n'anticipe aucune incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. En 2015, les activités du périmètre concerné seront compensées en dollars via une banque tierce et non par l'intermédiaire de la succursale de BNP Paribas à New York. Toutes les mesures nécessaires sont prises pour assurer une transition sans difficulté et éviter tout impact significatif pour les clients concernés. BNP Paribas rappelle qu'une partie de l'activité de compensation en dollars US du Groupe est déjà réalisée via des banques tierces.

BNP Paribas estime que son ratio de fonds propres (CET1) de « Bâle 3 plein » devrait rester de l'ordre de 10% au 30 juin 2014, en ligne avec les objectifs annoncés dans le plan de développement 2014-2016. Cette estimation tient compte notamment d'un résultat net hors exceptionnels solide au 2ème trimestre et, prorata temporis, de l'intention de la banque d'ajuster le niveau de dividende pour 2014 au niveau de celui de 2013 (1,50 euros par action).

Sans attendre cet accord, la banque a mis au point un ensemble de procédures solides en matière de conformité et de contrôle. Nombre de ces procédures sont déjà en place et fonctionnent efficacement. Elles traduisent une évolution majeure des processus opérationnels du Groupe. En particulier :

- un nouveau département, baptisé « Sécurité Financière Groupe aux Etats-Unis » et faisant partie de la fonction « Conformité Groupe », sera localisé à New York et aura pour mission de veiller à ce que BNP Paribas respecte dans le monde entier les réglementations des Etats-Unis relatives aux sanctions internationales et aux embargos.
- la totalité des flux en dollars du Groupe BNP Paribas sera à terme traitée et contrôlée par la succursale de New York.

A l'issue de la revue interne menée par BNP Paribas, plusieurs cadres et collaborateurs des entités concernées ont été sanctionnés. D'autres ont quitté le Groupe.

Jean-Laurent Bonnafé, Administrateur Directeur général de BNP Paribas, a déclaré : « Nous exprimons nos regrets pour ces erreurs passées qui nous amènent aujourd'hui à cet accord. Certaines défaillances qui ont été identifiées lors de cette enquête sont contraires aux principes éthiques que BNP Paribas a toujours cherché à respecter. Nous avons annoncé aujourd'hui un plan d'envergure pour renforcer nos contrôles et nos processus internes, en étroite coopération avec les autorités américaines et notre régulateur national, pour veiller à ce que nos pratiques soient conformes aux standards élevés en matière de comportement responsable que nous attendons de chacun chez BNP Paribas».

« Cet accord constitue une étape importante pour nous. Au titre de ses activités courantes, BNP Paribas enregistrera à nouveau des résultats solides ce trimestre et nous tenons à remercier nos clients, nos collaborateurs, nos actionnaires et nos investisseurs pour leur soutien tout au long de cette période difficile ».

« Le Groupe reste mobilisé sur la mise en œuvre de son plan de développement 2014-2016. Nous confirmons notre ambition d'atteindre les objectifs prévus dans ce plan, annoncé en mars 2014. En

particulier, les États-Unis demeurent un marché stratégique pour le Groupe et nous comptons continuer à y développer nos activités de banque de détail, d'investissement solutions et de banque de financement et d'investissement (BFI) au cours des années à venir ».

« BNP Paribas est une banque qui place les clients au cœur de ses priorités. Nous allons continuer à travailler chaque jour pour mériter la confiance et le respect de tous, au service de nos clients et de l'économie »."

A la suite de cet accord, la Banque s'attend à conserver ses licences bancaires là où elle opère (même si l'accord pourrait constituer un motif d'annulation d'une licence pour un régulateur), et a reçu des confirmations ou assurances dans ce sens de ses principaux régulateurs bancaires. La Banque ne s'attend pas à ce que l'accord ait une incidence sur sa capacité opérationnelle ou commerciale à répondre aux besoins de la quasi-totalité de ses clients. Cependant, il ne peut être exclu que des conséquences collatérales imprévisibles de cet accord impactent de manière négative son activité. Ces conséquences collatérales imprévisibles incluent le risque que des clients, contreparties et toute autre personne ou entité contractant avec la Banque, décident de limiter leur activité future avec la Banque. Cela inclut également pour certaines activités limitées, en particulier aux Etats-Unis, le risque qu'une autorité refuse d'accorder à la Banque une dispense nécessaire à la poursuite d'une activité déterminée ou ne retire une autorisation nécessaire à l'exercice d'une activité déterminée. De même, la Banque ne peut savoir avec certitude si la suspension de la compensation en dollars dans certains de ses activités conduira à une perte d'activité.

**AMENDMENTS TO THE PROGRAMME SUMMARY IN RELATION TO THE BASE
PROSPECTUS AND PRO FORMA ISSUE SPECIFIC SUMMARY OF THE PROGRAMME IN
RELATION TO THE BASE PROSPECTUS**

1. The "Pro Forma Issue Specific Summary of the Programme in relation to this Base Prospectus" on pages 63 to 113 of the Base Prospectus is amended as follows:

- (a) In Element C.9 under the heading "[*Interest*]" after the words "'**Coupon Switch Date(s)**" means [*specify*].]", the following is inserted:

"[Insert in the case of Credit Notes or Credit Certificates if applicable:

If an Event Determination Date (being the occurrence of a credit event and satisfaction of certain conditions) occurs in respect of any Reference Entity, interest will cease to accrue on the relevant portion of each Credit Security (corresponding to a pro rata share per Credit Security of the reference entity notional amount of the affected Reference Entity) with effect from and including the [[interest period end date] [interest payment date] immediately preceding such Event Determination Date or, in the case of the first interest period, the interest commencement date] [Event Determination Date]."

- (b) In Element C.18, the paragraph "[If the Securities are Credit Securities, redemption or settlement shall be subject to the Credit Security Conditions and the applicable Final Terms.]" immediately prior to the heading "*Final Payouts*" is deleted and replaced with the following:

"[If the Securities are Credit Securities and if an Event Determination Date occurs in respect of any Reference Entity, [the relevant portion of] each Credit Security [(corresponding to a pro rata share per Credit Security of the triggered portion of the reference entity notional amount of the affected Reference Entity)] will be redeemed [at its pro rata share of the [Auction Settlement Amount, subject to fallback settlement] [Credit Event Cash Settlement Amount]] [by physical settlement] [*specify other relevant redemption or settlement amount*]."

If no Event Determination Date occurs, each [[Credit Note] [Credit Certificate] will be redeemed at the [outstanding principal amount per Credit Note] [Cash Settlement Amount per Credit Certificate] [(or the relevant portion thereof)] [Credit Warrant will become void without payment].]"

RISK FACTORS

In relation to the amendments to the Risk Factors in this section: (i) text which, by virtue of this Fourth Supplement, is deleted from the Risk Factor is shown with a line drawn through the middle of the relevant deleted text; and (ii) text which, by virtue of this Fourth Supplement, is added to the Risk Factor is shown underlined.

The Risk Factors are amended as set out below:

- (a) The risk factor entitled "*Use of Auction Settlement may adversely affect returns to Holders*" is amended by deleting and replacing the third paragraph thereof on page 153 with the following:

"Following an M(M)R Restructuring Credit Event in relation to which ISDA sponsors multiple concurrent auctions, but where there is no relevant auction relating to credit derivative transactions with a maturity ~~of~~ corresponding to the Credit Securities, if the Calculation Agent exercises the right of the buyer or, as the case may be, seller of credit risk protection under the Credit Securities to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower (in the case of Notes or Certificates) or higher (in the case of Warrants) than the amount which would have been determined based on quotations sought from third party dealers, thereby reducing the amount payable to Holders.";

- (b) The risk factor entitled "*Cheapest-to-Deliver risk for Notes and Certificates and conversely for Warrants*" on page 153 is deleted and replaced with the following:

"Since the Issuer, as buyer of protection in respect of the Notes or Certificates has discretion to choose the portfolio of obligations and/or assets to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the lowest market value that are permitted to be selected pursuant to the terms of the Securities. This could result in a lower recovery value and hence greater losses for investors in the Notes or Certificates.

Conversely, the Issuer as seller of protection in respect of the Warrants has discretion to choose the portfolio of obligations and/or assets to be valued following a Credit Event in respect of a Reference Entity, and it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the highest market value that are permitted to be selected pursuant to the terms of the Warrants. This could result in a higher recovery value and hence a lower settlement amount for investors in the Warrants."

- (c) The following risk factor is added immediately after the risk factor entitled "*Cheapest-to-Deliver risk for Notes and Certificates and conversely for Warrants*" on page 153:

"Asset Package Delivery risks

The 2014 Definitions introduced the concept of asset package delivery. In certain circumstances where (a) "Financial Reference Entity Terms" and "Governmental Intervention" applies in respect of a Reference Entity and (i) there is a Governmental Intervention Credit Event; or (ii) a Restructuring Credit Event in respect of the Reference Obligation where such Restructuring does not constitute a Governmental Intervention or (b) a Restructuring Credit Event in respect of a Sovereign, then a related asset package resulting from a prior deliverable obligation (where "Financial Reference Entity Terms" apply) or package observable bond (where the Reference Entity is a sovereign) may also be deliverable. The asset package would be treated as having the same outstanding principal as the corresponding prior deliverable obligation or package observable bond.

If the resulting asset package is deemed to be zero where there are no resulting assets, the related credit loss will be 100 per cent. notwithstanding the recovery value on any other obligations of the Reference Entity.

The risk factors "*Use of Auction Settlement may adversely affect returns to Holders*" and "*Cheapest-to-Deliver risk for Notes and Certificates and conversely for Warrants*" above would apply to any asset or asset package.

If an asset in the asset package is a non-transferable instrument or non-financial instrument, the value of such asset will be the market value determined by reference to a specialist valuation or in accordance with methodology determined by the Credit Derivatives Determinations Committees. See "*Conflicts of Interest - Credit Derivatives Determinations Committees*" and "*Rights associated with Credit Derivatives Determinations Committees*" for risk factors relating to valuation in accordance with CDDC methodology.

- (d) The risk factor entitled "*The Calculation Agent may modify the terms of the Securities*" on pages 156 and 157 is deleted and replaced with the following:

"The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Securities to the extent reasonably necessary to ~~preserve any~~ ensure consistency ~~between the Securities and the hedging transaction with the prevailing market standard terms or market trading conventions, without the consent of Holders or prior notice to Holders. The Calculation Agent is not obliged to make any such modifications.~~ If the Calculation Agent modifies the terms of the Securities, it will do so without regard to the interests of the holders of the Securities and any such modification may be prejudicial to the interests of the holder of the Securities."

AMENDMENTS TO THE FORM OF FINAL TERMS FOR NOTES

The Form of Final Terms for the Notes on pages 202 to 259 of the Base Prospectus are amended as set out below:

- (a) Paragraph 56(i) (*Type of Credit Linked Notes*) is amended by the insertion of the following new lines immediately after the text "Substitution: [Not Applicable] [Applicable]" at the end thereof:

"Zero Recovery:	[Applicable/Not Applicable]

AMENDMENTS TO ANNEX 12 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

Annex 12 – Additional Terms and Conditions for Credit Securities is deleted and replaced with the following:

ANNEX 12

PART 1 ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

If specified as applicable in the applicable Final Terms, (a) the terms and conditions applicable to Notes specified in the applicable Final Terms as Credit Securities shall comprise the terms and conditions of Notes (the "**Note Conditions**") and the additional Terms and Conditions for Credit Securities set out below (the "**Credit Security Conditions**") and (b) the terms and conditions applicable to W&C Securities specified in the applicable Final Terms as Credit Securities shall comprise the terms and conditions of W&C Securities (the "**W&C Security Conditions**") and the Credit Security Conditions, in each case together with any other additional terms and conditions specified in the applicable Final Terms and subject to completion in the applicable Final Terms. In the event of any inconsistency between (i) the Note Conditions or the W&C Security Conditions, as applicable, and (ii) the Credit Security Conditions, the Credit Security Conditions, as applicable, shall prevail. References to "Security" and "Securities" shall be deemed to be references to "Note" or "Notes" or "W&C Security" or "W&C Securities" as the context admits.

Part A

The provisions of this Part A apply in relation to Credit Securities unless the Final Terms of such Credit Securities specify that PART B of this Annex 1 shall apply.

Part A-1

2014 Definitions

The provisions of this Part A-1 apply in relation to Credit Securities unless the Final Terms of such Credit Securities specify that "2014 Definitions" are not applicable, or that "2003 Definitions (as supplemented by July 2009 Supplement)" shall apply.

1. General

(a) Credit Terms

The Final Terms shall specify:

- (a) the type of Credit Securities, being Single Reference Entity Credit Securities, Nth-to-Default Credit Securities or Linear Basket Credit Securities;
- (b) the Settlement Method (if not Auction Settlement) and, where Auction Settlement applies, the applicable Fallback Settlement Method;
- (c) the Reference Entity or Reference Entities in respect of which a Credit Event may occur;
- (d) the Reference Obligation(s) (if any) in respect of each Reference Entity;
- (e) the Trade Date and (in the case of Credit Notes) the Maturity Date, (in the case of Credit Certificates) the Redemption Date or (in the case of Credit Warrants) the Expiration Date;
- (f) the Transaction Type applicable to each Reference Entity; and
- (g) the Reference Entity Notional Amount in respect of each Reference Entity.

(b) Physical Settlement Matrix

Where a Transaction Type is specified in the Final Terms in respect of any Reference Entity, then the provisions of these Credit Security Conditions shall apply with respect to such Reference Entity in accordance with the Physical Settlement Matrix as it applies to such Transaction Type, as though such Physical Settlement Matrix were set out in full in the Final Terms.

(c) Additional Provisions

If, in accordance with the specified Transaction Type or otherwise, any Additional Provisions are applicable, these Credit Security Conditions shall take effect subject to the provisions thereof.

(d) Linear Basket Credit Securities

If the Credit Securities are Linear Basket Credit Securities, then the provisions of these Credit Security Conditions relating to redemption or settlement of Credit Securities following the occurrence of an Event Determination Date, extension of maturity of Credit Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following (in the case of Credit Certificates) the Redemption Date, (in the case of Credit Notes) the Maturity Date or (in the case of Credit Warrants) the Expiration Date shall apply separately with respect to each Reference Entity and a portion of each Credit Security corresponding to the Reference Entity Notional Amount divided by the number of Credit Securities then in issue. The remaining provisions of these Credit Security Conditions shall be construed accordingly.

2. Redemption

(a) Redemption or Expiration absent Event Determination Date

The Issuer will redeem each Credit Security (in the case of Notes or Certificates) on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to (in the case of Certificates) the Cash Settlement Amount or (in the case of Notes) the outstanding principal amount of such Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) (together with interest, if any, payable thereon) unless:

- (a) the Credit Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(c) or 2(d)); or
- (b) an Event Determination Date has occurred, in which event the Issuer shall redeem the Credit Securities in accordance with Credit Security Condition 2(b).

Each Credit Warrant will become void on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) unless:

- (c) the Credit Warrants have been previously settled or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(c) or 2(d)); or
- (d) an Event Determination Date has occurred, in which event the Credit Warrants shall be settled in accordance with Credit Security Condition 2(b).

(b) Redemption or Settlement following Event Determination Date

Upon the occurrence of an Event Determination Date in relation to any Reference Entity, then each Credit Note or Credit Certificate (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) will be subject to redemption and each Credit Warrant (or, in the case of Linear Basket Credit Warrants, the

relevant portion thereof) will be deemed to have been automatically exercised on the Event Determination Date and will be subject to settlement:

- (a) if the applicable Settlement Method is Auction Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method. If an Event Determination Date occurs with respect to a new Credit Event following the occurrence of a Fallback Settlement Event with respect to a first Credit Event and no Fallback Settlement Event occurs with respect to such new Credit Event, the Issuer shall, if it so elects on or prior to a related Valuation Date or Delivery Date, redeem or settle, as applicable, the Credit Securities in accordance with this Credit Security Condition 2(b)(a) by Auction Settlement;
- (b) if the applicable Settlement Method is Physical Settlement, in accordance with Credit Security Condition 4; and
- (c) if the applicable Settlement Method is Cash Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Credit Event Cash Settlement Amount on the Cash Settlement Date.

Where the Credit Securities are Nth-to-Default Credit Securities, an Event Determination Date shall be deemed not to occur with respect to the Credit Securities until an Event Determination Date occurs with respect to the Nth Reference Entity. Where the Credit Securities are Nth-to-Default Credit Securities and an Event Determination Date occurs with respect to more than one Reference Entity on the same day, the Calculation Agent shall determine the order in which such Event Determination Dates occurred.

(c) Redemption following a Merger Event

If this Credit Security Condition 2(c) is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, and (in the case of Credit Notes or Credit Certificates) redeem or (in the case of Credit Warrants) cancel all but not some only of the Credit Securities on the Merger Event Redemption Date, and if the Credit Securities are so redeemed or, as the case may be, cancelled, the Issuer shall pay an amount to each Holder in respect of each Credit Security, which amount shall be the fair market value of the Credit Security taking into account the Merger Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (including without limitation any Unwind Costs), all as determined by the Calculation Agent in a commercially reasonable manner.

(d) Additional Credit Linked Security Disruption Events

If the Calculation Agent determines that an Additional Credit Linked Security Disruption Event has occurred, the Issuer may redeem (or settle, as applicable) the Credit Securities by giving notice to Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. If the Credit Securities are so redeemed (or settled, as applicable), the Issuer will pay an amount to each Holder in respect of each Credit Security equal to the fair market value of such Credit Security taking into account the Additional Credit Linked Security

Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable.

(e) Suspension of Obligations

If there is a DC Credit Event Question in relation to any Reference Entity, then (unless the Issuer otherwise elects by notice to the Calculation Agent and the Holders) from the date of such DC Credit Event Question (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred):

- (i) any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) or pay any amount of interest which would otherwise be due thereon (and the timing requirements of the Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) shall, insofar as it relates to the relevant Reference Entity;
- (ii) if the Final Terms specifies that "Calculation and Settlement Suspension" applies, any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) (and the timing requirements of the Cash Settlement Date, Valuation Date, Relevant Valuation Date, NOPS Cut-off Date, Physical Settlement Period and any other provisions pertaining to settlement) insofar as it relates to the relevant Reference Entity, or pay any amount of interest which would otherwise be due thereon or any obligation of the Calculation Agent to calculate any amount of interest (in each case, regardless of whether any such interest relates to the relevant Reference Entity), shall,

be and remain suspended until the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal.

During such suspension period, the Issuer shall not be obliged to, nor entitled to, take any action in connection with the settlement of the Credit Securities, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable interest on the Credit Securities, nor, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any amount of interest (in each case, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, regardless of whether any such interest relates to the relevant Reference Entity). Once the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Question Dismissal has occurred, such suspension shall terminate and any obligations so suspended shall resume on the Credit Security Business Day following such public announcement by ISDA, with the Issuer and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Security Condition 3(a), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no interest shall accrue on any payment of interest or any other amounts which are deferred in accordance with this Credit Security Condition 2(e).

(f) Miscellaneous provisions relating to Redemption or Settlement

If the Credit Securities are partially redeemed or settled, the relevant Credit Securities or, if the Credit Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption or settlement. Upon such partial redemption or settlement, the outstanding notional amount or

outstanding principal amount of each Credit Security shall be reduced for all purposes (including accrual of interest thereon) accordingly.

Redemption or settlement of any Credit Security in accordance with this Credit Security Condition 2, together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the Issuer in relation thereto.

Any amount payable under Credit Security Condition 2(b) shall be rounded downwards to the nearest sub-unit of the relevant currency.

3. Interest (Credit Notes and Credit Certificates only)

(a) Cessation of Interest Accrual

Upon the occurrence of an Event Determination Date in respect of any Reference Entity, interest on such Credit Certificate or Note (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) shall cease to accrue with effect from and including:

(a) either:

(i) the Interest Payment Date; or

(ii) if so specified in the Final Terms, the Interest Period End Date,

immediately preceding such Event Determination Date (or, in the case of the first Interest Period, the Interest Commencement Date); or

(b) if so specified in the Final Terms, such Event Determination Date.

(b) Interest following Scheduled Maturity

Subject always to Credit Security Condition 3(a), if an Extension Notice has been given (other than pursuant to paragraph (d) of the definition of "Extension Notice"), each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) which is outstanding following the Redemption Date or Maturity Date, as the case may be, shall continue to bear interest from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date at a rate of interest equal to either:

(a) the rate that BNP Paribas would pay to an independent customer in respect of overnight deposits in the currency of the Credit Certificates; or

(b) such other rate as shall be specified for such purpose in the Final Terms.

For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (d) of the definition thereof, no interest shall accrue from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date.

(c) Interest Payment Dates

If the Credit Securities are redeemed pursuant to the W&C Security Conditions or the Note Conditions, as applicable, or these Credit Security Conditions, the Redemption Date, the Maturity Date, the Credit Security Settlement Date (if not the Redemption Date or Maturity Date, as the case may be), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion

thereof) and the Issuer shall pay any interest that has accrued in respect of each Credit Security (or, as applicable, the relevant portion thereof) on such Interest Payment Date.

4. Physical Settlement (Credit Notes and Credit Certificates only)

(a) Delivery and payment

If Physical Settlement applies to any Credit Certificate or Note, then, upon the occurrence of an Event Determination Date, the Issuer shall, on or prior to the related Physical Settlement Date and subject to Credit Security Conditions 4(b), 4(c) and 4(f), redeem such Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof), respectively, by:

- (a) Delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement or NOPS Amendment Notice, as applicable; and
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Cash Settlement Due to Impossibility or Illegality

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Holder, it is impossible or illegal for the Issuer or the relevant Holder to accept Delivery of any of the Deliverable Obligations (other than a Deliverable Obligation described in paragraph (d) of the definition of "Deliverable Obligation") specified in a Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Issuer shall pay the relevant Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Holders on the Partial Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement or NOPS Amendment Notice, as applicable, other than as a result of an event or circumstance contemplated in Credit Security Condition 4(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an Event of Default or breach of agreement for the purpose of the Securities and the Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the Issuer shall pay to the Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Holders on the Partial Cash Settlement Date.

(d) Aggregation and Rounding

Where a Holder holds Credit Notes or Credit Certificates in an aggregate nominal amount outstanding (or, in the case of Partly Paid Notes, a paid-up aggregate nominal amount outstanding) or aggregate notional amount outstanding (or, in the case of Partly Paid Certificates, a paid-up aggregate notional amount outstanding) greater than the Specified Denomination or Notional Amount respectively, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Security shall be aggregated for the purposes of this Credit Security Condition 4. If the Outstanding Principal Balance of the Deliverable

Obligations to be Delivered in respect of each Credit Securities to be redeemed pursuant to this Credit Security Condition 4(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such other agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Security Condition 4 shall be made in such manner as the Issuer shall determine in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (a) any recordation, processing or similar fee reasonably incurred by the Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment or novation (where Deliverable Obligations include Assignable Loans or Consent Required Loans) or participation (where Deliverable Obligations include Direct Loan Participations) shall be payable by the relevant Holders, and if any Stamp Tax or transaction tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Holders; and
- (b) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Holders or the Issuer, as appropriate, determined by the Calculation Agent in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Holders have been paid to the satisfaction of the Issuer.

(f) Asset Transfer Notice

A Holder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Security Condition 4(f) upon the occurrence of an Event Determination Date and delivery of the Notice of Physical Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Security and delivered an Asset Transfer Notice in accordance with W&C Security Condition 35.2(a) (*Asset Transfer Notices*) or Note Condition 4(b)(i) (*Physical Delivery*), as applicable. For so long as the Credit Securities are held in any clearing system, any communication from such clearing system on behalf of the Holder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the principal amount or notional amount of Credit Securities to which the relevant Asset Transfer Notice relates.

(g) Credit Warrants

Physical Settlement shall not apply in relation to any Credit Warrants.

5. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics

(a) Obligation Characteristics

If either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as

though the relevant Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) any of the Deliverable Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the related Final Terms or is applicable in respect of the applicable Transaction Type, such Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds;
- (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans;
- (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans; and
- (iv) more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified in the applicable Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.

(c) Relevant Guarantee

If an Obligation or a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law".
- (iii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated or Matured" and "Not Bearer".

(iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.

(v) For the avoidance of doubt the provisions of this Credit Security Condition 5 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

(d) Maximum Maturity

For purposes of the application of the Deliverable Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.

(e) Financial Reference Entity Terms and Governmental Intervention

If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in respect of a Reference Entity, if an obligation would otherwise satisfy a particular Obligation Characteristic or Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic or Deliverable Obligation Characteristic.

(f) Prior Deliverable Obligation or Package Observable Bond

For purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Security Condition 8(b) (Mod R) and Credit Security Condition 8(c) (Mod Mod R) to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.

(g) Subordinated European Insurance Terms

If "Subordinated European Insurance Terms" is specified as applicable in respect of the Reference Entity, if an obligation would otherwise satisfy the "Maximum Maturity" Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

(h) Accrued Interest

With respect to any Credit Securities for which:

(i) "Physical Settlement" is specified to be the Settlement Method in the related Final Terms (or for which Physical Settlement is applicable as the Fallback Settlement Method), the Outstanding Principal Balance of the Deliverable Obligations being Delivered will exclude accrued but unpaid interest, unless "Include Accrued Interest" is specified in the related Final Terms, in which case, the Outstanding Principal Balance of the Deliverable Obligations being Delivered will include accrued but unpaid interest;

(ii) "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or if Cash Settlement is applicable as the Fallback Settlement Method), and:

(A) "Include Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall include accrued but unpaid interest;

- (B) "Exclude Accrued Interest" is specified in the related Final Terms, the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation, as applicable, shall not include accrued but unpaid interest; or
 - (C) neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified in the related Final Terms, the Calculation Agent shall determine based on the then current market practice in the market of the Reference Obligation or Valuation Obligation, as applicable, whether the Outstanding Principal Balance of the Reference Obligation or Valuation Obligation shall include or exclude accrued but unpaid interest and, if applicable, the amount thereof; or
- (iii) Credit Security Condition 4(b) (Partial Cash Settlement Due to Impossibility or Illegality) or Credit Security Condition 4(c) (Non-Delivery of Deliverable Obligations) is applicable, the Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation, Undeliverable Loan Obligation, Undeliverable Participation or Unassignable Obligation, whether such Quotations shall include or exclude accrued but unpaid interest.
- (i) Asset Package Delivery

"**Asset Package Delivery**" will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.

If the "Sovereign No Asset Package Delivery Supplement" is applicable in respect of a Reference Entity, then, notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect to such Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

6. Successors

- (a) Provisions for determining a Successor
- (i) The Calculation Agent may determine, following any succession (or, in relation to a Reference Entity that is a Sovereign, a Sovereign Succession Event) and with effect from the Succession Date, any Successor or Successors under the definition of "Successor"; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.
- The Calculation Agent will make all calculations and determinations required to be made under the definition of "Successor" (or the provisions relating to the determination of a Successor) on the basis of Eligible Information.
- In calculating the percentages used to determine whether an entity qualifies as a Successor under the definition of "Successor", if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.
- (ii) An entity may only be a Successor if:
 - (I) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after January 1, 2014;

- (II) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (III) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (iii) In the case of an exchange offer, the determination required pursuant to the definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
 - (iv) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

(b) Single Reference Entity

Where the Credit Securities are Single Reference Entity Credit Securities and a Succession Date has occurred and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided, with effect from the Succession Date, into the same number of new Credit Securities as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new Credit Securities;
- (ii) in respect of each deemed new Credit Security, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
- (iii) all other terms and conditions of the original Credit Securities will be replicated in each deemed new Credit Security except that the Calculation Agent shall make such modifications as it determines are required in order to preserve the economic effects of the original Credit Securities in the deemed new Credit Securities (considered in aggregate).

(c) Nth-to-Default

Where the Credit Securities are Nth-to-Default Credit Securities:

- (i) where a Succession Date has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided, with effect from the Succession Date, into a number of new Credit Securities equal to the number of Successors. Each such new Credit Security shall include a Successor and each and every one of the unaffected Reference Entities and the provisions of Credit Security Condition 6(b)(i) to (iii) (inclusive) shall apply thereto;
- (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession

Date) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Date, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and

(iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Date) would be a Successor to a Legacy Reference Entity pursuant to a Succession Date:

(A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and

(B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

(d) Linear Basket

Where the Credit Securities are Linear Basket Credit Securities, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Date (the "**Affected Entity**"), then, with effect from the Succession Date:

(i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) below);

(ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);

(iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;

(iv) the Calculation Agent may make any modifications to the terms of the Credit Securities which it determines may be required to preserve the economic effects of the Credit Securities prior to the Succession Date (considered in the aggregate); and

(v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Date, be represented in the basket with respect to multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

7. Provisions relating to LPN Reference Entities and CoCo Supplement

(a) LPN Reference Entities

The following provisions shall apply if the relevant Final Terms provide that "LPN Reference Entity" is applicable:

(i) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;

(ii) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;

(iii) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;

- (iv) for the avoidance of doubt, with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation; and
- (v) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

(b) Provisions relating to CoCo Supplement

The following provisions shall apply in respect of a Reference Entity if the "CoCo Supplement" is applicable:

- (i) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within paragraph (a) of the definition thereof.
- (ii) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes.
- (iii) The following terms shall have the following meanings:

"**Coco Provision**" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"**Trigger Percentage**" means the trigger percentage specified in respect of the Reference Entity (or if no such trigger percentage is specified, 5.25 per cent.).

"**Capital Ratio**" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

8. Restructuring Credit Event

(a) Multiple Credit Event Notices (Credit Notes and Credit Certificates only)

Upon the occurrence of an M(M)R Restructuring with respect to a Reference Entity:

- (i) the Calculation Agent may deliver multiple Credit Event Notices with respect to such M(M)R Restructuring, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such notice applies (the "**Exercise Amount**") provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Security Conditions shall be deemed to apply to an aggregate outstanding principal amount or aggregate outstanding notional amount equal to the Exercise Amount only and all the provisions shall be construed accordingly; and
- (iii) the Exercise Amount in connection with a Credit Event Notice describing an M(M)R Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

In the case of an Nth-to-Default Credit Security, once an Event Determination Date has occurred in respect of the Nth Reference Entity where the Credit Event is an M(M)R Restructuring, no further Credit Event Notices may be delivered in respect of any other Reference Entity (save to the extent that the Credit Securities are deemed to have been divided into new Credit Securities pursuant to Credit Security Condition 6).

If any Credit Security is subject to partial settlement in accordance with this Credit Security Condition 8, the relevant Credit Security or, if the Credit Securities are represented by a Global Security, such Global Security shall be endorsed to reflect such partial settlement.

This Credit Security Condition 8(a) shall not apply in relation to any Credit Warrants.

(b) Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if such Deliverable Obligation or, as applicable, Valuation Obligation:

(A) is a Fully Transferable Obligation; and

(B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date,

in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date.

(c) Mod Mod R

If (i) "Physical Settlement" or "Cash Settlement" is specified to be the Settlement Method in the related Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod Mod R" is specified as applicable in respect of the Reference Entity and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation or, as applicable, Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation or, as applicable, Valuation Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice or selected by the Issuer to form part of the related Valuation Obligations Portfolio, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date or, as applicable, as of the Relevant Valuation Date. Notwithstanding the foregoing, for purposes of this paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

If the relevant Deliverable Obligation specified in the Notice of Physical Settlement (or in any NOPS Amendment Notice, as applicable) or, as applicable, the relevant Valuation Obligation selected, is a Conditionally Transferable Obligation with respect to which consent is required to novate, assign or transfer and the requisite consent is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason), or is not received by the Physical Settlement Date or, as applicable, the Relevant Valuation Date (in which case it shall be deemed to have been refused), the Issuer shall, as soon as reasonably practicable, notify the relevant Holders of such refusal (or deemed refusal) and:

- (i) each such Holder may designate a third party (which may or may not be an Affiliate of such Holder) to take Delivery of the Deliverable Obligation on its behalf; and
- (ii) if a Holder does not designate a third party that takes Delivery on or prior to the date which is three Credit Security Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Securities for which Delivery has not occurred, by payment of the relevant Partial Cash Settlement Amount to such Holder. For the avoidance of doubt Credit Security Condition 4(b) will not apply to this paragraph.

(d) General Terms relating to Mod R and Mod Mod R

For the purposes of making a determination pursuant to "Mod R" and "Mod Mod R", final maturity date shall, subject to Credit Security Condition 8(c) (Mod Mod R), be determined on the basis of the terms of the Deliverable Obligation or, as applicable, Valuation Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation or, as applicable, Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

(e) Multiple Holder Obligations

Notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraph (a)(i) to (a)(v) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, provided that any obligation that is a Bond shall be deemed to satisfy the requirements of sub-paragraph (b) of the definition of "Multiple Holder Obligation".

9. Miscellaneous Provisions relating to Credit Securities

(a) Determinations of the Calculation Agent

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Security Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Holders. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

(b) Reversal of DC Resolutions

If, where a calculation or determination with respect to the Credit Securities has been made by the Calculation Agent in reliance upon a DC Resolution or otherwise resulted from a DC Resolution, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed or settled in part, save to the extent of any such redemption or settlement). The Calculation Agent, acting in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such

reversal, including any payment of additional interest or any reduction in any interest or any other amount payable under the Credit Securities. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

(c) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Security Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer and the Holders as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer and the Trustee, amend, pursuant to this Credit Security Condition 9(c) any of the terms and conditions of the Credit Securities other than the Credit Security Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions ("**Successor Provisions**") which are published by ISDA and which supersede the 2003 ISDA Credit Derivatives Definitions, the 2003 ISDA Credit Derivatives Definitions as supplemented by the July 2009 Supplement and/or the 2014 ISDA Credit Derivatives Definitions, as the case may be, for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of the Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Security Conditions.

This Credit Security Condition 9(c) shall apply unless the related Final Terms specifies that "Change in Standard Terms and Market Conventions" is not applicable.

(d) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information from the Calculation Agent, the Issuer shall promptly inform, or shall procure that the Calculation Agent informs the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. Resolutions of the Credit Derivatives Determinations Committee are, as of the date hereof, available on ISDA's website (www.isda.org) (or any successor website thereto).

(e) Effectiveness of Notices

Any notice referred to in Credit Security Condition 9(d) above which is delivered on or prior to 5.00 p.m. (London time) on a London Business Day is effective on such date and if delivered after such time or on a day that is not a London Business Day, is deemed effective on the next following London Business Day.

A notice given by telephone by the Issuer or the Calculation Agent will be deemed to have been delivered at the time the telephone conversation takes place.

(f) Excess Amounts

If, on a Business Day, the Calculation Agent reasonably determines that an Excess Amount has been paid to Holders on or prior to such day, then following notification of the determination of an Excess Amount to the Issuer and Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, the

Issuer may deduct any such Excess Amount from future payments in relation to the Credit Securities (whether interest or principal) or may reduce the amount of any assets deliverable under the terms of the Credit Securities to the extent that it determines, acting reasonably, to be necessary to compensate for such Excess Amount.

(g) Provisions Relating to Timing

Subject to Credit Security Condition 9(e) and Credit Security Condition 9(h), in order to determine the day on which an event occurs for purposes of the Credit Security Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

(h) Payment Timing

Notwithstanding the "Credit Event Notice" definition and Credit Security Condition 9(g) (Provisions Relating to Timing), if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

(i) Business Day Convention

If the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such last day shall be subject to adjustment in accordance with the applicable Business Day Convention; provided that if the last day of any period is the Credit Event Backstop Date or the Successor Backstop Date, such last day shall not be subject to any adjustment in accordance with any Business Day Convention.

(j) No Frustration

In the absence of other reasons, the Credit Securities will not be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (i) the Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (ii) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

(a) Credit Terms

The Final Terms shall specify:

- (a) the type of Credit Securities, being Single Reference Entity Credit Securities, Nth-to-Default Credit Securities or Linear Basket Credit Securities;
- (b) the Settlement Method (if not Auction Settlement) and, where Auction Settlement applies, the applicable Fallback Settlement Method;
- (c) the Reference Entity or Reference Entities in respect of which a Credit Event may occur;
- (d) the Reference Obligation(s) (if any) in respect of each Reference Entity;
- (e) the Trade Date and (in the case of Credit Notes) the Maturity Date, (in the case of Credit Certificates) the Redemption Date or (in the case of Credit Warrants) the Expiration Date;
- (f) the Transaction Type applicable to each Reference Entity; and
- (g) the Reference Entity Notional Amount in respect of each Reference Entity.

(b) Physical Settlement Matrix

Where a Transaction Type is specified in the Final Terms in respect of any Reference Entity, then the provisions of these Terms shall apply with respect to such Reference Entity in accordance with the Physical Settlement Matrix as it applies to such Transaction Type, as though such Physical Settlement Matrix were set out in full in the Final Terms.

(c) Additional Provisions

If, in accordance with the specified Transaction Type or otherwise, any Additional Provisions are applicable, these Credit Security Conditions shall take effect subject to the provisions thereof.

(d) Linear Basket Credit Securities

If the Credit Securities are Linear Basket Credit Securities, then the provisions of these Credit Security Conditions relating to redemption or settlement of Credit Securities following satisfaction of Conditions to Settlement, extension of maturity of Credit Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following (in the case of Credit Certificates) the Redemption Date, (in the case of Credit Notes) the Maturity Date or (in the case of Credit Warrants) the Expiration Date shall apply separately with respect to each Reference Entity and a portion of each Credit Security corresponding to the Reference Entity Notional Amount divided by the number of Credit Securities then in issue. The remaining provisions of these Credit Security Conditions shall be construed accordingly.

2. Redemption

(a) Redemption or Expiration absent Satisfaction of Conditions to Settlement

The Issuer will redeem each Credit Security (in the case of Notes or Certificates) on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to (in the case of Certificates) the Cash Settlement Amount or (in the case of Notes) the outstanding principal amount of such Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) (together with interest, if any, payable thereon) unless:

- (a) the Credit Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(c) or (d)); or
- (b) the Conditions to Settlement have been satisfied, in which event the Issuer shall redeem the Credit Securities in accordance with Credit Security Condition 2(b).

Each Credit Warrant will become void on the related Credit Security Settlement Date (as such date may be extended in accordance with the definition thereof) unless:

- (c) the Credit Warrants have been previously settled or purchased and cancelled in full (including pursuant to Credit Security Conditions 2(b), 2(c) or (d)); or
- (d) the Conditions to Settlement have been satisfied, in which event the Credit Warrants shall be settled in accordance with Credit Security Condition 2(b).

(b) Redemption or Settlement following Satisfaction of Conditions to Settlement

Upon the satisfaction of the Conditions to Settlement in relation to any Reference Entity, then each Credit Note or Certificate (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) will be subject to redemption and each Credit Warrant (or, in the case of Linear Basket Credit Warrants, the relevant portion thereof) will be deemed to have been automatically exercised on the Event Determination Date and will be subject to settlement:

- (a) if the applicable Settlement Method is Auction Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Auction Settlement Amount on the Auction Settlement Date, unless a Fallback Settlement Event occurs, in which event the Issuer shall perform its respective payment and/or delivery obligations in accordance with the applicable Fallback Settlement Method. If the Conditions to Settlement with respect to a new Credit Event are satisfied following the occurrence of a Fallback Settlement Event with respect to a first Credit Event and no Fallback Settlement Event occurs with respect to such new Credit Event, the Issuer shall, if it so elects on or prior to a related Valuation Date or Delivery Date, redeem or settle, as applicable, the Credit Securities in accordance with this Credit Security Condition 2(b)(a) by Auction Settlement;
- (b) if the applicable Settlement Method is Physical Settlement in accordance with Credit Security Condition 4; and
- (c) if the applicable Settlement Method is Cash Settlement, by payment of its *pro rata* share (such amount to be apportioned *pro rata* amongst the outstanding (and in the case of Partly Paid

Notes, paid-up) nominal amount or outstanding (and, in the case of Partly Paid Certificates, paid-up) notional amount of each Credit Security corresponding to the (in the case of Credit Notes) Calculation Amount or (in the case of Credit Certificates or Credit Warrants) Notional Amount) of the Credit Event Cash Settlement Amount on the Cash Settlement Date.

Where the Credit Securities are Nth-to-Default Credit Securities, the Conditions to Settlement shall not be satisfied with respect to the Credit Securities until the Conditions to Settlement are satisfied with respect to the Nth Reference Entity. Where the Credit Securities are Nth-to-Default Credit Securities and the Conditions to Settlement are satisfied with respect to more than one Reference Entity on the same day, the Calculation Agent shall determine the order in which such Conditions to Settlement were satisfied.

(c) Redemption following a Merger Event

If this Credit Security Condition 2(c) is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, and (in the case of Credit Notes or Credit Certificates) redeem or (in the case of Credit Warrants) cancel all but not some only of the Credit Securities on the Merger Event Redemption Date, and if the Credit Securities are so redeemed or, as the case may be, cancelled, the Issuer shall pay an amount to each Holder in respect of each Credit Security, which amount shall be the fair market value of the Credit Security taking into account the Merger Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (including without limitation any Unwind Costs), all as determined by the Calculation Agent in a commercially reasonable manner.

(d) Additional Credit Linked Security Disruption Events

If the Calculation Agent determines that an Additional Credit Linked Security Disruption Event has occurred, the Issuer may redeem (or settle, as applicable) the Credit Securities by giving notice to Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. If the Credit Securities are so redeemed (or settled, as applicable), the Issuer will pay an amount to each Holder in respect of each Credit Security equal to the fair market value of such Credit Security taking into account the Additional Credit Linked Security Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in a commercially reasonable manner. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable.

(e) Suspension of Obligations

If a Credit Event Resolution Request Date occurs or if a notice is delivered to ISDA as contemplated in the definition of "Credit Event Resolution Request Date" in relation to any Reference Entity, then (unless the Issuer otherwise elects by notice to the Calculation Agent and the Holders) from the date delivery of such notice is effective (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred):

- (i) any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) or pay any amount of interest which would otherwise be due thereon shall, insofar as it relates to the relevant Reference Entity; or

- (ii) if the Final Terms specifies that "Calculation and Settlement Suspension" applies, any obligation of the Issuer to redeem or settle any Credit Security (including pursuant to Credit Security Condition 2(b)) insofar as it relates to the relevant Reference Entity, or pay any amount of interest which would otherwise be due thereon or any obligation of the Calculation Agent to calculate any amount of interest (in each case, regardless of whether any such interest relates to the relevant Reference Entity), shall,

be and remain suspended until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved with respect to such Reference Entity:

- (a) the matters described in sub-paragraphs (a) and (b) of the definition of "Credit Event Resolution Request Date"; or
- (b) not to determine such matters.

During such suspension period, the Issuer shall not be obliged to, nor entitled to, take any action in connection with the settlement of the Credit Securities, in each case insofar as they relate to the relevant Reference Entity, or in connection with the payment of any applicable interest on the Credit Securities, nor, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, shall the Calculation Agent be obliged to take any action in connection with the calculation of any amount of interest (in each case, if the Final Terms specifies that "Calculation and Settlement Suspension" applies, regardless of whether any such interest relates to the relevant Reference Entity). Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved the matters set out in sub-paragraphs (a) and (b) above, such suspension shall terminate and any obligations so suspended shall resume on the basis of such Resolution on the Credit Security Business Day following such public announcement by ISDA, with the Issuer and, as the case may be, the Calculation Agent having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Security Condition 3(a), become due on a date selected by the Calculation Agent falling not later than fifteen Business Days following such public announcement by ISDA.

For the avoidance of doubt, no interest shall accrue on any payment of interest or other amounts which are deferred in accordance with this Credit Security Condition 2(e).

- (f) Miscellaneous provisions relating to Redemption or Settlement

If the Credit Securities are partially redeemed or settled, the relevant Credit Securities or, if the Credit Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption or settlement. Upon such partial redemption or settlement, the outstanding notional amount or outstanding principal amount of each Credit Security shall be reduced for all purposes (including accrual of interest thereon) accordingly.

Redemption or settlement of any Credit Security in accordance with this Credit Security Condition 2, together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the Issuer in relation thereto.

Any amount payable under Credit Security Condition 2(b) shall be rounded downwards to the nearest sub-unit of the relevant currency.

3. Interest (Credit Notes and Certificates only)

(a) Cessation of Interest Accrual

Upon the occurrence of an Event Determination Date in respect of any Reference Entity, interest on such Credit Certificate or Note (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) shall cease to accrue with effect from and including either:

(a) the:

(i) Interest Payment Date; or

(ii) if so specified in the Final Terms, Interest Period End Date,

immediately preceding such Event Determination Date (or, in the case of the first Interest Period, the Interest Commencement Date); or

(b) if so specified in the Final Terms, such Event Determination Date.

(b) Interest following Scheduled Maturity

Subject always to Credit Security Condition 2(a), if an Extension Notice has been given (other than pursuant to paragraph (d) of the definition of "Extension Notice"), each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) which is outstanding following the Redemption Date or Maturity Date, as the case may be, shall continue to bear interest from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date at a rate of interest equal to either:

(a) the rate that BNP Paribas would pay to an independent customer in respect of overnight deposits in the currency of the Credit Certificates; or

(b) such other rate as shall be specified for such purpose in the Final Terms.

For the avoidance of doubt, if an Extension Notice has been given pursuant to paragraph (d) of the definition thereof, no interest shall accrue from (and including) the Redemption Date or Maturity Date, as the case may be, to (but excluding) the related Credit Security Settlement Date.

(c) Interest Payment Dates

If the Credit Securities are redeemed pursuant to the W&C Security Conditions or the Note Conditions, as applicable, or these Credit Security Conditions, the Redemption Date, the Maturity Date, the Credit Security Settlement Date (if not the Redemption Date or Maturity Date, as the case may be), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof) and the Issuer shall pay any interest that has accrued in respect of each Credit Security (or, as applicable, the relevant portion thereof) on such Interest Payment Date.

4. Physical Settlement (Credit Notes and Certificates only)

(a) Delivery and payment

If Physical Settlement applies to any Credit Certificate or Credit Note, then, upon the satisfaction of the related Conditions to Settlement, the Issuer shall, on or prior to the related Physical Settlement Date

and subject to Credit Security Conditions 4(b), 4(c) and 4(f), redeem such Credit Security (or, in the case of Linear Basket Credit Securities, the relevant portion thereof), respectively, by:

- (a) Delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement; and
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount.

(b) Partial Cash Settlement Due to Impossibility or Illegality

If, due to an event beyond the control of the Issuer, it is impossible or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Holder, it is impossible or illegal for the Issuer or the relevant Holder to accept Delivery of any of the Deliverable Obligations specified in a Notice of Physical Settlement on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement for which it is possible and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the Issuer shall pay the relevant Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Holders on the Partial Cash Settlement Date.

(c) Non-Delivery of Deliverable Obligations

If the Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement other than as a result of an event or circumstance contemplated in Credit Security Condition 4(b) above (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an Event of Default for the purpose of the Securities and the Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the Issuer shall pay to the Holders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Holders on the Partial Cash Settlement Date.

(d) Aggregation and Rounding

Where a Holder holds Credit Notes or Certificates in an aggregate nominal amount outstanding (or, in the case of Partly Paid Notes, a paid-up aggregate nominal amount outstanding) or aggregate notional amount outstanding (or, in the case of Partly Paid Certificates, a paid-up aggregate notional amount outstanding) greater than the Specified Denomination or Notional Amount respectively, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Security shall be aggregated for the purposes of this Credit Security Condition 4. If the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of each Credit Securities to be redeemed pursuant to this Credit Security Condition 4(d) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the Outstanding Principal Balance of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the Issuer or such other agent as may be appointed by the Issuer for such purpose and, if they are so sold, the Issuer shall make payment in respect of each Credit Security in an amount equal to

its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

(e) Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Security Condition 4 shall be made in such manner as the Issuer shall determine in a commercially reasonable manner, to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (a) any recordation, processing or similar fee reasonably incurred by the Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment (where Deliverable Obligations include Assignable Loans or Consent Required Loans) shall be payable by the relevant Holders, and if any Stamp Tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Holders; and
- (b) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Holders or the Issuer, as appropriate, determined in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Holders have been paid to the satisfaction of the Issuer.

(f) Asset Transfer Notice

A Holder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Security Condition 4(f) upon the satisfaction of the Conditions to Settlement unless it has presented or surrendered (as is appropriate) the relevant Credit Security and delivered an Asset Transfer Notice in accordance with W&C Security Condition 35.2(a) (*Asset Transfer Notices*) or Note Condition 4(b)(i) (*Physical Delivery*), as applicable. For so long as the Credit Securities are held in any clearing system, any communication from such clearing system on behalf of the Holder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the principal amount or notional amount of Credit Securities to which the relevant Asset Transfer Notice relates.

(g) Credit Warrants

Physical Settlement shall not apply in relation to any Credit Warrants.

5. Provisions relating to Obligation Category and Characteristics and Deliverable Obligation Category and Characteristics

(a) Obligation Characteristics

If the Obligation Characteristic "Listed" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though Listed had been specified as an Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Obligation Category.

(b) Deliverable Obligation Category and Characteristics

If:

- (i) either of the Deliverable Obligation Characteristics "Listed" or "Not Bearer" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Deliverable Obligation Category;
- (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the selected Deliverable Obligation Category);
- (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the applicable Final Terms or is applicable in respect of the applicable Transaction Type, the Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans and shall only be relevant if Loans are covered by the selected Deliverable Obligation Category; and
- (iv) any of Payment, Borrowed Money, Loan or Bond or Loan is specified as the Deliverable Obligation Category and more than one of Assignable Loan, Consent Required Loan and Direct Loan Participation are specified in the applicable Final Terms as Deliverable Obligation Characteristics or is applicable in respect of the applicable Transaction Type, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.

(c) Qualifying Guarantee

If an Obligation or a Deliverable Obligation is a Qualifying Guarantee, the following will apply:

- (i) For purposes of the application of the Obligation Category or the Deliverable Obligation Category, the Qualifying Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
- (ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Qualifying Guarantee and the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law. For these purposes, unless otherwise specified in the applicable Final Terms, (A) the lawful currency of any of Canada, Japan, Switzerland, the United Kingdom or the United States of America or the euro shall not be a Domestic Currency and (B) the laws of England and the laws of the State of New York shall not be a Domestic Law.
- (iii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Qualifying Guarantee must satisfy on the relevant date the Obligation Characteristic or the Deliverable Obligation Characteristic of Not Subordinated, if specified in the applicable Final Terms or if applicable in respect of the relevant Transaction Type.

- (iv) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the Deliverable Obligation Characteristics, if any, specified in the applicable Final Terms or applicable in respect of the relevant Transaction Type from the following list: Listed, Not Contingent, Not Domestic Issuance, Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer.
- (v) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (vi) The terms "Outstanding Principal Balance" and "Due and Payable Amount" (as they are used in the Terms and Conditions, including without limitation, the definitions of "Credit Event Cash Settlement Amount" and "Quotation Amount"), when used in connection with Qualifying Guarantees are to be interpreted to be the then "Outstanding Principal Balance" or "Due and Payable Amount", as applicable, of the Underlying Obligation which is supported by a Qualifying Guarantee.
- (vii) For the avoidance of doubt the provisions of this Credit Security Condition 5 apply in respect of the definitions of "Obligation" and "Deliverable Obligation" as the context admits.

6. Succession Event

(a) Single Reference Entity

Where the Credit Securities are Single Reference Entity Credit Securities and a Succession Event has occurred and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided into the same number of new Credit Securities as there are Successors with the following terms:

- (i) each Successor will be a Reference Entity for the purposes of one of the deemed new Credit Securities;
- (ii) in respect of each deemed new Credit Security, the Reference Entity Notional Amount will be the Reference Entity Notional Amount applicable to the original Reference Entity divided by the number of Successors; and
- (iii) all other terms and conditions of the original Credit Securities will be replicated in each deemed new Credit Security except to the extent that modification is required, as determined by the Calculation Agent, to preserve the economic effects of the original Credit Securities in the deemed new Credit Securities (considered in the aggregate).

(b) Nth-to-Default

Where the Credit Securities are Nth-to-Default Credit Securities:

- (i) where a Succession Event has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each such Credit Security will be deemed for all purposes to have been divided into a number of new Credit Securities equal to the number of Successors. Each such new Credit Security shall include a Successor and each and every one of the

Reference Entities unaffected by such Succession Event and the provisions of Credit Security Condition 6(b)(i) to (iii) (inclusive) shall apply thereto;

- (ii) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to the Succession Event) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a Succession Event, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (iii) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Event) would be a Successor to a Legacy Reference Entity pursuant to a Succession Event:
 - (A) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (B) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

(c) Linear Basket

Where the Credit Securities are Linear Basket Credit Securities, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Event (the "**Affected Entity**"):

- (i) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in (ii) above);
- (ii) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (iii) the Reference Entity Notional Amount for each such Successor will equal the Reference Entity Notional Amount of the Affected Entity divided by the number of Successors;
- (iv) the Calculation Agent may make any modifications to the terms of the Credit Securities which may be required to preserve the economic effects of the Credit Securities prior to the Succession Event (considered in the aggregate); and
- (v) for the avoidance of doubt, a Reference Entity may, as a result of a Succession Event, be represented in the basket with respect to multiple Reference Entity Notional Amounts for the Successor(s) of such Reference Entity.

(d) Substitute Reference Obligations

Where:

- (i) a Reference Obligation is specified in the applicable Final Terms;
- (ii) one or more Successors to the Reference Entity have been identified; and
- (iii) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined in accordance with the definition of "Substitute Reference Obligation".

7. Provisions relating to LPN Reference Entities

The following provisions shall apply if the relevant Final Terms provide that "LPN Reference Entity" is applicable:

- (a) Multiple Holder Obligation will not be applicable with respect to any Reference Obligation and any Underlying Loan;
- (b) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Security Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (d) for the avoidance of doubt, with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Financial Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation; and
- (e) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

8. Restructuring Credit Event

- (a) Multiple Credit Event Notices (Credit Notes and Certificates only)

Upon the occurrence of a Restructuring Credit Event with respect to a Reference Entity for which Restructuring is an applicable Credit Event and either "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the relevant Transaction Type:

- (i) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring Credit Event, each such notice setting forth the amount of the relevant Reference Entity Notional Amount to which such Restructuring Credit Event applies (the "**Exercise Amount**") provided that if the Credit Event Notice does not specify an Exercise Amount, the then outstanding Reference Entity Notional Amount (and not a portion thereof) will be deemed to have been specified as the Exercise Amount;
- (ii) the provisions of these Credit Security Conditions shall be deemed to apply to an aggregate outstanding principal amount or aggregate outstanding notional amount equal to the Exercise Amount only and all the provisions shall be construed accordingly;
- (iii) the Exercise Amount in connection with a Credit Event Notice describing a Credit Event other than a Restructuring must be equal to the relevant Reference Entity Notional Amount (and not a portion thereof); and
- (iv) the Exercise Amount in connection with a Credit Event Notice describing a Restructuring must be an amount that is at least 1,000,000 units of the Specified Currency (or, if Japanese

Yen, 100,000,000 units) in which the Reference Entity Notional Amount is denominated or any integral multiple thereof or the entire relevant Reference Entity Notional Amount.

In the case of an Nth-to-Default Credit Security, once the Conditions to Settlement have been satisfied in respect of the Nth Reference Entity where the Credit Event is a Restructuring Credit Event, no further Credit Event Notices may be delivered in respect of any other Reference Entity (save to the extent that the Credit Securities are deemed to have been divided into new Credit Securities pursuant to Credit Security Condition 6).

If any Credit Security is subject to partial settlement in accordance with this Credit Security Condition 8, the relevant Credit Security or, if the Credit Securities are represented by a Global Security, such Global Security shall be endorsed to reflect such partial settlement.

For the avoidance of doubt, this Credit Security Condition 8 shall not be applicable in respect of a Reference Entity for which Restructuring is an applicable Credit Event and neither "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" nor "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the relevant Transaction Type.

This Credit Security Condition 8(a) shall not apply in relation to any Credit Warrants.

(b) Restructuring Maturity Limitation and Fully Transferable Obligation

In respect of any Reference Entity for which Restructuring is an applicable Credit Event, if "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the Transaction Type, and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation or, as applicable, Valuation Obligation, may be specified in a Notice of Physical Settlement, any NOPS Amendment Notice or, as applicable, selected by the Issuer to form part of the related Valuation Obligations Portfolio only if it:

- (i) is a Fully Transferable Obligation; and
- (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date.

(c) Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable

In respect of any Reference Entity for which Restructuring is an applicable Credit Event, if "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified in the Final Terms or is applicable in respect of the applicable Transaction Type, and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation or, as applicable, Valuation Obligation, may be specified in the Notice of Physical Settlement, any NOPS Amendment Notice or, as applicable, selected by the Issuer to form part of the related Valuation Obligations Portfolio, only if it:

- (i) is a Conditionally Transferable Obligation; and
- (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

In the event that the requisite consent in relation to a Deliverable Obligation which is a Conditionally Transferable Obligation is refused (whether or not a reason is given for such refusal and, where a reason is given for such refusal, regardless of that reason) or is not received by the Physical Settlement

Date, the Issuer shall, as soon as reasonably practicable, notify the relevant Holders of such refusal (or deemed refusal) and:

- (iii) each such Holder may designate a third party (which may or may not be an Affiliate of such Holder) to take Delivery of the Deliverable Obligation on its behalf; and
- (iv) if a Holder does not designate a third party that takes Delivery on or prior to the date which is three Credit Security Business Days after the Physical Settlement Date, then the Issuer will redeem the Credit Securities which have not been Delivered by payment of the relevant Partial Cash Settlement Amount to such Holder. For the avoidance of doubt Credit Security Condition 4(b) will not apply to this paragraph.

(d) Multiple Holder Obligations

Notwithstanding anything to the contrary in the definition of "Restructuring" and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraph (a)(i) to (a)(v) (inclusive) thereof shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation, provided that any obligation that is a Bond shall be deemed to satisfy the requirements of sub-paragraph (b) of the definition of "Multiple Holder Obligation".

9. Miscellaneous Provisions relating to Credit Securities

(a) Determinations of the Calculation Agent

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Security Conditions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor (if applicable) and the Holders. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

If, where the Calculation Agent has relied upon a DC Resolution for the purposes of making a calculation or determination with respect to the Credit Securities, ISDA publicly announces that such DC Resolution has been reversed by a subsequent DC Resolution, such reversal will be taken into account for the purposes of any subsequent calculations, provided that the ISDA public announcement occurs prior to the DC Resolution Reversal Cut-off Date (or where redeemed or settled in part, to the extent of any such redemption or settlement). The Calculation Agent, acting in a commercially reasonable manner, will make any adjustment to any future payments as are required to take account of such reversal, including any payment of additional interest or any reduction in any interest or any other amount payable under the Credit Securities. For the avoidance of doubt, no accruals of interest shall be taken into account when calculating any such adjustment payment.

(b) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may (but shall not be obligated to) modify these Credit Security Conditions from time to time with effect from a date designated by the Calculation Agent to the extent reasonably necessary to ensure consistency with prevailing market standards or market trading conventions, which are, pursuant to the agreement of leading dealers in the credit derivatives market or any relevant ISDA committee, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system, applicable to any Notional Credit Derivative Transaction or Hedge Transaction entered into prior to such date or terms thereof. The Calculation Agent shall notify the Issuer and the Holders as soon as reasonably practicable upon making any such determination. For the avoidance of doubt, the Calculation Agent may not, without the consent of the Issuer and the Trustee, amend, pursuant to this Credit Security Condition 9(c) any of the terms and conditions of the Credit Securities other than the Credit Security Conditions.

In particular, the Calculation Agent may make such modifications as may be necessary to ensure consistency with any successor provisions which are published by ISDA and which supersede the 2003 ISDA Credit Derivatives Definitions and/or the 2003 ISDA Credit Derivatives Definitions as supplemented by the July 2009 Supplement ("**Successor Provisions**") for the purposes of credit derivatives transactions generally (including with respect to transactions which are entered into prior to the relevant date of publication and which are outstanding as of that date) and/or may apply and rely on determinations of the Credit Derivatives Determinations Committee made in respect of a relevant Reference Entity under any such Successor Provisions notwithstanding any discrepancy between the terms of such Successor Provisions and these Credit Security Conditions.

This Credit Security Condition 9(c) shall apply unless the related Final Terms specifies that "Change in Standard Terms and Market Conventions" is not applicable.

(c) Delivery of Notices

As soon as reasonably practicable after receiving a Credit Event Notice or Notice of Publicly Available Information from the Calculation Agent, the Issuer shall promptly inform, or shall procure that the Calculation Agent informs the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. Resolutions of the Credit Derivatives Determinations Committee are, as of the date hereof, available on ISDA's website (www.isda.org/credit).

(d) Effectiveness of Notices

Any notice referred to in Credit Security Condition 9(d) above which is delivered on or prior to 5.00 p.m. (London time) on a London Business Day is effective on such date and if delivered after such time or on a day that is not a London Business Day, is deemed effective on the next following London Business Day.

(e) Excess Amounts

If, on a Business Day, the Calculation Agent reasonably determines that an Excess Amount has been paid to Holders on or prior to such day, then following notification of the determination of an Excess Amount to the Issuer and Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable, the Issuer may deduct any such Excess Amount from future payments in relation to the Credit Securities (whether interest or principal) or may reduce the amount of any assets deliverable under the terms of the Credit Securities to the extent that it determines, acting reasonably, to be necessary to compensate for such Excess Amount.

10. Definitions

In these Credit Security Conditions:

"Accelerated or Matured" means an obligation under which the total amount owed, whether at maturity, by reason of acceleration, upon termination or otherwise (other than amounts in respect of default interest, indemnities, tax gross-ups and other similar amounts), is, or on, or prior to the Delivery Date will be, due and payable in full in accordance with the terms of such obligation, or would have been but for, and without regard to, any limitation imposed under any applicable insolvency laws.

"Accreted Amount" means, with respect to an Accreting Obligation, an amount equal to:

- (a) the sum of:

If an Accreting Obligation is expressed to accrete pursuant to a straight-line method or if such Obligation's yield to maturity is not specified in, nor implied from, the terms of such Obligation, then, for the purposes of (a)(ii) above, the Accreted Amount shall be calculated using a rate equal to the yield to maturity of such Obligation. Such yield shall be determined on a semi-annual bond equivalent basis using the original issue price of such obligation and the amount payable at the scheduled maturity of such obligation, and shall be determined as of the earlier of:

- (x) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal; and
- (y) the Delivery Date or applicable Valuation Date, as the case may be. The Accreted Amount shall exclude, in the case of a Convertible Obligation or an Exchangeable Obligation, any amount that may be payable under the terms of such obligation in respect of the value of the Equity Securities into which such obligation is convertible or exchangeable.

"Accreting Obligation" means any obligation (including, without limitation, a Convertible Obligation or an Exchangeable Obligation) the terms of which expressly provide for an amount payable upon acceleration equal to the original issue price (whether or not equal to the face amount thereof) plus an additional amount or amounts (on account of original issue discount or other accruals of interest or principal not payable on a periodic basis) that will or may accrete, whether or not:

The Terms and Conditions of the Notes are amended as follows:

- (a) The last 3 paragraphs of Condition 3.1 (Interest on Fixed Rate Notes) shall be amended as follows:

"Interest shall be calculated by applying the Rate of Interest to: (A) in the case of Fixed Rate Notes which are represented by a Global Note, the daily average of the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the daily average of the aggregate amount paid up and outstanding); or (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount (or, as applicable, the daily average of the outstanding nominal amount corresponding to the Calculation Amount), multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of Interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount (or, as applicable, for each relevant daily average of the outstanding nominal amount corresponding to such Calculation Amount) comprising the Specified Denomination without any further rounding.

"**sub-unit**" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent."

- (b) In paragraph (i) of each of Condition 3.2(c) (Determination of Rate of Interest and Calculation of Interest Amount) and Condition 3.3(c) (Determination of Rate of Interest and Calculation of Interest Amount), the reference to "the aggregate outstanding nominal amount" shall be deleted and replaced with "the daily average of the aggregate outstanding nominal amount".
- (c) In paragraph (i) of each of Condition 3.2(c) (Determination of Rate of Interest and Calculation of Interest Amount) and Condition 3.3(c) (Determination of Rate of Interest and Calculation of Interest Amount), the reference to "(or, if they are Partly Paid Notes, the aggregate amount paid up)" shall be deleted and replaced with "(or, if they are Partly Paid Notes, the daily average of the aggregate amount paid up and outstanding)".
- (d) In paragraph (ii) of each of Condition 3.2(c) (Determination of Rate of Interest and Calculation of Interest Amount) and Condition 3.3(c) (Determination of Rate of Interest and Calculation of Interest Amount), the reference to "the Calculation Amount" shall be deleted and replaced with "(or, as applicable, the daily average of the outstanding nominal amount corresponding to the Calculation Amount)".
- (e) In the last paragraph of each of Condition 3.2(c) (Determination of Rate of Interest and Calculation of Interest Amount) and Condition 3.3(c) (Determination of Rate of Interest and Calculation of Interest Amount), the reference to "each Calculation Amount" shall be deleted and replaced with "(or, as applicable, for each relevant daily average of the outstanding nominal amount corresponding to such Calculation Amount)".
- (f) In Condition 3.11 (Interest on Partly Paid Notes), the reference to "paid-up nominal amount of such Notes" shall be deleted and replaced with "the daily average of the nominal amount paid up and outstanding of such Notes".
- (g) In Condition 3.12 (Interest Payments), the second sentence thereof shall be deleted and replaced with the following:

"If such Note is redeemed early (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant Interest Payment Date has not occurred on or prior to the due date for redemption of such Note (or if the applicable Final Terms specify that Accrual to Preceding IPED is applicable, interest will cease to accrue from and including the Interest Period End Date immediately preceding (A) the date on which notice is given for the early redemption of such Note or (B) if there is no such notice, the due date for early redemption of such Note)."

- (h) Condition 5.1 (Final Redemption) shall be amended by adding the following immediately before the end thereof:

"Notwithstanding the above, unless previously redeemed or purchased and cancelled as provided below, each Credit Security will be redeemed in accordance with the Credit Security Conditions and the applicable Final Terms."

11.2 Amendments to W&C Security Conditions

The Terms and Conditions of the W&C Securities are amended as follows:

- (a) The definition of "Cash Settlement Amount" in Condition 20 (Definitions (Warrants)) shall be amended by adding immediately after the words "the Final Payout specified in the applicable Final Terms", the following:

"(or, in relation to Credit Securities, the amount specified in the applicable Final Terms)".

- (b) Condition 24.4 (General) shall be amended by adding the following immediately before the end thereof:

"Exercise and settlement of each Credit Warrant shall be subject to the Credit Security Conditions and the applicable Final Terms."

- (c) The definition of "Cash Settlement Amount" in Condition 28 (Definitions) shall be amended by adding immediately after the words "the Final Payout specified in the applicable Final Terms" in the first paragraph thereof, the following:

"(or, in relation to Credit Securities, the amount specified in the applicable Final Terms)".

- (d) The penultimate paragraph of Condition 32(a) (Interest on Fixed Rate Certificates) shall be amended as follows:

"Interest shall be calculated by applying the Rate of Interest to the average daily outstanding Notional Amount of each Certificate and if a Day Count Fraction is specified in the applicable Final Terms multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention."

- (e) The last paragraph of each of Condition 32(b)(iv) (Determination of Rate of Interest and Calculation of Interest Amount) and Condition 32(c)(iii) (Determination of Rate of Interest and Calculation of Interest Amount) shall be amended by deleting and replacing the reference to "the Notional Amount of such Certificate" with the following:

"the average daily outstanding Notional Amount of such Certificate".

- (f) In Condition 32(g) (Interest on Partly Paid Certificates), the reference to "paid-up amount of such Certificates" shall be deleted and replaced with the following:

" paid-up average daily outstanding amount of such Certificates".

- (g) In Condition 32(h) (Accrual of Interest), the second sentence thereof shall be deleted and replaced with the following:

"If such Certificate is redeemed early, (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant payment date has not occurred on or prior to the due date for redemption of such Certificate (or if the applicable Final Terms specify that Accrual to Preceding IPED is applicable, interest will cease to accrue from and including the Interest Period End Date immediately preceding (A) the date on which notice is given for the early redemption of such Certificate or (B) if there is no such notice, the due date

for early redemption of such Certificate), unless in either case payment of principal and/or delivery of all assets deliverable is improperly withheld or refused."

ANNEX A TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

AUCTION SETTLEMENT TERMS ANNEX

If an Event Determination Date occurs with respect to the Credit Securities and Auction Settlement applies, the Auction Settlement Amount with respect to the Credit Securities will be calculated based on the Auction Final Price for the Reference Entity (if any). This Annex contains a summary of certain provisions of the Form of Credit Derivatives Auction Settlement Terms set forth at Annex B to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions, published by the International Swaps and Derivatives Association, Inc. ("**ISDA**") on 12 March 2009 (the "**Form of Auction Settlement Terms**") and is qualified by reference to the detailed provisions thereof and is subject to amendment from time to time of the Rules, including any amendment following the 2009 ISDA Credit Derivatives Determinations Committees, Auction Settlement and Restructuring Supplement dated 14 July 2009, as published by ISDA (the "**July 2009 Supplement**"). The July 2009 Supplement extended the auction hardwiring process to Restructuring credit events. Following certain Restructuring credit events, more than one auction may be held and there may be more than one Auction Final Price and credit default swaps are grouped into buckets by maturity and depending on which party triggers the credit default swap. Deliverable obligations will be identified for each bucket (any deliverable obligations included in a shorter bucket will also be deliverable for all longer buckets). If the Credit Derivatives Determinations Committee determines to hold an auction for a particular bucket, then that auction will be held according to the existing auction methodology that has previously been used for Bankruptcy and Failure to Pay credit events as described in the summary below, except that the deliverable obligations will be limited to those falling within the relevant maturity bucket.

The following does not purport to be a complete summary and prospective investors must refer to the Form of Auction Settlement Terms for detailed information regarding the auction methodology set forth therein (the "**Auction Methodology**"). The Auction and the Auction Methodology apply to credit default swaps on the Reference Entity and do not apply specifically to the Credit Securities. A copy of the Form of Auction Settlement Terms may be inspected at the offices of the Issuer and is also currently available at www.isda.org (or any successor website thereto).

Holders should also be aware that this summary of the Form of the Auction Settlement Terms is accurate only as of the date hereof and the Form of Auction Settlement Terms may be amended from time to time without consultation with Holders. At any time after the date of this annex, the latest Form of the Auction Settlement Terms will be available on the ISDA website at www.isda.org (or any successor website thereto). Further, notwithstanding the fact that the form of Auction Settlement Terms (as may be amended from time to time) appears on the ISDA website, Holders should note that the Credit Derivatives Determinations Committees have the power to amend the form of Credit Derivatives Auction Settlement Terms for a particular auction and that this summary may therefore not be accurate in all cases.

Capitalized terms used but not defined in this summary have the meaning specified in the Rules and the Form of Auction Settlement Terms. All times of day in this summary refer to such times in London.

Publication of Credit Derivatives Auction Settlement Terms

Pursuant to the Credit Derivatives Determinations Committees Rules set forth in Annex A to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on March 12, 2009) (the "**Rules**"), a Credit Derivatives Determinations Committee may determine that a Credit Event has occurred in respect of a Reference Entity (such entity, an "**Affected Reference Entity**") and that one or more auctions will be held in order to settle affected transactions referencing such Affected Reference Entity based upon an Auction Final Price determined in accordance with an auction procedure as set forth in the Form of Auction Settlement Terms (each, an "**Auction**"). If an Auction

is to be held, the Credit Derivatives Determinations Committee will publish Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity, based upon the Form of Auction Settlement Terms. In doing so, the Credit Derivatives Determinations Committee will make several related determinations, including the date on which the Auction will be held (the "**Auction Date**"), the institutions that will act as participating bidders in the Auction (the "**Participating Bidders**") and the supplemental terms that are detailed in Schedule 1 to the Form of Auction Settlement Terms. The Credit Derivatives Determinations Committee may also amend the Form of Auction Settlement Terms for a particular auction and may determine that a public comment period is necessary in order to effect such an amendment if such amendment is not contemplated by the Rules.

Auction Methodology

Determining the Auction Currency Rate

On the Auction Currency Fixing Date, the Administrators will determine the rate of conversion (each, an "**Auction Currency Rate**") as between the Relevant Currency and the currency of denomination of each Deliverable Obligation (each, a "**Relevant Pairing**") by reference to a Currency Rate Source or, if such Currency Rate Source is unavailable, by seeking mid-market rates of conversion from Participating Bidders (determined by each such Participating Bidder in a commercially reasonable manner) for each such Relevant Pairing. If rates of conversion are sought from Participating Bidders and more than three such rates are obtained by the Administrators, the Auction Currency Rate will be the arithmetic mean of such rates, without regard to the rates having the highest and lowest values. If exactly three rates are obtained, the Auction Currency Rate will be the rate remaining after disregarding the rates having the highest and lowest values. For this purpose, if more than one rate has the same highest or lowest value, then one of such rates shall be disregarded. If fewer than three rates are obtained, it will be deemed that the Auction Currency Rate cannot be determined for such Relevant Pairing.

Initial Bidding Period

During the Initial Bidding Period, Participating Bidders will submit to the Administrators: (a) Initial Market Bids; (b) Initial Market Offers; (c) Dealer Physical Settlement Requests; and (d) Customer Physical Settlement Requests (to the extent received from customers).

Initial Market Bids and Initial Market Offers are firm quotations, expressed as percentages, to enter into credit derivative transactions in respect of the Affected Reference Entity on terms equivalent to the Representative Auction-Settled Transaction.

The Initial Market Bid and Initial Market Offer submitted by each Participating Bidder must differ by no more than the designated Maximum Initial Market Bid-Offer Spread and must be an integral multiple of the Relevant Pricing Increment (each as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity). The Initial Market Bid must be less than the Initial Market Offer.

Dealer Physical Settlement Requests and Customer Physical Settlement Requests are firm commitments, submitted by a Participating Bidder, on its own behalf or on behalf of a customer, as applicable, to enter into a Representative Auction-Settled Transaction, in each case, as seller (in which case, such commitment will be a "**Physical Settlement Buy Request**") or as buyer (in which case, such commitment will be a "**Physical Settlement Sell Request**"). Each Dealer Physical Settlement Request must be, to the best of such Participating Bidder's knowledge and belief, in the same direction as, and not in excess of, its Market Position. Each Customer Physical Settlement Request must be, to the best of the relevant customer's knowledge and belief (aggregated with all Customer Physical Settlement Requests submitted by such customer), in the same direction as, and not in excess of, its Market Position.

If the Administrators do not receive valid Initial Market Bids and Initial Market Offers from at least a minimum number of Participating Bidders (as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity), the timeline will be adjusted and the Initial Bidding Period extended, with the Auction recommencing at such time(s) specified by the Administrators, otherwise it will proceed as follows.

Determination of Open Interest, Initial Market Midpoint and Adjustment Amounts

The Administrators will calculate the Open Interest, the Initial Market Midpoint and any Adjustment Amounts in respect of the Auction.

The Open Interest is the difference between all Physical Settlement Sell Requests and all Physical Settlement Buy Requests.

To determine the Initial Market Midpoint, the Administrators will: (a) sort the Initial Market Bids in descending order and the Initial Market Offers in ascending order, identifying non-tradeable markets for which bids are lower than offers; (b) sort non-tradeable markets in terms of tightness of spread between Initial Market Bid and Initial Market Offer; and (c) identify that half of the non-tradeable markets with the tightest spreads. The Initial Market Midpoint is determined as the arithmetic mean of the Initial Market Bids and Initial Market Offers contained in the half of non-tradeable markets with the tightest spreads.

Any Participating Bidder whose Initial Market Bid or Initial Market Offer forms part of a tradeable market will be required to make a payment to ISDA on the third Business Day after the Auction Final Price Determination Date (an "**Adjustment Amount**"), calculated in accordance with the Auction Methodology. Any payments of Adjustment Amounts shall be used by ISDA to defray any costs related to any auction that ISDA has coordinated, or that ISDA will in the future coordinate, for purposes of settlement of credit derivative transactions.

If for any reason no single Initial Market Midpoint can be determined, the procedure set out above may be repeated.

At or prior to the Initial Bidding Information Publication Time on any day on which the Initial Bidding Period has successfully concluded, the Administrators publish the Open Interest, the Initial Market Midpoint and the details of any Adjustment Amounts in respect of the Auction.

If the Open Interest is zero, the Auction Final Price will be the Initial Market Midpoint.

Submission of Limit Order Submissions

In the event that the Open Interest does not equal zero, a subsequent bidding period will be commenced during the Initial Bidding Period which: (a) if the Open Interest is an offer to sell Deliverable Obligations, Participating Bidders submit Limit Bids; or (b) if the Open Interest is a bid to purchase Deliverable Obligations, Limit Offers, in each case, on behalf of customers and for their own account.

Matching bids and offers

If the Open Interest is a bid to purchase Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Offers and Limit Offers, as further described in the Auction Methodology. If the Open Interest is an offer to sell Deliverable Obligations, the Administrators will match the Open Interest against all Initial Market Bids and Limit Bids, as further described in the Auction Methodology.

(a) **Auction Final Price when the Open Interest is Filled**

The Auction Final Price will be the price associated with the matched Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, that is the highest offer or the lowest bid, as applicable, provided that: (a) if the Open Interest is an offer to sell and the price associated with the lowest matched bid exceeds the Initial Market Midpoint by more than the "Cap Amount" (being the percentage that is equal to one half of the Maximum Initial Market Bid-Offer Spread (rounded to the nearest Relevant Pricing Increment)), then the Auction Final Price will be the Initial Market Midpoint plus the Cap Amount; and (b) if the Open Interest is a bid to purchase and the Initial Market Midpoint exceeds the price associated with the highest offer by more than the Cap Amount, then the Auction Final Price will be the Initial Market Midpoint minus the Cap Amount.

(b) **Auction Final Price when the Open Interest is Not Filled**

If, once all the Initial Market Bids and Limit Bids or Initial Market Offers and Limit Offers, as applicable, have been matched to the Open Interest, part of the Open Interest remains, the Auction Final Price will be: (a) if the Open Interest is a bid to purchase Deliverable Obligations, the greater of (i) zero, and (ii) the highest Limit Offer or Initial Market Offer received; or (b) if the Open Interest is an offer to sell Deliverable Obligations, zero.

100 per cent. Cap to Auction Final Price

In all cases, if the Auction Final Price determined pursuant to the Auction Methodology is greater than 100 per cent., then the Auction Final Price will be deemed to be 100 per cent.

Publication of Auction Final Price

At or prior to the Subsequent Bidding Information Publication Time on any day on which the subsequent bidding period has successfully concluded, the Administrators will publish on their websites: (a) the Auction Final Price; (b) the names of the Participating Bidders who submitted bids, offers, valid Dealer Physical Settlement Requests and valid Customer Physical Settlement Requests, together with the details of all such bids and offers submitted by each; and (c) the details and size of all matched trades.

Execution of Trades Formed in the Auction

Each Participating Bidder whose Limit Bid or Initial Market Bid (or Limit Offer or Initial Market Offer if applicable) is matched against the Open Interest, and each Participating Bidder that submitted a Customer Physical Settlement Request or Dealer Physical Settlement Request, is deemed to have entered into a Representative Auction-Settled Transaction, and each customer that submitted such a Limit Bid, Limit Offer, or Physical Settlement Request is deemed to have entered into a Representative Auction-Settled Transaction with the dealer through whom the customer submitted such bid or offer. Accordingly, each such Participating Bidder or customer that is a seller of Deliverable Obligations pursuant to a trade formed in the auction must deliver to the buyer to whom such Participating Bidder or customer has been matched a Notice of Physical Settlement indicating the Deliverable Obligations that it will deliver, and such Deliverable Obligations will be sold to the buyer in exchange for payment of the Auction Final Price.

Timing of Auction Settlement Provisions

If an Auction is held in respect of an Affected Reference Entity, it is expected that the relevant Auction Date will occur on the third Business Day immediately prior to the 30th calendar day after which the relevant Credit Derivatives Determinations Committee received the request from an eligible market participant (endorsed by a

member of the relevant Credit Derivatives Determinations Committee) to resolve whether a Credit Event has occurred with respect to such Reference Entity.

In respect of an Affected Reference Entity for which an Auction is held, the Auction Settlement Date will occur on a Business Day following the Auction Final Price Determination Date, as determined by the Credit Derivatives Determinations Committee and specified in the Credit Derivatives Auction Settlement Terms in respect of the relevant Affected Reference Entity.

ANNEX B TO THE ADDITIONAL TERMS AND CONDITIONS FOR CREDIT SECURITIES

CREDIT DERIVATIVES DETERMINATIONS COMMITTEES

In making certain determinations with respect to the Credit Securities, the Calculation Agent may but is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committees. This Annex sets forth a summary of the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) as of 16 September 2014 (the "**Rules**") and is subject to the rules as published by ISDA from time to time and as amended from time to time. This summary is not intended to be exhaustive and prospective investors should also read the Rules and reach their own views prior to making any investment decisions. A copy of the Rules published by ISDA is available at: www.isda.org (or any successor website thereto).

Capitalised terms used but not defined in this summary have the meaning specified in the applicable Final Terms or the Rules, as applicable.

Establishment of the Credit Derivatives Determinations Committees

In accordance with the Rules, a Credit Derivatives Determinations Committee has been formed for each of the regions of (a) the Americas, (b) Asia Ex-Japan, (c) Australia-New Zealand, (d) Europe, Middle East and Africa and (e) Japan. As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. See "Risk Factors – Conflicts of Interest – Credit Derivatives Determinations Committees" for additional information regarding conflicts of interest. The Credit Derivatives Determinations Committees will act in accordance with the Rules and will make determinations that are relevant for Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**") or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the March 2009 Supplement or the 2003 ISDA Credit Derivatives Definitions, as supplemented by the July 2009 Supplement (the "**Updated 2003 Definitions**"). ISDA will serve as the secretary of each Credit Derivatives Determinations Committee and will perform administrative duties and make certain determinations as provided for under the Rules.

Decision-making Process of the Credit Derivatives Determinations Committees

Each DC Resolution by a Credit Derivatives Determinations Committee will apply to Credit Derivative Transactions that incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions (depending on the applicable "Coverage Election" and subsequent determinations of the Credit Derivatives Determinations Committee) and for which the relevant provisions are not materially inconsistent with the provisions with respect to which the Credit Derivatives Determinations Committee bases its determination. As a result, determinations by the Credit Derivatives Determinations Committees are not applicable to the Holders, unless specified otherwise in the terms of the Credit Securities. The Credit Derivatives Determinations Committees shall have no ability to amend the terms of the Credit Securities. Furthermore, the institutions on the Credit Derivatives Determinations Committees owe no duty to the Holders. See "Risk Factors - Rights Associated with Credit Derivatives Determinations Committees" for further information. The terms of the Credit Securities provide that the Holders will be subject to certain determinations by the Credit Derivatives Determinations Committees. The Credit Derivatives Determinations Committees will be able to make determinations without action or knowledge by the Holders.

A Credit Derivatives Determinations Committee will be convened upon referral of (i) a question to ISDA by an identified eligible market participant and the agreement of at least one of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (ii) a question to ISDA by an unidentified eligible market participant and the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question, or (iii) a question to ISDA by an eligible market participant which is an Eligible CCP (being an eligible clearing entity) and such question is not designated as a "General Interest

Question" and relates to an eligible cleared Reference Entity with respect to such Eligible CCP and to certain specified matters such as a Credit Event, Potential Repudiation/Moratorium and/or Successor. ISDA will convene the Credit Derivatives Determinations Committee for the region to which the referred question relates, as determined in accordance with the Rules. Any party to a transaction that incorporates, or is deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions may refer a question to ISDA for a Credit Derivatives Determinations Committee to consider. Therefore, a binding determination may be made with respect to the Credit Securities without any action by the Holders. Holders (in their capacity as holders of the Credit Securities) will not be able to refer questions to the Credit Derivatives Determinations Committees.

Once a question is referred to a Credit Derivatives Determinations Committee, a DC Resolution may result quickly, as a binding vote usually must occur within two business days of the first meeting held with respect to such question unless the timeframe is extended by agreement of at least 80% of the voting members participating in a vote held in accordance with the Rules. In addition, voting members of the Credit Derivatives Determinations Committees are required to participate in each binding vote, subject only to limited abstention rights. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions, meeting statements and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in the Final Terms). Holders shall therefore be responsible for obtaining such information. See "Risk Factors – Rights Associated with Credit Derivatives Determinations Committees".

The Credit Derivatives Determinations Committees have the ability to make determinations that may materially affect the Holders. The Credit Derivatives Determinations Committees will be able to make a broad range of determinations in accordance with the Rules that may be relevant to the Credit Securities and materially affect the Holders. For each of the general types of questions discussed below, the Credit Derivatives Determinations Committees may determine component questions that arise under the 2014 Definitions or the Updated 2003 Definitions, or the Rules and that are related to the initial question referred. Since the terms governing the credit-linked elements of the Credit Securities are substantially similar to the 2014 Definitions or, as the case may be, the Updated 2003 Definitions, such determinations may affect the Holders, as further described below.

Credit Events

The Credit Derivatives Determinations Committees will be able to determine whether a Credit Event has occurred and, if applicable, the date of such Credit Event. Related questions that are also within the scope of the Credit Derivatives Determinations Committees are whether a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred. In addition, the Credit Derivatives Determinations Committees will also determine, where necessary, whether the required Publicly Available Information has been provided. Each of these determinations, other than whether the required Publicly Available Information has been provided, requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The determination of whether the required Publicly Available Information has been provided requires the agreement of at least a majority of the voting members participating in a binding vote held in accordance with the Rules and is not eligible for external review. Each of these determinations may affect whether an Event Determination Date will occur under the Credit Securities. If the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred with respect to one of the Reference Entity(ies) on or after the Credit Event Backstop Date, then an Event Determination Date is deemed to have occurred in respect of the Credit Securities.

Successors

The Credit Derivatives Determinations Committees will be able to determine whether there are any Successor or Successors to a Reference Entity and the relevant Succession Date. In addition, the Credit Derivatives Determinations Committees will also determine the identity of the Successor(s) in accordance with the Rules. For a Reference Entity

that is not a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments required to be made if there is a Steps Plan), the proportion of the Relevant Obligation(s) to which each purported Successor succeeds and the Succession Date. For a Reference Entity that is a Sovereign, the Credit Derivatives Determinations Committees will determine the Relevant Obligation(s) of the Reference Entity (including any adjustments to be made if there is a Steps Plan), whether a Sovereign Succession Event has occurred, if so the proportion of the Relevant Obligation(s) to which each purported Successor succeeds, and the Succession Date. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below, except for the actual identification of the Successor(s) for a Reference Entity (which only requires a majority and is not eligible for external review). The Calculation Agent may use the relevant DC Resolutions of the Credit Derivatives Determinations Committees in order to determine Successor(s) to the Reference Entity(ies).

Other Questions

The Credit Derivatives Determinations Committees will be able to determine whether circumstances have occurred that require a Substitute Reference Obligation to be identified and, if so, the appropriate Substitute Reference Obligation. In addition, the Credit Derivatives Determinations Committees will be able to determine whether an entity that acts as seller of protection under one or more transactions (such entity, the "**Relevant Seller**") or a Reference Entity has consolidated or amalgamated with, or merged into, or transferred all or substantially all its assets to, the Reference Entity or the Relevant Seller, as applicable, or that the Relevant Seller and the Affected Reference Entity have become Affiliates. Each of these determinations requires the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules in order to avoid the referral of the question to the external review process, as described further below. The Calculation Agent may follow such DC Resolutions in making the equivalent determinations with respect to the Credit Securities.

The Credit Derivatives Determinations Committees will be able to determine other referred questions that are relevant to the credit derivatives market as a whole and are not merely a matter of bilateral dispute. Such questions require the agreement of at least 80% of the voting members participating in a binding vote held in accordance with the Rules for each Credit Derivatives Determinations Committee implicated by the relevant question, as determined in accordance with the Rules, in order to avoid the possible referral of the question to the external review process, as described further below. Furthermore, the question relating to such DC Resolution may also be referred to the external review process if at least a majority of the voting members participating in a binding vote held in accordance with the Rules agree. Any guidance given by the Credit Derivatives Determinations Committees with respect to questions of interpretation of the 2014 Definitions or, as the case may be, the Updated 2003 Definitions are likely to influence the Calculation Agent in interpreting equivalent provisions under the Notes.

Any such question can be submitted to the Credit Derivatives Determinations Committees by an unidentified eligible market participant for deliberation. The relevant Credit Derivatives Determinations Committee(s) will deliberate such question upon the agreement of at least two of the voting members of the relevant Credit Derivatives Determinations Committee to deliberate the question. Once the deliberations on such question have commenced, the relevant Credit Derivatives Determinations Committee will proceed in accordance with the procedures described above with respect to the relevant question category, except that the identity of the eligible market participant who submitted the question will not be revealed to the members of the Credit Derivatives Determinations Committees or the general public.

External Review

As described immediately above, certain questions deliberated by the Credit Derivatives Determinations Committees are subject to an external review process if the required threshold is not met during the binding vote held with respect to such question. For such questions, if at least 80% of the voting members participating in a binding vote held in accordance with the Rules fail to agree, the question will be automatically referred to the external review process.

Questions that are not eligible for external review often require only a simple majority of participating voting members to agree in order to reach a DC Resolution.

Questions referred to external review will be considered by a panel of three independent individuals who will be selected by either the relevant Credit Derivatives Determinations Committee or by ISDA at random. The default duration of the external review process (which can be modified by the relevant Credit Derivatives Determinations Committee in accordance with the Rules) is twelve business days from the referral of the question and contemplates the receipt of both written submissions and oral argument. Any member of ISDA may provide written submissions to the external reviewers, which will be made available to the public on the ISDA website, and the conclusion reached in accordance with the external review process will be binding on the Holders. In instances where the vote of the relevant Credit Derivatives Determinations Committee was less than or equal to 60%, the decision of a majority of the external reviewers will be determinative. However, in instances where the vote of the relevant Credit Derivatives Determinations Committee was between 60% and 80%, all three external reviewers must agree in order to overturn the vote of the Credit Derivatives Determinations Committee.

Holders should be aware that the external reviewers may not consider new information that was not available to the relevant Credit Derivatives Determinations Committee at or prior to the time of the binding vote and questions may be returned to the Credit Derivatives Determinations Committee for another vote if new information becomes available. In addition, if the external reviewers fail to arrive at a decision for any reason, the entire process will be repeated. As a result, the external review process may be elongated in certain situations, leaving questions that may materially affect the Holders unresolved for a period of time.

The Composition of the Credit Derivatives Determinations Committees

Each Credit Derivatives Determinations Committee is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. For the first composition of the Credit Derivatives Determinations Committees only, an additional non-voting dealer institution has been selected to serve across all regions.

Holders will have no role in the composition of the Credit Derivatives Determinations Committees. Separate criteria applies with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committees and the Holders will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committees will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Holders will have no control over the process for selecting institutions to participate on the Credit Derivatives Determinations Committees and, to the extent provided for in the Credit Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees

As of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees. In such capacity, it may take certain actions that may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees, including (without limitation): (a) agreeing to deliberate a question referred to ISDA, (b) voting on the resolution of any question being deliberated by a Credit Derivatives Determinations Committee and (c) advocating a certain position during the external review process. In addition, as a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, the Calculation Agent may refer a question to ISDA for a Credit Derivatives Determinations Committee to deliberate. In deciding whether to take any such action, the Calculation Agent (or its Affiliate) shall be

under no obligation to consider the interests of any Holder. See "Potential conflicts of interest of the Calculation Agent" below for additional information.

Potential Conflicts of interest of the Calculation Agent

Since, as of the date hereof, the Calculation Agent (or one of its Affiliates) is a voting member on each of the Credit Derivatives Determinations Committees and is a party to transactions which incorporate, or are deemed to incorporate, the 2014 Definitions or the Updated 2003 Definitions, it may take certain actions which may influence the process and outcome of decisions of the Credit Derivatives Determinations Committees. See "Ability of the Calculation Agent or its Affiliates to influence the Credit Derivatives Determinations Committees" above for additional information. Such action may be adverse to the interests of the Holders and may result in an economic benefit accruing to the Calculation Agent. In taking any action relating to the Credit Derivatives Determinations Committees or performing any duty under the Rules, the Calculation Agent shall have no obligation to consider the interests of the Holders and may ignore any conflict of interest arising due to its responsibilities under the Credit Securities.

Holders will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committees or the external reviewers. Institutions serving on the Credit Derivatives Determinations Committees and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committees do not owe any duty to the Holders and the Holders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Holders should also be aware that institutions serving on the Credit Derivatives Determinations Committees have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committees are not obligated to follow previous determinations and, therefore, could reach a conflicting determination for a similar set of facts.

Holders shall be responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committees. Notices of questions referred to the Credit Derivatives Determinations Committees, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in the applicable Final Terms). Failure by the Holders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the applicable Final Terms and Holders are solely responsible for obtaining any such information.

Amendments to the Rules

The Rules may be amended from time to time without the consent or input of the Holders and the powers of the Credit Derivatives Determinations Committees may be expanded or modified as a result.

Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Unless otherwise expressly stated, the Calculation Agent is not bound to follow or act in accordance with any determination of the relevant Credit Derivatives Determinations Committee. If the Calculation Agent chooses to rely on the determinations of the relevant Credit Derivatives Determinations Committee it may do so without liability. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Securities including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer or the Guarantor (if applicable) shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.
