FOR THE FIRST HALF OF FISCAL 2010**

**Société Générale Effekten GmbH  
Frankfurt am Main, Germany**

**Notes to the financial statements  
for the first half of fiscal 2010**  
Interim financial statements at 30 June 2010

**Comments on the interim financial statements at 30 June 2010 and other disclosures**

The interim financial statements of Société Générale Effekten GmbH at 30 June 2010 were prepared in accordance with the provisions of German commercial law governing the financial reporting of limited liability companies.

The present interim financial statements have not been audited or reviewed by an independent auditor.

**1. Accounting and valuation principles**

Receivables are stated at their nominal value plus accrued interest. Non-hedged liabilities are stated at their amounts repayable.

Provisions are recognized in an appropriate amount for liabilities with cause but of uncertain amount as of the balance sheet date.

Provisions for pensions are disclosed at the maximum amounts permitted for tax purposes. The net present value was determined on the basis of actuarial principles in accordance with Section 6a of the German Income Tax Act (Einkommensteuergesetz – EstG). It is based on an interest rate of 6% and the 2005 G mortality tables.

Option premiums are recognized as other assets or other liabilities until they are exercised or expire. Upon exercise or expiry, the premiums are recognized in the income statement.

Certificates issued are disclosed as liabilities from certificates issued until their maturity. Certificates issued are secured by offsetting hedging transactions which are disclosed as receivables from affiliates in the balance sheet.

Liabilities from certificates issued and warrants as well as the hedging transactions disclosed under receivables and other assets are grouped into valuation units and recognized at acquisition cost or at the amount of the issue proceeds. As a result of the qualification as a valuation unit, valuation in accordance with Section 252 (2) of the German Commercial Code (Handelsegesetzbuch – HGB) has not been performed.

The warrants and certificates issued as of the balance sheet date were fully hedged against changes in market prices by contracts concluded with the shareholder.

## 2. Notes to the balance sheet

**Receivables from affiliates** of EUR 37,592,391 thousand are due from the shareholder.

**Other assets** include the OTC options acquired from the shareholder to hedge the warrants issued.

**Other provisions** result mainly from provisions for issue costs and for audit and consulting fees.

**Trust assets** are funds forwarded to the shareholder arising from several certificates issued on behalf of the shareholder.

**Trust liabilities** relate to the issue of certificates in the Company's own name and on account of a third party.

## 3. Notes to the income statement

**4. MANAGEMENT REPORT  
FOR THE FIRST HALF OF FISCAL 2010**

**Société Générale Effekten GmbH  
Frankfurt am Main, Germany**

**Management report  
for the first half of fiscal 2010**

Société Générale Effekten GmbH issues warrants and certificates which are sold in full to its parent company, Société Générale S.A., Paris, France, to Société Générale Option Europe S.A., Paris, France, and to INORA Life Limited, Dublin, Ireland.

All issues are placed by Société Générale S.A., Paris, France.

A total of 1,857 warrants were issued in the first half of fiscal 2010. In addition to 145 options on equities, 512 options were issued on various indices, 10 on futures, 1,153 on commodities, and 37 on foreign exchange.

In addition, 4,040 certificates were issued, mostly bonus and discount certificates as well as reverse convertible bonds.

The Company generated net income of EUR 30 thousand in the first half of fiscal 2010.

The Company's risk situation is governed by its lean business structure and its close affiliation with the Société Générale Group.

All market price risks from warrants and certificates issued by the Company are hedged in full by contracts concluded with Société Générale S.A., Paris, France. As a result, there are no price risks. There are no settlement risks either, as payments from the sale of the securities issued and from hedges purchased and from their exercise are always netted. All receivables are due from the parent company Société Générale S.A., Paris, France, and its subsidiaries. Therefore, the Company is not subject to any independent business risk. The credit rating of Société Générale S.A., Paris, France, and its subsidiaries is the most important factor for assessing risk.

The Company's issuing activities in the second half of fiscal 2010 will depend on the short-term development of the financial markets.

Taking into account its strict risk management policy, the Company expects to generate a profit in the second half of fiscal 2010 as well.
